Our New Silver Filled Spoons, Forks and Fancy Flatware

HEAVY WEIGHT.

MADE BY THE NEWEST AND BEST METHOD KNOWN. THE PROBLEM OF PRODUCING A HIGHER GRADE OF SILVER PLATED WARE THAN HAS HEREFORE BEEN MADE IS NOW SOLVED BY US. THE ANGELICA FRENCH GRAY FINISH PATTERN select in preference to all others, if you are looking for a fancy up to date French gray design. It is made exclusively for us, and is one of the most exclusive and most attractive patterns ever produced, an exact copy of solid silver; we can supply it in all pieces, including the fancy pieces.

The shape of the bowls in Berry Spoons, Ladles and Sugar Shells, also the tines of the Cold Meat and Pickle Forks, blades in the Jelly Server, Butter, Child's and Pie Knives vary somewhat according to pattern, all being in keeping with the design.

SILVER FILLED SILVERWARE

is better than any other silverware because the inner blank, or composition metal, is the highest grade and the nearest approach to solid silver yet discovered.

MOST IMPORTANT OF ALL,

you are securing for your money more intrinsic value than is offered by any other line or make. WE GUARANTEE TRIPLE QUALITY TO GIVE YOU FIFTEEN YEARS OF ACTUAL SERVICE.

In ordering be sure to state pattern desired.

We charge for engraving 2½ cents a letter for Script and 5 cents a letter for Old English. We cannot exchange goods after they have been engraved.

IN ORDERING BE SURE TO STATE PATTERN DESIRED.

$3.98 For This 28-PIECE GENUINE ALASKA SILVER-LIKE METAL INITIAL TABLEWARE SET.

[illegible] PRICE.

This illustration represents the exact size of the initial. You can have any initial you desire.

GUARANTEED FOR LIFE.

$3.98

[illegible] full size dinner forks, six full size dinner knives, six full size tablespoons, six full size teaspoons, butter knife, one sugar shell, one salt and one pepper shaker, twenty-eight pieces, in a fine case as [illegible], all complete.

The engraving is free. Each piece comes engraved, according to the initial you desire, except the [illegible]. The knives we cannot engrave. State plainly in your order the exact letter, write it plainly and [illegible] so that no mistake can be made. To have a set of silverware engraved with a beautiful large [illegible] alone would cost you $2.00 to $3.00. We will give splendid work. The letter is most exquisite, it [illegible] you and costs you nothing.

The case costs you nothing, provided you purchase the entire set, twenty-eight pieces in all. Should [illegible] any of the pieces separately please order by number as quoted in the table below. We do not [illegible] than six at any one time. The case that we send absolutely free of charge if you buy this set is [illegible], and so built that the pieces can be set in racks.

Alaska metal looks like silver. Instead, however, it is a composition metal made especially for us. [illegible] purpose of Alaska composition metal is to imitate solid silver at a fraction of the cost of solid silver. Alaska metal is the nearest approach to solid silver yet discovered and equals it for wearing qual- [illegible] and appearance. It is difficult for experts to see the difference between solid silver and this [illegible] composition metal. Our set at $3.98 made in sterling silver would cost no less than $60.00 to [illegible].

The knives are better than solid silver. You can scour them with a brick. They are not affected by [illegible] to the extent that silverware is or any of the wear and tear that solid silver and silver plated knives [illegible] to, and they will take a good cutting edge. You can sharpen them as frequently as you like [illegible] injure them. They will not break by dropping them on the floor as steel knives will, nor are [illegible] nor will they bend out of shape as solid silver knives will. They will not rust.

Our Alaska metal composition tableware is not plated tableware, but the genuine article. The same [illegible] through and through, but like solid silver, must not be left for any length of time, twelve hours or [illegible] in vinegar or in foods that contain acid or salt, such as butter, etc.

[illegible] understand, they are highly efficient, the same as solid silver, but must not be left over night in any [illegible], fats or grease.

$9.97 Buys a Regular $14.00 26-Piece Silver Filled Paragon Brand Tableware Set.

No. 5H2092 Twenty-Six Piece Tableware Set, Paragon Brand, extra silver filled, consisting of six teaspoons, six tablespoons, six hollow handle knives, six forks, sugar shell and butter knife, all made to match in new design, called the Chalon. See illustration to the right. Finished in French gray. The case is hardwood, cloth lined and so arranged as to hold each piece separately, insuring the silverware from marring. Complete in hardwood case. Shipping weight, 10 pounds. Price, per set... **$9.97**

$5.68 For This Silver Plated 28-Piece Dinner Set.

Reduced From $5.95.

Made under the latest improved process. French gray finish in the Pansy pattern. Illustration above gives you an idea of its artistic beauty. The latest improved process of silver plating is a process that increases the wearing quality of silver plated tableware by depositing more silver on the parts that receive the greatest amount of wear, such as the under side of the bowl, the lip end of the spoon top, under side of the handle, etc.

Set consists of twenty-eight pieces, six 12-pennyweight knives, six teaspoons, six tablespoons, six forks, one sugar shell and one butter knife, one silver plated salt shaker and one pepper shaker.

FREE. With this twenty-eight piece set we send a fine cloth lined imitation leather presentation case, for which we absolutely make no charge.

The pattern is new and very popular; the die work is exceptionally fine, every leaf, every flower brought out in the minutest detail. The handles are finished in French gray.

No. 5H2210 Twenty-Eight Piece Complete Dinner Set, Pansy pattern, triple silver plated. Shipping weight, 7 pounds. Price..... **7.58**

$3.74 For This 26-Piece Tableware Set.

Guaranteed for Five Years.

$3.74 is a price unheard of before for a five-year guaranteed set of silverware. It consists of six plain handle knives, six dinner forks, six tablespoons, six teaspoons, one sugar spoon, and one butter knife; twenty-six pieces in all. We guarantee that this set will actually wear for a term of five years. This set displayed in any store would positively bring double what we ask. **Silver plated knives—On account of being silver plated over crucible steel, the silver plating will in time wear off on the cutting edge.** This will happen to the very best silver plated knives on the market. We therefore do not include the knives in this five-year guarantee. Shipping weight, about 6½ pounds.

No. 5H780 Price for complete set. Beaded pattern, including case..... **$3.74**
No. 5H785 Same set as No. 5H780, but in the Tipped pattern. Price..... **3.74**

A PAGE OF ROGERS SILVER PLATED TABLEWARE

WE GUARANTEE IT TO GIVE ENTIRE SATISFACTION. It comes in two grades: Extra Silver Plate and Triple Silver Plate. The extra has not as much silver deposited as the triple plate. Plain handle knives and plain handle forks do not come stamped extra plate or triple plate, but are stamped the quantity of silver deposited on them. In this band 12 pennyweights of solid silver are deposited on 1 dozen knives or forks, sometimes called triple plate. The fancy pieces on this page are made only in extra plate quality, the only quality the manufacturer makes in fancy pieces. The shape of the bowls in berry spoons, ladles and sugar shells, also the tines of the cold meat, pickle and oyster forks, blades on the jelly servers, butter, children's and pie knives vary somewhat, according to pattern, all being in keeping with the design. Be sure to state pattern wanted.

$4.40 to $7.40 Your Choice of Five Patterns in This Handsome 28-Piece Set of Rogers Silverware.

THE CELEBRATED WM. ROGERS REINFORCED SILVERWARE.

This beautiful fancy pattern in gray finish with polished shield, reinforced, as illustration shows, by sections of solid silver plate on the blanks; over this extra section is plated the regular amount of silver, thus giving a tableware with marvelous wearing quality; the reinforcing being done at the points where table silver receives the greatest wear. The reinforcement is used only on teaspoons, tablespoons and forks.

Every piece is marked **ROGERS** their well known anchor trade mark brand before and after the name. No reinforcement is necessary on butter knives, ladles, ice cream forks, etc., the wear and tear being little and ample silver used on the plain blanks make it unnecessary. The Wm. Rogers Co. guarantee to replace without charge any piece of their goods that does not prove equal to their guarantee, which is simply to guarantee entire satisfaction; nothing stronger possible in a guarantee.

DOUBLE TRIPLE PARAGON BRAND SILVERWA

ROYAL OAK AND IRIS PATTERNS, FRENCH GRAY FINISH

The Best Silverware Manufactured. We Bar None. GUARANTEED FOR 25 YEARS. Double triple grade Paragon brand silver plated teaspoons, tablespoons, forks, etc., contain more solid silver, are heavier; the design, according to our opinion, is more beautiful than any triple or quintuple brand of silver plated tableware manufactured in the United States.

OUR CLAIMS, backed by the manufacturer's written statement, are these: That our double triple grade Paragon brand silver plated tableware contains more solid silver and therefore will outwear any other silver plated tableware manufactured. In this broad statement we bar none. It includes any kind or make, including any Rogers brand or any brand by any maker of silver plated tableware for any purpose, whether for home, hotel or train service. It is manufactured by one of the most renowned firms of silversmiths in this country.

YOUR NATURAL LIFETIME, we hope, will be a long period of time; we believe that you cannot live long enough to wear out this tableware. We guarantee it for twenty-five years' continual wear, if ordinarily used. Buy any quantity you choose; we will fill all orders.

THE DESIGN CALLED THE ROYAL OAK is an exquisite conception of the conventional oak leaves and acorns, while the Iris is a conventionalized reproduction of that beautiful flower; French gray in finish, so as to bring out high lights and details. The back of the spoon is finished in a similar manner.

DOUBLE THE AMOUNT OF SOLID SILVER to every dozen teaspoons than is used by any Rogers brand, triple grade. The blank or base this silver is plated upon is the heaviest manufactured.

WE CHARGE FOR ENGRAVING 2½ CENTS PER LETTER FOR SCRIPT AND 5 CENTS PER LETTER FOR OLD ENGLISH.
WE CANNOT EXCHANGE GOODS AFTER THEY HAVE BEEN ENGRAVED.

GENUINE AMERICAN SHEFFIELD SILVER PLATE

This guaranteed silver plate is manufactured by one of the most representative silversmiths in the United States. Sheffield Plate is solid silver covering tough rolled copper, giving the wearing quality only exceeded by the heaviest solid silver. Never before until we made this arrangement with the factory has high grade Sheffield Silver Plate been sold at astonishingly low prices. We show such pieces as are used every day. This silverware is intended to be used every day. You cannot injure it.

A Word of Caution and Advice: Under no circumstances when cleaning the silver, use hard grained and rough polishes; use only the finest high grade silver polishes.

Our Twenty-Five-Year Guarantee: The maker guarantees this ware to us and we in turn guarantee it to you. You are at liberty under this guarantee to return any piece of this American Sheffield Plate, should the silver wear off and expose the inner composition copper metal within a period of twenty-five years. We will pay the transportation charges both ways and have the article again heavily plated with pure silver, without charge.

Oval Waiter or Serving Tray. Sheffield plate, with grapevine and grape leaf ornamentation, fancy handles and feet. Shipping weight, 10 to 25 pounds.

No. 5H7150 17 inches long. Price..... $11.28
No. 5H7152 20 inches long. Price..... $15.35
No. 5H7154 24 inches long. Price..... $18.36

WE ADVISE THAT YOU DO NOT HAVE SHEFFIELD PLATE ENGRAVED. SHEFFIELD PLATE IS MADE OF COPPER THEN PLATED WITH SILVER AND WHEN ENGRAVED WITH MONOGRAMS OR LETTERS, SHOWS THE COPPER BASE—AN EFFECT WHICH MANY PEOPLE DO NOT LIKE.

Round Waiter or Serving Tray. Sheffield plate, with grapevine and grape leaf ornamentation, fancy feet. Shipping weight, 8 to 25 pounds.

GENUINE IMPORTED SHEFFIELD PLATE.

EVERY PIECE ILLUSTRATED ON THIS PAGE IS HEAVILY SILVER PLATED ON GENUINE SILVER. Nickel silver is a composition metal of which nickel and copper are the chief ingredients, not Britannia metal, but hard nickel and copper. Silverware of this make has been used in England for generations and has been handed down as heirlooms in families. Every piece is stamped English guild marks, and we positively guarantee these to be genuine imported Sheffield silver plate.

NUINE SWARTZWALD GERMAN CUCKOO CLOCKS AT PRICES LESS THAN RETAIL MERCHANTS PAY

CTIONS FOR ADJUSTING AND ABOUT STRIKING, ETC., WITH EACH CLOCK. SO SIMPLE A CHILD CAN FOLLOW THEM.

O OUR OWN IMPORTING Our clock buyer goes to Swartzwald, Germany, and selects the best designs and the best values and from the largest manufacturers, saving you middlemen's profits and expenses.

fronts or carvings of these clocks are all hand work, cut from genuine German wood in the Black Forest, walnut finished, perfectly seasoned and kiln dried, guaranteed ears. Movements are the strongest made and of the latest improved styles, no frail work part tried, tested and guaranteed for long service. These clocks are operated by weights—no mainsprings to break or get out of order. The weight system makes for accurate time and durability.

We inspect every clock perfectly by setting it up, adjusting and running it in our own Clock Department for a long time. No clock is packed for shipment until we know it is perfectly adjusted.

A child can follow our directions. These clocks are easily hung and when necessary, easily adjusted and regulated. We send full instructions regarding hanging of pendulum, putting on the weights, striking, cuckoo calls, etc., with each clock.

Lowest Priced Cuckoo Clock.

For the price it is a marvel of value, but we do not recommend a cuckoo clock at this price for long service.

Is 19 inches high, 12 inches wide. Dial is 5¼ inches in diameter. Runs one day. Strikes on a wire gong. At the same time the cuckoo appears and calls the hours and half hours. Shipping weight, 26 pounds.

Beautiful Eight-Day Mantel Clock.

$4.68

No. 5H9374¼

A new idea in clock building. Stands 12½ inches high, 19½ inches wide, 6¼ inches deep. The case is constructed of black and dark brown mottled enamel, kiln dried and burnt hard on wood to imitate black marble and Mexican onyx, highly polished in every part, also beautified by rich gilded metal ornaments on sides and front, and fitted with solid gilded metal feet. The dial is gilded metal, perforated in rococo design; plain Arabic numerals, easily read at a distance. The movement runs eight days; strikes the hours on a cathedral gong and half hours on a sweet toned bell; the works are made of hard rolled extra tough brass and oil tempered steel parts. Our five-year guarantee to you means a lifetime, for if the clock will run five years and run well, it positively will run your natural lifetime if given proper attention. Go where you like, wholesale or retail, and at this price you will find that we are saving you from $3.00 to $5.00 on your purchase. Shipping weight, boxed, 22 lbs. Guaranteed for five years.

No brand of Butcher Knives is better known today than the famous genuine Diamond "A" Brand, which has been on the market for over fifty years, and in which the quality has been upheld since this brand was first introduced. These knives are made specially for the butcher trade who not only want a knife of the best material, but desire a knife of just the right shape and proper balance to do good work. Every Diamond "A" Knife is forged from the solid bar by hand and ground by experienced workmen who grind nothing but butcher knives, and honed to an edge as keen as a razor's. They are carefully inspected before leaving the factory and are guaranteed to give satisfaction and to be the highest quality it is possible to produce. Shipping weight, 10 to 20 ounces.

SHEARS, SCISSORS AND SEWING SETS

The most complete line of the highest quality shears and scissors made. We are the exclusive selling agents for the celebrated Wilbert shears and scissors. Wilbert shears are made in one quality only, namely, the best. The illustration shows the excellent construction of Wilbert shears. A heavy steel cutting face is welded to a malleable back, giving these shears the fine cutting qualities of solid steel, with absolute uniformity of temper and toughness, which it is impossible to obtain in any other method of construction. It is impossible to temper cast or solid steel shears properly. Our construction enables the forged steel face plates to be properly tempered to the right degree of hardness, and the heavy malleable back overcomes the possibility of breakage and gives the needed strength. Our scissors are all forged from the finest steel, accurately ground and fitted, and guaranteed to give satisfaction. All Wilbert shears and scissors are guaranteed against defective material and workmanship.

Wilbert Straight Trimmers.

Steel laid blades. Will cut clear to the points and keep sharp longer than any other we know of. Fully warranted. Shipping weight, 6 to 12 ounces.

CALDWELL'S HOME BARBER, $2.50

With this complete outfit any ten-year-old boy can shave and cut or trim hair like an expert barber. It is the only outfit in the world today that reduces the art of hair cutting to an A B C proposition, that makes it so simple that in a few minutes any inexperienced person can cut or trim hair. This outfit means a saving of from $25.00 to $35.00 a year to the average family, and it will last a lifetime. It is no longer necessary for a mother to take her children to the barber to have their hair trimmed, or for the men of the household to spend valuable time in traveling to and from the barber shop and awaiting their turn. With this outfit a mother can cut her children's hair in a few moments. The hair cutting outfit consists of one fine pair of nickel plated barber shears, one metal comb with two brass, nickel plated hair cutting gauges. The instructions are simple and complete. In addition to the hair cutting outfit above described, there is one safety razor with six finest steel blades, a stropping handle, one genuine horsehide strop, one aluminum ferrule shaving brush, and one can of Colgate's Rapid Shave Powder. Shipping weight of outfit complete, 20 ounces.

No. 6H18202 Price for the above outfit, with complete illustrated instructions. $2.50

RAZORS

The most complete assortment of highest quality razors, including the **product of such famous factories as the Wilbert Cutlery Co., Fridr. Baurmann Sons, Joseph Allen & Sons,** Wade & Butcher, etc. The razors sold **by us are guaranteed to give satisfaction;** to be exactly as described and **illustrated. The high quality** of our razors and our exceedingly low prices, quality considered, have made ours the largest razor business in the United States. No other house is able, quality considered, to compete w this line.

Don't be deceived by fanciful names and elaborate handles. R razor making is an art which is confined to comparatively few A razor, to give satisfaction, must cut and hold its edge. All r by us are guaranteed to shave satisfactorily and to be properl and tempered. We use no Bessemer or soft steel in our razors.

Wilbert Elk Razor.

No. 6H17817 This is an unusually well finished razor of our own design. The handle, tang and etching are in keeping with the name, the handle being a beautiful imitation of polished horn—polished horn reinforced tang. The etching is an elk horn design. The blade is full crocus polished, ⅝ inch wide, Irish point, double shoulder, quill back, gimped tang, full hollow ground. No handsomer razor made at any price. The tempering, grinding and workmanship are perfect, and we absolutely guarantee it to cut any beard and to give satisfaction. A razor of like quality would sell elsewhere for not less than $3.50. Remember, if you are not satisfied with this razor, return it to us any time within thirty days and we will return the full price you paid, together with postage. Shipping weight, 5 ounces. **Price.$2.15**

$2.15

The Regent Gunmetal Back Razor.

$1.50

No. 6H17911 The Wilbert Regent Razor, full hollow ground, with gunmetal, non-rustable tang and back; ⅝-inch square point blade. The tang is shaped to fit the fingers, finely gimped. This razor is full polished; an excellent razor for barbers' or private use. The gunmetal tang and back are non-rustable, and with ordinary care this razor will last a lifetime. Shipping weight, 5 ounces.
Price $1.50

Wilbert Acme Razor.

96c

No. 6H17912 Hollow ground ⅝-inch blade, heavy gimped tang. This razor will probably "fit" more beards than any razor we sell. **It is ground by experts and is suitable for barbers' or private use.** A better razor than those usually sold for $1.50. Shipping weight, 5 ounces. Price.....96c

Damascus Steel Razor.

For Stiff Beards. **$1.20**

No. 6H17914 Regular English ground, ¾-inch blade, black rubber handle. This razor has a heavy back and a very stiff edge, and is expressly recommended to those having a hard beard or who shave but once a week. It is a razor that gives satisfaction to everyone, but for the coarse, heavy beard it will give better satisfaction than a lighter razor. It is finely finished and fully guaranteed. Shipping weight, 5 ounces. Price.....$1.20

SWEDISH RAZOR.

Joh. Engstrom, Eskilstuna, Sweden, Garanti.

$1.09

No. 6H18334 Genuine Imported Swedish Razor. The blade of this razor is forged separately from the back. The blade is straight ground, finely tempered steel, firmly set in the round quill back. While this blade is comparatively thin, it is very stiff and will shave any beard. ⅝-inch square point. Fully guaranteed. Shipping weight, 6 ounces.
Price $1.09

Leather Razor Rolls.

Made of fine tan leather, lined with chamois, has two clasps. Makes a compact and safe way to carry a quantity of razors, and the razors will never rust. Shipping weight, 4 ounces.

No. 6H18330 To hold four razors...55c
No. 6H18331 To hold six razors...65c

Wilbert Pearl Tang Round Back Razor.

$2.05

This razor is full hollow ground by most experienced workmen. The blade has a beautiful mirror polish, heavy double shoulder. The steel tang extends the full length of pearl, insuring the tang against breaking, which is a common fault with other razors of this pattern. The reinforcement on either side of tang is beautiful selected natural pearl, and the tints of color in the pearl tang form a handsome contrast to the mirror polished blade and the fine black rubber handle. The tempering of this blade is absolutely the best, and we guarantee this razor to cut any beard, no matter how stiff. This is a razor that ordinarily sells for from $3.00 up; at our price it is unquestionably one of the greatest values ever offered in this line. Shipping weight, 5 ounces.

No. 6H17820 ⅝-inch square point blade. Price.....**$2.05**
No. 6H17821 ¾-inch square point blade. Price..... **2.10**

Anseptic Felt Pad Razor.

$2.35

No. 6H17938 This razor, as indicated by the name, is an **antiseptic razor; in fact, the best antiseptic razor made.** The flat rubber handles are lined with felt pads which are saturated with an antiseptic oil (Parmoline), which protects the sensitive edge of the blade from rust and keeps it sanitary and sharp. The Anseptic Razor keeps sharp longer than any other razor, as the edge is kept free from rust. For private use this razor ought not to require honing more than once a year. Every razor is thoroughly tested and inspected before being shipped. Guaranteed to give satisfaction. ⅝-inch full hollow ground blade, square point, double shoulder, broad, comfortable tang, flat polished black rubber handle, well finished throughout. Shipping weight, 5 ounces. Price, each, including nickel plated oiler filled with Parmoline.....$2.35

Wilbert Autocrat Razor.

$1.75

No. 6H17932 Fancy white ivoroid handle, ⅝-inch round point blade, full crocus polished, full hollow ground. Is suitable for barbers' or private use, and is best value ever offered in a high grade razor. Fully warranted. Shipping weight, 5 ounces. Price.....$1.75

Arc Magnetic Razor.

$1.70

A highly magnetized blade of the finest quality of steel, hand forged, tempered by a special process which insures uniform and even temper from heel to point. The blades are Hamburg ground, double shoulder, double gimped tang, fitted with polished flat black rubber handles, with gold lettering, as illustrated. The highly magnetized blade prevents irritation and is preferred by many people who experience a burning sensation after shaving with an ordinary razor. Shipping weight, 5 ounces.

No. 6H17813 ⅝-inch hollow point blade, as illustrated.
Price $1.70

This illustration shows the magnetic qualities of this razor. It will lift its own weight in steel.

The Figaro Safety Razor.

The only safety razor that guarantees every man a comfortable, clean shave. This safety razor was invented for the use of the man who could not use the regular old fashioned razor. It is admitted by all manufacturers that the diagonal cutting stroke of the old fashioned razor is the only correct principle of shaving. With the ordinary safety razor you scrape; with the Figaro Safety Razor you cut, the same as with the regular old fashioned razor. Your face does not become irritated; you are able to shave with the skill of a head barber, without any danger or discomfort to yourself. The Figaro Razor is made by Friedr. Baurmann & Son, Solingen, Germany, the makers of the famous Comfort Razors. There are more Comfort Razors used by barbers today than any other make. These razors are hand forged and hand ground, ⅝-inch round point blade, fitted with nicely polished black rubber handles, and differ only from the Comfort Razors in having an attachment of a safety guard. Each guard is carefully fitted and adjusted, and can be instantly detached for stropping, honing or cleaning. This razor can be used as a regular razor, without the guard. With proper care the razor will last a lifetime. Shipping weight, 6 ounces.

RAZOR STROPS.

The famous Wilbert Cutlery Co. line of Razor Strops, sold exclusively by us. There are no better strops. Our prices are just about half of what strops of comparative quality can be bought for elsewhere.

Wilbert Highest Quality Razor Strop.

This is the best all leather double swing strop made. It possesses sharpening qualities not found in any other make or style of strop. Will sharpen the dullest razor and keep any razor, regardless of make or grinding, in perfect condition. The sharpening side of strop is made of special black selected leather, chemically treated by a secret process which gives great sharpening qualities without in any way injuring the flexibility of the strop. There is no grit or emery in this strop to injure the razor. The finishing strop is made of the finest quality horsehide, tanned in Scotland. Far more expensive and greatly superior to the domestic horsehide used by all other manufacturers. This Scotch tanned horsehide has a grain peculiarly suited to finishing off the edge of a razor. Oil tanned, soft and flexible; requires no breaking in. This strop is beautifully finished. Sewed leather handles with gold embossed lettering and large polished brass swivel and ring clutch. The handsomest and most practical razor strop made. Length, 23 inches; width, 2½ inches. Regular $3.00 value. Shipping weight, 15 ounces. **No. 6H18675 Wilbert Highest Quality Razor Strop.** Price....**$1.69**

Gold Medal Barber Strop.

No. 6H18678 Gold Medal Barbers' Combination Horsehide and Irish Linen Double Swing Strop, the finest made. The leather is the finest selected horsehide money can buy, carefully prepared by a special process, broken in, ready for use. The web is of the very best, pure, closely woven Irish linen, carefully prepared. Money cannot buy a better piece of webbing or horsehide than that embodied in this strop. Black stitched handles with gold embossing, nickel plated swivel. A strop of comparative quality could not be purchased elsewhere for less than $2.50. Shipping weight, 9 ounces. Our price.....**$1.25**

No. 6H18656 Combination Four-Side Extension Razor Strop with cushion buff. A fine strop. Full length, 13 inches. Shipping weight, 12 ounces. Price.....**35c**

No. 6H18657 Cushion Strop, Four-Side. This is a very superior strop of this old favorite style, solid enameled wood handle. Full length, 14 inches. Shipping weight, 14 ounces. Price.....**50c**

Freeman's Celebrated Metallic Strop, 64 Cents.

No. 6H18660 Patent Metallic Strop, for razors and surgical instruments; will quickly put a razor in condition to split a hair and shave easy; sharp as the best hone without its harshness. You cannot spoil your razor with this strop. Full length, 13 inches. Shipping weight, 7 ounces. Price.....**64c**

No. 6H18664 Double Swing Razor Strop, black leather on one side, tubular cotton hose on the other; has swivel and stitched fashioned handle. Width, 2 inches; entire length, 22½ inches. Shipping wt., 6 oz. Price.....**23c**

No. 6H18665 Double Swing Razor Strop. Porpoise hide oil finished leather on one side and prepared tubular cotton hose on the other; has a swivel and fashioned handle. Width, 2 inches; entire length, 23 inches. Shipping weight, 6 ounces. Price.....**34c**

No. 6H18667 Our 50-Cent Leader. This is the greatest value for the money ever offered in a razor strop. This is a double swing strop. Special porpoise hide oil finished leather on one side and extra prepared webbing on the other. Has swivel and padded leather handle. Width, 2¼ inches; entire length, 24 inches. Shipping weight, 7 ounces. Price **50c**

No. 6H18672 Double Swing Strop. Porpoise hide oil finished leather on one side and pure Irish linen hose, prepared and polished, on the other. **Nickel plated removable swivel, fashioned handle.** A fine strop for professional barbers. Width, 2¼ inches; entire length, 25 inches. Shipping weight, 9 oz. Price.....**75c**

The Perfect Stropping Machine and Strop.

No. 6H18694 A Stropping Machine with which a child can strop a razor and obtain better results than an expert on any other kind of strop. Place the razor in the holder, grasp hold of each end of the strop and as the strop is pulled over the rollers, the razor is automatically moved from one side to the other and is perfectly stropped. This machine is absolutely guaranteed to perfectly strop any razor and will also strop the Wilbert Gem or Star Safety Razor blades. The machine is made of brass, 3½ inches square, highly nickel plated, fitted with handle so that it can be hung up same as a regular strop. Weight, complete with strop, 10 ounces. Shipping weight, 12 ounces. Price **90c**

No. 6H18680 Single Swing Barbers' Strop, porpoise hide oil finished prepared leather. Fashioned handle and eyelet. Width, 2¼ inches; entire length, 24 inches. Shipping weight, 4 ounces. Price.....**26c**

Genuine Shell Horsehide.

No. 6H18687 Extra Fine Selected Shell Horsehide Razor Strop. Single swing. One side sharpening, the other finishing. Width, 2¼ inches; entire length, 24 inches. Used by first class barbers. Shipping weight, 4 ounces. Price **72c**

No. 6H18690 Double Leather Swing Razor Strop. Width, 2 inches. Length of stropping surface, 12½ inches; length over all, 19½ inches. Both strops are leather—one for sharpening, the other for finishing. Nickel plated swivel; sewed on handle. Shipping weight, 7 ounces. Price.....**47c**

Wittl's Honing Razor Strop.

No. 6H18689 Scientifically manufactured and prepared by a secret chemical process that practically makes honing unnecessary. Double swing pattern, made of fine quality leather stock. Total length, 26 inches; width, 2¼ inches. Heavy nickel plated swivel. From four to six strokes on the honing side of this strop will thoroughly sharpen the razor. The finishing side will smooth off the edge and insure a smooth and comfortable shave. Shipping weight, 10 ounces. Price.....**$1.15**

No. 6H18692 Double Leather Swing Razor Strop. Width, 2 inches. Length of stropping surface, 17½ inches; length over all, 23 inches. Both strops are leather, one for sharpening, the other for finishing. Nickel plated bolt swivel; both handles are fashioned. Shipping weight, 10 ounces. Price **85c**

The New Black Beauty Self Honing Strop, $1.17.

No. 6H18693 Our Black Beauty Combination Double Swing Razor Strop, 25 inches long, 2¼ inches wide. This strop is made of extra heavy red and black fine grain leather. The red leather is specially prepared and will hone and sharpen the dullest razor; the black leather is the best selected, oiled, fine grain stock for finishing. The leather in this strop is extra heavy imported stock and will last a lifetime. We guarantee this strop to be equal to any strop made. This strop is finished with finest leather trimmings, full padded sewed leather handle and flat nickel plated polished swivel. Packed in a neat box. Shipping weight, 14 ounces. Price.....**$1.17**

Kelso's Strop Dressing.

No. 6H18697 Entirely a mineral dressing. Various ingredients are formed together in a compound which possesses just the right amount of hardness and grit to put an edge on the razor. Put up in cakes 2 inches long, ¾ inch wide. If used according to directions will keep your strop in perfect condition. Shipping weight, 1 ounce. Price, per cake.....**9c**

RAZOR HONES

Better order Razor Hones with other goods to be shipped by express or freight, as they are liable to be broken if sent alone by mail.

THE FAMOUS RAVEN HONE, 75 CENTS.

No. 6H18720 Manufactured for and sold exclusively by us. The marvelous success of the Raven Hone has brought many imitations on the market, but there is only one Raven, both in name and in quality. It is manufactured according to a secret process by one of the most famous hone manufacturers. Our enormous business enables us to contract for this hone in such large quantities as to be able to sell it at the ridiculously low price of 75 cents, although hones of far inferior grade are sold for twice our price. The Raven Hone, a jet black hone, contains no veins or emery grit, and has just the right degree of hardness to place an edge on a razor which will insure a velvet shave. Each hone is packed in a neat hinged cover box. Size of hone, 5½x2 inches. Shipping weight, 10 ounces. Price.....75c

Genuine Belgian Hones.

No. 6H18700 A very good Belgian Razor Hone that will give satisfaction in private use. We sell them for the same amount of money you must pay to have your razor honed once. Shipping weight, 10 ounces. Price.....24c

BARBERS' HAIR CLIPPERS.

For Human Hair Only. For Horse and Dog Clippers, see Harness Department.

SPECIAL NOTICE—When ordering repairs for clippers be sure to give us the NAME of the clipper and all marks that appear on it. We do not furnish springs or repairs for any clippers except those that have been purchased from us.

Solingen Imported Clippers.

We import these clippers from Solingen, Germany, the greatest cutlery center in the world, where the finest cutlery is made, and offer the following two numbers of clippers to you as being the finest clippers on the market, regardless of name, make or price. The plates and cutters are made of the finest crucible steel, the machine work is accurate to the thousandth part of an inch, the clippers are finely finished and are absolutely guaranteed to give satisfaction, or money will be returned. We will ship these clippers to you on thirty days' trial. If at the end of thirty days you are dissatisfied with them, if you do not consider these clippers the best clippers you have ever used and the greatest value for your money, return them to us at our expense, and your money and transportation charges will be cheerfully returned.

No. 6H18840 Our Solingen Outside Coil Spring Clipper, very light (it weighs but 5 ounces), made with tension bolt, accurately machined and fitted, a very fast, smooth working clipper, furnished complete with adjustable comb, which permits of two extra adjustments. Cut can be changed from ⅛ to ⅝ inch. No better clipper made at any price. Every pair guaranteed to give satisfaction or money will be returned. Shipping weight, 9 ounces. Price.....$1.20

The latest edition of this catalog quotes the latest lowest prices on tires, subject to tions in the rubber market. Sit right down now and a postal card asking for our latest Automobile Catalog! It's free for the asking.

Our Artistic New Auto-Cycle Catalog, Showing the 1912 Sears Auto-Cycle

You or some of your friends or acquaintances are going to buy a motorcycle this season. It will be taking a big step along the road to general satisfaction to send for our artistic new Motorcycle Catalog before purchasing a machine. This catalog, illustrated herewith, shows our 1912 Auto-Cycle in actual colors, many illustrations which prove the excellence of its construction and equipment and gives a complete description of all the features that combine to make it the motorcycle sensation of the year. Speedy, silent, powerful and untiring, its graceful design and sturdy construction cause admiring comment whenever it flashes by. It gives you all the speed possibilities of the high priced automobile, or it offers you the modest gait of the pedestrian, with all intermediate rates of speed, of course, at your command. You can climb any slope or travel any road that anything else on wheels can travel. It will give you more power than you will often have occasion to use, it will travel untiringly, mile after mile, with the minimum expenditure of fuel. It will "hold up its head" with the most aristocratic machines everywhere. Yet the price is much below what a motorcycle of such quality would cost elsewhere. Send today for our new Auto-Cycle Catalog, mailed postpaid on request.

BICYCLES ARE THE WORLD'S FINEST

Deservedly High Reputation

are no bicycles more famous in bicycle history than our Napoleon King Bicycles. We have steadily improved their high quality of cycling days when they sold readily at $100.00 to $125.00, and have reduced their prices. These two bicycles are even more attractive this season than ever before. Our Peerless Bicycle, introduced only years ago, has won an unequaled high reputation for wonderful because its construction embraces the finest materials obtainable, its unsurpassed in attractiveness, and its equipment includes only improved features.

1912 models show even greater improvements than our popular high models. Two factors are responsible for these improvements: constantly adding to our large equipment of the latest automatic machinery, making every operation a most exact science, the finished product an unrivaled excellence and enabling us to improvements and refinements. We purchase our raw materials in quantities at prices naturally lower than the prices paid by dealers bicycle business is small in comparison. This advantage is a factor only to our great manufacturing facilities in our ability to sell the finest bicycles at unequaled low prices.

Improved Peerless Coaster Brake

automatic, light weight and positive. Late improvements make best device of its kind. Its use gives the rider a feeling of absolute Its attractive design adds to the appearance of the bicycle. Its the exertion of pedaling about half and increases the pleasure in proportion. Has no side arm, spring lever or other complications. Closely resembles an ordinary rear hub in design, weighing ounces. Can be furnished with any of our bicycles at an additional price of only $3.00. Don't fail to read the full description of this brake, as found on page 885, together with the amazingly we make to all who wish to convince themselves of the absolute which the use of this brake brings.

A Guarantee That Guarantees

To convince you that our bicycles will give you the utmost satisfaction we make this unprecedentedly liberal offer: Order one of our new Peerless, Napoleon or Elgin King Bicycles, ride it for ten days over any kind of roads you see fit, subject it to any tests you know will show a bicycle's worth, compare it with any bicycle costing from $5.00 to $25.00 more elsewhere, and at the end of that time, if you are not absolutely satisfied with your bicycle, return it to us and we will return your money and any transportation charges you may have paid. Furthermore, we issue a written binding guarantee with every bicycle we ship, wherein we promise to replace or repair free of charge any part developing a defect in workmanship or material within two years. Bicycle insurance of this kind is a protection of tremendous value to the rider, and it costs you no premium in the form of an increased selling price on the bicycle.

Our Matchless America Tires

Famous for their practically non-destructible, phenomenally puncture proof, resilient and easy riding qualities. Their wonderful serviceability makes them the finest single tube tires sold today. We furnish them as standard equipment on our Elgin King, Napoleon, Josephine and Peerless Bicycles. You will be interested in studying the excellent description and illustration of this wonderful tire, given on page 884, and the absolutely unlimited guarantee under which we sell this tire, whereby we agree to repair or replace without charge any tire proving defective in workmanship or material, regardless of time or service. Price, per pair, $4.10.

KENWOOD BICYCLES

$11.95 AND $14.95

This bicycle would cost you elsewhere from $15.00 to $18.00. A good serviceable bicycle, sold at a markedly low price, and covered by our written binding two-year guarantee. We are sure that this value will please you, but remember, that for a few dollars more you can purchase our Elgin King, Napoleon, Josephine or Peerless Bicycle, equipped with many improved features and refinements which we cannot afford to include in the lower priced Kenwood Bicycle.

Detailed Description—Frame, 22-inch only; made of fine seamless 1-inch steel tubing, flush at every joint. Equipped with one-piece hanger, rat trap ball bearing pedals, 7-inch round cranks, adjustable handle bars fitted with leather grips, full size padded leather saddle and Kenwood single tube pneumatic tires. Enameled jet black. Remember, we do not furnish tool bag with wrench, pump, oiler and tire outfit as part of Kenwood equipment; same can be furnished at an additional cost of 50 cents.

Our Famous Improved Model Napoleon Bicy

Our Napoleon Bicycle is widely and favorably known to thousands of bicyclists. From the early days of cycling until the introduction of our wonderful Peerless Bicycle five years ago, the Napoleon maintained without successful challenge its standing as the leading high quality bicycle. Today it is second only to the matchless Peerless. A comparison of our 1912 model Napoleon Bicycle with the former Napoleon models reveals many striking improvements and refinements in the 1912 model, even over the admittedly high class construction of the earlier Napolec Our improved new model Napoleon embraces only those featur struction which time and experience have proven indispensable struction and equipment of a high grade bicycle. The illustrati page and the opposite page show a few of the markedly excelle that characterize this new model. The description of the variou illustrated is most convincing as to the excellence of our manuf

Ordinary Construction.

Our construction, with mechanically correct long fishmouth reinforcements.

Head Construction.

The life of a bicycle is dependent on the strength of its frame construction. The illustration clearly shows the difference between ordinary head construction and our construction with its mechanically correct long fishmouth reinforcements. Note the heavy seamless carbon steel tube with brazed instead of punched lugs, fitted with flaring ends, offering greater brazing surface and doubling the strength of the head. The long arms or lugs extend several inches into the tubes, distribute strain of sudden wrench or heavy fall and prevent concentration of strain when riding. The ordinary plain head, simply bent together and brazed, cannot be reinforced, hence is undesirable.

Seat Post Cluster.

We illustrate the strongest, finest appearing and most expensive seat post cluster made. Our improved process provides for **insertion of special all steel tube in cluster.** Cluster is then carefully welded, making it a part of frame; an all steel nickel plated clamp bolt is then run through cluster. Two strong shoulders on the two outer surfaces of tube take brunt of compression from frame, so that with bolt carefully tightened it acts both as reinforcement to frame part and also tightens seat post and prevents possible turning. Ordinary internal expanding seat post masts cannot readily be tightened to keep seat post from turning under pressure. Seat post is made of finest drop forged steel, beautifully nickeled and polished.

Improved Napoleon Diamond Hanger.

The excellence of our improved Napoleon hanger is clearly sh colored illustration on the opposite page. Note the diamond sh forged one-piece all steel hanger construction. Diamond shap are made from full crucible stock, all cones turned from Sprockets are secured to cranks by stationary cones acting as s ing locknut. The small lug built in the right crank engages gives rider greatest possible driving power and absolutely loosening of sprocket. This construction absolutely prevent from becoming disengaged. Impossible to get hanger out of Cranks readily removed from frame without removing sprocke nary crank operations the temper is drawn from the drop forgi ing the crank so steel may be easily machined, drilled and th then again tempered and nickel plated, ready for use. Napole are made without softening, by specially designed machines an tempered steel tools. Forgings are always weakened by soft process is the most up to date and reliable, giving crank gr strength and uniform temper.

Improved Faultless Bearings.

Faultless bearings are well named. Cups are made from solid tool steel bar, and with our tempered select round hardened steel balls, give lifetime service. Micrometer tests guarantee their trueness to the one-thousandth part of an inch. Being dust and dirt proof, friction is minimized. Their trueness insures perfect alignment of ball races and a reliable, easy running bicycle. They improve with age, working even more smoothly as they get older. Contain absolutely no soft steel and are made of extra heavy gauge material.

Newly Improved Napoleon Pedals.

Our newly improved, special design, full ball bearing, high trap Napoleon pedals are second only to our celebrated Peerles finish, durability and easy running qualities. Have heavy pedal pin of great strength, **extra large** balls and **extra** wid braces and bearings, equalizing pressure from foot. See illu opposite page.

Handle Bars.

Note our new design all steel drop forged unbreakable Shelby compensating handle bar stems. Malleable castings are brittle and easily broken. Our new method of drop forging makes stems far neater, stronger and more reliable. Practically impossible to break them, even by placing entire weight on handle bars. Finely nickeled and polished.

Be Sure Your New Bicycle is a Coaster Model

Include an Improved Armless Peerless Coaster Brake in your bicycle order. It makes your bicycle twice as satisfactory and the pleasures of cycling will be enjoyed to the utmost. It practically eliminates all possibility of danger when coasting, and enables you to coast 25 miles in a 50-mile ride. The enjoyable thrills of coasting will be unaccompanied by thoughts of danger or accident. Your bicycle is under perfect control at all times and you can easily stop within a few feet.

Our Improved Armless Peerless Coaster Brake is simple, light weight, neat in appearance, automatic and absolutely positive in action. Weighs only 25 ounces. Readily adjusted without removing from the frame. Costs only $3.00 additional to the catalog price of the bicycle. You take no risk when riding if your bicycle has a Peerless Coaster Brake attachment and you take no risk of being disappointed in ordering from us. We guarantee satisfaction. For description of this wonderful brake and our liberal trial offer see page 885.

Tool Ba

On the opposite lustrate the classy leather bag and co equipment furnishe Napoleon Bicycle. comprises good st polished brass q hand pump, nic and tube of quick cement. Bag and ment rival in at and completeness fits furnished onl higher priced splendid example quality and value.

Matchless America Tires.

The degree of satisfaction obtained from a bicycle depends greatly on the character of the tire equipment, since the latter bears the brunt of the work. Our matchless America Tires won instant popularity owing to their practically puncture proof, non-destructible, self healing qualities. Our improved construction, which has even further increased their wonderful speed, lightness and resiliency, has made their former worth even more pronounced. Made of several layers of finest Sea Island cotton and armor fabric, combined with other layers of finest washed Upper River Para rubber. Our newly improved link chain non-skid tread is the most practical and scientific tread made. Rubber air tube is chemically treated by secret process, making it practically puncture proof and self healing. Be sure to read our full description of this wonderful tire on page 884.

Excellent Napoleon Hubs.

Our Napoleon hubs are smooth running, secured by our proved construction, adopting the use of large cones. Fitted ball retainers and dustproof devices with cones ingeniously balls run one-third higher up than ordinarily. Our three-p ball bearing construction, causing balls to touch cones and c places only, is the most scientific construction known for s insuring extra durable wearing qualities. Cones and cups are and carefully hardened. Hubs are finished from steel drop for nickeled and polished. The illustration on the opposite page p their strength.

Specifications of Our Famous Improved Model Napoleon Bicycle

FRAME—20, 22 or 24-inch. Made of the highest quality 1-inch 20-gauge Shelby seamless drawn tubing, finished flush at every joint. All joints are doubly reinforced with an inside tube or sleeve, which greatly increases the strength and makes this wheel almost again as strong as wheels of ordinary construction offered in competition, making it specially practical for the use of our Peerless coaster brake.

FRONT FORK—Exceptionally durable, practical and attractive fork, with drop forged fork crown beautifully polished and nickel plated on copper. See colored illustration on opposite page.

WHEELS—Built with standard approved spokes, laced according to our improved method, which insures long wear. Rims are made of one-piece straight grain hard rock maple, handsomely enameled to match frame, gold striped, with blue centers and black sides.

HUBS—Straight center genuine Napoleon improved design extra durable hubs, heavily nickel plated, with large hardened steel bearings, cups and cones, which positively insure long wearing qualities.

HANGER—Improved Twentieth Century Diamond one-piece drop forged hanger with 7-inch steel crank, fitted with Star ball retainers. A popular, high grade hanger, one of the best and easiest running hangers ever placed in a bicycle.

TIRES—Equipped with our matchless America tires, the most phenomenal value ever offered in single tube tires; practically indestructible and the nearest puncture proof tires made. For full information regarding our matchless America tires see page 884.

PEDALS—Fitted with the well known new design Napoleon specially constructed full ball bearing high grade rat trap high service pedals.

HANDLE BARS—Famous extra wide curved Ideal type. Full adjustable forward extension with combination expander which holds handle bars firmly in position, at the same time allowing the bar to be quickly released to permit making changes. Forward extension stem positively insures a more comfortable and easier riding position than any other type of bar.

SADDLE—Full size extra heavy selected leather saddle, specially tanned, finely padded and finished. Guaranteed to hold its shape. Fitted with adjustable clamp. A quality saddle in every particular.

GEAR—81-gear is our regular equipment. 72 or 91-gear upon request. Long experience 81-gear, with 26-tooth front and 9-tooth rea results and is most universally used for 1- chain.

TOOL BAG AND TOOLS—Bag made of tanned grain leather, as illustrated on oppo plete with all the necessary tools, including oiler and repair outfit.

FINISH—Our New Improved Napoleon is o finished bicycles on the market. It is only New Model Peerless. Handsomely enameled in with delicate artistic double panel gold strip fully offsets its jet black body. The heavily ni crown, handle bar and stem, seat post stem, and hubs afford a strikingly pleasing contra black frame. This bicycle is specially finished of the highest grade rustproof enamel, hand gives it a piano polish found only in our Na less Bicycles. The rims are further decorated with a broad blue stripe in center to match plate, delicately gold striped.

ATCHLESS SUPERB NEW MODEL PEERLESS BICYCLE

r Improved 1912 Model Peerless Bicycle combines all the latest ements known to the cycling world with other refinements not found other bicycle. The experience of twenty-seven years of successful building has been so applied as to effect improvements in our rfally successful 1911 model which truly make this new model a ss" bicycle. Every part of our new Peerless construction and equipas been conscientiously selected with a view to embracing in this those features alone which have been unquestionably proven as al to the construction and equipment of the highest quality bicycles. ve added to the best features of recognized merit new features the of which has been thoroughly established only after much skilled ing, planning, experimenting and rejecting on the part of our nical experts. Prominent among these new features is our new pitch finest imported roller chain. The well known smooth and easy running qualities of our Peerless Bicycle have been brought to a point next to perfection by the introduction of this important feature. Every ounce of power applied to the pedals is transmitted to the rear wheel. Absolutely all friction is eliminated. Unrivaled factory facilities, equipment, and economies of construction have aided in the manufacture of our Peerless model in even greater measure than in our famous Napoleon and Elgin King models. Frame design, internal reinforcements, crank and hanger perfection, minute exactness of bearings, fork and crown, handle bars, saddle, pedals, grips—one and all have been carefully chosen as the finest of their kind. Remember, our Peerless Bicycle is sold under the most liberal bicycle guarantee ever made. You must be absolutely satisfied as to its quality, serviceability and value after a most thorough trial, or you can return the bicycle to us and we will return your money and any transportation charges you may have paid.

Peerless Reinforcements.

The unequaled pressed steel reinforcements used in our 1912 Peerless Bicycle strengthen the frame and equalize all vibration. The strength of this reinforced construction is readily apparent in the illustration. Every reinforcement extends several inches into the tubes, giving our matchless Peerless model a special adaptability for the use of our Peerless Coaster Brake, and making it the most comfortable riding bicycle made.

A Peerless Hanger.

Note the strength and simplicity of our hanger construction, as illustrated. Our one-piece solid drop forged crank and hanger is finished to give maximum strength. Ordinary crank making methods provide for softening the metal, soft steel being easily machined, drilled and threaded. Our Peerless Crank and Hanger is finished without drawing the temper, thus giving it a greater natural strength. This is ished by the use of specially designed machines and spetempered steel tools. This is the most expensive crank and construction, but it gives a uniform temper to these parts, hat most desired, and insures the truest and easiest running and hanger built. This construction is only one example of taken to make our Peerless bicycle of unequaled merit, less of expense.

Classy Peerless Grips.

Most expensive grips ever furnished on a bicycle. Finest hand sewed cowhide leather alone is used, oil tanned and finely finished. Perfectly smooth on outside. Open end has kel plated ferrule.

Faultless Bearings.

The high quality of our Peerless Bicycle construction is even further emphasized in the excellence of our bearings. The length and character of service the bicycle gives is greatly dependent upon the bearings. Faultless bearings are provided with large deep cups turned from solid tool steel bars, and with perfect round hardened steel balls. Absolutely dirt and dustproof. Micrometer tests insure their trueness to the thousandth part of an inch, hence guaranteeing perfect alignment of the ball races.

Frame Perfection.

Correct frame construction is the keynote to good bicycle building. The rigidity of our Peerless frame is such that it cannot possibly be thrown out of alignment. With the ordinary bicycle, when ridden on a rough or hilly road with a downward pressure being exerted on the pedals, the leverage springs the frame, throwing hanger and front sprocket from ⅛ to ½ inch out of alignment with the rear sprocket. The resulting drag or pull upon the sides of chain and sprocket spuds causes the bicycle to run unusually hard. Our Peerless frame construction combines great strength and rigidity with light weight, an exceedingly difficult construction. Note the illustration showing the contrast between our Peerless construction and the ordinary frame construction when subjected to a heavy strain while running. Our construction means frame comfort, durability and efficiency.

nrivaled Fork Crown Construction.

most attractive and most scienly designed fork and crown conn known. Our triple truss Keyrch crown, together with our fork sides, gives us a construction of withstanding the severest of any unusual strain or twist getting out of a rut, turning y, etc. Subject the bicycle to the ere tests imaginable. You cannot twist or throw the forks out of nt, even with all the rider's th exerted in the effort. See illusin actual colors on opposite page.

Our New Imported ½-Inch Pitch Roller Chain.

Our new design finest imported ½-inch pitch roller chain gives our Peerless Bicycle the smoothest and easiest running qualities of any bicycle made. Furnished only with our Peerless Bicycle, with sprocket to match. We were unable to procure a roller chain from any American chain manufacturer which fully satisfied our exacting demands, but by going to the English market we secured a chain which will positively roll, which embodies the necessary strength, and which, by virtue of its ½-inch pitch construction, maintains a steady even pull which transmits to the rear wheel every ounce of power applied to the pedals. Its construction also insures a light, quiet running bicycle chain which operates without friction. The detailed colored illustrations on the opposite page clearly picture its excellence throughout.

Recessed Sprocket.

Our newly designed, specially constructed Peerless sprocket, pressed from finest cold rolled boiler plate steel, is one of the lightest, strongest and handsomest sprockets made. Note accuracy of milling of the flanged rim in the excellent cross section we show. This rim both gives the chain an excellent support and acts as a truss, giving the sprocket great stiffness and strength, although of only half the average thickness.

eerless Pedal Equipment.

estionably the finest, strongest, handsomd easiest running pedal made. The illuson the opposite page indicates the extra construction of the side plates and the unstrength of the pedal pin, which is correctly d to properly distribute bearings so as to pressure from foot. Made from the finest rged steel, beautifully finished in polished

Matchless America Tires.

Our celebrated matchless America tires are furnished on every Peerless Bicycle, giving it the finest single tube bicycle tire equipment known. Have greatly improved, practically puncture proof, self healing qualities. Made of finest Sea Island cotton fabric and choicest washed Upper River Para rubber. New link chain non-skid tread is the most practical and scientific tread ever made. For full description of these wonderful tires see page 884.

Distinctive Peerless Hubs.

A new improved design spindle hub. Body is made from steel drop forgings turned to shape; cups turned from solid tool steel bar stock, carefully tempered, making body and cups in two distinct parts. One-piece hubs are without body of correct degree of toughness and resiliency or are too soft in cups. Difficult to temper cup portion without overtempering flanges, and causing spokes to break out under sudden strain. Beautifully illustrated on the opposite page.

SPECIFICATIONS OF OUR MATCHLESS SUPERB NEW MODEL PEERLESS BICYCLE.

E—20, 22 or 24-inch. Made of highest grade 1-inch Shelby cold drawn seamless steel tubing, all joints smooth and doubly reinforced by extra long pressed steel reinforcements. Design and outline mechanrect. Note the long wheel base. This construction all vibration; strain, wear and tear distributed equally frame. Doubly reinforced and specially designed coaster brake.

FORK—Equipped with our scientifically designed k and triple truss Keystone arch crown, a new crefactically again as strong as ordinary forks.

ELS—Made with finest grade piano wire double swaged hirty-two spokes in front wheel, thirty-six in rear. specially selected one-piece straight grain Michigan gle rims, enameled in Brewster green and gold, frame. All wheels 28 inches in diameter.

—Fitted with our unrivaled latest design spindle drop forged Peerless hubs. See complete description ing, and illustration on opposite page.

RE—Duplex diamond all steel one-piece hanger. Ex-¾-inch cups for heavy steel balls and extra large cones. Fitted with 7-inch one-piece tempered steel diamond cranks, beautifully nickel plated, polished and specially designed. Newly designed recessed sprocket, pressed from finest cold rolled boiler plate steel. Note flanged rim, accurate milling and the extra durable light weight construction.

TIRES—Equipped with our latest improved America single tube tires, the strongest, toughest, easiest riding tires sold. See page 884 for complete description of this wonderful tire.

PEDALS—Newly designed improved adjustable reinforced center durable dustproof Peerless pedals, full ball bearing hardened steel cones, turned axles, finely nickel plated and polished. Absolutely noiseless; long lived. See illustration on opposite page. Note strength of pedal pin and side plates.

HANDLE BARS—Equipped with extra wide 2¾-inch forward extension adjustable and 3¾-inch drop Ideal handle bars, ⅞-inch in diameter, fully adjustable and fitted with Hercules internal expander, which guarantees rigidity of position. Heavily nickel plated over copper and highly polished. Equipped with sewed leather cowhide grips. Finest handle bar ever placed on a bicycle as regular equipment.

SADDLE—Specially constructed triple coil spiral spring saddle, made of well tanned selected grain leather, finely shaped and padded. Best tempered steel vibration absorbing spiral springs.

GEAR—81-gear is our regular equipment. Furnished in 72 and 91-gear upon request. 81-gear gives the best of satisfaction for general use and is most universally used.

TOOL BAG AND TOOLS—Finest oil tanned grain leather tool bag, handsomely embossed, with ends doubly reinforced to keep shape indefinitely. Complete with fine drop forged wrench, quick action brass hand pump, tube of quick tire repair cement and nickeled oiler.

FINISH—The finest and most durable finish ever used on a bicycle. Four coats of slowly baked rustproof best Eclipse enamel, hand rubbed to piano polish. Enameled in beautiful light Brewster green with fancy gold sunburst head, with three darts on upper and lower mast, and fancy gold seat post mast with darts to match head. Rims enameled with gold center and Brewster green sides to match frame. The contrasting heavily nickel plated parts give this bicycle a positively unequaled elegant and stylish appearance.

OUR WELL KNOWN RED HEAD ELGIN KING BICYCL

HAS AN ENVIABLE REPUTATION WON AND MAINTAINED BY FORCE OF MERIT ALONE

One of the best and most favorably known bicycles ever offered the cycling public. This bicycle steadily sold through the palmy days of cycling at $100.00. It was conceded to be surpassed in general excellence only by the celebrated Napoleon Bicycle. Today it is second only to our Napoleon and our more recently introduced Peerless Bicycle in beauty of design and excellence of construction. It has not only maintained the enviable reputation which its high quality won for it during the early cycling days, but has won even greater praise by the many notable features of improved construction that now mark it. Its characteristic red head is famed among cyclists everywhere and its high quality universally admitted. Has a pronounced beauty of appearance, due to the striking contrast between its handsome red head and center tube and the jet black enamel on the balance of frame. Equipped with our matchless America tires, noted for their practically non-destructible, resilient, easy riding qualities. A most satisfactory bicycle, recommended to those riders who do not care to pay the slightly higher price we ask for our Napoleon or Peerless models.

$14.95

Improved Features of Marked Excellence in Our Elgin King Constructi

IMPROVED LIGHT WEIGHT, STRONG ELGIN KING FORK CONSTRUCTION.

An improved design fork crown, one of the lightest, handsomest and strongest ever built; all steel construction, made from drop forging, a far more durable construction than the cast crowns ordinarily used on medium priced bicycles. This construction is a striking proof of our determination to spare neither money nor effort in maintaining the high standard set for our Elgin King construction. By no other means could we give our amazingly liberal binding guarantee on this bicycle. Unquestionably the best bicycle sold at anywhere near this phenomenally low price.

ADJUSTABLE DUSTPROOF BALL BEARING ELGIN KING HANGER BRACKET.

This sectional view illustration clearly shows the marked excellence of our improved Elgin King dustproof adjustable four-lug all steel ball bearing hanger bracket attachment. Lugs extending several inches into tubing reinforce frame, insure perfect alignment of bearings, driving chain and all running gear; hence balls run easily and cranks revolve with practically no exertion. The part receiving the most strain is thus greatly strengthened.

SCIENTIFIC THREE-POINT CONTA BALL BEARING CONSTRUCTIO

Note that touch cone in place and cup in places. This mizes the wea these parts and balls running di ly in the corner e ize strain by bi ing pressure on side and bottom, ing a triangu strain. In any system of bea construction, b tend to press or on either side or bottom of cup. Cups cones are turned from solid bar steel and ly polished. Only first quality extra long lived balls are used, carefully fitted Star retainers.

Specifications of Our Well Known High Quality Elgin King Bicycle

FRAME—Size 20, 22 or 24-inch, as desired. Made of 1-inch, 20-gauge best quality Shelby seamless cold drawn steel tubing, finished flush at all joints. The construction and lines of this frame are mechanically correct. Its construction is such as to equalize and distribute all weight and strain. There is absolutely no chance of this frame being forced out of alignment or buckling, and it is specially designed for the use of the Peerless Coaster Brake.

FORK—Fitted with heavy square forged crown. We show an illustration on this page.

WHEELS—Standard 28-inch, fitted with the celebrated straight center, specially constructed Elgin King guaranteed hub, which is conceded to be one of the finest hubs made.

RIMS—Made of selected one-piece rock maple by one of the oldest and best known manufacturers of high grade rims. All rims are enameled with red center, matching the red head and red center tube, with black edges, delicately outlined with a gold stripe. Harmonize perfectly with the finish of the frame.

SPOKES—Manufactured by a celebrated spoke manufacturer, and laced according to our own special method, which insures the wheels on an Elgin King Bicycle never getting out of true.

BEARINGS—Extra large size, turned from the solid bar, and tempered. We use no soft bearings in our bicycles. The bearings are all tested by micrometer and are guaranteed accurate to the one-thousandth part of an inch. The bearings are all dustproof, a distinctive feature which insures their lasting and easy running qualities.

SPROCKET—Handsome design, as shown in the above illustration. Stamped from the finest steel boiler plate, finely finished and heavily nickel plated.

HANGER—The celebrated one-piece Duplex hanger, the simplest and strongest hanger made. Fitted with 7-inch one-piece drop forged and tempered steel cranks.

PEDALS—Elgin King specially constructed rat trap pedals. Full ball bearing, heavily nickel plated and polished. One of the finest pedals made.

SADDLE—Fine seal grain, full size, oil tanned leather saddle. Nicely padde form fitting shape.

HANDLE BARS—Adjustable, fitted with Hercules expander, which firmly hel bar in position, yet can be quickly loosened. The bar is heavily nickel plated on and is fitted with the best quality laminated leather grips.

TOOL BAG—Made of heavy specially tanned seal grain leather, and conta necessary tools, such as wrench, pump, oiler and tire outfit.

TIRES—Every Elgin King Bicycle is equipped with our matchless America tir newest and best single tube tires on the market, the manufacture and sale of wh controlled exclusively by us. See page 884 for full description of the America ti

GEAR—81-gear is regular equipment, and is always furnished unless otherwis fied. While we can furnish 72 or 91-gear upon order, experience has long since strated that 81-gear, with 26-tooth front and a 9-tooth rear sprocket, gives by best results and is generally used.

FINISH—The finish of the Elgin King Bicycle is fully up to the standard other sterling qualities of this bicycle. It is furnished with a red head and red tube. The balance of the frame is enameled in jet black. It is unquestionably the finest and most handsomely finished bicycles on the market today, and seco to our improved Peerless and Napoleon models. The enormous success attained Elgin King Bicycle has caused many manufacturers to imitate it in finish, but only one Elgin King Bicycle, and while there are others that are enameled to imit there is no bicycle resembling the Elgin King sold at anywhere near our low pric will give the same high degree of satisfaction. The frame is enameled with four of Eclipse American enamel, baked under high temperature in a dustproof oven. head and center tube are enameled in a rich vermilion red, which forms a ha contrast with the jet black. The red head is further offset by graceful darts which on the upper and lower tubes, delicately outlined with a gold stripe.

$2.85 A PAIR POPULAR KENWOOD SINGLE TUBE TIRES.

Resilient. Easy Riding. Wear Resisting Tread.

Our popular Kenwood Tires, sold for years with great success. Do not confuse this tire with ordinary tires sold at this price. Although sold at a phenomenally low figure, they contain no reclaimed rubber, cheap compounds or army canvas, substitutions due to the unusually high price of pure gum rubber and the scarcity of Sea Island cotton. Made only of high grade rubber stock and selected Sea Island cotton friction fabric, therefore guaranteed perfect in every respect. Will give an amount of hard service secured ordinarily only from greatly higher priced tires. We recommend, however, that you read the description of our Napoleon and especially our Matchless America Tires before buying, as for the slight difference in cost they will give even greater difference in service. Shipping weight, 5 pounds.

No. 19H1820 Kenwood Tires. Size, 28x1½ inches. Price, per pair.. **$2.85**

$7.95 A PAIR IMPROVED GOODYEAR CUSHION PNEUMATIC TIRES.

Extra Strong, Wear Resisting, Heavy Tread.

Tremendous popularity and constantly increasing sales have caused much imitation of this tire. The result is many cushion pneumatic tires on the market of varying price, none, however, equal to our Improved Goodyear, a combination of a pneumatic and a cushion tire. Made entirely of new rubber and finest Sea Island cotton fabric cut on the bias, insuring the most resilient and longest lasting cushion tire sold today. No heavy, hard pulling sensation. Additional layers of cotton fabric protect heavy walls as shown, and improved tread makes it practically puncture proof. Thickness of walls practically prevents nails, tacks, broken glass or tin cans from puncturing air tube. Air chamber ¾ inch in diameter, lined with pure rubber, runs within heavy walls, insuring exceptionally easy riding tires, softer and more elastic than ordinary cushion tires and requiring pumping up only once or twice a season. Shipping weight, 8 pounds.

No. 19H1828 Improved Cushion Pneumatic Tires. Size, 28x1½ inches. Price, per pair..... **$7.95**

Can be attached to any of our bicycles in place of our America tires at $4.55 additional.

...¢ A PAIR IMPERIAL DOUBLE TUBE TIRES.

Absolutely Reliable.

Large sales on this tire prove it meets with the satisfaction riders desire from double tube tires. Continual hard service proves its strictly reliable, high grade qualities. Surpassed by no other double tube tire made, regardless of price. Construction is unusually good, the part the first to show signs of wear, the tread, getting special attention. Heavy raised tread aids against punc-...ture. Comfortable riding qualities not affected by heavy ...construction. Has high grade pure rubber inner ...Recommended to those who prefer double tube ...ment.

19H1846 Imperial Double Tube Tires. Size, ...1¾ inches. Be sure to state size desired. ...weight, 5¼ pounds. ...pair..... **$4.30**

$4.78 A PAIR GOODRICH SINGLE TUBE TIRES.

Preferred by many bicycle riders. Guaranteed satisfactory, serviceable tires of good quality. Price does not include pump or kit.

No. 19H1837 Goodrich No. 17 Tires. Size, 28x1½ or 28x1¾ inches. State size desired. Shipping weight, 5 pounds. Price, per pair. **$4.78**

$7.45 A PAIR DOUBLE TUBE CLINCHER TIRES.

G. & J. Detachable Tires.

Separate prices quoted for tires and rims for tires, rims not being included at price of tire. Pump and kit also extra.

No. 19H1875 G. & J. Tires. Size, 28x1½ or 1¾ inches. State size wanted. Shipping weight, 8 pounds. Price, per pair.. **$7.45**

G. & J. Tires furnished on any of our bicycles at additional cost of $4.50 to price of America tires.

No. 19H1877 Casing. Size, 28x1½ or 1¾ inches. Be sure to state size wanted. Shipping weight, 50 ounces. Price, each... **$2.77**

PROTECTION BANDS

Add One Year to Life of Old Tires.

Heavy rubber bands, 1¼ inches wide. Made extra thick in one piece. Cement over tread of any 28-inch tire with ordinary rubber cement. Enables rider to get much more use from tire worn on tread. Put on new tires, they make them more difficult to puncture. Illustration plainly shows band applied to tire. Shipping weight, 10 ounces.

No. 19H1890 Protection Band. Price, each..... **44c**

INSTRUCTIONS FOR ORDERING TIRES.

Be sure to order tires that will fit your wheel. To get proper size measure diameter of inflated tire from outer edge to opposite outside edge and measure width of tire. Size is ordinarily stamped or branded on side of old tire. If not, measure rim. Remember, size of tire is based on outside diameter of tire inflated. Rim measuring 25 inches in diameter from edge to edge requires 28-inch tire; 21-inch rim, 24-inch tire; 23-inch rim, 26-inch tire; 25-inch rim, 28-inch tire, etc.

Digitized by Google

$4.10 A PAIR — MATCHLESS AMERICA TIRE

MADE PRACTICALLY WEAR AND PUNCTURE PROOF BY OUR UNEXCELLED CONSTRUCTI
MADE PRACTICALLY COMPETITION PROOF BY OUR UNEQUALED LOW PRICE

Our Matchless America Tire is specially constructed by a method of tire building absolutely different from any employed in any other We are enabled to combine in one tire the features that mean speed, resiliency and fast, easy riding with those features that stand for wond durability and practically puncture proof qualities. This improved construction gives us the only tire which absolutely satisfies the most exa tire requirements of the cyclist. Made by one of the world's most experienced tire manufacturers; every ounce of it represents satisfaction. alone is responsible for its wonderful popularity. Despite the increased cost of tire construction, our enormous sales on this tire enable our ufacturers to buy their raw material at lowest market prices and permit us to maintain for this season our amazingly low price of $4.10 a making it the greatest tire value ever offered. This se we have even improved upon its previous high qu Remember, if this tire is not absolutely satisfactory re it to us and we will return your money gether with any charges you paid. Read wonderful guarantee given below.

NOTICE—Ladies' and Bicycles always requir inch tires. Do not order of a smaller size wanted for a Jun Bicycle.

WE SELL THIS TIRE UNDER AN AMAZINGLY LIBERAL GUARANTEE. IT'S WORTH WHILE READING!

This tire has practically puncture proof qualities obtained through a wonderful secret process by which we chemically prepare the inside pure rubber air tube so that practically all punctures are self closing and self healing. The air chamber quickly closing prevents air from escaping if the two layers of armor fabric become punctured. Any pneumatic tire may become punctured, but owing to our secret process and our unequaled construction, nails, tacks, glass, sharp stones, splinters and other small road obstructions will not cause the mischief they ordinarily do. Remember, this tire saves you 90 per cent of ordinary punctures, and although no other high grade tire is ever guaranteed for more than sixty days, this tire is sold at the phenomenally low price of $4.10 a pair under the most satisfactory, most binding and longest term bicycle tire guarantee ever given.

Note the unequaled high grade construction of this wonderful tire, as shown in the illustration. The new link chain non-skid tread shown is the most practical and scientific tread ever made. A wonderful secret process gives these tires amazing puncture defying qualities. This secret process is patented and can be used under license only. In our America tire alone are you sure of getting the original and always best puncture proof tires. The heavy side walls are even heavier than those ordinarily used on high grade tires, yet our construction has admittedly enabled us to maintain its wonderful speed, lightness and great resiliency. Note the many layers of Sea Island cotton and armor fabrics and the quantity of finest washed Upper River Para rubber, so combined in semi-liquid form that alternate layers of pure rubber and fabric laid one upon the other and thoroughly cemented together make practically one piece. We then employ our improved method of slow vulcanizing, which positively prevents a loss of elasticity and resiliency in the rubber. The rapid method of vulcanizing ordinarily used subjects the tire to an extraordinary heat for a few moments and actually burns the life out of the rubber, causing it to soon lose its resiliency and wear out. No reclaimed rubber whatsoever is used in this tire. Every tire is carefully inspected and tested before leaving our factory.

WE GUARANTEE to absolutely protect every purchaser of America Tires and to replace or repair free of charge any tire which is unsatisfactory through defective material or imperfect workmanship, regardless of length of service. So liberal a guarantee has never before been given on any bicycle tire made, regardless of its retail price.

A—Sectional view of complete showing extra thick link chain no tough rubber tread. Note thick side
B—Special thick layer of closely armor fabric, chemically treated, cally puncture proof and made fro best quality of Sea Island cotton.
C—Pure gum rubber reinforcing
D—Tough interwoven puncture chemically treated fabric.
E—Pure gum rubber reinforcing
F—Special two-ply Sea Island woven friction fabric.
G—Special layer of closely woven fabric, chemically treated, prac puncture proof, made from best Sea Island cotton.
H—Best grade pure rubber tube chamber, chemically treated.
J—Special flannelette strip vulc to tire, which protects the rim tire from rim wearing, and hav rough outer side which offers a fre face to which the rim cement can and prevent the tire from creeping.
K—Genuine Universal Schraeder

No. 19H1805 Matchless America Tires. Size, 28x1½ inches. Shipping weight, 6 pounds. Price, per pair..... **$4.10**

$6.10 A PAIR — OUR GUARANTEED COLUMBIA COMBINATION CLINCHER TIRE

Our Guaranteed Columbia Combination Clincher Tires represent the greatest achievement in the development of the bicycle tire since the introduction of the single tube, for those cyclists who prefer double tube clincher style tires. A prohibitively high price has heretofore prevented double clincher style tires from becoming more popular. After constant experimenting our mechanical experts have succeeded in perfecting a clincher type of tire which will absolutely satisfy the most exacting requirements as regard quality, utility and price. Our Columbia Tire represents the result of these experiments. It possesses many advantages over the ordinary single or double tube tire. It is adapted for G. & J. rims, also for the improved single clincher metal lined wood rims, and for all steel clincher rims, an adaptability which gives it a great advantage over the ordinary higher priced double clincher style tires. This tire is easily and rapidly attached and detached, no special tools being required. The use of cement is unnecessary. The inner tube is readily exposed in case of puncture and a satisfactory repair easily made without removing wheel from frame. All surfaces of casing are easily accessible, and cuts or punctures can be quickly repaired, or vulcanized when necessary.

The excellence of their construction is most marked. Our extra heavy wear resisting tread is ordinarily used only on the very highest priced tires; its use does not affect the wonderful speed, resiliency and life of the tire. Several layers of choicest Sea Island cotton are carefully alternated with resilient, long lasting pure rubber. The illustrations clearly depict the adaptability of this tire for the various styles of rims previously mentioned. We have made this tire the most practical and attractive clincher tire ever built, and are enabled to offer it at a distinct saving in price. We sell Columbia Tires subject to these absolutely unprecedented liberal conditions: Send us your order for a pair of these tires, use them for ten days, ride them over all kinds of roads, subject them to any tests you desire, compare them with any other clincher tires, and if you are not then absolutely convinced of their superiority, return them to us and we will return your money and any charges you paid.

A—Sectional view of complete tire, showing extra heavy, non-skid, corrugated, tough rubber tread. Note thickness of tread and side wall.
B—Thick, closely woven, wear resisting, extra long fiber fabric layer.
C—Pure gum rubber reinforcing jacket. Made of the finest washed pure Upper River Para rubber. Unites with approved fabric layers B and D to form a perfectly vulcanized one-piece construction.
D—Thick, closely woven, wear resisting, extra long fiber fabric layer.
E—Pure gum rubber inner tube.
F—Genuine G. & J. Schraeder valve.
G—Especially constructed single clincher beads, made to fit any style of clincher tire.

NOTE—We can furnish Guaranteed Columbia Combination Clincher Tires as part of the equipment of your new bicycle at an additi price of $3.70 to the catalog price of the bicycle fitted with Matchless America Tires. **In ordering be sure to state size desired.** Shipping we per pair, 7 pounds.

No. 19H1800 Guaranteed Columbia Combination Clincher Tires. Sizes, 28x1½ inches. Price, per pair..... $6.
No. 19H1801 Casings only. Shipping weight, 3 pounds. Price, each ..... 2.

50 Wonderful Armless Peerless Coaster Brake

THE COASTER BRAKE IS UNDOUBTEDLY THE MOST VALUABLE IMPROVEMENT IN CYCLING HISTORY.

Our Armless Peerless Coaster Brake Shows All Late Coaster Brake Improvements.

Our wonderful Armless Peerless Coaster Brake has quickly won a reputation as the finest coaster brake ever offered cyclists, although it was introduced only four seasons ago. It is built on new principles of construction, being small, unique, light weight, automatic and absolutely positive in action. It is universally recognized as being far superior to the heavy, complicated, clumsy brakes once the recognized standard. We sell this wonderful brake at a price much lower than the regular wholesale cost of other standard coaster brakes. It is unsurpassed in effectiveness and general design by any other standard coaster brake, all of which retail for at least [illegible]. The special attractive prices we quote on our [illegible]ster model bicycles even eclipse the wonderfully [illegible] price at which we sell the brake alone.

The points of superiority of this brake are many. [illegible]has no heavy, cumbersome, unwieldy side arm [illegible] causes a brake to run hard and tire the rider. [illegible]le in construction, compact in form, neat in [illegible]arance, resembling an ordinary rear hub, and [illegible]ghs only 25 ounces. Wonderfully effective in [illegible], although containing fewer parts than any [illegible] coaster brake. Note its extreme simplicity. [illegible] simply a barrel hub containing a special com[illegible]ion metal shoe resting upon a half screw which works silently and [illegible]ly. A slight backward pressure on the pedal automatically [illegible]s into play a powerful metal brake, the degree of pressure con[illegible]ing the speed of the wheel. It cannot slip when changing from one [illegible]ition to another, its action being absolutely positive. It has no [illegible]ion except in its bearings either when pedaling or coasting, regard[illegible] of speed or steepness of the descent.

The hub cannot lock, hence wheel is always free to go backward or [illegible]ard. It is entirely automatic in action, requires no special knowl[illegible] to operate, and does its work without aid of springs, levers or side arms. Simply pedal forward when you wish to go ahead, stop pedaling when you wish to coast (the momentum of the bicycle carries it along in the latter event), and back pedal slightly when you wish to stop. You can coast practically half the distance on the average trip. You can descend the steepest hill as easily as you can travel the level stretches. One of the few brakes that can be adjusted without removing from the frame. With most other brakes the wheel must first be detached and the chain removed from the sprocket, thus loosening the entire brake adjustment in simply regulating the adjusting cone.

Put a Peerless Coaster Brake on your old bicycle, or, better yet, buy a Peerless Coaster Brake Bicycle, and cycling will afford you an unexpected degree of pleasure. This brake will prove its worth to you when the slightest mishap endangers life or limb; in descending a steep hill, or turning a corner suddenly and finding a serious obstacle in your path. You must instantly call into play all your strength, skill and nerve at this time, and even then you may not escape serious injury unless you have fortunately equipped your bicycle with a coaster brake.

We are so sure this brake will more than satisfy your highest expectations that we make this most liberal offer: Buy one of our coaster brake model bicycles, use it sixty days, and if you do not feel that it is the best coaster brake you can buy, return the rear wheel with brake and we will express to you, charges prepaid, a regular rear wheel fully equipped for your bicycle and return to you $3.00, being the difference in price between the coaster brake model and the roadster model bicycles. We can furnish these hubs complete, drilled for 28, 32 or 36 spokes, with 7, 8, 9, 10 or 11-tooth sprockets, for either 3-16 or ¼-inch chain. We can also furnish 14, 16, 18, 20 or 22-tooth sprockets for ½-inch pitch roller chain. Roller chains with 1-inch pitch take sprocket with, 7, 8, 9, 10 or 11 teeth. When ordering be sure to specify number of spokes and size of sprocket. Unless otherwise specified, we will ship you a hub for 36 spokes, with a 9-tooth sprocket with a 3-16-inch chain line. We will ship you an 18-tooth sprocket for use with ½-inch pitch roller chain, unless otherwise ordered.

Note—This hub can be attached to any bicycle or fitted on any of our roadster model bicycles now in use by any repair man at slight expense.

No. 19H1985 Improved Armless Peerless Coaster Brake and Hub. Shipping weight, 30 ounces. Price..... **$3.50**

No. 19H1987¼ Rear Wheel, complete with Peerless Coaster Brake and Hub, spokes properly laced, wheel trued up ready to [illegible] to bicycle. Size, 28 inches. Shipping weight, 5 pounds. Price..... **4.05**

No. 19H1988¼ Rear Wheel for Columbia and G. & J. Clincher Tires, equipped with Peerless Coaster Brake and Hub. Price..... **4.25**

Note—Add 8 cents for enameled rims. For colors of same see No. 19H2172¼.

GUARANTEED INNER TUBES.

Finest Butt End Tubes.

Our inner tubes are of unexcelled quality. We have such confidence in their merit that we guarantee satisfaction with every tube, otherwise you can return it to us and we will return your money and any charges you paid. We sell them, too, at unequaled low prices. Every tube is specially made from the very finest rewashed upper river Para rubber, with double reinforced butt ends and improved standard cloth inserted valve stem construction. We use a special process for closing the ends, known as the butt end method of closing, and positively warrant every butt end tube not to blow out. You can restore your old bicycle to first class riding condition if it has porous tires, either single or double tube, by using one or more of these inner tubes.

IMPROVED SEARCHLIGHT GAS LAMP.

$2.08

This celebrated lamp is the finest and most wonderful light giver used on a bicycle. Improved features make it the strongest, most practical and economical gas lamp sold. Equipped with unequaled Duplex reflector and powerful polished lens. The resulting light produced penetrates the darkness and illuminates the road far ahead. The Improved Searchlight is absolutely automatic in action. The cost of running has been reduced to less than 1 cent an hour, gas being generated only as fast as it is used. Made of beautifully polished nickel plated brass, with reinforcements in every part. The only bicycle lamp that can be instantly taken apart for cleaning. Has removable lens, protected reflector, imported tip and needle valve. New special universal bracket makes it adjustable to fit any bicycle either on fork or head. Extra large carbide capacity. Height, 8 inches. Shipping weight, 35 ounces.

No. 19H2005 Improved Searchlight Gas Lamp. Price... **$2.08**

Bicycle Lamps.

In ordering oil lamps please remember that our oil lamps burn common kerosene or coal oil sold everywhere. Gas lamps use calcium carbide.

Note—All of our lamps are of standard make, guaranteed against imperfections in material and workmanship. Read carefully the instructions furnished with each lamp. We cannot accept for credit or exchange lamps purchased from us that have been used, unless they are positively defective.

Our Light Weight Oil Lamp.

82c

All brass, handsomely nickel plated Lamp, head bracket. Guaranteed satisfactory. Parts will not loosen through melted solder. New improved design and construction. Burns kerosene. Best value ever offered at this price. Height, 5¾ inches. Shipping weight, 17 ounces.

No. 19H2018 Light Weight Lamp. Price **82c**

Columbia Oil Headlight.

$1.27

Made stronger, lighter and simpler than ever; greatly improved to increase its former wonderful light giving capacity. Has protected reflector, special rigid adjustable bracket, fitting any angle of fork or head, large jeweled side lights and self locking wick, regulated to prevent jarring out. Burns kerosene. Handsome brass construction, nickel plated. Shipping weight, 24 ounces.

No. 19H2022 Columbia Oil Headlight. Price **$1.27**

Columbia Latest Improved Gas Headlight.

$2.18

Constructed on entirely different principles from ordinary gas lamps. The only lamp where the gas pressure and water supply are controlled by a gas cock. One charge of carbide is used continuously until exhausted. Can be turned down or out like a barn lantern. Lights instantly and does not jar out. Fitted with a strong aluminum parabola reflector and 2¼-inch lens, handsomely made of brass, nickel plated and beautifully polished, with every part reinforced. Gives a powerful light, out of proportion to its size. Height, 5½ inches. Weight, 18 ounces. Fitted with bracket as shown in illustration. Shipping weight, 32 ounces.

No. 19H2011 Columbia Latest Improved Gas Lamp. Price **$2.18**

Carbide.

Note—In order to conform with the insurance laws, which prohibit the handling of high explosives and combustible materials in connection with other lines of merchandise, we are forced to omit carbide from our stock. The same ruling applies to other explosives and combustibles such as gunpowder, dynamite and flash light powder.

Shoe Valve.

No. 19H1927 Extra large, especially designed to repair single tube tires where valve stem has been torn out and surrounding tire surface is badly torn. Shipping weight, 2 ounces.

BICYCLE WHEELS.

All our wheels have a coat of XX hard cement which, moistened with gasoline or benzine, makes the wheel ready for tire. Placed on an old bicycle with poor hubs they will help restore the bicycle to first class condition. Guaranteed high grade rims, spokes and hubs. Standard crescent shape rims which take 28-inch America, Napoleon, M. & W. Tires, etc. Bearings finely constructed for hard service; cones and cups extra hardened, hubs heavily nickel plated. Heavily nickel plated spokes of great tensile strength. Wheels for juvenile tires 24 and 26-inch furnished on order, same price as 28-inch wheels. We cannot supply odd size wheels. Weight, about 2½ pounds each. For Peerless spindle hubs add 30 cents, and for enameled rims add 8 cents. For colors see No. 19H2172¼.

Guns and Sporting Goods

LARGEST GUN, AMMUNITION AND SPORTING GOODS BUSINESS IN THE WORLD

HE LARGEST DEALERS and as manufacturers we are able to offer values in fire arms that cannot be . In addition to handling the most reliable, dependable, standard ire arms, we exclusively sell the celebrated Meriden and Aubrey guns and rifles, made exclusively for us in our own factory, the Fire Arms Co., Meriden, Conn. The Meriden Fire Arms Co. is the largest and best fire arms factories in rld. The quality of its is known to be ab- the best.

ERIDEN AND AUBREY ARMS are strictly machine made, sub- the most thorough system. ection and tests, covered most liberal and binding tee issued by any manu- . The prices on Meriden brey fire arms, in compari- ith prices asked for other do not indicate the high of these goods, inasmuch prices are, in many cases, less than one-half of what goods of a quality in other makes are sold at. The reason for the low prices den and Aubrey fire arms is evident when you consider that owning tory ourselves, we are able to eliminate the manufacturers' large the wholesale dealers' profit, the big advertising expense that all anufacturers experience, the salaries of salesmen and professional shooters, which we do not employ, and all of the expenses involved in marketing goods through the regular trade channels, which we overcome by selling the guns direct from manufacturer to shooter.

The Factory.

The Guarantee.

THERE ARE OVER 100,000 SHOOTERS of Meriden fire arms today, which indicates the high esteem and regard shooters have for this high grade of fire arms.

REMEMBER, all Meriden and Aubrey guns are sent out on thirty days' trial and are covered by a 20-year guarantee, which gives you an opportunity to thoroughly test the gun for a period of thirty days, with the privilege of returning it if you are in any way dissatisfied with it, and we will return your money and transportation charges. The guarantee covers all defects in material and workmanship for a period of twenty years from date of purchase, which is practically equivalent to guaranteeing the gun for a lifetime, for if there are any defects they will certainly develop within the twenty years allowed by our guarantee. Owing to the high quality of Meriden fire arms, we have fewer returns, in spite of our liberal guarantee, on Meriden fire arms than on many of the so called standard makes.

If you are in the market for a double or single barrel gun, hammer or hammerless, or a 22-caliber rifle, it would be to your interests to purchase a Meriden or Aubrey fire arm.

38.50 For The Diamond Grade Meriden Hammerless Gun

ufactured by the en Fire Arms Co., eriden, Connecticut.

A $75.00 GUN for $38.50

No. 6H58

THIS GUN can only be compared with such guns as other factories make to order only, at prices ranging from $75.00 to $100.00. No other manufacturer or dealer carries a stock of guns of this class. Before we manufactured these guns in quantities and carried them in stock, before the Meriden gun was known as extensively as it is at the present time, we too, made this gun to order only and charged not less than $60.00 for a gun of this grade and quality. We succeeded in working up a business sufficiently large on this grade of gun to manufacture them in quantities, where heretofore we, the same as other factories at the present time, manufactured them singly, and by reason of manufacturing this gun in quantities we were able to effect economies in manufacturing which, together with the fact that we own the Meriden Fire Arms Co. and are able to eliminate all manufacturers' and wholesalers' profits, enables us to offer this gun at less than half its regular value. This gun represents the greatest development of American skill in gun The work throughout is all in harmony; it is finished as fine in every detail as the ed watch; the engraving is all done by hand by most skilled engravers. It is delicate, rt and will excite the admiration of the most severe critic. The engraving on the lock , tang and trigger guard is all done by the same artist and is, therefore, absolutely The case hardening and finish on the frame and barrels of this gun is of the highest d the checkering on the stock and fore-end represents the best skill of expert wood The expense of checkering the stock and fore-end of this gun is five times as great as that inary gun. The barrels of this gun are the best imported three-blade Damascus steel, a neat, rich brown, taper choke bored, beautifully polished inside. The stock and fore-end are made of selected walnut of handsome grain. The gun has a balance and hang to it rarely found except in the highest priced made to order guns.

No. 6H58 Meriden Hammerless Shotgun. 12-gauge, 28, 30 or 32-inch barrels carried in stock (26-inch barrels made to order, requiring several weeks' delay); barrels of the finest imported three blade Damascus steel; regular stock, full choke bored (can be furnished cylinder bored or one barrel cylinder and one barrel choke bored, if desired, to special order); full pistol grip, rubber cap stock. **Be sure to state length of barrels wanted.** Weight, 7½ to 8 pounds. Weight, packed for shipment, about 14 pounds.
Price **$38.50**

$50.00 GUN MADE BY THE MERIDEN FIRE ARMS CO., OF MERIDEN, CONN., FOR $26.45

IS TOURNAMENT GRADE AUBREY DOUBLE BARREL ERLESS GUN we are offering a value such as cannot be duplicated in any other make of fire arms. We urge that you compare this gun with guns ers at prices ranging from $35.00 to $60.00. Bear in mind that not only is this an well made gun, being triple bolted, taper choke bored, all lock parts of the best eel, accurately machined, but it is an artistic and highly fin- The engraving and checkering on this gun cannot be dupli- other make of gun for less than $50.00. The beautiful game all engraved by hand by expert engravers, and is as carefully the work on a high priced watch. The checker- stock and fore-end is the work of experts and expense of time and labor more than required for checkering an ordinary gun.

THE ILLUSTRATION CANNOT DO THIS GUN JUSTICE. The beautiful engraving, offset by the artistic case hardening of the frame and locks, the high finish on the stock and fore-end, the artistic and graceful lines and the beautiful balance of this gun can be neither described nor illustrated. To appreciate what a beautiful gun this really is, it is necessary that you see it. We shall be glad to ship you one of these guns with the full understanding that if you do not find it all we claim it to be and fully up to your expectations you have the privilege of returning it to us at our expense, and we will return your money, together with the transportation charges.

No. 6H55

THE STOCK AND FORE-END are made of selected walnut with a beautiful grain. **THE FRAME** is beautifully case hardened in mottled colors, handsomely displaying the exquisite engraving.

THE BARRELS are taper choke bored. The mechanism of this gun is the same as on all our Aubrey guns, the strongest and safest mechanism made. (See following page for full description.)

No. 6H55 Aubrey Special Hammerless Gun. 12-gauge, 28, 30 or 32-inch Genuine Krupp Steel Barrels. Every gun guaranteed for twenty years. Weight, 7½ to 8 pounds. Price **$26.45**

Digitized by Google

FIELD GRADE AUBREY DOUBLE GUN

Treble Bolted. **MANUFACTURED BY THE MERIDEN FIRE ARMS CO.** 12 or 16-Gauge.

$13

A STRONG AND SUBSTANTIAL GUN, MADE OF THE BEST MATERIAL, BUILT FOR HARD SERVICE AND TESTED BY THE SAME METHOD AS OUR HIGHER PRICED GRADES.

OUR PRICE OF $13.85 for this field gun does not permit of elaborate engraving or the special artistic finish employed in the higher priced grades, nevertheless this gun is finished better than any $20.00 or $25.00 hammerless gun on the market, and in regard to safety, strength, shooting and wearing qualities, will give the same satisfaction as the higher priced, elaborately finished guns.

DURING THE PAST FIVE YEARS there has been a decided slump in the sale of high grade, standard double barrel guns. The Aubrey and Meriden are the only high grade guns that have shown a steady increase. The Meriden Fire Arms Co. is one of the very few factories that have found it necessary to increase its output season after season. The reason for this is simple. Sportsmen realize that it is no longer necessary to pay fancy prices for a high grade shotgun; they realize that when they buy a Meriden or Aubrey gun, they are paying a price based on the actual cost of material and labor, and are not contributing toward the salary of professional shooters or salesmen, nor for any other elaborate and expensive methods of advertising.

THERE ARE OVER 100,000 enthusiastic, satisfied users of Meriden fire arms in this country today. We know they are satisfied because they voluntarily write us enthusiastic words of praise of these splendid guns. We shall be glad to send you a booklet entitled "The Man Behind The Gun," which contains the opinions of many of these sportsmen. It is interesting reading for lovers of sport.

PRICES ON AUBREY AND MERIDEN GUNS are not made with a view to giving the factory, jobber and retailer a satisfactory profit. That is why we can sell a gun of standard construction, made of the best materials by the best machinery and labor that money can buy, at a price less than half what you would have to pay for any other gun of equal quality. The Meriden factory is owned by us, and prices on Meriden and Aubrey guns are based on the actual cost of material and labor, with the addition of but one small profit.

THE MECHANISM of the Meriden guns is exceedingly simple, as the accompanying illustrations show. The number of parts is reduced to the minimum, and all working parts are made to stand rough wear and hard usage. The best hardened steel is used and the most up to date machinery and expert workmen employed. All parts of Meriden guns are absolutely interchangeable.

THE SAFETY is absolutely positive and firmly blocks both triggers. It is also entirely automatic in its action.

THE HAMMERS are cocked with a direct thrust, eliminating all lifting or breaking strain on the gun.

ALL WORKING PARTS, such as the sears, hammers, firing pins, and all pins carrying working parts, are made of the finest quality tool steel, accurately ground and tempered, and guaranteed against frictional wear. We use no soft steel in any part of the Meriden guns.

SHOOTING QUALITIES OF AUBREY AND MERIDEN GUNS. These guns are famous for their excellent shooting qualities. They are choke bored on the taper system. We do not swage or jug choke our guns, as this method, while inexpensive, is also unsafe and will not produce the results of a taper bored gun. In the Aubrey or Meriden guns the choke is bored from breech to muzzle by skilled workmen, and the metal necessary for strength and safety is left in the barrel. Through our improved method of boring we get results in target and penetration not found in any other make of gun. These guns will bring down game at a greater distance than any of the ordinary double barrel guns and you can bring down game that the other fellow misses.

over the box or solid frame type is easily expl

on the lock plate, and the mechanism is accessible by simply moving the screws which h
plate, and all parts being interchangeable, repairs can be made or parts replaced by an
whereas in the box frame type of gun, the mechanism is all concealed in the fr
requires considerable skill to make repairs or replace any part.

THE TRI-PART LOCK OF THE AUBREY OR MERIDEN GUN is the acme of simplicity in gunlock construction. As shown in the illustration, the lock of this gun consists of but three working parts, namely, the hammer, mainspring and sear. The hammer and sear are made of the finest tool steel, guaranteed against wear. The mainsprings are all oil tempered, and every spring is put through a rigid test, an absolute protection against misfir
are no better springs than those used in these guns.

WE NOW USE model Deeley fore-end o hammerless
This fore-end engages with the fore-end lug o construction, insuring a positive and rigid faste permitting of instantaneous removal by simply ra lever, a big improvement over the various types fore-ends used by other manufacturers.

THE BREECH, heavily reinforced and multi-bolted, is shown in this illustration, also the two heavy steel bolts and extension rib with cross bite, giving you at a glance an idea of the wonderful strength, durability a struction of these guns.

22.98 THE MERIDEN EJECTOR MODEL DOUBLE GUN

MANUFACTURED BY THE MERIDEN FIRE ARMS CO., MERIDEN, CONN.

$22.98 IS THE LOWEST PRICE that has ever been made on an ejector model double gun. Heretofore ejector model guns were and even at the present time are sold for $25.00 and upward. These guns offered at $25.00 to $35.00 do not compare in quality, finish or construction with this Meriden Ejector Model Gun, made in factory under the supervision of the most expert workmen. This price of $22.98 is only through the fact that we make these guns in our Meriden factory and are obliged to include in our price heavy selling expenses, or the salaries of jobbers. We manufacture these guns in quantities twice as large as manufacturers, and are therefore able to offer you this gun at a price that is really below the ordinary manufacturer's cost, quality considered.

MECHANISM and general construction of this gun, in addition of the ejector, are the same as our regular line of Aubrey and Meriden guns described on previous pages, and are the strongest and most simple and construction known.

THE EJECTOR on this gun contains fewer working parts than almost any other ejector on the market. It is absolutely automatic in its action and is guaranteed not to get out of order. The mechanism of the ejector is all contained in the fore-end and is operated by the cocking levers. When the trigger is pulled the cocking lever automatically trips the ejector and the discharged shell is automatically ejected clear of the gun when the gun is opened. The ejector works independently and will eject either left or right shell, or both; in other words, the ejector will eject only the shell that is discharged. It will work as a positive extractor when the shells are not fired.

No. 6H35

THIS EJECTOR GUN, the same as all Aubrey and Meriden guns, is fitted with our automatic safety, which blocks the sears, preventing all danger of accidental discharge.

THE BARRELS of this gun are made of genuine imported Krupp steel, a special grade of very tough steel of fine grain, especially adapted to gun barrels, which takes a beautiful finish and which possesses unlimited wearing qualities. These barrels are finished in a deep, rich blue and are taper choke bored. The choke is bored in the barrel from the breech to the muzzle, causing these guns to shoot with penetration and target not found in any other make of gun.

FRAME is beautifully case hardened. The locks are handsomely engraved, as shown in the illustration. The stock and fore-end are made of the finest selected walnut; in fact this gun is of the same as Aubrey or Meriden construction throughout. The material, workmanship, alignment and proportions are absolutely the best.

Made in 12-Gauge only, 28, 30 or 32-Inch Barrels.
Be sure to state length of barrels wanted.

Catalog No.	Style of Barrels	Gauge	Length of Barrels	Weight	Finish	Price

Weight, packed for shipment, 14 pounds.

6.35 THE AUBREY LATEST MODEL HAMMERLESS SHOTGUN

A VERY POPULAR GRADE AUBREY GUN, designed particularly for the man who wants a better finished and fancier gun than the regular grade. The difference between this gun and our $13.85 gun is in the selection of wood in the stock and in the handsome hand engraving on the lock plates, as shown in the illustration. No other make of gun of comparative grade engraved and finished as this Aubrey $18.85 is, could not be purchased for less than $30.00.

GUARANTEED FOR 20 YEARS

GLOBE SIGHT FREE

We include with every one of these guns one of our celebrated Patent Globe Sights. These sights are of great value to the shooter, and may be instantly attached or detached without interfering in any way with the regular sight.

BE SURE TO STATE LENGTH OF BARRELS WANTED

DESCRIPTION

THIS GUN is made in 12-gauge only (for 16-gauge, see our No. 6H53 gun below), 30 or 32-inch barrels, full choke bored on the Aubrey taper system, treble bolted, two under bolts and cross bite extension rib. The stock and fore-end are made of selected walnut, beautifully finished and finely checkered by hand. Improved automatic positive safety. The frame and lock plates are handsomely case hardened. All parts are interchangeable. The gun, from muzzle to butt plate, is finely finished, and every detail has been carefully looked after. The shooting qualities of this gun, the same as of all Aubrey or Meriden guns, are unexcelled. We guarantee our Aubrey or Meriden guns to be unexcelled in target and penetration. Note previous page for illustrations of the working parts of this gun.

Catalog No.	Grade	Style of Barrels	Gauge	Length of Barrels, Inches	Weight, Pounds	Finish	Price

22.25 THE AUBREY HAMMERLESS GUN WITH GAME ENGRAVING

MADE BY THE MERIDEN FIRE ARMS CO., MERIDEN, CONN.

$22.25 AND $22.45, with two-blade Damascus barrels; these are our prices for these beautiful guns with hand engraved locks and frame and selected walnut stocks, guns such as you could not duplicate elsewhere for less than double our price. The finish, the lock work, the close fitting, the fine checkering, the handsome stock and the beautiful proportions and balance of these guns are better than can be found on almost any other make of gun, regardless of price. If you want a gun that combines beauty with strength and shooting qualities that will last you a lifetime, which will cost you more than any $50.00 gun of any make in your neighborhood, we would advise you to purchase this grade of gun. The mechanical construction and general outline are the same as Aubrey or Meriden and what we say in this regard of any of our Aubrey or Meriden Double Barrel Hammerless Guns is true of all. The illustration we show is taken from an actual photograph, and while an exact reproduction, it nevertheless fails to do the gun justice, as this gun must be seen, handled and brought to the shoulder in order to appreciate its wonderful balance and beautiful outline. Guaranteed for either black or smokeless shells.

12 or 16-Gauge

Bear in mind that our liberal thirty days' trial offer and our twenty years' written guarantee apply on all Aubrey or Meriden guns.

Our Improved Patent Globe Sight free with these guns.

DOUBLE BARREL HAMMERLESS GUN OUTFIT $15

THIS OUTFIT CONSISTS OF one genuine Aubrey Hammerless Shotgun, one box smokeless loaded shells, one bottle of Three-In-One Oil, one Daly Wire Gauze Shotgun Cleaner, one Globe Sight, one Cleaning Rod complete with three attachments, and a solid grain leather Gun Case.

THE AUBREY GUN included in this outfit is fitted with the finest crystal steel barrels, selected checkered walnut stock, full pistol grip, fancy rubber cap and butt plate, patent snap, checkered walnut fore-end. The frame is beautifully case hardened, and the barrels are full taper choke bored, 12-gauge. This gun is the equal of any $25.00 gun on the market. There is no gun today sold at $25.00 that excels the Aubrey in durability, finish, shooting qualities and mechanical construction. Every gun is covered by a binding written guarantee, covering a period of twenty years.

The bottle of Three-In-One Oil is the regular 25-cent size. The very best oil for guns and revolvers.

The Gun Case is made of a good quality case leather, leg o' mutton style, Canton flannel lined, inside rod pocket, lock buckle fastening, handle and shoulder sling. A first class case in every way. Regular $3.00 value.

The Gun Cleaning Rod is the fine applewood three-joint rod, with brass couplings and three cleaning implements.

WHY WE SELL THIS OUTFIT AT SO LOW A PRICE.

We make the Aubrey gun in our own factory at Meriden, Conn., one of the largest, most modern and best equipped factories in the United States. In this factory we are able to manufacture the highest grade guns at a minimum cost, a cost so low that we are able to sell guns made there at prices lower than the average manufacturer's net cost. The Aubrey gun which we sell for $13.85 cannot be duplicated in quality anywhere for less than $25.00. We back this statement by giving you permission to return the gun at any time within thirty days and we will return your money and the transportation charges.

The confidence we have in these guns is shown by our twenty-year guarantee fects, the longest guarantee ever issued on a fire arm. We are desirous of introducin guns. Knowing that these guns, introduced into any community, mean orders for ma are, with the main purpose of introducing the Aubrey Hammerless Gun, selli bined outfit, consisting of the six articles illustrated, at $15.90, a price at least $16. price at which you can purchase a gun of comparative quality. Weight, packed f about 25 pounds.

No. 6H54 Double Barrel Hammerless Gun Outfit. 12-gauge. 32-inch barrels. Price, complete.....

BERKSHIRE DOUBLE BARREL HAMMERLESS GUN, $11.90

Equal to Guns Sold Elsewhere for $20.00.

Made by one of the largest and best American manufacturers. Strictly machine made. All parts interchangeable. This is a well made, strongly bolted, well finished gun, and while not equal to the Meriden or Aubrey guns, it is a better gun in construction, material and shooting qualities than those sold elsewhere at $15.00 to $22.00. For the small difference in price between this and the Aubrey gun at $13.85, we recommend the Aubrey gun on account of its superior construction and durability. The Aubrey gun at $13.85 is a better gun than the average gun sold at $30.00. We suggest that before making a selection, you carefully read the description of Aubrey guns given on previous pages.

No. 6H108 Berkshire Hammerless Gun. 12-gauge, 30-inch only, armory steel blued barrels. Weight, 7½ to 8½ pounds; weight, packed for shipment, 14 pounds.
Price **$11.90**

REMINGTON SHOTGUNS

SHOOT POINTER SHELLS

MADE BY THE REMINGTON ARMS CO., ILION, N. Y.

UINE REMINGTON AUTOMATIC SHOTGUN $30.00

Manufactured by the Remington Arms Co., Ilion, N. Y., under the Browning patent. This gun is a five-shot, self loading magazine holding four shells in the magazine and one in the chamber. After the first shot, the recoil opens the breech block, automatically ejects the shell, carries the new shell from the magazine into the chamber and closes the block. In other words, to shoot the five shells it is simply necessary to pull the trigger five times. The gun is made with a solid breech, and is absolutely safe. The barrel is made of the highest quality carbon steel with reinforced breech. The frame and barrel are finished in military blue. Length of barrel, 28 inches, beautifully tapered from breech to muzzle, matted top frame; choke bored. Gun is fitted with pistol grip, selected walnut stock and walnut fore-end. Taken down in a moment's time and as quickly put together.

6H161 Remington Automatic Self Loading Shotgun. 12-gauge 28-inch barrel. Weight, 7¾ pounds. Weight, packed for shipment, about 14 pounds. Price..... **$30.00**

REMINGTON REPEATING SHOTGUN, $22.75

SIX-SHOT TAKE DOWN.

Made by the Remington Arms Co., Ilion, N. Y.

This is the latest product of the Remington Arms Co., one of the best repeating shotguns on the market. It has several very commendable features which give it the advantage over the ordinary type of repeating gun. The solid closed breech affords absolute protection to the shooter and also prevents dirt, snow or rain from getting into the action. The shells are all ejected from the under side of the frame and the shooter is, therefore, not annoyed by the empty shell flying into his face, as is frequently the case with repeating shotguns from which the shells are ejected from the top or side. This gun is of the hammerless type. The hammer is concealed in the frame, making the frame perfectly smooth. There are no projections to catch on the brush or clothing, causing accidental discharge.

These guns are all carefully inspected and tested and they are guaranteed by the Remington Arms Co. to give absolute satisfaction. Made in 12-gauge only, with a 30-inch fluid steel blued barrel, matted top frame, pistol grip walnut stock, 13¾ inches long, 2½-inch drop; weight, about 7½ pounds. Weight, packed for shipment, about 12 pounds.

$10.95 GENUINE TWIST BARRELS NEW ENGLAND WONDE

THIS NEW ENGLAND WONDER is made exclusively for us by one of the large Eastern gun manufacturers, and next to the Aubrey gun we consider it one of the best double barrel hammer shotguns on the market. In order to insure this gun being up to date in mechanical construction, outline and general appearance, we had the manufacturer follow closely along the lines of the famous Aubrey guns, and while, of course, this gun does not possess the patented and special features of the Aubrey or Meriden, nevertheless, in a general way it closely resembles them, thereby insuring its being absolutely up to date and modern, embodying all the latest improved features found in double barrel hammer shotguns.

MACHINE MADE. This gun is strictly machine made, all parts are interchangeable and should any piece or part break at any time, we can immediately replace it, and the parts being absolutely true to gauge, the gun can be repaired by anyone, although these guns are so durably constructed and the parts are so well finished and hardened that there is hardly any possibility of the gun getting out of order.

Place this $10.95 New England Wonder Gun alongside any of the ordinary ha sold by dealers for from $12.00 to $15.00, and you will at once appreciate the difference and vast superiority of this gun. In material, construction and finis way resembles the ordinary double barrel hammer gun. It i because it is so much better. Where the ordinary hammer gun single bolted, this gun is treble bolted. The same difference exten out the entire gun from muzzle to butt plate.

12-GAUGE
30 OR 32-INCH
BARRELS.

No. 6H81
$10.95

WITH EVERY ONE OF THESE GUNS we include one of our special patent Globe Sights, which is of great aid to the shooter in wing shooting, and which can be instantly attached or detached and does not in any way interfere with the regular sight on the gun.

DETAILED DESCRIPTION.

THE BARRELS of this gun are of genuine imported twist, heavily reinforced at the breech, adapting this gun to black or nitro powder. It is choke bored on the taper system, absolutely insuring the highest possible penetration and excellent target. The barrels are fitted with a finely matted extension rib and heavy steel lugs. Positive extractor. The frame, lock plates and all metal parts are beautifully case hardened in a mottled finish. The locks are of the improved bar lock type, rebounding. The frame is fitted with the latest style nitro firing pins, absolutely guarding against blowouts or escaping gases. Same style top lever and bolt action as found on the highest priced double barrel guns made, namely, the Improved Scott Action.

THE FRAME is a solid drop steel forging, not a malleable casting, such as is used on all Belgian guns and a great many American guns sold at the same or higher prices.

THE STOCK is made of carefully selected straight grain walnut, full pistol cap and finely checkered fancy rubber butt plate.

THE FORE-END is of fine walnut, patent snap. This gun is well propo beautifully balanced. It comes up to the shoulder with t any $25.00 to $30.00 gun.

No. 6H81 New England Wonder, 12-gauge only, 30 or 32-inch genuine twist barrels, full choke bored. Be sure to state length of barrels wanted. Weight, 7½ to 8 pounds. Price.....(Weight, packed for shipment, about 14 pounds.).....

$8.95 OUR AMERICAN MADE GUN

MADE ESPECIALLY FOR US UNDER CONTRACT.

WE WOULD ADVISE THE PURCHASE OF THIS GUN in preference to any of the ordinary Belgian guns on the market, as it is vastly superior, this gun being extra strongly bolted. The barrels are reinforced at the breech; gun has water table frame and nitro firing pins, rebounding hammers, is taper choke bored, with matted extension rib, selected checkered pistol grip stock with rubber cap and fancy rubber butt plate, and finely checkered walnut fore-end. Guaranteed to equal in pattern and penetration any $15.00 gun on the market. All parts are machine made and strictly interchangeable.

WE RECOMMEND THIS as being an excellent, safe, dependable that will give satisfaction, and as bei ordinary value for the money. It is not so good a gun as our gun at $12.59, but it is a good gun for the money, a better gun th the Belgian guns selling regularly for $11.00 to $12.00.

THIS GUN will be shipped with the un ing that if at the end of after giving it a thorough trial, you a tirely satisfied with it, you may retu we will return your money and any trans charges you may have paid.

Wing shooting made easy—Use a Leader Sight. See page 892.

$7.60 AMERICAN DOUBLE BARREL BAR LOCK SHOTG

THIS IS A GENUINE AMERICAN MADE GUN, made in an American factory according to up to date and modern American methods, vastly superior to the cheap foreign guns sold at $10.00. At our price of $7.60 it is unquestionably the greatest value, quality considered, ever offered in a double barrel American made hammer shotgun. Bear in mind that this is a guaranteed machine made American gun worth two of the ordinary imported guns. All parts are interchangeable.

WE DO NOT CLAIM this is an exceptionally fine gun, but we it is a durable gun and superior to the ord sold for $10.00 and up, and while we would advise the purcha Aubrey gun selling at $12.59, which is the finest double barr gun made, we nevertheless would be glad to receive your or of these guns and guarantee it to give satisfaction. It is bar lock gun with top snap break, choke bored barrels, stock, checkered fore-end; a genuine American made do bar lock gun. Guaranteed to be safe and r to give satisfaction.

No. 6H70

WITH EVERY ONE OF THESE GUNS we include our patent Globe Sight, which greatly aids the shooter in wing shooting. Is instantly attached and detached and in no way interferes with the regular sight.

HE AUBREY DOUBLE BARREL AMMER SHOTGUN

Manufactured by the Meriden Fire Arms Co., Meriden, Conn.

$12.59

The following illustrations will give you an idea of the ideal construction of the Aubrey Double Barrel Hammer Breech Loading Shotgun.

THE LOCK of the Aubrey gun, as herewith illustrated, is considered the best lock ever placed on a hammer shotgun. Note the two tumblers, enabling the use of a mainspring the same as is used in hammerless guns and avoiding the use of a tumbler with a stirrup, or hook, which invariably breaks. This gives the hammer a sweep and rebound not found in any other construction. The parts are all interchangeable and are made of the finest tool steel.

AUBREY DOUBLE REL HAMMER SHOT- is different from all other double barrel hammer guns matters that go to make this ndsomest, strongest, best bal- nd hardest shooting double bar- mer gun on the market. This gun nde in a factory equipped to make barrel hammerless guns, and in de- g and planning this gun, the lines of the rless gun were closely followed, with the that this Aubrey Double Barrel Hammer Gun, by the Meriden Fire Arms Co., is the best balanced st designed hammer gun on the market. One of the al objections that shooters have had to double barrel r guns has been the awkward lines, the imperfect dis- ut of weight, making the gun unwieldly and clumsy to . This objection has been overcome, and this gun lines up than the average double barrel hammerless. The work- nship throughout is high class; in fact, the only difference n this gun and the best hammerless gun is in the lock con- n, the hammers on this gun being on the outside, whereas on merless gun they are on the inside. Otherwise, in the matter erial, finish, outline, balance and shooting qualities, this gun ame as our celebrated Meriden and Aubrey double barrel ham- r guns. These guns are made in our own factory, the Meriden Arms Co., Meriden, Conn., celebrated for making the largest and eliable line of fire arms in the country. Making these guns in our ctory, of the best material, and employing only the most skilled en, and eliminating the usual big factory profits and the wholesalers' rsellers' generous profits, we are able to furnish this gun at a price just ne-half of what a gun of similar quality could be purchased for in any ake.

ACCOMPANYING ILLUSTRATION will give you a fair idea of the general appearance of this gun. The ation cannot do the gun full justice; the gun must be seen, handled and fore the shooter can realize all of its sterling qualities. The symmetrical the even distribution of weight, the full rounded, heavy breech, the fully finished barrels, taper choke bored and polished inside, the hand- ase hardened lock plates and drop forged frame, the low circular ding hammers, the finely checkered pistol grip walnut stock and checkered & Edge fore-end cannot be shown in the illustration.

E GUNS ARE ALL SENT ON THIRTY DAYS' TRIAL and are covered by a year guarantee; it is to your interests, if you are in the market for a double hammer gun, to order one of these Aubrey Double Barrel Hammer Guns, in ade or any of the higher priced grades shown on the following page, as by so you will obtain the greatest possible value and will receive a gun which, in construction, shooting qualities and durability, cannot be equaled in any other t any price.

ING MECHANISM. We especially call your attention to the fact that these guns are treble bolted. Almost all other hammer guns are single The barrels of this gun are securely bolted to the frame by three strong, powerful bolts, gaging with the lugs and barrels, the third engaging with the extension rib, making it abso- rigid and tight; it will withstand any factory load of black or smokeless powder.

MECHANISM In these guns is exceedingly simple. The illustrations shown on the opposite side of the page show the extreme simplicity of the mechanism, the few working parts, which are made of the best hard tempered steel. We use no soft steel stock in the Meriden or guns. All parts are made to withstand frictional wear, and with ordinary care will last a lifetime.

MERIDEN AND AUBREY GUNS are guaranteed for twenty years against defect in material and workmanship. If any part or piece gives out through ve material or workmanship within twenty years from date of purchase, it will be replaced free rge.

THIS ILLUSTRATION shows the heavy reinforced breech, the large, solid positive extractor, also the three bolts that securely hold the barrel to the frame, making this gun the most securely bolted hammer gun made. This bolting mechanism makes the gun rigid and safe, and absolutely prevents its shooting loose, a fault common with almost all other makes of hammer guns.

Treble Bolted

THIS PICTURE of a section of the matted rib that goes on these guns gives you an idea of the careful attention paid to every detail in the construction of these guns. This rib is beautifully matted, tapers gradually from breech to muzzle, and is the handsomest rib ever placed on a hammer shotgun, adding greatly to the beautiful appearance of the gun.

THIS IS AN ILLUSTRATION of a rough, unfinished steel forging, just as it comes from under the hammer. Compare this solid steel forging with the malleable castings used in most foreign and in a great many American made guns. These solid steel forgings are cut to shape in large, powerful milling machines, and when completed, are absolutely true to a thousandth part of an inch and possess unequaled strength.

Guaranteed For Twenty Years.

Note the heavy rounded breech.

DETAILED DESCRIPTION

E GUNS are made in 12-gauge only, with 30 and 32-inch barrels. The barrels are furnished in three grades, decarbonized steel, genuine twist and genuine two-blade Damascus. The barrels are all choke bored on the Meriden taper system, the ive method of boring barrels and, at the same time, the most effective. We positively do not bore any guns on what is com- n as the swage or choke method, where the barrels at the muzzle are squeezed, or swaged, to a smaller diameter than at the our barrels are bored from breech to muzzle, and the shot, as it travels through the barrel, gets an increased velocity, insuring um of penetration and an uncoveled target. The barrels are fitted with an extension rib with cross bite, as shown in the illus- n improved positive extractor and two heavy forged steel bottom bolts. **THE FRAME** is a solid drop steel forging, accurately finished, fitted with improved top snap lever and nitro firing pins with gas check, rebounding double tumbler locks with low mmers. **ALL METAL PARTS** beautifully case hardened and finished. **THE STOCK AND FORE-END** are made of the ed walnut, checkered by hand and finely finished. The stock is full pistol grip with rubber cap and fancy rubber butt plate.

FORGET that these Aubrey Double Barrel Hammer Guns are treble bolted, absolutely guaranteed for nitro powder, have a taper choke, have the same beauty of outline and balance as is found in high grade hammerless guns, and that aranteed against defects for twenty years, which means that if any piece or part gives out in twenty years by reason of a defect or workmanship, it will be repaired or replaced free of charge.

We Furnish This Gun in the Following Styles at the Prices Named:

, 6H82 **Genuine decarbonized blued steel barrels**, 12-gauge; length of barrels, 30 or 32 inches (length wanted). Weight, 7½ to 8 pounds. Price	**$12.59**
, 6H84 **Genuine imported Liege full finished twist steel barrels**, 12-gauge; length of barrels, 2 inches (state length wanted). Weight, 7½ to 8 pounds. Price	**13.50**
, 6H85 **Genuine imported Liege two-blade Damascus steel barrels**, 12-gauge; length of bar- or 32 inches (state length wanted). Weight, 7½ to 8 pounds. Price	**15.00**

Weight, packed for shipment, about 14 pounds.

No. 6H84 $13.50

$14.20 THE AUBREY SPECIAL ENGRAVED MODEL HAMMER G

Made by the Meriden Fire Arms Co., Meriden, Conn.

THIS IS ONE OF THE HANDSOMEST double barrel hammer guns ever placed on the market. It is elaborately hand engraved, finely checkered and beautifully finished. This gun is not to be compared with the cheap machine engraved guns of American or foreign make sold throughout the country. The work on this gun is high class; the engraving and checkering are all done by hand by high priced, skilled engravers.

FOR THE MAN who wants a double barrel hammer gun finished and engraved the same as any ordinary $25.00 to $30.00 hammerless, we recommend this gun, which, at our price of $14.20 for the decarbonized steel barrels and $15.10 for the twist, is extraordinary value.

IN MECHANICAL CONSTRUCTION and general outline this gun is the same as the $12.59 gun described and illustrated on preceding page. The difference in price between this gun and the gun at $12.59 is due to the elaborate engraving, extra fine checkering, the additional hand work in finishing and the selection of wood in the stock and fore-end. The demand for these guns during the past season has been so large that we have been compelled to double our output, and in so doing have obtained a lower cost for manufacturing, of which we give you the benefit by offe gun at $14.20. Note the elaborate engraving, as shown in the illustra artistic checkering, and compare this gun with any hammer gun you for $20.00 to $25.00. This gun, the same as all Aubrey or Meride barrel guns, is treble bolted, has patent snap fore-end, is choke the Meriden taper system, has reinforced breech and cross bite rib, is covered by our twenty years' guarantee against defects and on thirty days' trial with the full understanding and agreement the end of thirty days, after putting the gun to every reasonable are in any way dissatisfied with it for any reason whatsoever, return the gun to us at our expense, and we will immediately retu money, together with any express or freight charges you may h

12-GAUGE ONLY. These guns come in 12-gauge only with 30 or 32-in The stock and fore-end are made of the finest select finely checkered. The stock is full pistol grip and has and fancy rubber butt plate. The frame and lock plates tifully case hardened with a mottled finish. The decarboni are finished in a rich dark blue; the twist is browned. All considered, these guns are unquesti handsomest, strongest, most durable and finest shot mer guns made, regardless of name price.

$19.50 THE MERIDEN HAMMER SHOTGU

12-GAUGE, 30 OR 32-INCH BARRELS, TREBLE BOLTED, TAPER CHOKE BO

THIS GUN is the same as that above described, except that it is more elaborately engraved, fitted with special selected walnut stock and fore-end, and is exceptionally well finished. It is intended for the man who wants the finest and most beautiful hammer gun made.

IF YOU WANT A GUN that you would be proud to show to your friends and neighbors, a gun that will excel anything in your neighborhood, regardless of name, make or price, a gun such as you could not purchase in any other make for less than double our price; in other words, if you want the finest double barrel hammer shotgun, then we would advise you to buy this Meriden Highest Quality Hammer Gun.

THIS ILLUSTRATION does not do the gun justice, as it is impossible in this picture to bring out the fine detail in the engraving, checkering and finish. The engraving, as shown on the frame and lock plates, is all done by hand by high priced, skilled artists. The engraving on this gun represents hours and hours of patient, careful work. The checkering on the stock is very fine, and the finish of the gun throughout is all in harmony with tic and skilled manner in which this gun is constructed from the butt plate to m

$14.25 LATEST MODEL COMBINATION SHOTGUN AND RIFLE

16-GAUGE
32 S. & W.

No. 6H78

To meet the demand for a combination shotgun and rifle with a small bore shotgun barrel and a popular caliber rifle barrel, we have had this gun built especially for us under contract. The combination of a 16-gauge shotgun barrel with a 32 S. & W. rifle barrel makes this gun effective for large and small game, the 32 S. & W. cartridge being sufficiently large for game as large as fox, and at the same time small enough not to mutilate small game, such as rabbits, skunks, etc. The rifle barrel is removable and can be instantly withdrawn from the left barrel of the gun, giving you the use of both barrels for 16-gauge shot shells. This gun is made with imported barrels, twist finish, 16-gauge, 28 inches long, full pistol grip stock, checkered walnut stock, checkered patent snap fore-end. Fitted with adjustable sporting rear sight and open front sight. Rebounding locks. We guarantee this gun to give excellent satisfaction.

NEW MODEL 44-CALIBER AMERICAN BREECH LOADING SHOTGUN $1

No. 6H200

THE BEST small bore gun on the market. The ideal gun for taxidermists, and for women and boys, for whom the ordinary double barrel gun would be too heavy. For such game as squirrels, rabbits, and various small birds, this gun is very effective. This gun is not to be compared with the poorly made foreign guns offered in competition, as it is a genuine machine made, American made gun. All parts are interchangeable; fitted with bar locks, rebounding hammers; frame and lock plates are nicely case hardened; improved top snap action; fitted with ch pistol grip, walnut stock and patent snap checkered fore-end; blued carbon steel barrels, chambered for the 44 XL shot cartrid also chambered for the 40-85 brass rifle shell, which is 3 inches can be loaded heavier than the 44 XL shot cartridges. We cannot the 40-85 shells loaded; we can furnish the empty shells and the n loading tools at the prices given below. We advise the use o powder only in using these shells, to avoid all danger of overload

PROVED MARLIN REPEATING TAKE DOWN SHOTGUN $16.27

REGULAR PRICE, $21.32; OUR REDUCED PRICE, $16.27

THE BEST VALUE ever offered in a repeating shotgun. The lowest price on a repeating take down shotgun today that will compare with this genuine improved Marlin is $21.32. Our price of $16.27 is a full reduction of $5.05 from the price of a similar high grade repeating gun. Bear in mind that these are the genuine Improved Marlin Repeating Take Down Shotguns, double extractor, trombone action, take down style; the same guns as are sold today for $21.32.

MARLIN GUN is absolutely safe. The breech block is securely locked in position, and it is impossible for it to be accidentally opened while shooting. The safety is entirely automatic, and the gun can be operated as the trigger can be pulled; in fact, by holding back trigger and operating the fore-arm, the entire of six shells can be discharged in a few time. The magazine holds five shells one in the chamber makes this shot repeater.

SIX SHOTS

THESE GUNS are manufactured by the Marlin Fire Arms Co., New Haven, Conn., the famous manufacturers of repeating shotguns and rifles. There is no repeating gun made that is better than the Marlin. These guns are second to none. They are made with special rolled steel blued barrels, with a tensile strength of 66,000 pounds to the square inch. The barrels are full choke bored, guaranteed to target better than 325 pellets of shot in a 30-inch circle at 40 yards. The frame is made of a solid drop forging, accurately milled and machined, made with solid top, affording complete protection to the shooter. The top of the frame is raised and matted, the matted top being of great aid to the shooter in sighting. The action of the Marlin gun is exceedingly simple. It contains the minimum number of parts. All the parts are made of the finest tool steel, made on accurately gauged machines, are true to the thousandth part of an inch, and are interchangeable. Should a part of the Marlin gun become broken it can be replaced by any novice by simply inserting the new part. These parts interchange without fitting or filing. The shells are ejected from the side of the frame. This gun is made with a solid top frame, and the breech bolt, when closed, fills the opening in the frame completely, keeping out all snow, dirt, twigs, pine needles, etc., and keeping the action and mechanism clean at all times.

THE TAKE DOWN FEATURE is exceedingly simple. By pulling the magazine tube forward, releasing and pulling forward the trombone slide, and unscrewing the barrel, the gun can be taken apart in less than a minute's time and as easily put together. The take down feature, while exceedingly simple, does not in any way weaken the gun. This gun, when put together, is as rigid as a solid bar. The breech end of the barrel is provided with a locknut to take up the wear, and by means of this adjustment the barrel can always be made tight and any looseness in the take down mechanism can be immediately overcome. This is a valuable feature in this gun and a big advantage over other take down repeating guns.

OUR GUARANTEE.

We guarantee all Marlin Shotguns sold by us to be first class guns in every respect. We guarantee the material to be absolutely the best, and any gun found defective may be returned to us at our expense and we will return the full purchase price, together with any transportation charges you may have paid. These guns are absolutely guaranteed against defective material or workmanship.

IF YOU ARE CONSIDERING the purchase of a repeating shotgun, you should purchase this Improved Marlin Repeating Take Down Shotgun, and by so doing save fully $5.05, and you will obtain a shotgun that cannot be excelled by any gun on the market, regardless of name, make or price. Made in 12-gauge only. When ordering, be sure to state the length of barrel wanted.

With every Marlin Repeating Shotgun we furnish one of our Patent Globe Sights, which are a valuable aid to the shooter, particularly for wing shooting. There are over 100,000 of these sights used today by enthusiastic shooters who claim this sight has improved their marksmanship over 50 per cent.

Marlin Repeating Shotgun, Grade "C" $30.00

Regular Price, $40.00. Our Special Price,

FOR THE MAN DESIRING THE HIGHEST GRADE Repeating Shotgun, with extra finely finished special smokeless steel barrel, selected walnut stock, with a finely engraved frame, we recommend the purchase of this Grade "C" Marlin Shotgun, which, at our price of $30.00, is extraordinary value. This is the genuine Marlin Repeating Take Down Shotgun, Model 19, Grade "C," made by the Marlin Fire Arms Co., New Haven, Conn. The gun is fitted with a special smokeless steel barrel, the highest quality barrel made, with tensile strength of 100,000 pounds to the square inch. Special care is given to the boring and finishing of this barrel. The stock and fore arm are of extra selected, fancy figured walnut, the stock is made with pistol grip checkered by hand. The fore-end is finished and checkered to match the stock. The frame is beautifully engraved by an artist, the design laid out in a very handsome game pattern, to which the illustration cannot do justice. This Model 19, Grade "C" Shotgun comes in 12-gauge only, 28 or 30-inch barrel. State length of barrel wanted.

4.80 COMBINATION SHOTGUN AND RIFLE

12-GAUGE 38-55-CALIBER

THIS GUN is particularly desirable in communities where there is an abundance of game, particularly large game. The 38-55-caliber cartridge is large enough for any game, whereas in a 12-gauge shotgun barrel you can shoot from heavy BB shot, for geese and ducks, to No. 10, suitable for the smallest feathered game. The rifle barrel is removable. By unscrewing the knurled nut at the muzzle, the rifle barrel can be withdrawn at the breech, giving you both a fine shotgun barrel for shot. The rifle barrel is turned from the finest [illegible] rifled; the shotgun barrel is choke bored and [illegible] great penetration. [illegible] manufactured for us exclusively by one of the largest manufacturers in Liege, Belgium. Others have attempted [illegible] but have not been able to obtain a gun of the standard of excellence, and at that were able to furnish a gun, even [illegible] quality, at a price that [illegible] may compare with [illegible] $14.80.

GREAT ACCURACY with either the shotgun or rifle barrel is secured after a shooter becomes accustomed to the handling of this gun. It requires a little practice to become proficient, as the sights are located in the center and the shooter must take this into consideration when shooting with the rifle barrel. It requires, however, but a few shots to learn how to properly sight this gun; after that anyone can shoot as accurately with this gun as he would be able to with any ordinary single barrel rifle or double barrel shotgun.

No. 6H79

THE SPORTING REAR SIGHT with which this gun is equipped is adjustable to various elevations, and it has a Rocky Mountain front sight. The barrels are of a handsome twist finish with matted extension rib and positive extractor. The frame and lock plates are nicely engraved and case hardened. The gun has rebounding locks and is fitted with a full pistol grip, checkered walnut stock and checkered patent snap fore-end.

TWO-IN-ONE. Remember, this combination gun gives you your choice of a 38-55-caliber rifle barrel and a 12-gauge shotgun barrel, or you can, if you desire, instantly remove the rifle barrel and have a high class double barrel shotgun. The shotgun barrel shoots the regular 12-gauge shells, loaded with black or smokeless powder; the rifle barrel shoots the 38-55 black powder cartridge, our No. 6H2432.

TEN DAYS' TRIAL. If you would like to see, examine and fully understand the advantages of the Combination Shotgun and Rifle, and will send us your order, enclosing $14.80, we will send the gun to you with the understanding and agreement that you may give it ten days' trial, during which time you may put it to every reasonable test, and if for any reason you are not perfectly satisfied with your purchase, you may return it to us at our expense, and we will immediately return your money.

MUZZLE. BREECH.

THIS ILLUSTRATION is just one-half the size of a 38-55 cartridge used in the rifle barrel of this gun.

No. 6H2432

No. 6H79 Combination Shotgun and Rifle. Caliber of rifle barrel, 38-55, center fire; shotgun barrel, 12-gauge. Length of barrel, 30 inches. Weight, 9 to 9½ pounds. Weight, packed for shipment, about 14 pounds. Price..... $14.80

MERIDEN SINGLE BARREL SAFETY HAMMER GUN $5

THE HANDSOMEST, SAFEST, STRONGEST SINGLE HAMMER GUN MADE IN AMERICA

ACCIDENTAL DISCHARGE ABSOLUTELY PREVENTED BY OUR FAMOUS FIRING PIN BLOCK SAFETY

MORE OF THESE GUNS SOLD LAST SEASON than of any other make. Although single barrel guns can be bought for considerably less money, shooters throughout the country realize the sterling quality of this gun, and realize that in purchasing this Meriden Single Barrel Safety Hammer Shotgun, they obtain the safest, strongest, handsomest and hardest shooting single barrel hammer shotgun on the market.

HANDSOME. Generally in building an article to withstand severe usage and in which the feature of safety is all important, the manufacturer builds it, whether shotgun or piece of machinery, along heavy, clumsy lines. Not so with the Meriden Single Barrel Hammer Shotgun, as this gun, while possessing the maximum of strength and the greatest development of the feature of safety, is the most graceful, the best proportioned and handsomest single barrel shotgun made. A study of the illustration, which is made from a photograph of the gun, will convince you of its graceful, symmetrical proportions. Note the handsomely shaped fore-end, as compared with the o clumsy fore-ends on other single barrel guns. N handsomely shaped stock with its hand che rubber capped, full pistol grip.

THE QUESTION

in buying a fire arm of any kind, whether it be a shotgun, rifle or revolver, is whether or not it is safe. This is the first thing that comes to every shooter's mind, especially in these days of high pressure smokeless powder and the market flooded with low grade, poorly constructed fire arms. In building this the Meriden Single Barrel Hammer Shotgun, we gave the matter of safety the greatest possible consideration; in fact, it was carrying out the idea of building a gun that was absolutely safe that brought forth this gun. The only claim any other single barrel hammer gun has to being safe is that it will withstand ordinary loads of smokeless or nitro powder. When you have said this about any other make of gun, you have sa everything. As a matter of fact, the percentage of blown up barrels is less than one-fourth of one per cent, whereas 90 per cent of the accidents in handling shotguns are due to no safety features whatsoever being connected with the mechanism. Accidents in the handling of single barrel hammer shotguns are invariably caused by the hammer slipping from cold or numb fingers, causing a discharge, or by the hammer suddenly coming in contact with some hard substance, being knocked against the side of a boat, pulled out of a buggy and knocked against a fence post, or any one of the hundred odd ways in which it is possible for the hammer of a shotgun to come in contact with any object. A sudden sharp blow against the hammer of any other single barrel hammer shotgun will cause the hammer to strike the firing pin and cause a discharge. Not so with the Meriden Single Barrel Hammer Gun.

You Can Pound the Hammer With a Mallet.

You can pound the hammer with a mallet, but you cannot discharge the shell. The hammer may slip from under your thumb when cocking, but there will be no discharge. In other words, the hammer must be back at full cock and the trigger must be pulled before the shell can be fired, making this absolutely the safest single barrel hammer shotgun on the market. This feature alone, as a matter of insurance against accident, is worth more to you and your friends than the price of the complete gun.

Can't Happen With a Meriden Gun.

Stumbled, Gun Accidentally Discharged

Thumb Slipped, Gun Accidentally Discharged

Inasmuch as the Meriden Gun is a better constructed gun, handsomer in outline, finer finished and more shapely than any other single barrel gun, does not cost any more than the ordinary single barrel gun and combines this all important feature of safety possessed by no other single barrel gun, in the interest of yourself and of your friends, why buy any other gun? This safety feature alone is worth more to you than the price of the entire gun.

THERE ARE LOWER PRICED SHOT

on the market. We have several of very good guns at lower but if you want the best hammer gun on ear strongest, safest a gun of its kin and can af pay $5 would you chas gun know after r it, exa and test you will be more than please your purchase.

No. 6H42 $5.

DETAILED DESCRIPTION

FRAME—Extra heavy and strongly reinforced; graceful and well proportioned; flat water table, as shown in the illustration, fitted with a positive automatic bolting mechanism, Scott top lever, same as used on the highest priced double guns. Frame beautifully case hardened. **STOCK**—Selected, seasoned walnut, handsomely finished, full pistol grip stock, fancy rubber cap and fancy rubber butt plate; stock well proportioned, and beautifully checkered by hand, as shown in illustration. **THE FORE-END** is walnut, checkered to match stock; our own design, very neat and graceful. **BARRELS**—Either crystal steel or twist. Crystal steel barrels are a special grade of steel made especially for us and turned, bored and finished in our own factory by the most experienced barrel makers in the United States. The twist barrels are imported direct from Europe, as there are no good twist barrels made in this country. Barrels are 12-gauge, 30 and 32 inches long, and 16-gauge, 28 and 30 inches long. **BORING**—Choke bored on the Meriden taper system. Shooting quality guaranteed superior to any single barrel hammer gun on the market, regardless of price. There are no better shooting guns than those made by the Meriden Fire Arms Co., Meriden, Conn.

Our Thirty Days' Trial Offer

SEND US YOUR ORDER FOR THIS GUN, enclose $5.95, we will send the gun to you with the understanding and agreement that you may give it thirty days' trial, during which time you may put it to every possible test, try it for long range killing, long distance shooting, for target, pattern and penetration, compare it with any double guns for shooting, compare it with any of the ordinary single barrel guns which you can buy for $6.00 to $8.00, and if you are not perfectly satisfied with your purchase in every way, you may return the gun to us at our expense, and we will immediately return your money.

OUR TWENTY YEARS' BINDING GUARANTEE. Every one of these hammer single barrel breech loading shotguns is covered by our written binding twenty years' guarantee, by the terms and conditions of which, if any piece or part gives out within twenty years, by reason of defect in material or workmanship, we will repair or replace it free of cost to the buyer or owner.

OUR TRIAL OFFER

UPON RECEIPT OF $4.98, we will send you this complete outfit, as described and illustrated. You can give the gun a ten days' trial, thoroughly testing it for shooting qualities, and if within the ten days you are in any way dissatisfied with the gun or with the outfit, if you do not think you have received wonderful value for your money, if you are dissatisfied in any way with your purchase, return the gun and outfit to us at our expense and we will immediately return the price you paid, together with the transportation charges.

SHOOT POINTER SHELLS

OUR PATENT GLOBE SIGHT IS FREE WITH —THIS GUN—

COMPLETE OUTFIT, if bought elsewhere, would cost from $10.00 to $12.00. The single barrel gun included in this outfit is worth more than the price we ask for the entire outfit. If purchased at retail store it would cost not less than $5.00; whereas we, in addition to this gun, furnish a complete reloading outfit, 25 loaded shells, a shell belt, a Globe Sight and a gun case; the most liberal value ever offered in an outfit of this kind.

EXCEPTIONAL POSITION in the gun and sporting goods business enables us to offer such extraordinary value. Our gun business being the largest in the world dealing direct with the consumer, we contract for quantities five times as large as any other house. We also own our own gun factory in Meriden, Conn., one of the largest gun factories in the world. Our reloading tools, cleaning rods and canvas goods are all made in our own factories.

DESCRIPTION OF OUTFIT.

THE GUN is furnished in 12-gauge only, fitted with 30 or 32-inch armory steel barrel, nicely blued, choke bored, adapted to either black or nitro powder. Fitted with automatic shell ejector and solid steel locking bolt. The frame is nicely case hardened and finished, fitted with pistol grip walnut stock and walnut fore-end.

THE OUTFIT. Every article that accompanies this gun is high grade. The outfit consists of a fine heavy canvas Victoria style gun cover with leather handle, one three-joint take-apart wood cleaning rod with brass ferrules, three cleaning implements, one complete reloading outfit consisting of a crimper, powder and shot measure, recapper and decapper, 20-hole loading block, wad cutter and ringed shell extractor, one high quality canvas shell belt, and twenty-five machine loaded shells.

Upon receipt of $4.98, we will ship this outfit to you, securely packed in a strong wooden box. Weight, packed for shipment, about 16 pounds.

No. 6H411 **Our Single Barrel Shotgun Outfit.** 12-gauge gun with 30 or 32-inch barrel. **State length wanted.** Price, complete outfit **$4.98**

AUTOMATIC EJECTOR, PATENT SNAP METAL HINGED FORE-END

SINGLE BARREL SHOTGUN

AT $2.98 we furnish this guaranteed single barrel shotgun, 12-gauge, 30 or 32-inch carbon steel barrel, metal hinge patent snap fore-end, pistol grip walnut stock, automatic ejector, rebounding hammer, improved top snap action, a price lower than the largest wholesale houses in the country pay any manufacturer for a gun of like quality.

$2.98

SHOOT POINTER SHELLS

ABSOLUTELY CONTROL the manufacture of this gun. This is not a cheaply constructed, poorly made gun; it is, in fact, a better gun than most dealers furnish at $4.25. This gun is bored for either black or nitro powder; the barrel is made of the finest carbon steel; the mechanism is simple and strong, and is made of the best material. We call your attention to the fact that this gun is not fitted with a barrel key or bolt, but has a patent snap metal hinged fore-end, the same as a double barrel gun. It is furnished with a pistol grip walnut stock and rubber butt plate.

No. 6H404 **Automatic Ejector Patent Snap Fore-End Single Barrel Shotgun,** 12-gauge, 30 or 32-inch carbon steel barrel. **State length of barrel wanted.** Weight, about 6¾ pounds. Price **$2.98**

Weight, packed for shipment, about 10 pounds.

Before buying this or any other gun, see page 808 for description of the Meriden Single Barrel Hammer Gun, the strongest, safest and handsomest single barrel gun made.

LONG RANGE, LONG BARREL, SINGLE HAMMER GUN

36 OR 40-INCH BARREL, 12 OR 16-GAUGE.

$5.10

SHOOT POINTER SHELLS

OUR GREAT TRIAL OFFER

We shall be pleased to ship one of these guns to you upon receipt of our price, with the full understanding and agreement that if you do not find it as all we claim it to be, do not like its shooting qualities are as good or better as we claim they are, or if you, during the ten days' trial for penetration and target, are in any way dissatisfied with it, return the gun to us within ten days and we will, immediately upon receipt of gun, return your money, together with any charges you may have paid.

THE LONG TOM 36 and 40-inch barrel gun, 12 or 16-gauge, is made in our own factory, and is the only gun of its kind on the market. This gun meets a large demand for a gun with a long barrel and extreme long range for shooting geese, turkeys, jack rabbits and similar game. This gun is thoroughly up to date. It embodies all the latest improved features known in single barrel guns, and at our price of $5.10 for the 36-inch barrel and $5.70 for the 40-inch barrel, is exceptional value. It would be impossible for you to buy a gun of like grade and quality with ordinary length of barrel at the prices we are asking for this gun with this exceptional length of barrel.

EXTRA STRONG PARTS. It is made with extra strong, heavy, reinforced breech and extra heavy frame, and is particularly intended for heavy loads of black or nitro powder. The barrel is made of genuine armory steel, handsomely blued, full choke bored, fitted with heavy drop forged lug. We guarantee that this gun will not shoot loose. The frame is made extra heavy, is beautifully case hardened, with mottled finish, and is fitted with rebounding hammer, a positive, simple mechanism and improved top snap break. The stock is selected walnut, full pistol grip, hand checkered, fitted with rubber cap and fancy rubber butt plate. This gun has a patent snap metal hinged fore-end, the same as on a double barrel gun, made of selected walnut, neatly checkered.

MERIDEN SINGLE BARREL HAMMERLESS GUN $6

Manufactured by the Meriden Fire Arms Company, Meriden, Conn.

THE BEST Single Barrel Hammerless Shotgun on the market. No other gun compares with this Meriden Single Barrel Hammerless Gun in finish, outline, balance and construction. In every essential feature this gun is far superior to any other single barrel hammerless gun, and at our price of $6.98 for the steel barrel and $7.95 for the twist barrel is unequaled value.

Special Features of the Meriden Hammerless Gun

OUTLINE AND PROPORTION. The illustration will give you a fair idea of the beautiful lines of this gun. It tapers beautifully from butt plate to muzzle and has a balance and hang to it not found in any other single barrel gun. There are no short, choppy lines. The lines are all long and continuous. This gun presents a most pleasing appearance to the eye of the most critical sportsman.

FINISH. Finished with all the care and attention to detail that is used on the highest priced double barrel guns. The frame is beautifully case hardened; stock and fore-end are of selected walnut, highly finished and handsomely checkered; the barrel is blued a deep dark blue; inside of barrel is highly polished.

These guns, the same as all Meriden guns, are sent on thirty days' trial, and are guaranteed for twenty years against defect in material or construction. Unquestionably the safest, strongest, handsomest single barrel hammerless gun on the market.

$6.98

THIS GLOBE SIG

FREE

With every Meriden Shotgun we include one of our famous Globe Sights, which is a valuable aid to the shooter. This sight can be attached to the muzzle of the gun quickly detached. The use of th does not in any way interfere w regular sight of the gun.

No. 6H440

MECHANICAL CONSTRUCTION.

The strongest and most positive action used in a single barrel gun. The gun is cocked by opening the barrel. No strain on the frame or mechanism. The safety is entirely automatic in its action. Opening the barrel places the gun at safe. The safety must be pushed forward before the trigger can be pulled. The gun cannot be opened to insert a shell without cocking, thereby throwing back the firing pin and obviating all danger of the shell striking the firing pin in closing the gun, a very dangerous and very common fault in almost all other makes of single barrel hammerless guns. All working parts in the mechanism are made of hardened steel and are guaranteed against frictional wear.

WATER TABLE REINFORCED BREECH AND FRAME. We call special attention to the fact that the lower part of the barrel is made with flat square water table breech instead of the usual rounded barrel found on all other makes of single barrel guns. This construction not only reinforces the barrel and doubles the strength at the breech, but the square shouldered frame has more than four times the amount of metal found in guns with the usual rounded barrel, making this the strongest single barrel gun on the market.

AUTOMATIC EJECTOR has square instead of round ejector stem. The square stem is set into a square hole, instead of the usual round stem in a round hole, and thereby obviates all danger of turning or twisting. The ejector is absolutely positive in action. It automatically ejects the shell clear of the breech when the gun is opened.

SHOOTING QUALITIES. These guns are all taper choke bored. The choke is bored in from breech to muzzle. We guarantee the shooting qualities of this gun to excel those of any other make of single barrel guns and to equal those of the best double barrel guns.

THE STOCK is made of selected walnut of handsome grain; special design. A tistic stock than is found on double barrel guns selling at $25.00 Handsomely checkered; full pistol grip with rubber cap and rubber butt plate.

THE FORE-END is of selected walnut to match the stock, nicely checkered snap metal hinge construction, the same as on the best doub guns.

WHITE POWDER WONDER IMPROVED MODEL

12-Gauge, 30 or 32-Inch Armory Steel Barrel, Automatic Ejector, Full Choke Bored.

THIS IS ONE OF THE BEST KNOWN SINGLE GUNS ON THE MARKET.

BEAR IN MIND that this White Powder Wonder Gun was originally sold at $7.00. We sold such a large quantity of these guns at this price that we were able to reduce our price to $4.40, and are now able to offer a still further reduction and sell it at $3.89. Remember, this gun today at $3.89 is a better gun than that we formerly sold at $7.00, as it has been kept thoroughly up to date and embodies the latest improvements in single barrel guns. We do not claim that this gun is as good as our Meriden Single Barrel Guns. There are no single barrel guns made that compare with them in quality. We advise every shooter desiring to purchase a single barrel gun, if he can afford it, to buy a Meriden gun in preference to any other, as he will thereby obtain the strongest, handsomest, most durable and safest single barrel gun made.

TEN DAYS' TRIAL. We would be glad to send you this gun at $3.89 upon receipt of your order with the full understanding and agreement that if, after giving it a ten days' trial, you are in any way dissatisfied with it, if you do not think it is the best single barrel gun for the money you ever saw, send it back to us any time within ten days and we will immediately return your money, together with any express or freight charges have paid.

With each of these guns we inclu of our patent Globe sights, which stantly attached or removed, and not interfere with the regular sight

$3

DETAILED DESCRIPTION.

THE FRAME of this White Powder Wonder Gun is made extra strong, finely machined and finished, beautifully case hardened with a mottled finish, fitted with a heavy steel bolt, improved top snap break and rebounding hammer.

THE BARREL is bored from a solid bar of high pressure steel, thoroughly tested, full choke bored, fitted with a heavy, solid steel lug and a square stem automatic shell ejector, the strongest and most reliable ejector ever placed in a single barrel gun.

THE STOCK is made of a good quality walnut, full pistol grip, and is fitted with a rubber cap and fancy rubber butt plate.

THE FORE-END is not screwed to the barrel, the same as on ordinary single barrel guns, but is of the patent snap style, the same as the fore-end on the double barrel gun.

IMPROVED MODEL NITRO KING SINGLE BARREL SHOTGUN $4

WITH GENUINE IMPORTED TWIST BARREL; 12 OR 16-GAUGE.

THIS IS THE GENUINE CELEBRATED NITRO KING SINGLE

BARREL GUN, known as one of the strongest, hardest shooting and best made single barrel guns, ranking second only to our celebrated Meriden Single Barrel Hammer Gun. This gun is made specially strong for the use of nitro or smokeless powder. The barrel is made by the most famous barrel makers in Europe, namely, L. Lochet-Habran, who have a wide reputation for making only the finest gun barrels. Every barrel is thoroughly tested and tried, and is guaranteed to have the maximum amount of strength, to be free from flaws and imperfections, and to be absolutely safe. These barrels are beautifully browned and present a most handsome appearance. They are choke bored on the taper system, insuring unexcelled shooting qualities.

THE FRAME of this gun is extra heavy forging, beautifully case hardened, fitted with simple but strong mechanism, and a heavy steel locking bolt, which engages in the safety lock of the barrel, absolutely insuring the gun being tight and rigid at all times.

THE STOCK of the Nitro King Gun is made of selected straight grain walnut, full pistol grip handsomely checkered by hand, fitted with rubber cap and fancy rubber butt plate.

GLOBE SIGHT FREE. With every Nitro King Shotgun we include, free, one of our special patented Globe Sights. This sight is endorsed by thousands of shooters, many of whom claim that it has improved their marksmanship over 50 per cent. This sight is manufactured, owned and controlled exclusively by us, can be instantly attached or detached, and does not interfere in any way with the regular sight.

Guaranteed against defective mat workmanship and to withstand any fa of black or smokeless powder.

THIS ILLUSTRATION, reproduced from a photograph, will give you a general idea of the appearance of the gun. We direct your attention to the graceful lines of this gun as compared with any other single barrel gun. Please note that this gun is not put together with a bolt or key through the frame, the same as most single barrel guns, but has a patent snap fore-end, the same as a double gun. To take gun apart it is simply necessary to remove fore-end, open gun and remove barrel from the frame. Fore-end can then be placed back on the barrel.

ALIGNMENT. We claim that the lines of this gun are better than those of any other single barrel gun, except our Meriden Gun, giving this gun a handsome appearance and making it an ideal gun to handle. It has a perfect balance and comes to the shoulder readily, making it the ideal gun for quick and accurate shooting.

0-GAUGE 36-INCH TWIST BARREL SHOTGUN $11.20

No. 6H230

TER BEFORE has a 10-gauge 36-inch twist barrel shotgun been sold at so low a price. These guns have always been sold at ranging from $14.00 to $16.00. With the scarcity of the game sections and the necessity for having a gun of extreme range and killing power, there has been an increased for a gun of this kind. The manufacture of a gun description was limited to one manufac- and under the existing conditions we found possible to furnish one at a price. We accordingly ar- to have this gun made for us under con- by one of the Eastern fac-

WE GUARANTEE these 10-gauge 36-inch guns furnished by us to be superior to any similar guns on the market, regardless of name or price. Our guns are better balanced, better finished; they are full taper choke bored; the bolting mechanism is made unusually strong, to stand heavy 10-gauge smokeless loads; it has an extra long top lever, giving ample leverage; the stock and fore-end are made of selected walnut; the fore-end is fitted with a heavy metal joint or hinge; all parts are made exceptionally strong and heavy, to stand severe usage. This gun will last a lifetime. The frame is beautifully mottled and case hardened; the barrels are genuine imported twist, beautifully ed. At our price of $11.20 this gun is unquestionably the greatest value ever offered in a gun of this kind. This gun is particularly recom- for geese and large game. It will shoot either black or smokeless ammunition with equally satisfactory results. Weight, packed for shipment, 14 pounds.

MERIDEN MODEL 10 —22— CALIBER SINGLE SHOT RIFLE $2

GREATEST VALUE EVER OFFERED. This is unquestionably the greatest value ever offered in a 22-caliber single shot rifle. The construction of this rifle is unexcelled. It is fitted with a solid steel breech block, which fits snugly against the frame, permitting of no back fire or spit fire, a fault common in several rifles. The shell is automatically extracted when pulling back the breech block. The extractor is unusually heavy and strong, made extra wide, giving a full purchase on the exploded shell and overcoming the possibility of the extractor slipping past the shell, making it necessary to punch out the shell with a cleaning rod or pick it out with a knife, another fault very common with other makes of 22-caliber rifles. The hammer of this rifle has a full ¼ inch more sweep than the regular 22-caliber rifle, giving a strong, hard blow and absolutely overcoming misfires. The parts are all accurately machined, are true to a thousandth part of an inch and are absolutely interchangeable. Should any piece or part break, you can repair the rifle by simply inserting a new part, as these parts are so accurately made that any fitting or finishing is unnecessary.

$2.38 IS OUR PRICE for this high grade Meriden Model 10 Take Down 22-Caliber Single Shot Rifle, 22-inch barrel, chambered for 22 short, long or long rifle cartridges, loaded with either black or smokeless powder. Compare this price of $2.38 with the prices asked by others and you will what sterling value this rifle represents at our price. Note other rifles ranging in price from $2.50 to $3.50 ar with 18 or 20-inch barrels, this rifle is fitted 22-inch barrel; where the stocks of o rifles measure from 11 to 12 inches made of gumwood, the stock rifle is of standard length, 13½ and is made of the finest walnut

22-INCH BARREL.

GUARANTEED FOR FIVE AGAINST DEFE MATERIA CONSTRU

DESCRIPTION OF THE RIFLE.

THE BARREL is made of the finest high carbon steel, 22 inches long, round, handsomely blued, heavy at breech and tapering gradually to the muzzle, fitted with standard size open front and rear sights. The sight slots, as stated, are of standard size, enabling the shooter to have special sights fitted at any time. Chambered for 22 short, long or long rifle black or smokeless cartridges. Rifled on the improved, latest type rifling machine, giving the proper twist in proportion to the length of the barrel and insuring for this rifle greater accuracy and penetration than is found in most 22-caliber rifles selling at twice the price we ask. **THE FRAME** is nicely proportioned; the outline is pleasing. Handsomely case hardened in a beautiful mottled finish. **THE MECHANISM** is very simple. It consists of but three working parts, and they are made of the finest tool steel. **THE STOCK** is of standard length, 13½ inches, made of selected walnut, nicely shaped and finished, and fitted with curved rubber butt plate, neatly scored. **THE FORE-END** is made of walnut and is of neat design. **THE SHOOTING QUALITIES** of this rifle are unexcelled. We guarantee it to be equal in accuracy and penetration to any 22-caliber rifle made. Full length of rifle, 37 inches. Weight, 4 pounds. Weight, packed for shipment, 8 pounds.

ENUINE HAENEL MAUSER CARBINE, $6.94

Shot Repeater. 8 M|M Mannlicher Caliber.
Most Reliable Repeater.
Season's Sensation.

Penetration, 56 ⅞-inch Pine Boards.

The regular price of the Haenel Mauser Rifle is $34.00. Our European buyer succeeded in purchasing a limited quantity of these world famous rifles from the German government at a price which enables us to sell them at less than one-third of what they originally cost the German government to make. As a sporting rifle, we recommend this rifle as superior to the ordinary repeating rifles, 30-30, 38-55, 25-35 or .351-caliber. The Mauser action is world famous. The breech bolt can be withdrawn and all parts reached without the aid of tools. The trigger can be locked, absolutely preventing accidental discharge. Unquestionably the strongest and safest repeating rifle made. Fitted with carbine front sight and graduated folding rear sight; 18¾-inch round barrel. Length over all, 37¼ inches. **Penetration:** A bullet shot from this rifle will penetrate fifty-six ⅞-inch pine boards. Weight, 7 pounds. Shipping weight, 9 pounds. The ideal rifle for such game as deer, wolves, coyotes, bear, fox, etc.

WINCHESTER MODEL 1907 SELF LOADING RIFLE.

.351-Caliber. High Power.

$22.40

This rifle shoots a cartridge .351-caliber, with a 180-grain bullet, having a muzzle velocity of 1,861 feet per second. It will penetrate a steel plate ¼ inch thick or twenty-six ⅞-inch pine boards. The barrel is stationary like that of an ordinary rifle. The recoil of the exploded cartridge ejects the empty shell, cocks the hammer, and feeds a fresh cartridge from the magazine into the chamber. This rifle is provided with a trigger lock, allowing it to be carried with the hammer at full cock. The take down feature of the rifle is simple.

THE SEASON'S GREATEST RIFLE VALU

$6.75

A Genuine $8.50 Marlin Rifle for $6

This is the popular Model 25 Marlin Repeating Take Down Rifle, made by the Marlin Fire Arms Co., New Haven, Conn. Fully up to the famous Marlin standard in every respect. It possesses the celebrated solid top, side ejecting Marlin feature. The solid top keeps the action clear and free from rain, snow and dirt and prevents the powder and gases from being blown into your face. The side ejector throws the shell away from you, instead of into your face and eyes. It never interferes with your aim for the next shot. The take down feature is the simplest possible; simply unscrew the knurled thumbscrew back of the hammer and the butt stock can be slipped off and the rifle packed in a space 29½ inches long. The side plate construction allows instant removal of all working parts for cleaning without the aid of any tools.

SPECIFICATIONS: Caliber, 22 short. Shoots, 22 short bl smokeless cartridges. 15-shot. The barrel is round, 23 inches long with open front and rear sights and the extra deep Ballard rifling has made the Marlin the most accurate of all repeaters. The fram forged steel, handsomely blued. The butt stock is of black walnu inches long, with 2½-inch drop, fitted with blued steel butt plate. over all, 39½ inches.

Remember, this is the genuine Marlin Rifle, sold everywhere fo Sold only by us at the remarkably low price of $6.75.

MARLIN MODEL 1892 REPEATING RIFLES.

All Model 1892 Rifles have BLUED FRAMES, Sporting rear sights, Rocky Mountain front sights.

$12.15 $13.15

FOR SMALL GAME AND TARGET WORK.
Made in 22-caliber rim fire, 32-caliber rim fire, and 32-caliber center fire.

In the 22-caliber rifles any or all of the following rim fire cartridges may be used: 22 short, 22 long and 22 long rifle. The Model '92, the Model '97 and Model 20 Marlin are the only repeaters that will do this. **The magazine holds twenty-five cartridges 22 short, twenty cartridges 22 long and eighteen cartridges 22 long rifle.**

All 32-caliber rifles are sent out with two firing pins. The rifle is so made that in the same rifle may be used 32 short rim fire and 32 long rim fire cartridges; and by changing the firing pin, 32 short and 32 long center fire cartridges may be used. The magazine holds eighteen cartridges 32-caliber short and fifteen cartridges 32-caliber long. Always clean your rifle after shooting. It will last longer. A rifle cleaning rod is a good investment.

SHOTGUN SIGHTS.

Our Own Patent Globe Front Sight for single barrel shotguns, a wonderful help to shooters. Made for 10, 12 and 16-gauge guns. Shipping weight, 2 ounces.
No. 6H1055 Price.....35c

Our own patent Globe Front Sight for double barrel shotguns, a sight which is greatly appreciated by shooters. For 10, 12 and 16-gauge double barrel breech loaders. Shipping weight, 2 ounces.
No. 6H1057 Price.....38c

H. FOSTER REAR SIGHT FOR SINGLE BARREL SHOTGUNS.

H. Foster Rear Sight for Barrel Shotguns is a wonderful assistance to shooters. It helps to "line up" a single barrel shotgun in a straight line with the object, instead of your eye down the barrel, which is not always effective and causes you to shoot to the right or left unless you are an expert shot. To attach it, place it 12 to 14 inches back of the front sight in a straight line, as shown in the cut, and fasten it in position with the screw. Shipping weight, 1 ounce.
No. 6H1060 Price, each, for all 12 and 16-gauge single barrel guns.....20c

RAY'S LEAD SOLVENT.

This is a preparation which thoroughly removes all lead and residue from rifle and gun barrels. After a rifle barrel becomes leaded, its accuracy is greatly impaired. In order to get accurate results, it is necessary that the rifling be kept clear of lead. **This is the only preparation** of the kind which removes lead from the barrels without injury to the barrels. One bottle of liquid and one capsule of powder in a box. Full directions accompany each box. Shipping weight, 10 ounces.

One box is sufficient for a 22-caliber rifle; a 38-55 rifle and those of similar size require two boxes; a 12-gauge shotgun barrel requires three boxes.
No. 6H4549 **Price for one bottle liquid and one capsule powder**.....18c
PRICE FOR THREE BOTTLES, 50c.

SUPPLEMENTAL CHAMBERS. FOR 30-30 AND 32-40 RIFLES.

Supplemental chambers, to be used in 30-30 and 32-40 rifles, enable you to shoot a cartridge in a high power rifle. Chamber resembles a shell with the head and is chambered to take a pistol cartridge. By **placing one of these chambers** in the rifle, you can with a 30-30 rifle shoot a Smith & Wesson cartridge, and with a 32-40 a 32 Colt cartridge. These supplemental chambers are made of brass, nicely finished.

No. 6H4322 **Supplemental Chamber for** 30-30, takes the 32 Smith & Wesson cartridge, No. 6H2377 and the 32 short Colt No. 6H2378. Shipping weight, 2 ounces.
Price.....48c

No. 6H4323 **As above, for 32-40 Marlin** rifle, takes the 32 Colt cartridge No. 6H2381 and No. 6H2382. Shipping weight, 2 ounces.
Price.....49c

ROUGH TURNED WALNUT GUN STOCK.

No. 6H19438 **Rough Turned Gun Stock,** thoroughly seasoned, turned to shape, leaving the square end 1¾ inches wide and 2 inches from top to bottom; length, 16¼ inches; butt measure, 5¼x1¾ inches. Made of good American walnut, not fitted, just shaved, for double barrel breech loading guns. Weight, 20 ounces. Medium quality. Price.....50c
No. 6H19459 **Selected quality.**
Price.....65c
Shipping weight, 27 ounces.

Ideal Broken Shell Extractor.

To remove broken or swelled shells from chamber of rifle. Made in the following calibers: 25-20 repeater, 25-20 single shot, 25-35, 30-30, 32-20, 32-40, 38-55, 45-70 and .303. **State caliber wanted when ordering.** Shipping weight, 4 ounces.
No. 6H4325 Price, each.....63c

POLICE GOODS

Thomas' Nipper No. 4.

No. 6H4552 **Thomas'** nicely finished and polished. This nipper automatically when on the prisoner's wrist. Shipping weight, 9 ounces.
Price.....$1.64

Permanent Lock Handcuffs.

These handcuffs unlock with a key, but lock automatically and are adjustable to any size wrist. They are made of good quality steel, and used generally by detectives and other officers of the law. Shipping weight, 9 ounces.
No. 6H4555 **Nicely polished and finished,** per pair.....$2.75
No. 6H4556 **Nicely polished and nickel** Price, per pair.....$3.20
No. 6H4558 **Extra keys for above handcuffs**.....12c

Police Dark Lantern.

Improved Police Dark Lantern has been given the endorsement of the police and watch service officers in all large cities as the best lantern of its kind on the market. The slide of this lantern is thrown off or on by means of a thumb latch on top of the handle, obviating the use of both hands to operate, unlike other lanterns, which require the use of two hands in operating the slide. The lantern is fitted with a ground 3-inch heavy bullseye, which gives a powerful light. Will burn from eighteen hours without refilling. Use kerosene only. Furnished complete with a good wick. Shipping weight, 30 ounces.
No. 6H4581 Price.....86c
No. 6H4582 **1-Quart Can Signal Oil.**
Price.....18c
Gallon.....52c

Echo Police Call.

No. 6H4471 **A very loud, shrill call.** Also makes an excellent dog call when field shooting. Full nickel plated, with ring for chain. Shipping weight, 1 ounce.
Price, each.....11c

Police Stars.

No. 6H4583 **Official Police and Officers' Five-Ball Point Star.** Regulation size, made of German silver, heavily nickel plated. Can be furnished lettered as follows only: Police, Special Police, Marshal, City Marshal, Constable, Detective, Deputy Sheriff, Watchman or Game Warden. **When ordering state plainly which of the above is wanted.** Shipping weight, 3 ounces.
Price.....$1.02

Police and Watchmen's Club.

No. 6H4585 **Made of solid leather on spring steel core,** turned and polished perfectly smooth. 1¼ inches in diameter. As solid as wood and far more serviceable, as it will not crack nor chip. Brass swivel in the end, with rawhide strap. Shipping weight, 12, 14 and 16 ounces.

Length, inches	10	12	14
Price	$1.20	$1.40	$1.70

Combination Whistle and Compass.

No. 6H6377 **This is the ideal whistle for hunters,** made of horn; loud and shrill, finely finished, fitted with an accurate compass in lower end, the face of which is flush with the top of whistle. Length of whistle, about 2¼ inches. Shipping weight, 2 ounces. Price.....24c

Boys' Scout or Police Whistle.

No. 6H4476 **A very shrill, duplex tone whistle, gunmetal finish, with nice worsted safety cord,** 30 inches long, with loop on end. A splendid dog call or police whistle. Shipping weight, 2 ounces. Price, each.....25c

COMING—The Meriden Hammerless Repeating Rifle. The Perfect Repeater. Ready July 1, 1912.

AIR RIFLES

COLUMBIAN 1,000-SHOT SAFETY REPEATING AIR RIFLE.

$1.20

Accidental discharge impossible with this rifle. The only repeating air rifle made with a safety. The safety indicated in the illustration must be pressed in with the thumb before the trigger can be pulled and the gun discharged. Easy operation. The lever action requires less exertion than in any other rifle. Absolutely no danger of the fingers being bruised or mashed by the lever accidentally closing on them. Shoots 1,000 times with a single charge in the magazine. Loads by simply drawing a lever. The frame and barrel are nickel plated, highly polished; stock of finest walnut, turned and polished, and fitted with a handsome butt plate. All wearing parts are of tool steel, hardened and tempered. This rifle has the lines and balance of a Winchester. Weight, 2½ pounds. If you want the best, hardest shooting and most accurate and durable repeating air rifle made, we recommend the Columbian. Length, 36 inches. Shipping weight, 3 pounds.
No. 6H946 **Columbian 1,000-Shot Safety Repeating Air Rifle.** Price.....$1.20

STERLING SINGLE SHOT AIR RIFLE.

60c

The hardest shooting, most accurate and durable single shot Air Rifle made. Lever action like a Winchester. Nickel plated round tapering barrel. The lever action is fitted with roller bearings, insuring easy and safe action. All working parts are of hardened steel and guaranteed against wear. Fitted with walnut stock. Frame, barrel and lever are highly nickel plated and polished. Length, 31½ inches. Weight, 34 ounces. Shipping weight, 40 ounces.

EASTERN ARMS CO. TARGET MODEL REVOLVER

$4 5-IN BAR

32 OR 38-CALIBER, 3, 3¼, 5-INCH BARREL.

In answer to a demand for a special revolver for target shooting, we offer this improved model Eastern Arms Co. revolver, in either 32 or 38-caliber, 3, 3¼ or 5-inch barrel, fitted with automatic shell ejector and improved cylinder stop. Can be used as either a double or single action revolver. Furnished in blued or nickeled finish. Fitted with special black rubber target stocks, extra long grip, large full butt, 1¾ inches wide, having solid end extending ¾ inch over the frame, scored sides. Being larger than the regular revolver stock, it affords a much safer and more secure hold on the fire arm. In making these revolvers special attention is paid to the alignment and balance, and to securing an ideal hang. The barrels are well rifled to insure the greatest possible accuracy and uniformity in shooting. These revolvers are fitted with a new design front sight and an improved model rear sight. These special features in this revolver make it an ideal arm for target practice. It is also one of the most practical and desirable general purpose revolvers.

Shipping weights, 32-caliber, 22 ounces; 38-caliber, 26 ounces.

ENGRAVED MODEL EASTERN ARMS CO. REVOLVER

This is the same as our regular automatic, above described, with the exception of the handsome hand engraving, as illustrated. This engraving is all done by hand by skilled artists. The illustration does not do it justice, as we cannot bring out the fine detail, but, nevertheless, it gives you a fair idea of the handsome appearance of these revolvers. We can furnish them either blued or nickeled, and when fitted with pearl stocks (at an extra charge of $1.00) they are unquestionably the handsomest revolvers on the market today.

$3

Pearl stocks, $1.00 extra.

Shipping weights, 32-caliber, 18 ounces; 38-caliber, 22 ounces.

VOLVERS-PISTOLS

A VERY COMPLETE LINE of revolvers of all makes, calibers and descriptions will be found on this and the following pages. In selecting these revolvers we have been careful to select only such makes, styles and sizes as we know are practical and will give satisfaction.

GUARANTEE. Every revolver we sell is carefully inspected and examined by experienced gunsmiths, and we guarantee every revolver sold by us, regardless of price, against defective material or workmanship, with the understanding that if not entirely satisfactory in every way, it may be returned to us at our expense, and we return your money and any transportation charges you may have paid.

ERED MAIL. We advise where a revolver only is ordered, that you have the revolver sent by insured mail, which guarantees delivery, and which costs but 5 cents extra over the regular postage for each revolver and 10 cents extra over the regular postage for a revolver costing over $5.00. For high priced revolvers, such as Smith & Wesson and Colt, we recommend express or registered mail. Registered mail costs 10 cents over the regular rate. We quote the shipping weight under each description. The postage rate is 1 cent an ounce, to which add cost of insured or registered mail.

EMBER that the postoffice does not guarantee delivery on revolvers or any other goods lost in the regular mail, but by sending goods either by insured or registered mail, delivery is guaranteed.

NEW ENGLAND SPECIAL REVOLVER.

70c AND 90c PER 100 FOR CARTRIDGES. SEE PAGE 911.

$2.59

A high grade automatic shell ejecting revolver, made by one of the largest Eastern factories in competition with the cheap, poorly constructed revolvers with which the market is flooded. This is a high grade revolver. All parts are accurately machined and interchangeable; rifled steel barrel, fluted cylinder, fancy rubber handle. Shoots the 32 and 38-caliber Smith & Wesson cartridges and is guaranteed to be absolutely safe and reliable and to be absolutely free from defects in workmanship and material. This revolver, while not so good as the Eastern Arms Co. Revolver, is vastly superior to revolvers sold throughout the country at $3.50 to $4.50, and at our price of $2.59 it is extraordinary value.

COLT'S AUTOMATIC PISTOLS AND REVOLVERS

COLT'S AUTOMATIC PISTOL, 25-CALIBER, 7-SHOT, $12.00.

The latest automatic pistol produced by the Colt's Patent Fire Arms Co. This pistol is very small and compact. It shoots the 25-caliber rimless, smokeless, center fire, metal patched cartridge with great accuracy and penetration. All parts are accurately machined and rifled; the mechanism is simple; the pistol can be taken apart without the aid of any tools; the magazine holds six cartridges, and one in the chamber, making seven shots in all. By pulling the trigger the cartridge is fired, the empty shell is ejected and a new cartridge is loaded into the chamber. Fitted with slide lock safety, also grip safety, making it necessary that the pistol be firmly held in the hand before the trigger can be pulled and positively preventing accidental discharge. Length of barrel, 2 inches; entire length, 4½ inches; weight, 13 ounces; blued finish. Shipping weight, 16 ounces.

No. 6H1495 Colt's Automatic Pistol, 25 caliber, 2-inch barrel, blued finish. Price.....$12.00

COLT'S AUTOMATIC MAGAZINE PISTOL 32-CALIBER, 9-SHOT, $15.00.

The entire pistol is made from the very best grade of crucible steel; the parts are simple and strong; the barrel is finely rifled for long range shooting; all metal parts are handsomely blued; fancy rubber handle, latest improved safety on the grip; the entire length of the Colt's Automatic Pistol is 7 inches, the weight is 24 ounces, will hold eight cartridges in the magazine and one in the barrel, making it a nine-shot pistol, is accurate up to 300 yards, and will penetrate five 1-inch pine boards at a distance of 15 feet. Each shot throws out the shell and puts in a new cartridge. All you have to do is to pull the trigger. Shipping weight, 30 oz.

COLT'S AUTOMATIC POCKET PISTOL, 38-CALIBER, 8-SHOT MODEL.

$20.00

One of the strongest pistols ever produced, eight shots may be fired in two seconds, has a range of 500 to 1,000 yards, shoots the latest 38-caliber Colt's Automatic high pressure cartridge, and has a velocity of 1,050 feet per second and will penetrate nine 1-inch pine boards. The magazine is in the handle and it has no cylinder, wherein it differs from revolvers. To operate this pistol, place seven cartridges in the magazine and one in the chamber, raise the hammer, and all you have to do after that is to pull the trigger, for the pistol cocks itself by its own recoil after each shot is fired. The Colt's Automatic Pocket Pistol has 4½-inch barrel. Shipping weight, 38 ounces.

COLT'S AUTOMATIC PISTOL 45-CALIBER

$22.00

The Colt Pistol has been adopted by the United States government for use of the army after a series of most exacting tests covering a period of four years. This pistol is the same in mechanical construction as those above described. It shoots the 45-caliber rimless 200-grain metal patched smokeless cartridge. In this model the slide remains open after firing the last cartridge. Capacity of magazine, seven shots. Finish, full blued. Checkered walnut stocks.

COLT'S POLICE POSITIVE REVOLVERS.

32 and 38-Caliber.

The Colt's Police Positive Revolver is made on the solid frame, side ejecting, jointless pattern, the same as the Colt's New Army and New Navy. Has the side ejecting device for extracting the shells from the cylinder, patent safety lock device in the frame, made so that the firing pin cannot strike the primer of the cartridge until you pull the trigger. It is a 6-shooter made to take the 32 short Colt's center fire, 32 long Colt's center fire or 38 Smith & Wesson cartridges. The 32-caliber revolver weighs about 18 ounces and the 38-caliber revolver weighs about 20 ounces. Has a splendid grip, smooth working action, blued steel finish, with fancy rubber handle, but may be fitted with pearl handle for $2.00 extra, and is the revolver which is adopted by the city police departments of New York and other large cities. Shipping weight, 24 and 26 oz.

COLT'S ARMY SPECIAL REVOLVERS MODEL 1903, 32-20 and 38-Caliber.

$15.50

This revolver supersedes the model 1892 Colt's Army and the New Navy Revolvers, the manufacture of which has been discontinued. This revolver is made in two calibers, 32-20-caliber, using the regular rifle cartridge, and 38-caliber, using either the 38 long or 38 S. & W. Special cartridges. The cylinder is chambered for six shots. Made with two lengths of barrel, 4½-inch and 6-inch, finished with a dark blue finish. Weight with 4½-inch barrel, 32 ounces; length over all with 4½-inch barrel, 9¾ inches. The cylinder of this revolver revolves to the right, insuring tightness and perfect alignment. The revolver is fitted with Colt's positive lock, which absolutely prevents accidental discharge. Shipping weight, 40 to 44 ounces.

Double Action Swing Out Cylinder Solid Frame.

COLT'S OFFICERS' MODEL TARGET REVOLVER.

38-Caliber. $18.50

This revolver is designed for target shooting and where extreme accuracy is desired. It is generally adopted by army officers and is used in all target shoots. Made with jointless solid frame, swing out cylinder, stocks and trigger finely checked. Particular attention is paid to the action, which is hand finished and operates with great smoothness. Sights specially adapted for target shooting. Front sight has adjustable elevation; rear sight has an adjustable screw, adjustable for windage. Six shots; length, 6 or 7½ inches; caliber, 38 long Colt or 38 S. & W. Special (either one of these cartridges may be used in the same revolver). Finish, full blued; fitted with finely checked full walnut stocks. Weight, 32 ounces. Length over all, 11½ inches. Shipping weight, 42 and 44 ounces.

COWBOY RANGER DOUBLE ACTION REVOLVER.

$6.60

Made by one of the foremost European manufacturers and patterned after the famous Colt's revolver. Solid frame, sliding rod ejector, side or loading gate, checkered rubber target grip. Blued finish. This revolver, while not so well finished or as good a fire arm as the genuine Colt's, is nevertheless a good serviceable, hard shooting fire arm. It will give excellent satisfaction and is exceedingly good value at our price. Shipping weight, 35 ounces.

44-CALIBER FRONTIER REVOLVERS.

$3.75

Takes Cartridge No. 6H2409

This revolver is known as the imported Frontier Revolver, shoots the 44-40 caliber cartridge, and is the only low priced revolver taking this cartridge. It is made with a solid frame, as shown in the illustration, has 5½-inch barrel, is a 6-shooter; fancy rubber handle, full nickel plated or blued steel finish throughout, and for a person who does not do very much shooting, this revolver will probably answer the purpose of a large caliber low priced revolver, but if you are so situated that you do considerable shooting, we recommend by all means that you purchase a Colt's revolver, either the Single Action Army or the Bisley Model, which are built for hard use. Shipping weight, 37 oz.

MALLARD SMOKELESS LOADED SHELLS 12-GAUGE ONLY,

$1.62 Per 100

A high grade smokeless powder shell at less than the regular price of common black powder shells. The Mallard Shells are sold exclusively by us. They are guaranteed high quality shells; equal in every way to shells sold generally at $2.25 to $3.00 a hundred. Second only to our celebrated Pointer Shells, quoted on the following page. Mallard Shells are loaded with a high grade bulk smokeless powder, quick, clean, powerful, with very low breech pressure, making it a safe shell to use in any double or single barrel gun. Primed with a special powerful primer, guaranteeing quick ignition. Loaded by the best automatic machinery, insuring absolute uniformity.

Remember, Mallard Shells are guaranteed to give satisfaction. Don't pay $1.65 to $2.00 a hundred for common dirty black powder shells when you can buy this high grade clean, smokeless, guaranteed Mallard Shell at $1.62 a hundred, $8.00 a case of five hundred. Get two or three of your neighbors, club together and buy a case, thereby taking advantage of the reduced price on full case lots and effecting considerable saving in freight charges.

Mallard Shells are furnished in 12-gauge only, in the various loads specified. Give catalog number and load number when ordering.

LOADED BLACK POWDER SHOTGUN SHELLS

10, 12, 16 AND 20-GAUGE

GUARANTEE

WE ABSOLUTELY GUARANTEE every loaded shotgun shell we sell against misfire, hangfire or blow backs. We guarantee the maximum of penetration and the greatest possible uniformity in pattern. We further guarantee that our shells will give better satisfaction and are better value than those you can buy elsewhere.

IN THESE BLACK POWDER SHELLS we use a special black powder of a hard grain, which burns rapidly and leaves far less residue in the barrel than any other black powder. It has enormous penetration with a minimum breech pressure.

Why not get your friends to join with you and buy shells by the case or 1,000 and ship by freight? It will save you money on freight charges, besides they are cheaper in case lots.

OUR CASE PRICE is for one size and one gauge in a case, just as it comes to us from the factory. We cannot sell less than a case at the case price, nor can we assort the case with different loads.

A case of 500 shells, 12-gauge, weighs about 65 pounds.
A case of 500 shells, 10-gauge, weighs about 75 pounds.
A case of 500 shells, 16-gauge, weighs about 53 pounds.
Our terms on loaded shells are cash with order.

Pointer Shells Are the Best Shells.

Made with a long brass cup. Loaded with a high grade English smokeless bulk powder of hard, clean grain, guaranteed not to be subject to climatic changes or to deteriorate with age, and to have the maximum penetration with the lowest possible recoil and breech pressure. The quickest, cleanest and hardest shooting smokeless powder made. Primed with a powerful nitro primer, set in gastight battery cup. Instantaneous ignition guaranteed. Loaded by automatic machinery, guaranteeing absolute uniformity, and perfectly crimped. The ideal shell to use in magazine, double or single guns.

Pointer Shells are guaranteed to give satisfaction. They are the ideal shells for field or trap, and our prices on same, quality considered, show a saving of at least one-third.

Pointer Shells are sold exclusively by us.

FREIGHT CHARGES ON A CASE OF 500 SHELLS,

weighing 65 pounds, to the various central points in the East, Middle West, South, Southwest, West and North. By taking the town nearest to where you live, you can approximately determine what the charges would be on a case of shells shipped to your town. You will note that after adding the freight charges to our prices on shells, you will still effect a great saving as against what you would have to pay elsewhere.

UNUSUAL PENETRATION AND ONE-THIRD CHEAPER.

Franklin Park, Ill.

Sears, Roebuck and Co., Chicago, Ill.

Gentlemen:—I have just finished an exhaustive test of your Pointer Shotgun Shells, and for closeness of pattern and unusual penetration they are the peer of any shell I have ever used. This, together with their cleanliness, makes them the equal of any other shell on the market, and at 45 cents to 50 cents a box, a saving of from one-fourth to one-third the cost.

Yours very truly,
BYRON E. BEEBE,
(Member Chicago Gun Club.)

ETALLIC AMMUNITION FOR RIFLES, REVOLVERS AND PISTOLS

HIGHEST QUALITY

WANT THE BEST ammunition made, ammunition that is absolutely guaranteed to be superior in penetration, accuracy and uniformity of results, you can serve your interests by buying the ammunition we handle, as our prices, you in comparison, are from 15 to 30 per cent below those asked by others.

FFERENCE IN PRICE between our ammunition and that handled by others is accounted for by the fact that we are absolutely independent of any association of ammunition manufacturers. We are not limited to any one source of supply in the purchase of our ammunition. We buy our ammunition from independent manufacturers. We absolutely insist that the quality be up to the highest recognized standard, and we make exhaustive tests from time to time to insure that the quality is at all times maintained. Not being obligated or under the control of any so called "association," we are at liberty to fix our selling prices on ammunition in accordance with its cost and in proportion to the values we offer throughout this entire book on all lines of merchandise. The quality of our ammunition is known by thousands of shooters as being the very best.

WE GUARANTEE every cartridge and every shell we sell. If you purchase a quantity of ammunition from us and do not find it satisfactory, equal in every respect to any ammunition you have ever used at any price, return the balance of the shipment to us, and we will return you the price you paid and make no charge for the box you used for testing. This liberal guarantee speaks for the confidence we have in the ammunition we handle.

No. 6H2336 22 Short.

No. 6H2377 32 S. & W.

No. 6H2388 38 S. & W.

The cartridges above illustrated are the three most popular sizes, and if you will refer to our prices on these cartridges and compare them with the prices asked by others, you will appreciate the wonderful value we are offering in metallic ammunition, quality considered. All other calibers represent equal value.

Remember, we sell only standard, highest quality, guaranteed ammunition.

NEW EMPIRE EXPERT TRAP

$4.25

The New Empire Expert Trap is made in our own factory and is controlled exclusively by us. We have greatly improved the trap over the original Empire Expert Trap. The carrier that holds the target and the trigger pull are two of the important changes we have made. The new Empire Expert Trap is easily adjusted to the elevation of flight of target, and the angle can be instantly changed by moving the lever to the right or left. The tension of the motor spring is quickly adjusted by a thumbnut near the hand. The trap has large extra heavy base. The arm with carrier has an extra long full sweep, and will throw any standard target, such as the Blue Rock, White Flyer, Black Bird, Dickey Bird, etc. Shipping weight, boxed, about 40 pounds.

No. 6H4424¼ New Empire Expert Trap. Price.....$4.25

THE IMPROVED MODEL J. C. HAND TRAP $2.40

Oxidized Copper Finish.

The construction of this trap is such that when sprung there is but little vibration or jerk. The operator can throw any quantity of birds without being put to any strain or jar whatsoever. Any 16-year old boy can operate this trap. Operating the trap by hand permits a great range of angles in throwing the target. The frame of this trap is made of the finest steel casting. The mainspring is a finely tempered spring. The tension of the spring is regulated by thumbscrew. The hand is made of steel with rubber covered posts. The trap when sprung is 39 inches long, and when set for shooting 24 inches long. Finished in a beautiful oxidized finish. Weight, packed for shipment, about 9 pounds.

No. 6H4430¼ Improved Model J. C. Hand Trap, finished in oxidized copper, gun-metal finish.
Price $2.40

No. 6H4365B The same rod, 48 inches long. Price...(Shipping wt., 11 oz.)....26c

The Daly Gun Cleaner, 19 Cents.

The Daly Gun Cleaner and Polisher is the most practical gun cleaner on the market. All parts are made of brass. Brass being softer than steel, it will not scratch the inside of the barrel. This cleaner not only takes out all burned powder, but polishes the inside surface of the barrels and keeps them in a clean and smooth condition. The sides of this cleaner are made of brass wire gauze, and when worn out may be replaced. This cleaner is made in 16, 12 and 10-gauge, and will fit any jointed rod. Be sure to state gauge wanted.

No. 6H4379A 10, 12 or 16-gauge. (Shipping weight, 3 ounces.) Price, each....19c

No. 6H4544 This Famous Gun Grease prevents rust on a steel or polished surface, such as the inside and outside of gun or rifle barrels, cutlery, razors; in fact, it is invaluable for all polished surfaces of steel or iron. It is put up in a neat tin box. Weight, 2 ounces. Shipping weight, 3 ounces. Price, per box.....8c

Our 8-Piece Reloading Set, 94c.

Our price of 94 cents for this Eight-Piece Reloading Set is lower than that asked by others for six and seven-piece sets without loading block and of inferior quality.

No. 6H4401 This set consists of a 20-hole shell loading block, a hardwood three-jointed cleaning rod with three attachments, one highest quality shell crimper with expelling pin, one powder and shot measure, one rammer and decapper with nickeled loading tube, one plain recapper, one nickeled ringed shell extractor and one steel wad cutter. If the various items were bought singly, the aggregate cost would be not less than $1.50. For 10, 12, 16 or 20-gauge. Be sure to give gauge wanted when ordering. Shipping weight, 47 ounces. Price.....94c

Our 6-Piece Loading Set, 57c.

No. 6H4406 Consisting of one japanned shell crimper with expelling pin, one combination powder and shot measure, one rammer and decapper, nickeled loading tube, one shell recapper, one ringed shell extractor and one steel wad cutter. For 10, 12, 16 or 20-gauge. Be sure to state gauge wanted. Regular retail price, $1.00. Shipping wt., 30 oz. Our price, per set..57c

Our 4-Piece Loading Set, 29c.

No. 6H4407 Consisting of rammer, decapping pin, nickeled loading tube, recapper, shell extractor, and powder and shot measure, packed in a neat paper box. Quality considered, this set could not be purchased for less than 50 cents. For 10, 12, 16 or 20-gauge. Be sure to state gauge wanted. Shipping weight, 10 ounces.
Price, per set.....29c

New Straight Feed Shell Crimper, 45c.

Our Patent Shell Crimper has a positive straight feed, which always keeps the shell in true alignment with crimper head, which is made of hardened brass, constructed so that it forms a perfect, round, smooth crimp. Equal to any $2.50 crimper made. The crimper is well made of good material, nicely enameled, and guaranteed to give perfect satisfaction. Made in 10, 12, 16 and 20-gauge. Shipping weight, 24 ounces.

GENUINE NEWHOUSE TRAPS.

The Genuine Newhouse Game Traps are branded on the pan "S. Newhouse," and are manufactured by The Oneida Community (Limited), at Kenwood, N. Y. They are the standard for excellence the world over and are fully guaranteed.

Newhouse Traps.

No. 6H4026 Genuine Newhouse Traps. Spread of jaws, 3½ inches; with chain. Size No. 0. Weight, 9 ounces. Shipping wt., 16 oz.
Price, per dozen, **$2.42**; each.....**21c**

No. 6H4027 Genuine Newhouse Traps. Spread of jaws, 4 inches; with chain. Size No. 1. This is the size most used. Weight, 13 ounces. Shipping weight, 18 ounces.
Price, per dozen, **$2.80**; each.....**24c**

No. 6H4028 Genuine Newhouse Traps. Spread of jaws, 4⅝ inches; with chain. Size No. 1½. This is called the mink trap. Often used for catching foxes. Weight, 19 ounces. Shipping weight, 26 ounces.
Price, per dozen, **$4.28**; each.....**36c**

Newhouse Double Jaw Traps.

No. 6H4033 The double jaws take an easy and firm grip on a muskrat or skunk so that he cannot twist or gnaw out. Newhouse No. 91, same size as No. 1 Newhouse; jaws spread 5⅛ inches. Complete with chain. Weight, 14 ounces. Shipping wt., 20 oz.
Price, per dozen, **$3.42**; each.....**29c**

No. 6H4034 Traps as above, Newhouse No. 91½, corresponds in size with the No. 1½ Newhouse. Spread of jaws, 6½ inches. Weight, 20 ounces. Shipping wt., 26 oz.
Price, per dozen, **$5.13**; each.....**43c**

Newhouse Webbed Jaw Traps.

No. 6H4035 Newhouse Trap with webbed jaws. The animal can gnaw off its leg only at a point quite a distance below the meeting edges of the jaws. The flesh left above the point of amputation and below the jaws will swell and make it impossible to draw the leg stump out of the trap. Made in Newhouse quality only and in only one size, Newhouse No. 81. Spread of jaws, 4 1-16 inches. Weight, 13 ounces. Shipping weight, 20 ounces.
Price, per dozen, **$3.14**; each.....**27c**

Newhouse Fox Trap.

No. 6H4039 The Genuine Newhouse Trap, with double spring and chain. Size No. 2, the fox trap; spread of jaws, 4⅝ inches. Weight, 23 ounces. Shipping wt., 32 oz.
Price, per dozen, **$5.99**; each.....**50c**

Newhouse No. 3 Trap.

BEAVER, WOLF, COUGAR, LYNX AND OTTER.

No. 6H4040 The Genuine Newhouse Trap, with double spring and chain. Size No. 3; spread of jaws, 5⅝ inches. Weight, 37 ounces. Shipping weight, 48 ounces.
Price, per dozen, **$7.98**; each.....**67c**

Newhouse No. 4 Trap.

BEAVER, WOLF, COUGAR, LYNX AND OTTER.

No. 6H4041 The Genuine Newhouse Trap, with double spring and chain. Size No. 4; spread of jaws, 6⅝ inches. Weight, 50 ounces. Shipping weight, 60 ounces.
Price, per dozen, **$9.41**; each.....**79c**

Newhouse Deer Trap.

No. 6H4052 Newhouse Trap No. 14, with chain. The trap is the same in size as No. 6H4041 but has heavier and stiffer springs, and offset jaws, which allow the springs to rise higher when the animal's leg is in the trap, and is furnished with teeth sufficiently close to prevent the animal from drawing its foot out. Spread of jaws, 6⅝ inches. Weight, 50 ounces. Shipping wt., 64 ounces.
Price, per dozen, **$9.98**; each.....**84c**

Single Spring Otter and Beaver Traps.

No. 6H4044 The Newhouse (Size 2½) Single Spring Otter Trap was designed in response to requests from old and experienced trappers. It is used more especially for catching otters on their "slides." For this purpose a thin, raised plate of steel is adjusted to the pan so that when the trap is set the plate will be a trifle higher than the teeth on the jaws. The points of the teeth are made very sharp, to pierce the animal's breast, and the raised plate can be readily detached if desired, making the trap one of general utility. Spread of jaws, 5⅛ inches. Weight, 32 ounces. Shipping weight, 40 ounces.
Price, each, with chain.....**$0.79**
Per dozen.....**9.41**

No. 6H4045 Newhouse (Size 3½) Otter Trap, single spring, with chain. In some localities the otter grows to an unusual size. The No. 2½ Newhouse was designed to meet these requirements. All the parts are heavier than the No. 2½, the spread of jaws is greater, and the spring stiffer. Spread of jaws, 6⅝ inches. Weight, 56 ounces, long chain. Shipping weight, 60 ounces.
Price, each.....**$ 0.88**
Price, per dozen.....**10.55**

Wolf and Panther Trap.

No. 6H4053 The Genuine Newhouse Trap. Size No. 4½, is especially adapted to catching wolves. This trap has 8 9-16-inch spread of jaws, with the other parts in proportion, and is provided with a pronged drag, a heavy snap and an extra heavy steel swivel and chain, 5 feet long, warranted to hold 2,000 pounds. The trap, complete with chain and drag, will weigh 8 pounds 5 ounces. Shipping weight, 9 pounds.
Price, 6 for **$11.40**; each.....**$1.90**

Bear Trap.

No. 6H4061 Newhouse Bear Trap No. 15, with chain. New model, with jaws having an offset of ⅜ of an inch, to allow the springs to come up higher, giving the jaws a firmer and tighter grip. This improved trap takes the place of the old No. 5 Newhouse. Spread of jaws, 11⅝ inches. Weight, 30 pounds. Shipping weight, 23 pounds.
Price.....**$5.70**

VICTOR BRAND TRAPS

The Victor Brand Traps are made by The Oneida Community. This is an improvement over the old discontinued Hawley & Norton trap, and we guarantee it to give satisfaction. All genuine Victor Traps have a V stamped on the pan.

No. 6H4076 Victor Traps with chain. Spread of jaws, 3½ inches. Size No. 0. Weight, 7 ounces. Shipping wt., 12 oz.
Price, per dozen, **$1.10**; each.....**10c**

Price, per dozen, **$1.30**; each.....**11c**

No. 6H4078 Victor Traps. Size No. 1½, mink trap; spread of jaws, 4⅜ inches; single spring, with chain. Weight, 15 ounces. Shipping weight, 22 ounces.
Price, per dozen, **$1.95**; each.....**17c**

No. 6H4079 Victor Traps. Size No. 2, fox trap; spread of jaws, 4⅝ inches, double spring, with chain. Weight, 17 ounces. Shipping weight, 24 ounces.
Price, per dozen, **$2.73**; each.....**23c**

No. 6H4080 Victor Traps. Size No. 3, the otter trap; spread of jaws, 5 5-16 inches; double spring with chain. Weight, 32 ounces. Shipping weight, 40 ounces.
Price, per dozen, **$3.64**; each.....**31c**

No. 6H4081 Victor Traps. Size, No. 4, the beaver trap; spread of jaws, 5¾ inches; double spring with chain. Weight, 32 ounces. Shipping weight, 40 ounces.
Price, per dozen, **$4.29**; each.....**36c**

The Oneida Jump Traps, With Chains.

The Oneida Community Jump Traps with chains are lighter in weight and therefore easier to carry than the other styles. They lie very flat and are easily secreted in the runways of animals. The jaws have full, wide meeting faces much less likely to break the animal's leg than are other makes of this pattern. These traps are warranted in every respect.

No. 6H4097 Rat, Weasel or Gopher Trap. Size 0, with chain. Spread of jaws, 4 inches. Weight, 6 ounces. Shipping wt., 10 ounces.
Price, per dozen, **$1.45**; each.....**13c**

Price, 6 for **$1.75**; each.....**30c**

The Sure Death Trap.

A steel trap combining the principle of the old Indian snare and the figure 4. It can spring this trap and live. The trap, invisible when set, will not freeze up, and the only trap that can be successfully used with live bait. It kills its catch and carries away with all losses on account of the trap freezing themselves. Guaranteed to catch mink, muskrats, skunks and gophers, more than any other trap. A chain is unnecessary, as the trap kills the animal. Full directions accompany each trap. Easy to set and bait for mink, marten, otter, muskrats, rabbits, etc., accompany each trap. Length over all, 12 inches; weight, [illegible] Shipping weight, 10 ounces.

No. 6H4214 Price, each.....

CEDAR WOOD DECOY DUCKS.

In making these decoys great care has been used to select only sound white cedar for their construction and to secure a perfect balance. They are light, substantial and naturally colored. They will not sink if you shoot them. $2.85 and $4.20 per dozen. Each dozen contains eight drakes and four ducks.

They come in mallard, canvasback, redhead, black duck, bluebill, teal or pintail. Weight, 35 to 40 pounds per dozen. State which style you wish.

REMEMBER—We can furnish only eight drakes and four ducks in each dozen.

No. 6H4495¼ No. 10, our best decoy duck with glass eyes. These decoys are as nicely painted and as well shaped as most decoys which regularly retail at $6.00 to $7.50 per dozen. State which style you wish. Price, per dozen, $4.20; each.....40c

No. 6H4496¼ No. 30, good decoy ducks, nicely painted in natural colors, with painted eyes. These decoys are not quite as well painted or shaped as the No. 10, but are excellent value for the money. State which style you wish. Price, per dozen, $2.85; each.....30c

No. 6H4497 Anchors with cord to fasten to breast so they will swim like the natural bird when in the water. Price, per dozen.45c

Hard Rubber Duck Call.

No. 6H4462 This call is made entirely of the best quality of hard rubber, has hard rubber reed. Will not check or crack, is not affected in any way by water or the weather, and will stay in perfect tune under all conditions. Has good, strong tone, and is easy to blow. Shipping weight, 4 ounces. Price, each.....39c

Kankakee Marsh Duck Call.

These calls are fitted with best quality German silver reeds and have not the metallic sounds found in many duck calls and sounds which are unnatural to the tones of wild ducks. Each call is toned by an old experienced duck hunter when it leaves us and should not be altered in any way. With a little practice an amateur will soon learn to call ducks as well as an old experienced hunter. Directions for calling accompany each call. Shipping weight, 2 ounces.

No. 6H4461 Our Kankakee Marsh Duck Call. Price.....32c

No. 6H2286 3¼ drams, 1⅛ ounces No. 6 chilled. Price, per 100.....$2.20

DOG COLLARS

This is the finest line of dog collars on the market. We call particular attention to our patent lock buckle, used on all collars from Nos. 6H6265 to 6H6341, inclusive. This buckle can be used the same as the ordinary buckle, or padlock can be hooked into the eye of the buckle tongue, making it impossible to unbuckle the collar without removing the lock. **Prices on collars do not include locks.**

NAMES ENGRAVED ON COLLARS and HARNESS For 3 Cents a Letter.

Be sure to write name to be engraved very plainly.

IMPORTANT. Always give exact measurement around the dog's neck. Sizes given below are the sizes of a dog the collars will fit when buckled at that size.

HOW TO MEASURE THE OLD COLLAR. Measure the dog's neck with tape measure, and give us actual measurement and we will fit him every time.

Jewel Studded Collars.

A handsome collar for short haired dogs. Black grain leather, double row of brass studs with imitation turquoise in polished brass mountings, finished. The blue stone mountings, studs and the yellow stitching make a contrast with the deep rich color. Fitted with brass name plate, and patent lock buckle. When ordering give measure of dog's neck and give number of the size collar that is nearest to wanted.

Catalog No.	Neck Measure	Width of Collar	Price	Shipping Wt.
6H6288	9 inches	½ inch	22c	3 oz.
6H6290	11 inches	⅝ inch	26c	4 oz.
6H6292	13 inches	¾ inch	33c	4 oz.
6H6294	15 inches	1 inch	39c	5 oz.
6H6296	17 inches	1 inch	46c	7 oz.

Terrier Spike Collars.

For short hair dogs of this type. Made of black calf leather, leather lined. The 9-inch collars have each a single row of brass spikes, ⅝-inch long, and a row of brass ⅝-inch studs. The 17-inch collars have a double row of spikes, triple row of studs. The 19 and 21-inch collars have a double row of brass spikes, each spike surrounded by a circle of brass studs with additional studs between the spikes. Brass buckle, brass "D" rings, patent brass lock. **When ordering give catalog number and size of the collar that is nearest to the measurement around your dog's neck.**

Catalog No.	Neck Measure	Width of Collar, Inches	Price of Collar	Shipping Wt.

6H6302	19 inches	1 inch	44c	5 oz.

Pearl Studded Collars.

The handsomest dog collars made. Particularly suited for fox terriers, bulldogs, Boston terriers and short hair dogs up to 17 inches in neck measurement. These collars are made of black calf leather, leather lined. Have a single row of best quality pearl studs with a double row of burnished brass studs. The 9, 11 and 13-inch collars have pearl studs ⅜ inch in diameter. The 15 and 17-inch collars have ½-inch pearl studs. These collars are fitted with large square brass name plates, brass "D" rings and brass lock buckles which can be used with or without locks. **When ordering give catalog number and the size collar that is nearest to the measurement around your dog's neck.**

ICE SKATES

WHEN ORDERING ICE SKATES GIVE LENGTH OF SHOE IN INCHES.

In measuring shoe, place heel of shoe against the wall and measure from wall to end of toe. We often receive orders like the following: "Send me one pair of skates, No. 9." We do not know if it is for a No. 9 child's shoe, a No. 9 man's shoe, or a 9-inch shoe. We will not attempt to fill orders for skates unless size wanted is given in inches.

New Model Skates. 38c

No. 6H5948 New Model Improved Pattern Ice Skates, of excellent quality, at a very low price. The top plate and sides of this skate are made of one piece of stamped steel. Riveted steel runner, hockey style toe clamps with heel straps. This skate is more rigid, contains fewer parts and is lighter in weight than skates usually sold for 60 to 75 cents. Sizes, 9½, 10¼ and 11. Shipping weight, per pair, 20 ounces.
Price, per pair.....38c
When ordering give length of shoe in inches.

Star Club Skates.

No. 6H5950 The runner of this skate is made of the very best cold rolled cast steel. Sizes, from 8 to 12 inches. Shipping weight, 31 to 40 ounces. Price, per pair.....54c
When ordering give length of shoe in inches.

No. 6H5954 Hardened Skate. The steel used in this skate contains a higher percentage of carbon and the runner is carefully hardened and highly polished. Sizes, 8 to 12 inches. Shipping weight, 35 to 50 ounces.
Price, per pair.....80c
When ordering give length of shoe in inches.

Racing Skates, $2.25.

No. 6H5965 Full Racer. Tops are made of selected close grain beechwood, varnished, with highly nickel plated toe, heel and center plates. Runners are made of high grade cast steel, ⅛ inch thick, making the lightest possible skate; made with 14, 16 or 18-inch runners. Shipping weight, 40 to 48 ounces. Mention what length runner wanted.
Price, with straps, per pair.....$2.25
When ordering give length of shoe in inches.

Full Rocker Skates, $1.34.

HUNTING CLOTHING OF IMPROVED DESIGN

RIOR IN QUALITY, SIZE AND FIT, The qualities and weights of the materials are guaranteed exactly what we claim them to be. All coats are cut over our own patterns, which are longer, and have more room in body than any other coat made. The only hunting coats with a sleeve and armhole permitting the arm to be raised to shooting position without lifting the loaded pockets, a very important point in a hunting coat. Our high roll collar insures a well protected throat and a warm neck. **Be sure to state size when ordering.**

Imperial Shooting Coat

Perfection in Style, Comfort and Service.

Made of imported English twilled moleskin, a handsome olive drab color, the best and strongest cloth made; very closely woven, soft and pliable; wears like leather, surpassing anything ever put into a hunting coat. This coat is lined with the best quality of fustian cloth, very strong and durable. Cut over our special pattern, superior to all others, as it is large and easy, with plenty of room in the skirt; our special high roll collar, which fits up snug and close at the neck; has our special sleeves (not found in any other coat) which allows the arm to be raised without lifting the loaded pockets; adjustable cuffs; four-button front; two bell shaped shell pockets, 12½ inches wide by 9½ inches deep, with large flap and button; one breast and one whistle pocket. Entrance to game pocket at side seams, with flap button, and on inside in the front facing; silk button-hole stitched throughout. This is a first class garment in every respect. Guaranteed to give satisfaction in every respect. Sizes, 36 to 48 inches chest measure. **Give chest measure.** Shipping weight, 50 to 68 ounces.

6H8282 Pants to match the above coat. Sizes, 30 to 44 inches waist measure. **Give waist and inseam measure.** Shipping weight, 35 ounces. Price.....**$3.85**

Shuredry Hunting Coat

Guaranteed Waterproof.

For many years efforts have been made to produce a practical and satisfactory waterproof hunting coat. We are the first to succeed with our Shuredry Coat, which we guarantee to be absolutely waterproof. The material is similar to regular 10-ounce U. S. army duck, is olive tan color, and has been subjected to a special patent treatment which fills the fibers of the duck, making it thoroughly waterproof and giving a soft finish to the cloth. Body and sleeves are lined with a very fine, closely woven 8-ounce duck. This coat is cut over our special pattern, large and easy, with plenty of room; our special high roll collar, which fits up snug and close to the neck; our special sleeves, which allow the arms to be raised without lifting the load in the pockets; adjustable cuffs, corduroy lined; four-button front; two large bell shape shell pockets, 12½ inches wide by 9½ inches deep, supplied with large flap and button; one breast and one whistle pocket. Entrance to the game pockets is at the side seams, with flap to button, and on the inside at the front facing. Large reinforcements on the shoulders, covering the shoulder seam. Coat is double stitched throughout. This is an "all weather" coat, dry or rain the shooter is always comfortable. Satisfaction guaranteed or money returned. Sizes, 36 to 48 inches chest measure. **Give chest measure.** Shipping weight, 38 to 50 ounces.

No. 6H5134 Shuredry Coat. Price.....**$3.65**

The Gold Medal Canvas Hunting Coat

Wind and Water Proof.

Made of the highest grade genuine United States Government army duck, the finest, strongest, duck made. The outer coat is made of 12-ounce olive tan color genuine army duck and lined throughout with 8-ounce army duck; sleeves lined with the celebrated Walker sateen. Cut on our large, full pattern with an extra large, roomy skirt. The coat does not bind anywhere. The sleeves are cut on a very roomy pattern with special gussets under the arm, giving absolute freedom to the arms. The cuffs are adjustable, with deep inside facing of corduroy. Large shoulder pieces of oil tanned horsehide, well padded, giving the greatest possible protection to the shoulders and adding greatly to the strength and appearance. Our special high roll collar made of corduroy, large fancy bone buttons, silk stitched buttonholes, hand worked silk crowtoe pocket stays, full leather bound, double stitched throughout. Four shell pockets, one breast pocket and one whistle pocket. Entrance to game pockets at side seams and front edge. The finest canvas hunting coat that skilled labor and highest quality material can produce. Sizes, 36 to 48 inches chest measure. **Give chest measure.** Shipping weight, about 4½ pounds.

No. 6H5130 Gold Medal Canvas Hunting Coat.
Price **$3.80**

Wool Mackinaw Coat $6.35

Warm, Comfortable and Fine Appearing.

A very desirable coat, suitable for shooting, riding or any outdoor wear. Very warm; easy fitting. Made of fine quality absolutely all wool 34-ounce mackinaw in a beautiful castor (mixed tan) color. The material resembles the famous Irish frieze cloth; very soft and thick, and requires no lining. Made in double breasted loose fitting style, with automobile style collar and belt of same material. May be worn without belt if desired. Has two large side pockets with flaps, two muff pockets for hands, and one very large pocket in back of skirt on the inside. A high grade coat in quality, style and finish; appearance. This quality has always sold for $10.00. Fully guaranteed. Sizes, 36 to 48 inches chest measure. **Give chest measure.** Shipping weight, 6 pounds.

6H5153 Mackinaw coat. Price.....**$6.35**

The superiority of our hunting clothing, compared with other makes, is clearly shown by the illustration. Our coats are cut full length. Note the full length of our coat, marked **A**, extra wide, full sleeves, as compared with the coats sold by others and makers. We give inches more around the chest than any other maker in the country. 1½ inches longer and buttons in front instead of half length sleeves. The excellence of the construction of our hunting clothing, together with the high grade and superior workmanship that has developed sales and made it the largest in the United States.

$2.90 Improved Dryback Coat

THE IDEAL SHOOTING COAT.

Made of genuine U. S. government new shelter tent duck, which is made expressly for army use. Very fine closely woven canvas, weighing about 8 ounces to the yard, and very soft and pliable. We have put this material through the best waterproofing process to make it more waterproof. It is the government olive tan shade. The coat is constructed like two coats in one; the same goods used for the outside and lining. Cut over our special large pattern, with 4-inch corduroy collar, gussets under the arms, adjustable cuffs with wide corduroy facing, two extra large shell pockets with button on flap, one breast pocket, one whistle and one match pocket on the inside. Entrance to game pockets at the side seam, with button on flap, and at the front edge of the coat. This coat is very light and soft, as comfortable as a shirt, and as waterproof as any canvas hunting coat made. Satisfaction guaranteed. Sizes, 36 to 48 inches chest measure. **Give chest measure.** Shipping weight, 45 to 60 ounces.

55 FOR THIS NEW STYLE SOLID EDGE LEATHER GUN CASE.

NO SEAM ON LOWER EDGE

For years gun case makers have been endeavoring to construct a case without the long seam on the under edge, which receives the hardest wear and has always been the weakest point of the case. We offer in this new style construction a case with the long seam on the side. An important feature of this case is the rib protection, a leather covered block securely fastened to the end of the case to fit over in the rib of the barrel to protect the rib and to prevent it from puncturing the cap of the case. This case is made of good heavy oak tanned cowhide, oak tan color, well made. It has a rod pocket, handle, shoulder sling and brass trimmings. Shipping weight, 64 ounces.

[illegible]RIKING OR PUNCHING BAGS

$1.05 TO $3.05 OUR COMBINATION SINGLE AND DOUBLE END BAGS.

These bags are all made so they can be used either as single end with platform, or as double end bags with rope and elastic, suspended between floor and ceiling. They have no clumsy loops on the bottom to spoil the looks or throw them out of balance when used as single end bags with platform. To make the double end bag, you simply pass the elastic cord through two holes in the round piece usually found on the bottom of all bags. This end piece on all our bags has an extra heavy reinforcement over which the elastic is passed and which holds it securely.

In the construction of our bags we use only the very best leather suitable for the purpose that can be procured, and this, combined with the best quality linings, workmanship and finish, makes them the best striking bags on the market today that money can buy. **The prices quoted below are for the bags complete with bladder, rope, elastic and screw eyes.**

[illegible]H6824 Made of good strong leather, drill lined, strong loop, all well made. This [illegible] practice bag for a very little money. Shipping weight, 16 ounces. [illegible] complete.....**$1.05**

Football Pants.

INVISIBLE PADDING, VERY NEAT.

No. 6H7155 Neatest garment ever constructed for this purpose. These pants are made of the very best quality khaki, tan color, best inside padding with reeds on the thighs. Instead of quilting the padding to the outside of the pants it is quilted to the lining, which gives the pants a much neater appearance, and at the same time gives the same protection given by the old style pants. Worked eyelet holes, strong belt loops, lace front. Sizes, 26 to 40 inches waist measure. Give waist measure when ordering. Shipping weight, 34 to 48 ounces. Price, per pair **$1.56**

No. 6H7157 Football Pants, made of the best quality khaki color drill with imitation reed padding quilted on the thighs, making very neat, strong and durable pants. Lace front, belt loops. Sizes, 26 to 40 inches waist measure. Give waist measure. Shipping weight, 26 to 40 ounces. Price, per pair **75c**

HAMMOCKS

HIGHEST QUALITY; LOWEST PRICES.
BEAUTIFUL DESIGNS AND HANDSOME FAST COLORS.
QUALITY AND SATISFACTION GUARANT

OUR CHALLENGE OFFER $1.89

Patent Holdfast Fastening at Head and Foot; Sanitary Spring Wire Pillow. Full Size.

See page 925 for Hooks, Ropes and Chains.

No. 6H7343 We defy any $2.50 hammock to compete, in value and quality, with this beautiful hammock offered at $1.89. There are many of the so called Jacquard or gingerbread patterns on the market, sold at from $2.00 to $3.00, which do not contain half of the yarn employed in this closely woven hammock. The pattern, as illustrated, is simple yet striking. The heavy four-ply special long fiber firmly twisted yarn used in this hammock gives the greatest possible strength to the hammock and beautifully brings forth the handsome contrasting colors. This hammock is made with an extra large spring wire sanitary pillow, the most comfortable pillow used on a hammock. Our patent Holdfast guaranteed fastening is used at head and foot, the end ropes being connected direct with the spreaders, instead of to the body of the hammock, guaranteeing this hammock against pulling out or tearing. Made with an extra large, deep curtain, as illustrated. Size of bed, 40x80 inches. Weight, 6½ pounds. Price.....$1.89

EXTRA SIZE HIGH QUALITY HAMMOCK, COMPLETE WITH CHAINS, $

Kelso Automatic Reel.

$3.20 Latest Model.

No. 6H8754 This reel is made of aluminum and weighs but 7 ounces. This is an ideal reel for fly casting; can also be used for trolling. (Cannot be used for bait casting.) A slight pressure on the brake causes reel to rapidly take in the line, keeping the line taut at all times. Will handle 100 feet of line with one winding. Spool will hold 100 yards of No. 6 or H line. The tension of the mainspring is automatically thrown off, which relieves the wear and strain on the spring and allows the line to unwind, even if the spring is wound up tight. This reel is 3½ inches in diameter, 1 inch wide. Shipping weight, 15 ounces. Price.....$3.20

Improved German Silver Ideal Reel, 85 Cents.

No. 6H8753 Improved Ideal Reel. Made of German silver, finely polished. The lightest and best fly casting reel on the market. Single action. The double cone shaped German silver spool takes in the line as fast as an ordinary multiplying reel. So constructed that the line is quickly dried. Fitted with new style click and drag. The reel can be quickly taken apart by unscrewing the center screw. This is a highly finished, well made German silver reel of improved type, far superior to the ordinary nickel plated brass reels offered in competition.

Beaver German Silver Jeweled Quadruple Reel.

$4.95

NONE BETTER AT ANY PRICE.

No. 6H8782 Heretofore a reel of this quality could not be purchased for less than $6.00 or $10.00, but by placing a large order we have been able to have this reel made for us at a cost which enables us to sell it for one-half of what a reel of like quality is sold for elsewhere. The Beaver Reel is made of German silver, quadruple Kentucky wide spool pattern, fitted with large, fancy ivory balance handle; full 60-yard size, fitted with adjustable front sliding drag and back sliding click. The pinions and pivots are made of the finest Stubbs English steel; the bushings are made of the best phosphor bronze. The reel is as accurately fitted as the finest watch. The spool has a dead center bearing and large agates at either end. We guarantee this reel to run as smoothly and with as little friction as any $10.00 or $15.00 reel on the market. Hand polished satin finish. For the man who wants a reel that combines free running qualities, serviceability, strength and beauty, we recommend this one. Shipping weight, 13 ounces. Price.....$4.95

NOTE—Our German Silver Mounted Bait Rod, No. 6H8666, together with this reel, makes an ideal combination.

Shakespeare Latest Model Standard Professional Reel. German Silver Jeweled.

$4.50

No. 6H8778 This new model combines the merits of two of Shakespeare's much favored previous designs (the Standard and the Professional), with the addition of the latest improvements. The German silver frame is a patent solid take down pattern, with hard rubber head and tail discs, metal bound. Spool, 1⅞ inches wide. The spool and gear journals are of special steel, accurately turned, and run in solid phosphor bronze bushings. Has two perfectly adjusted screw off oil caps, set with genuine imported carnelian agate jewels. Patent graduated adjustable drag and hardened tool steel click. Gear is cut from hard drawn brass, and the pinion from special tool steel. Large fancy white ivoroid handle. Weight, 7 ounces. Shipping weight, 10 ounces.

80-yard size. Price.....$4.50

The Kentucky Pattern Jeweled Satin Finish Reel.

$2.88

No. 6H8767 This reel is full quadruple, 80-yard size, extra wide 1⅞-inch spool, steel pinion and steel axle. The pinion and gear wheel are securely bridged and locked so as to obviate all lost motion and to insure smooth, frictionless running qualities not found in reels that sell for twice its price. The pillars extend clear through the front and rear plates, thus insuring greater strength and rigidity in this reel than found in any other reel of the same pattern. The click and drag are on the handle side and are of an improved positive type. The steel axle bears on jewels at either end, which are fitted by hand. The mechanism of this reel is quickly accessible by removing two small screws, for which purpose a small flat steel screwdriver (which can be carried on a key ring) is furnished with each reel. Reel is beautifully finished in satin finish, screw off agate oil caps are nicely knurled, fitted with handsome large size bone balance handle and improved cross blade. Each reel put up in neat box, complete with screwdriver, as shown in the illustration. Shipping weight, 13 ounces. Price....$2.88

The New Tri-Part Wheel.

No. 6H8780 The latest, best and simplest takeapart reel on the market, 80 yards, quadruple with wide German silver spool, very light. This reel is taken apart in a few seconds by simply unscrewing the metal bands on the right or left hand side and the spool can be lifted out for cleaning or taking a tangle out of your line. The pivots of this reel are turned on the solid steel shaft which extends the entire length of the spool. The bronzed gear wheel is securely braced and bridged. This reel is fitted with a special friction cap, enabling the fisherman to regulate the speed of the reel and prevents back lashing. This reel is of a wide spool pattern, made by one of the oldest and best known reel makers in the country. Beautifully finished in nickel, fitted with large white bone handle, and with strong and positive click. We guarantee it to be equal in strength, material, workmanship and smooth running qualities to any reel offered at twice the price. One size only, 80 yards. Shipping weight, 14 ounces. Price.....$2.84

The Expert Jeweled Bearing Rubber Plate Metal Bound Quadruple Reel.

This reel is of the latest wide spool type. Rubber plates incased with nickel bands, jeweled bearings, the jewels being accurately adjusted to the axle; has handsome white bone milled balance handle; is bridged to prevent action from becoming loose, insuring smooth running qualities; gears are carefully cut and adjusted by experts; finely finished, being extra heavily nickel plated; new style cross blade, fitted with click and drag. Made in 60 and 80-yard sizes. Shipping weight, 11 ounces.

No. 6H8775 60-yard size. Price.....$1.80
No. 6H8776 80-yard size. Price.....2.00

Price, each.....7c

RINGED FISH HOOKS

This illustration shows the exact size of the ringed hooks, such as Limerick, Kirby, Carlisle, Cincinnati Bass (the Kirby, Limerick and Cincinnati Bass have the extra large eye), and all other kinds of hooks, as nearly as possible, measuring from the point of the hook to the shank.

The other difference in the various hooks is in the length of the shank and the style of bend.

We cannot sell less than 100 hooks of a size.

On above sizes, No. 2-0 is the smallest and No. 10-0 is the largest size. The sizes grow larger gradually from No. 2-0 up, as shown in this illustration.

Order by Number.

Be sure to state SIZE WANTED

This illustration shows the Kirby style hooks, about two-thirds the actual size. **Order by size number and catalog number.**

Our Carlisle hooks are the Celebrated Milward English "Iron Arm" brand. No better hooks made. All our ringed hooks have the large eyes.

We do not sell less than 100 hooks of a size.

Shipping weight, 3 ounces. Price, per bottle.....20c

TROUT FLIES.

Highest Grade Trout Flies.

30c

Our line of Trout and Bass Flies has been selected with great care. We have carefully selected only such flies as we know from experience to be killers, and know that our flies cannot be excelled for beauty, quality and workmanship. We do not sell anything cheaper than an all silk body fly, knowing that the cheaper grades do not give satisfaction.

B GRADE is a Silk Body Fly, plain wings, finely finished, tied to full length clear gut and good quality hook.

Price, per dozen.....30c

Shipping weight, per dozen, 2 ounces.

D GRADE highest quality, full silk body reversed wing trout flies. By reversed wing we mean the wing is tied twice which makes it impossible to whip off. The ends of the wing are tied and the wing is bent back toward the point of the hook and tied again. These flies are all tied with silk and have high quality hollow pointed imported English hooks, tied to best quality selected full length clear round gut. Regular price, $1.00 per dozen; our price per dozen.....60c

Shipping weight, per dozen, 2 ounces.

NOTICE—When ordering, give number of fly, also size of hooks wanted and state whether B or D grade. **We cannot sell less than one-half dozen flies nor less than two flies of one kind and size of hook.**

Do not compare this box with other cheap light tin boxes. Shipping wt., 55 oz. Price.....**70c**

Fisherman's Lucky Charm.

No. 6H9013 Made of light metal, gold finished. Nine pieces inserted in each other, forming a real limber pickerel, with natural head, eyes, tail and fins. Has ring in mouth to fasten to watch chain or charm. Full length, 1½ inches. Shipping weight, 1 ounce. Price **10c**

Never Sink Floating Minnow Bucket.

No. 6H9085 All fishermen who use live minnows, frogs or crawfish should have one of the Never Sink Floating Buckets, as it will pay for itself in one trip. When you arrive at the lake or river where you intend to fish, pull out the inside bucket, tie a short piece of string to the handle so it will not float away. The air chamber at the top of this bucket is airtight, with an opening at the top with a self locking hinged, perforated cover to allow you to get at your minnows very easily. The top of the inside bucket floats 2 inches above the water, made of galvanized wire, permitting plenty of fresh air. The cover of the outside bucket has a strong hinge and locking latch, perforated sunk-in cover for putting ice on when in transit on hot days. Made of IX heavy tin plate, with wire bail handle, nicely finished in rich dark green enamel with gold bands and fancy decorations. Weight, 3 and 3½ pounds. **Be sure to state size wanted.** Shipping weight, 8 pounds.

Flat Bottom Fishing Boats.

The best fishing boats made. Absolutely safe, comfortable and easily managed. Made of selected seasoned material by expert boat builders. These boats are made for us under contract and are sold by us exclusively. There are several flat bottom boats on the market, but we claim ours are far superior in design, workmanship and material, and row one-third easier. The sides are made of one-piece ⅞-inch cypress, oak stem, bottom boards laid crosswise, calked with cotton. Keel strip of yellow pine, thoroughly fastened through each cross strip. The gunwale, risers and uprights are of yellow pine or spruce. Inside of boat is finished with two coats of slate color lead paint; outside with two coats of the best green marine paint. Fittings: One pair copper tipped oars, fitted with oar plates and North River oarlocks. The 14-foot, 15-foot and 16-foot boats are fitted with one pair of oarlocks and two pair of sockets. Shipped from factory in Chicago.

Fit Your Boat With a Motorgo

THIRTY DAYS' TRIAL—GUARANTEED FOR LIFE

Motorgo Marine Engines have attained a nation wide reputation for their simplicity, reliability and power.

We guarantee the Motorgo Marine Engines to be equal in every way to any marine engine you can buy regardless of make or price.

There are other good marine engines for sale, but none better, and those that are equal to the Motorgo will cost you twice our price.

The material, workmanship, finish and equipment on the Motorgo Marine Engines is high grade in every respect. We defy any manufacturer to produce a better engine at any price.

Motorgo Marine Engines develop more than their rated horse power and will give you as much, if not more, speed in your boat than any marine engine of equal rating.

Buy your marine engine where you know you will be treated properly. We live up to our guarantee and trial offer to the letter.

What We Guarantee

We guarantee every Motorgo Marine Engine to be absolutely perfect in every respect and to be equal in every way to any marine engine you can buy, material, construction, equipment, power and finish considered. We will replace at any time any part giving out due to defect in material or workmanship. We guarantee that you will be entirely satisfied with your purchase, or if you are not, we will send you back your money and any freight charges you have paid.

Try a Motorgo Marine Engine in Your Boat Thirty Days at Our Expense

This is no idle offer just to get your order but is a frank statement of the confidence we have in the Motorgo Marine Engines. We only ask that you give the Motorgo a chance to prove its worth to you. Send us your order with the money for the size you want and we will ship the engine immediately. You can put it in your boat, try it thirty days before you decide to keep it. If you don't want it, we don't want you to keep it. Compare the engine with others in your neighborhood as to material, construction, power, equipment and finish. If you do not feel that the Motorgo is as good, if not better, than any other marine engine on the market, regardless of price, if you are not perfectly satisfied in every way, you may return the engine and we will send you back every dollar paid out, the price of the engine and freight charges.

What We Furnish With Motorgo Marine Engines

The 2½-horse power engines are equipped with Lunkenheimer mixing valve; the 5, 6, 8 and 12-horse power engines with Schebler carburetor. Each engine is furnished with oiler, grease cups, drain cock for cylinder, priming cups, inspection port crank case, thrust bearing, upright gear timer and plunger pump (except the 5-horse power, which has lever timer; and the 12-horse power, which has a gear driven timer). Each engine is furnished with spark coil and spark plugs, wiring with batteries, five dry cells with connectors, switch, expansion chamber, 6 feet of shaft-three-blade bronze speed propeller (weedless if desired), bronze stuffing box, one of cylinder oil, one box of grease and complete book of instructions.

We do not recommend or guarantee these engines for stationary work, as they are designed for use in a boat. If purchased for stationary work we cannot accept their return if they do not prove satisfactory.

STAND-BY MULTIPLE BATTERY.

Moisture Proof, Cannot Short Circuit, Perfect Ignition

We are at last able to offer you a battery that will give perfect ignition, making ignition troubles almost endless. We recommend its use with the Motorgo Marine Engines. This battery consists of ten dry cells completely sealed with paraffin, enclosed in a strong wooden box; special sealing process protects the terminals, holds the connections firmly and, as the battery is moisture proof, there is absolutely no chance for short circuit. One of these batteries will last you at least a year and will outlast from two to five sets of ordinary batteries.

Shipped from factory in Southern Michigan.

No. 11H256 Stand-By Multiple Battery only. Weight, 25 pounds. Price $4.00

No. 11H256B Stand-By Multiple Battery with any Motorgo in place of regular battery, add to the price of the $3.30

MOTORGO REVERSE GEAR.

A reverse gear is a great convenience in operating a motor boat, as it gives you perfect control with quick results. We have been handling this gear for four years and every one sold has proven absolutely satisfactory. Shipped on thirty days' trial, covered by our binding guarantee, a perfectly reliable reverse gear, saving you from $5.00 to $10.00. We are absolutely sure that you cannot buy a reverse gear that will give you any better service than the Motorgo regardless of make or price.

Shipped from factory in Southern Michigan.

No. 11H4720 For marine engines up to 8-horse power. Weight, 35 pounds. Price $12.00

No. 11H4725 For marine engines from 8 to 15-horse power. Weight, 50 pounds. Price $17.00

No. 11H4726 For marine engines from 15 to 30-horse power. Weight, 70 pounds. Price $35.00

No. 11H4727 Couplings for any of the above gears. Price $2.00

NOTE—In ordering couplings for engine you must be sure and give us size of engine shaft and size of propeller shaft.

FISH NETS SEINES, TRAMMEL NETS, GILL NE
HOOP NETS AND NETTING

WE SELL MORE RIGGED FISH NETS DIRECT TO THE FISHERMEN than any five dealers combined. We catalog the most popular sizes of seines and nets, and in addition, are able to make to order any nets of special specifications.

OUR NETS ARE MADE OF THE BEST MATERIAL, are properly hung, and are guaranteed to give satisfaction. The twines used in our cotton seines are guaranteed full size, made of the best No. 10 cotton yarn, one-third to one-half heavier than the cotton twines used by other dealers.

QUALITY CONSIDERED and giving due consideration to the fact that our twines are guaranteed full size, that the nettings are properly hung, and that the full quantity of leads and floats are used, our prices are fully 25 per cent below the prices asked by others.

OWING TO THE LARGE NUMBER OF SIZES and the varying demands one season over another for the different sizes, we do not stock the entire line of nets and seines, but make the big majority of them specially to order. Such nets as are carried in stock we so specify in the descriptions covering these particular nets. Gill nets, trammel nets, cotton and gill netting, and all hoop nets over 4 feet in diameter are not carried in stock, but are made specially to order. Therefore, when ordering, allow from four to eight days for us to make and ship the nets.

WE ADVISE anticipating your requirements in fish nets, inasmuch as the bulk of these goods is made to order, and although we have great capacity at our factory, at the same time this capacity, at the best, is limited, and if you wait until the last moment before order ting, seines or nets, your order is apt to come in with hundreds o and consequently will be subject to some delay which, if you are i need of the nets, might put you to some inconvenience. Understa we are able to take care of your order at any time, but when th is at its full height we naturally cannot fill orders as promptly a able to when the rush of orders is not so heavy.

ILLUSTRATION SHOWS A 1-INCH SQUARE MESH.

The following seines are hung with leads and lines ready except hauling lines. Compare our prices and quality with those by other dealers and you will find that we beat them all.

Weight—A 50-foot seine weighs about 20 pounds; a 100-foot weighs about 40 pounds; a 150-foot seine weighs about 80 pounds foot seine weighs about 180 pounds.

SUPERIOR TAPERED DRAG SEIN

Superior Linen Gill Netting.

NETTING ONLY, WITHOUT FLOATS, LEADS OR LINES.

The best linen netting for all gill nets or for inside of trammel nets, made of best silver gray three-cord linen twine. Any depth required. **Mention depth when ordering.** This netting is for gill or set nets, and not for drag seines, the twine being too small for such use. **NOTICE—We quote square mesh; 1 inch square equals 2 inches stretched. Cannot be returned when made to order. Expect a delay of from four to eight days.**

Our Rival Camp Stove, $3.08.

No. 6H10470¼ Perfect baker, good heater. Made of heavy sheet steel, has heavy ½-inch rolls all around bottom line of body, corners well mitered and well braced inside; ½-inch rolls around the doors to stiffen them, strong steel latches for each door. The cooking top is supported by strong angle braces. The pipe collar is in the corner, increasing the space for top cooking. An air space formed by a double wall is made between the fire and the oven; this prevents burning of food in the oven. **The stove pipe is 7 feet long (in six lengths), tapering from 5 inches to 4 inches in diameter, to allow it to be nested so as to pack inside of either the fire box or oven.** This stove burns wood; fire is placed on the ground; burns equally well inside or outside of the tent; is an excellent heater; will hold fire all night and keep the tent very comfortable. Length of stove, 29 inches; width, 16 inches; height, 14 inches. Size of oven; height, 9 inches; depth, 16 inches; width, 12 inches. Size of pot holes on top, 7 inches. Weight, crated for shipment, about 40 pounds. **Price $3.08**

Our No. 6H10455¼ outfit can be packed inside of either the fire box or oven of this stove, making one compact piece of baggage.

For complete line of Blue Flame Oil Stoves, hard and soft coal Cooking and Heating Stoves, see our Stove Pages.

Camping Outfit Complete for $5.48

No. 6H10455¼

Illustration of kit unpacked. Kit packed for shipment.

No. 6H10455¼ Wilson's Improved Kamp Kook's Kit. Just the thing for camping out. Fifty-three pieces. Fire jack, two boilers suitable for using as an oven, fry pan, coffee pot and all utensils and tableware for a party of six. **Everything first class.** Boilers are made of 26-gauge smooth steel. **The entire kit nests in small space,** and when packed ready for shipment makes a package 14½x10½x8 inches, **all nested together, and can be firmly locked up by an ordinary padlock.** Weight, complete, 20 pounds. Price, complete.....$5.48

This outfit can be packed inside of either the oven or the fire box of our No. 6H10470¼ Stove.

Our Portable Folding Cot and Litter.

Frame made of selected, seasoned hardwood, reinforced with tempered steel braces; side rails project as shown in the illustration, so that the cot, if necessary, can also be used as a litter or stretcher. The top is made of special weave, full weight, 10-ounce brown duck, with patent pillow casing, so made that it can be stuffed with hay, straw or clothing. Length, 6 feet 3 inches; width, 29 inches; size when folded, 6 feet 3 inches long, 5 inches wide, 2 inches thick. Weight, 15 pounds.

No. 6H10435¼ Price $1.56

Improved Gold Medal Folding Camp Bed.

This is positively the most substantial folding cot on the market. May be folded into a parcel 3 feet long and 5 inches in diameter, and is guaranteed to hold 1,000 pounds. The frame is made strong and substantial and is covered with heavy brown canvas and has a pillow casing which may be stuffed with straw, hay or clothing to act as a pillow.

No. 6H10438¼ Gold Medal Folding Camp Bed. Price $2.15

No. 6H10439¼ Gold Medal Bed, same as above, but extra wide; 36 inches wide, 18 inches high, 6 feet 6 inches long; weighs 20 pounds. Price.....$3.15

Waterproof Camp Blankets and Ponchos.

Absolutely waterproof, without any of the faults of the old style rubber blankets, which are easily torn, crack, become hard and stiff, and unserviceable after limited use. These blankets always remain soft and pliable, will last indefinitely and are absolutely water, rot and mildew proof. Made of specially constructed finely woven, waterproof duck, dark drab color. Eyelets in corners and sides. Shipping weight, about 4 pounds.

No. 6H10365 Camp Blanket, 5x6 feet. Price, each.....$1.75

No. 6H10367 Camp Blanket, 5x8 feet. Price, each.....$2.60

Poncho, army style, with hole and fly, permitting it to be used as a cape, 50x72 inches. Shipping weight, about 3½ pounds.

No. 6H10369 Price, each..$1.75

FULTON BRAND TENTS, MACHINE, STACK AND WAGON COVERS AND AWNI

MADE IN OUR OWN FACTORY IN ONLY ONE GRADE OF QUALITY—THE VERY BEST THAT CAN BE PRODUCED WITH BEST QUALITY MATERIAL, EXPERT PRACTICAL SUPERVISION AND STRICT OBSERVANCE OF SIZES AND CONSTRUCTION.

QUALITY GUARANTEED FULTON SEARS, ROEBUCK AND CO.

THIS LABEL appears on all our tents and is a guarantee of highest quality. Our tent, cover and awning business is the largest of all houses in the United States dealing direct with the consumer.

REDUCED PRICES

The unusually large cotton crop of 1911 and the subsequent low price of raw cotton as against last year, caused a considerable reduction in the cost of cotton duck, and as our prices are based on the actual cost of material and labor, we are able to offer our celebrated Fulton tents and Covers at prices considerably below those of last season. We buy our duck direct from the largest Southern mills, contracting for quantities fully five times as large as the requirements of most tent manufacturers, who buy from commission brokers and jobbers at greatly advanced prices which, naturally, prevent them from offering tents equal in quality to our Fulton Tents at competitive prices. To offset the advantage we have in operating the largest exclusive tent factory and in our enormous purchases, many manufacturers and dealers have established various misleading terms with the direct purpose of confusing the customer.

TRADE WEIGHT. **The words "Guaranteed Full Trade Weight" appear on many tents and covers sold by jobbers and manufacturers generally.** This sounds nice, but really means that the tent or cover is guaranteed to be short weight; 8-ounce trade weight is about equal to 6-ounce standard weight; 10-ounce trade weight is generally 7 or 8-ounce standard weight, and 12-ounce trade weight is about equal to 10-ounce standard weight. In other words, the words "Trade Weight" save the manufacturers and dealers the embarrassment of giving the actual standard weight and admitting that the tents and covers they offer in competition with our standard full weight Fulton Tents and Covers are really 35 to 40 per cent under weight. Standard full weight means that 8-ounce duck will weigh 8 ounces to the yard, 29 inches wide; 10-ounce duck will weigh 10 ounces to the yard, 29 inches wide, and 12-ounce duck, 12 ounces to the yard, 29 inches wide. Duck wider than 29 inches is not standard weight, as the wider the duck, the looser the weave and the lighter the threads. 8-ounce duck, 36 inches wide, is about equal to 6-ounce standard duck, 29 inches wide.

WHEN YOU BUY FULTON TENTS **you get what you pay for and take no chances.** The quality of the duck, correctness of the size and the workmanship are guaranteed.

WE HAVE BUT ONE GRADE OF TENT — **our Fulton grade. Absolutely guaranteed full size and full weight.** Other manufacturers make from two to four grades, all of them represented as full weight, 8, 10 and 12-ounce, but actually being short from 1 to 2 ounces a yard in the weight of the material and size skimped and shortened in accordance with the grade and the price which the customer is willing to pay. Send for one of our free Tent Sample Cards, showing the quality of our material and giving you full instructions on how to judge a tent, placing you in a position where you will know that you are getting what you ordered and paid for, and that you have not paid for something you did not get. Quality considered, our prices are from 15 to 25 per cent lower than those quoted by others.

BEFORE BUYING **we urge you to send for our free Tent Sample Card,** showing the exact quality of the material which will be furnished by us in all our tents and covers. If any dealer quotes prices lower than ours, he is not giving full size, full weight and standard construction such as furnished in our tents. **Our prices on tents and covers are based on the actual cost of material and labor,** and do not include the usual manufacturer's and dealer's profit.

SAMPLES OF CANVAS

SEARS, ROEBUCK & CO. CHICAGO, ILL.

IF OUR PRICES **appear higher than those quoted to you elsewhere, ask for a detailed description of the other tents.** Ask them for the weight of the tent without the stakes, the width of the duck used, and the quality of the rope, the height of wall and the height of center, and make them guarantee the tent to be in accordance with specifications; ask them if they will give the same guarantee on the tent that we do. We know that after you have done this and have received your answer, you will know it is to your interest to favor us with your order.

QUALITY AND PRICE GUARANTEE. **We guarantee every tent in this catalog to be lower in price than the same quality of goods can be bought elsewhere.** If any house ever meets or cuts our price on any article, they do it at the expense of quality. If you do not find this so by comparing the goods, you are especially requested to return our goods at our expense and get your money back. We guarantee our tents and covers to be exactly as described. We guarantee them to be full weight 29-inch canvas, and to be full size. We guarantee the door of the tent to be of the same weight canvas as the rest of the tent. If you purchase a tent of us and find it exactly as we represent it, you may return it to us at our expense and your and transportation charges will be returned. Weigh one of our tents or covers and a competitors' make and note which weighs the most.

Other Makes. Fulton Brands.

THESE ILLUSTRATIONS **will give you some idea of the relative quality of rope, used by other manufacturers, and pure manila sisal, used on all our Fulton Tents and Covers.** Note the short, scanty fiber in the rope, indicating that the rope has absolutely no body to it, consequently no strength; note the common wire splice used by almost all other manufacturers. Compare this rope we use, as shown in the illustration, and note the long, full fiber stock, giving enormous strength, and also note the hand worked sailor splice we use as compared with the wire splice used by others.

A Fulton Tent. Other Tents.

THE DIFFERENCE ... ton Tent as compared with other make. Note the large, full rope used by us, and note that it laps over a full half width of canvas, whereas the doors of other tents lap over but a few inches. We could reduce the price of our tents materially by making a cheap tent the same as that shown in the competitive tent, but in our Fulton Tents and Covers we aim to make only the highest quality material made in this line. Our object is not to see how cheap we can make these goods, but rather how good we can make them and then sell at a price consistent with the high quality material, labor and workmanship employed.

TWO DOORS. **On all tents that are 16x24 feet or larger we will furnish a door at each end without additional charge.** We think that a tent 16x24 feet or larger ought to have a door at both ends on account of its convenience and to secure proper ventilation. We, therefore, will furnish a tent 16x24 feet with a door at each end, if desired, at the regular price quoted. Be sure to state whether you want two doors in your tent if you order a tent 16x24 feet or larger. On tents smaller than 16x24 feet we will furnish an extra door for 60 cents.

DELIVERIES. **We carry all sizes of tents from 7x7 to 12x12 feet in stock and prompt shipment.** On all other sizes allow three to five days to make the tent. In June and July allow from four to eight days.

WE DO NOT SHIP TENTS C. O. D.

The Fulton Rope Ridge Wedge Te

No poles required with this tent. The rope ridge enables you to stretch this tent up between two trees or two forked sticks or in any way that you can fasten the two end ropes so as to keep the ridge taut. This tent possesses an advantage over tents with poles, as it can be easily carried from one place to another, the heavy, bulky poles being unnecessary. The following does not include the rope for fastening to trees, etc., which is furnished with the tent is sewed in the ridge and tents have each end of the tent in a spliced loop, making it easy for the user to attach additional ropes in accordance with his requirements. The 5x7-foot 8-ounce tent weighs 12 pounds, the 7x9-foot 8-ounce tent weighs 14 pounds. The 7x9-foot 10-ounce tent weighs 17 pounds. **Mention size and weight wanted.**

No. 6H10341¼ Size	Height	8-Ounce	10-Ounce
5x7 feet	6 feet	$3.35	$4.00
7x7 feet	7 feet	4.05	4.79
7x9 feet	7 feet	5.01	5.90

FULTON WALL TENTS

HIGHEST QUALITY.

We give weight of tents with poles below on 8-ounce tents. 10-ounce will weigh about one-quarter more and 12-ounce about one-half more than 8-ounce. **The weights may vary slightly, as poles do not always run alike.**

We carry all sizes of tents from 7x7 feet to 12x12 feet in stock and make prompt shipment. On all other sizes allow three to five days' time to make the tent. In June and July allow from four to eight days.

Warning—We do not use jute rope in our tents. We use the best pure sisal rope in tents up to and including the 12x18-foot tent; larger than 12x18, we use the best pure manila rope. On all wall tents size 12x12 and larger, we furnish top guy ropes at each end.

Extras for Tents.

DOUBLE FILLED. **Wall tents made of 10-ounce double filled duck** cost 5 per cent more than tents made of 12-ounce single filled duck.

KHAKI DUCK **tents made of U. S. Army standard 8-ounce duck khaki dyed,** cost 25 per cent or one-fourth more than tents made of 12-ounce white duck.

HIGHER WALL. **Where higher wall than regularly quoted is wanted,** add 5 per cent of the cost of tent for each additional 6 inches.

EXTRA DOOR **at back end of tent can be furnished on all tents from 12x12 feet to 16x24 feet** at an additional charge of 60 cents. Poles and pins are included with tents at the price quoted. When poles are not wanted, we will allow 5 per cent of the 8-ounce price. **Stove Pipe Hole** cut in tent with metal pipe ring sewed in, 80 cents extra.

A SOD CLOTH **on a tent is sewed to the bottom of the ends and sides of the tent,** upon which are placed stones or earth to keep out wind, flies, etc. In measuring amount of sod cloth required, measure distance around the tent. A 12x16-foot tent would require 56 lineal feet of sod cloth. **9-inch Sod Cloth.** Price, per lineal foot... 2c

UTILITY CAMPING BOX.

For campers, surveyors and contractors. Far better than a trunk; stronger, cheaper, greater capacity. An excellent box for provisions and camp utensils. Small camping parties can pack the entire outfit, including the tent, in this box. Has capacity for a tent as large as 12x14 feet. Made of tough wood slats, woven with wire, strong dovetailed frame, reinforced at corners by steel castings, solid ⅝-inch hinged cover. Inside measures 32 inches long, 16 inches wide, 15½ inches high. Can be used as baggage the same as a trunk. In camp it can be used as table or seat. Weight, 40 pounds.

No. 6H10465¼ Price .....

TENT FLIES.

A FLY FOR A TENT **is an extra removable roof, which is spread over the regular roof and staked down.** It serves the purpose of making the roof of the tent thoroughly waterproof and also affords protection from the sun and makes the tent warmer in winter time. If you have an old tent with a leaky roof, buy a tent fly. The cost of a fly for a wall tent is one-half the price of a tent of corresponding size and weight of duck. For example, a fly for a $10.00 tent will cost $5.00. **Tents cannot be returned if sent as ordered.**

Fulton Black Waterproof Covers.

10-Ounce.

These covers are waterproofed by a patent process and are far superior to other so called black oiled or tarpaulin covers, which contain linseed oil or tar. The preparation used to waterproof our covers is absolutely fire, mildew and water proof, and the covers will always remain soft and pliable. One of our covers will outlast three of the ordinary kind. Fulton waterproof covers are sold only by us. Please note, our covers are all made of 10-ounce duck, whereas others are made of 8-ounce. In ordering give catalog number, size and price. Weight, 6x12, 12 lbs.; 6x9, 9 lbs.; 7x12, 16 lbs.; 7x14, 19 lbs.

Awnings.

FULTON ADJUSTABLE WINDOW AWNINGS SHIPPED PROMPTLY FROM STOCK.

Can be attached in three minutes by anyone, and as quickly removed. The Fulton awning is manufactured and sold by us exclusively. The particular points of merit are the quick adjustment, the rigidity of the frame, the quality of the material used and the excellent workmanship. These awnings are made of handsome blue and white full weight awning stripe with scalloped curtain, as shown in the illustration, and greatly add to the appearance of the house. They come complete, ready to hang up. The price includes rope, screws and cleat. They come in five sizes to fit windows 2 feet 4 inches to 4 feet 6 inches wide. When ordering, give width of your window from center to center of casing on each side and specify number of awning you desire.

No. 6H10399¼ Be sure to order awning wide enough.

No. 1 Awning, will fit any window from 2 feet 4 inches to 2 feet 7 inches. Weight, 6½ pounds. Price.....$1.60

No. 5 Awning, will fit any window from 4 feet 1 inch to 4 feet 6 inches. Weight, 8 pounds. Price.....$2.00

Porch Curtains.

Our porch curtains are made of fancy striped or plain white duck, furnished complete with pulleys, ropes and roller, and all necessary screws and adjustments ready to attach to your porch. No experience is required to put them up. This curtain is made with double pulleys—the roller is at the bottom. By pulling the rope you revolve the roller, the curtain being raised or lowered, as desired.

When ordering, give height A to B (see illustration) and width B to C (see illustration). These curtains are made to order. Cannot be returned if made as ordered. We sell these curtains by the square foot; the price per square foot includes all accessories. A curtain 10 feet high and 16 feet wide would contain 160 square feet, and at 4 cents per square foot would cost $6.40. Allow four to six days to make.

No. 6H10397½ 8-ounce white duck. Price, per square foot.....4c
No. 6H10398½ Brown and white or blue and white striped duck. State color wanted. Price, per square foot..6c

Store and Porch Awnings.

We [illegible] headquarters for awnings of all kinds.

Our awnings are made of the best full weight canvas and all exposed metal parts are either japanned or galvanized. On any awning not quoted in the following list we will be pleased to quote prices on receipt of specifications. The prices quoted herewith are for awnings complete, ready to be set up, and include all the necessary fittings.

No. 6H10405½ The following prices are for awnings made of plain white duck, blue and white or brown and white striped. State which color is desired when ordering. Allow four to six days to make. If lettered, four days extra time for lettering.

Height from 1 to 2	Projection from 2 to 3	Width of Front—From 3 to 4					
		10 Feet	12 Feet	14 Feet	16 Feet	18 Feet	20 Feet
4 ft.	4 ft.	$5.82	$6.75	$7.00	$ 7.56	$ 8.28	$ 8.85
4 ft. 6 in.	4 ft. 6 in.	6.35	7.01	7.60	8.25	8.86	9.60
5 ft.	5 ft.	6.90	7.53	8.08	8.84	9.55	10.50

Price, each.....44c

Home Comfort, $1.25

No. 18H4088 Imported Decorated Porcelain Pipe with eight-part horn stem. Flexible stem and horn bit. Detachable horn nicotine receiver. Trimmed with tassel and cord. Length, 15 inches. A sweet, cool smoke guaranteed. Shipping weight, 1¾ pounds.

17c — Genuine Briar Bulldog Pipe. Length, 5 inches. Fitted with 2¼-inch solid rubber bit with patented lip feature, making it hold between the teeth. Shipping weight, 3 ounces. **No. 18H4019**

19c — Genuine briar Bulldog shape. Length, 5 inches. Fitted with 2-inch imitation clouded amber bit. Nickeled ring band. Shipping weight, 3 ounces. **No. 18H4023**

42c — "Safe-Pipe." Has closed briar bowl, which insures from falling ashes and winds at all times. Entire length, 5 inches. Fitted with 2¼-inch solid rubber bit. Nickeled ring band. Shipping weight, 5 oz. **No. 18H4026**

25c — Genuine briar bowl, nickel metal mounting. Length, 5¼ inches, with finely finished horn bit. Nickeled ring band. Shipping weight, 4 ounces. **No. 18H4020**

55c — "Welsian" Pipe. Genuine French briar bowl with meerschaum screw-in bowl. Solid rubber bit. A very sweet dry smoker. Full length, 4 in. Shipping wt., 5 oz. **No. 18H4025**

37c — Briar Eagle Pipe. Finely polished and finished. Length, 5¾ inches, with 2½-inch fancy horn bit. Extra thick bowl will not burn out. Shipping weight, 4 ounces. **No. 18H4062**

42c — "Well" Briar Pipe, with plated mounting band and nicotine receiver which is placed a large distance. This catches the nicotine and can be easily removed. Length, 4 inches. Fitted with 2¼-inch solid vulcanized rubber bit. Shipping weight, 4 oz. **No. 18H4027**

No. 18H4031 YOUR CHOICE **$1.19** No. 18H4035

The "ANTIDOTE" Pipe. Never before sold at less than $2.00. Best quality genuine French briar, English make. Fitted with highest grade cut rubber bit. A patented pipe, which, because of its combination metal and chemical lining, causes the moisture to turn into steam and evaporate. Straight Bulldog shape, is 5 inches long. The bent Egg shape is 4½ inches long. Shipping weight, 4 ounces.
18H4031 Bent. 18H4035 Straight.

No. 18H4041 YOUR CHOICE **44c** No. 18H4043

High Grade Briar Pipes with extra thick bowls, solid hard rubber push bits, and sterling silver stem bands. Bent College shape is 4¾ inches long. The straight Bulldog shape is 5¼ inches long. Shipping weight, 4 ounces.
18H4041 Bent. 18H4043 Straight.

32c No. 18H4052

Note the construction of this popular well pipe. Just pull out the push bit and clean your pipe. Made of genuine French briar with solid vulcanized rubber bit. Entire length, 6¼ inches. A larger pipe than ordinarily sold for 50 cents. Shipping weight, 4 ounces.

No. 18H4056 **23c**
Same style as above, but 5¾ inches in length, smaller bowl. The usual 50-cent kind. Shipping weight, 3 ounces.

17c — Straight comfortable pipe. Genuine French briar, egg shape bowl. Length, 5¼ inches; 2½-inch solid rubber bit, having patented lip feature. A very easy pipe to hold in the mouth. Shipping weight, 3 ounces. **No. 18H4009**

19c — Genuine briar Bulldog shape. Length, 5¼ inches. Fitted with 2¼-inch imitation clouded amber bit, nickeled ring band. Shipping weight, 3 ounces. **No. 18H4010**

19c — Genuine Briar Bowl Self Cleaner Pipe. Length, 5 inches. Fitted with 2¼-inch imitation amber bit, with nickeled ring band. Shipping weight, 3 ounces. **No. 18H4016**

39c — Half Bent Woodstock Shape Double Draft Pipe. Real French briar with genuine meerschaum screw-in top bowl. Length, 5½ inches. Fitted with 2½-inch solid rubber divided bit. A very cool smoker. Shipping weight, 3 ounces. **No. 18H4044**

37c — Handsomely carved genuine French briar. Length, 5¾ inches. Fitted with heavy 2½-inch horn bit. Extra thick bowl. Shipping weight, 3 ounces. **No. 18H4060**

6c — A Sweet Smoking Cob Pipe, popularly known as "Missouri Meerschaum." Selected cob bowl, nicely finished Weichsel stem with celluloid bit. A great 10-cent value. **No. 18H4001**

48c — 75-Cent Value Genuine Calabash Pipe with 4¾-inch Weichsel stem with horn bit. Chip meerchaum lining. Natural shapes only. These calabash gourds are natural growths and vary in shape, so we cannot guarantee the pipe to be exactly like picture. Shipping weight, 4 ounces. **No. 18H4042**

THE KEY TO THE BIBLE.

An Encyclopedia of Persons, Places and Things in the Bible. With 16 full page colored pictures from photographs, 100 full page halftone illustrations from photographs and reproductions of the world's greatest artists, and over 400 text illustrations. With all the supreme worth of the Bible in every avenue of interest to man, it is appreciable only to the reader who understands it, and this is best done only with the aid of The Key to the Bible. With the aid of this book, the understanding and study of the Bible becomes very simple, for hardly a question can be asked pertaining to the Scriptures but an answer will be found in this book. The Key to the Bible makes everything plain so that the reader may understand the times, the countries and the people referred to. It adds a thousandfold to the understanding and pleasure in reading the Bible. The Key to the Bible is a large beautiful book containing 447 double column pages. The subjects are arranged in alphabetical order just like a dictionary so that the reader may turn to any subject at a moment's notice. They are written by the world's greatest religious authorities and authors. Handsomely and most profusely illustrated. Each illustration is a gem of art and the illustrations alone are worth the asking for the book. Bound in cloth. Title in gold. Size, 8½x11x2 inches.

...bster's Monarch Dictionary, $4.84

...ILLUSTRATIONS, 2,173 PAGES, NEW COLOR PLATES AND TABLES, ...THUMB INDEX CUT IN ON EDGE. LATEST EDITION.

Webster defines Monarch as follows: "Monarch: One superior to all others of the same kind." That definition fully describes Webster's Monarch Dictionary.

SPLENDID EDITION.

THE LATEST AND BEST dictionary at practically half what is asked for dictionaries of a similar character. It contains 2,173 pages. It defines 25,000 more words than are contained in any other Webster's Dictionary. Its system of capitalization, of indicating pronunciation and many minor details in dictionary making is admirable.

SPECIAL FEATURES: A modern gazetteer of the world. A dictionary of authors with the titles of their principal works. A dictionary of noted names in standard fiction, mythology, legends, etc. A dictionary of foreign words, phrases, noteworthy sayings and colloquial expressions. A pronouncing dictionary of Scriptural proper names and foreign words, with their meanings. A Dictionary of abbreviations and contractions commonly used in writing and printing. A pronouncing dictionary of biography. Signs and symbols used in writing and printing. Values of standard foreign coins. A list of amended spellings. A department devoted to faulty diction (which no other Webster's ever contains) covering over 1,000 subjects, etc.

...HUNDREDS OF ILLUSTRATIONS throughout ...and 32 page color plates of the arms and flags ...of territories and foreign nations.

Winston's Encyclopedia $4.75

NO BETTER ENCYCLOPEDIA AT FIVE TIMES ITS COST.

1910 CENSUS.

Edited by Charles Morris, Editor in Chief; Francis T. Furey, A. M., Professor of History and Literature; A. R. Spofford, Ex-Librarian of Congress; Charles Annandale, A. M., LL. D., British Museum; and other eminent specialists. Complete in every Department of Human Knowledge. There are many encyclopedias and works of reference published, but most of them are disappointing. **Winston's Encyclopedia** covers every phase of history, invention, discovery and science in the world. All subjects are placed in one alphabetical arrangement. It is a regular encyclopedia in the full meaning of the word and stands the most searching examination. Clear, accurate articles by competent authorities treat all subjects with sufficient fullness. It is thoroughly up to date and covers the whole range of human knowledge. **IN HISTORY**—Each country of the world treated separately at length. **BIOGRAPHY**—Great men and women, dead and living. **SCIENCE**—Astronomy, chemistry, botany, electricity, geology, physiology, meteorology, light, heat, including radium, etc. **INVENTION**—Including wireless telegraphy, aeroplanes, etc. **THE WORLD'S PROGRESS**—In discovery, industries, manufactures, mechanics, new processes, etc. **RELIGIONS**—Denominations, sects, schisms, orders, etc. **GEOGRAPHY**—Continents, oceans, cities, towns, mountains, rivers, etc. **ANIMALS, PLANTS**—All species. **ARCHEAOLOGY, GOVERNMENT, LABOR PROBLEMS, MILITARY AND NAVAL AFFAIRS, BATTLES, WARS,** Etc. All these subjects and many more are handled in detail in all the thousands of subdivisions which they comprise.

Complete in eight volumes, each 5½x8 inches in size and 1½ inches thick. Each volume averages over 500 double column pages, or 4,176 pages in all. Contains over 1,000 half-tone engravings, text illustrations, plans and diagrams, including a complete atlas of the world, comprising thirty-two pages, printed in colors. The books are printed on fine quality of paper in clear, readable type. Handsomely bound in green vellum de luxe cloth, with red leather labels stamped in gold. In a strong wooden box. Weight, 16 pounds.

No. 3H2050 Winston's Encyclopedia with 1910 Census. Price, eight volumes....$4.75

OME STUDY BOOKS FOR SELF EDUCATION

Home Study Business Education Course.

A $25.00 LIBERAL BUSINESS EDUCATION FOR $2.50.

Twenty weeks of office practice training in your own home on how to do business by letter, with complete courses on business English composition, punctuation, practical grammar, business forms and simple bookkeeping. This course is based upon the most successful business text book ever written, "How to Do Business by Letter," by Sherwin Cody. 176 pages. Size, 5½x7¾ inches. One copy of this book comes with every course. The course is in two parts: Part I consists of a series of facsimile business letters to be answered on every subject, including pen written forms as well as typewritten. A notation on each letter tells the student what to say in reply to the letter, and refers to the text book, where four or five letters like what the answer ought to be will be found. On the back of each letter are questions covering all points of correctness (grammar, punctuation, etc.), and style in letter writing (the answers to these questions are found in text book). There is also a short course in simple bookkeeping, for which ...ks, invoice forms, note, receipt, draft, bank deposit slip, cash account, and two ledger ...ishes to be filled out as pictured in the text book, where all the forms are fully ex... Part II consists of twenty stimulating and intensely interesting personal letters to the ... on the following subjects: How to Apply for a Position, How to Write 100 Good Letters ... How to Compel an Answer, How to Treat a Reasonable Customer, How to Treat an Irritable ... How to Write to a Superior, to an Inferior, How to Deal with Women by Mail, How to ... Money by Mail, etc. The course is divided into twenty lessons and is put up in twenty en... Into each envelope is put one of Mr. Cody's personal letters taken from Part II, and one ... taken from Part I.

With each Home Study Business Education Course, we give free a good cork penholder ... three pen points, three blotters and fifty sheets of business letter paper so that the student, ... everything needed to go right to work without additional expense.

THE PRACTICAL FAMILY DOCTOR $1.45

A 20TH CENTURY HOUSEHOLD MEDICAL GUIDE.

The largest and most complete Medical Adviser ever published. Strictly up to date. 1,157 pages. 20 color plates.

A DOCTOR ALWAYS IN THE HOUSE, ready to be consulted at any time when sudden sickness or accidents render immediate relief necessary. While we recommend that in every case of sickness you send at once for your family doctor, yet there are times when he cannot be reached quickly and at such times our Family Doctor Book will furnish you with the medical knowledge that may save much suffering, or even a life. The result of the lifetime labor and study of the most noted medical writers.

NO HOME SHOULD BE WITHOUT ITS PRICELESS ADVICE. It explains everything in plain home talk fashion, yet in the most delicate terms, inoffensive to the most sensitive person. The wonderful science of medicine and surgery is bared to the reader of this grand volume. In its medical department this work treats in a sensible way the Household Management of Disease. This work gives the history, cause, means of prevention and symptoms of every known disease and the most approved methods of treatment with plain instructions for the care of the sick. Full directions for treating wounds, injuries, poisoning, etc.

COMPLETE LIST OF MEDICINES, telling what each is good for and how much of each to take for a dose. The prescriptions are all written in plain English, so they can be copied and filled without the aid of a doctor.

SPECIAL INFORMATION and consideration is given to constitutional diseases, which include scarlet fever, typhoid fever, smallpox, chicken pox, diphtheria, measles, tonsilitis, tuberculosis, appendicitis, rheumatism, etc.

DISEASES OF WOMEN. More than 200 pages are devoted to this important subject alone. Both the cause and the treatment of diseases are taken up, together with their symptoms. The birth of children and its allied subjects, including the care of the mother before and after birth, are fully and accurately treated.

DISEASES OF CHILDREN have been gone into very thoroughly. The subjects covered include indigestion, disorders of the bowels, diarrhea, summer complaints, constipation, croup, influenza, convulsions. A careful study of this chapter will enable the mother to ward off many of the diseases common to children.

BEAUTIFULLY ILLUSTRATED WITH COLOR PLATES containing two lithograph manikins, one of the body and one of the head, in layers to dissect, showing all the organs in their proper positions and colors, worth $1.00 each. Also a chart of the blood vessels and a skeleton chart. Colored plates of 64 medicinal plants, together with descriptions and directions for use. Bound in either full sheep with blind side stamp and gold back title or in buckram with photographic inlay. 1,157 pages. Size, 7x9½ inches, 2½ inches thick. Weight, 5 pounds.

No. 3H7550 Bound in buckram. Regular subscription price, $4.50. Price....$1.45
No. 3H7555 Bound in full sheep. Regular subscription price, $6.00. Price.... 2.18

Cloth. Size, 5½x8 inches. 337 pages.
No. 3H3768 Price.....98c
If mail shipment, postage extra, 15 cents.

ETIQUETTE FOR AMERICANS.

By a woman of fashion. During the moments of her leisure time one of New York's leading millionaire society women wrote this book. Her original intention was to derive pleasure and occupation by writing it, and to impart to her friends what she considered to be the best of etiquette and manners. After much persuasion she allowed her writings to be published in book form, but without her name. Contains up to date etiquette and manners for men and women and also for boys and girls. Covers every occasion, such as calling, invitations, dinners, luncheons, weddings, letters, conversation, dress, etc. By a careful study of this book any person will know how to act on any occasion, no matter how formal, and will not have the uncomfortable feeling of being out of place. This book has never before been sold for less than $1.50. We consider this the best book that has ever been published on etiquette and manners, and in order that our customers may have the chance to secure a copy of this valuable book we have contracted with the publishers for an entire edition, and while they last we offer them at a special price of 58 cents. Bound in cloth. 264 pages with many full page illustrations. Size, 4½x7 inches.
No. 3H3587 Price.....(If mail shipment, postage extra, 11 cents)....

THIS $1.50 EDITION MRS. RORER'S COOK BOOK FO

This is the world famous cook book written by Mrs. Sarah T. Rorer. Thousands of these cook books have been sold at $1.50. This is the regular genuine $1.50 edition that we are offering you for 79 cents. In this book the recipes, although complete, are written so plainly that the beginner may successfully make, with few exceptions, any dish which it contains. All of the recipes have been tested over and over again by Mrs. Rorer and other noted authorities on the subject of cooking. This book has been adopted by many cooking schools throughout the country. Do not think that because this is a high grade cook book the recipes given in it are expensive. There are recipes for all times and all tastes and the majority of them are capable of being carried out at very low cost. They are chiefly medium priced, inexpensive recipes of good wholesome dishes, such as the majority of the people want. In addition to the cooking recipes there are chapters on ice creams, jellies, candies, fruits, canning and preserving, giving lists of the necessities for the kitchen and pantry, tables of weights and measures with a complete index to the book so that any desired recipe may be easily located. 581 pages. Bound in waterproof cloth, so that when soiled it will bear repeated cleansing. Size, 5¾x7½ inches. Retail price, $1.50.

—FACTS OF GREAT INTEREST—

U-SO-NA Rust-Resisting Iron Ranges

WEHRLE Nos. 66 and 65

(Continued on Page 963.)

Guaranteed to Last Three Times as Long as Ordinary Steel Ranges. See Pages 960, 962 and 963.

THE BODY IS THE LIFE OF A RANGE.

Realizing the possibilities for a practical non-corrosive rust-resisting for building range bodies, we had one of the large furnaces make ments and produce for us a sheet that would absolutely resist cor- better than steel. Working along the lines of the earliest known ess of producing iron, the Catalan Forge, from which was developed Cementine Process, and later charcoal iron, Bessemer steel and open steel, the results obtained from the analyses of these metals en- our chemist and the steel furnace metallurgist making these ex- nts to introduce an entirely new secret process, by which impurities metal are reduced to a minimum, and the result of these experi- gives us an iron the peer of all rust-resisting sheets made from To identify this material as an exclusive product for building our Nos. 66 and 65 Ranges, and to distinguish it from common steel charcoal iron, etc., because it is a purer and better product, made ble by a new process, the name U-SO-NA RUST-RESISTING IRON most correctly adopted for this product, for it is the purest iron anywhere.

W U-SO-NA RUST-RESISTING IRON IS TESTED.

-NA IRON.

coal Iron.

Steel.

The illustrations herewith of the different metals, show a comparative corrosion test between U-SO-NA RUST RESISTING IRON, charcoal iron and sheet steel, and were made in accordance with the specifications of the American Society for Testing Metals. In this test genuine charcoal iron and the best sheet steel corroded sixty times as fast as U-SO-NA RUST-RESISTING IRON.

The lower half of these illustrations show results of a sulphuric acid test made with different kinds of material used in building range bodies and clearly proves that U-SO-NA IRON resists corrosion to a degree never before attained even by the old time iron sheets.

The original samples were each weighed, then suspended in a relatively large vessel containing a proportionate quan- of sulphuric acid solution. This tion was exactly 20 per cent ically pure sulphuric acid and tilled water. When they were re- they were thoroughly dried weighed as before, the loss ing the comparative corrosion ing qualities.

result of this test is authentic very detail, and the illustrations the samples as they appeared the test, forcibly demonstrat- remarkable resistance to cor- of U-SO-NA RUST-RESISTING IRON, even excelling genuine coal iron.

test proves that U-SO-NA T-RESISTING IRON is the pur- manufactured. It is equal to the fashioned cast iron that always satisfaction and resisted corro-

ation tests have also been made U-SO-NA RUST-RESISTING N, charcoal iron and steel by ging them in a saturated so- of salt water containing 2 per of sulphuric acid for four hs, with the following results: due to corrosion: **U-SO-NA,** per cent; **charcoal,** .409 per cent; .541 per cent. For this reason positively guarantee U-SO-NA T-RESISTING IRON to resist and corrosion better than other

COOKING TOP, COVERS, CENTERS AND ANCHOR PLATES

Are made extra heavy and strong of highest grade **iron** which resists the heat longer **and** much better than malleable iron, which melts at a lower temperature than gray iron castings, and **for this reason** the latter (which we use in our Wehrle Nos. 66 and 65 U-SO-NA RUST-RESISTING IRON Ranges is more durable for use where the parts come in direct contact with the fire. These ranges are fitted with **four solid covers and one Nest or Graduated Lid;** also fitted with **Anti-Scorch Lid,** as illustrated on page 963. You will never have any trouble due to cracking or warping of these parts when you buy and use Wehrle Nos. 66 and 65 U-SO-NA Ranges, as our castings retain their shape as long as the range is in use.

THREE-BURNER GAS ATTACHMENT. $4.50

Price of gas attachments for natural or manufactured gas $4.50; for gasoline gas $5.00, in addition to the price of Ranges without reservoir.

We can furnish all sizes with gas attachment but without reservoir, as shown in illustration, at $4.50 in addition **to the price without reservoir.** An ideal arrangement for quick boiling, heating, frying, etc., when you do not care to use coal or wood. Has one **giant** and two **standard star burners,** and a galvanized iron drip pan, nickeled supply pipe and air mixers; grates and burner top are removable and easily cleaned. **Cooking surface** is 12x28 inches. It can be connected to gas supply by iron pipe. **Gas attachment cannot be used with acetylene gas. If wanted with gas attachment be sure to say in your order or in your letter "with gas attachment"** and state whether you use natural, manufactured or gasoline gas.

L Shape Water Front for Heating 40 to 50-Gallon Tank.

Price...**$3.50**

Cannot be used in a range for burning wood only.

Straight Water Front for Heating 30-Gallon Tank. Price.....$2.50

Can be used either in hard or soft coal and wood fire box.

Pipe Coil Water Front.

Price....**$2.50**

Used in fire box for burning wood only.

Water front is used only where there is a water supply furnished with constant pressure through pipes, which can only be obtained in towns or cities having waterworks or elevated pressure tanks.

TEAPOT HOLDERS.

Beautifully silver nickeled swinging teapot stands hang on double brackets at each side of the high closet. They are lifted quickly and easily to attach to either front or back holder at will.

HARD (ANTHRACITE) COAL FIRE BOX.

Length for wood is 24¾ inches with end linings removed. Has substantial firebrick linings and Dockash Grate. Operates perfectly, no dead corners for ashes or clinkers to form, always an even fire. Will hold fire all night if the dampers are properly adjusted. Has extra bottom grate for burning wood. When ordered for hard coal and wood the left end of these ranges appears as shown in picture to the left.

DOCKASH GRATE.

For hard (anthracite) coal is of the most approved pattern and clears the fire of ashes by a half turn of the shaker, which we furnish with each range.

SOFT COAL AND WOOD FIRE BOX.

Length for wood, 24¾ inches with end linings removed. The cast iron linings are made exceedingly heavy, are corrugated to prevent warping and are constructed to allow ample circulation of air behind them to prevent burning out. Guaranteed the most economical and durable made in any range.

DUPLEX ANTI-CLINKER GRATE FOR SOFT COAL, WOOD OR COBS.

Made in two parts; a half turn of the shaker cuts out all the dead ashes and clinkers, dropping them into the ash pan without loss of any of the fire.

FIRE BOX FOR WOOD ONLY.

Is 24¾ inches long. Has extra heavy cast iron linings and improved grate. The extension for burning wood is made of heavy cast iron securely bolted to the end of the fire box.

RESERVOIR TANK.

Made of the highest grade stove plate, white porcelain lined, easily kept clean and easily lifted out.

GAS ATTACHMENT.

Three-Burner Gas Attachment.

Can be furnished for all sizes of U-SO-NA Ranges when ordered without reservoir. Price, $4.50 for natural or manufactured gas; $5.00 for gasoline gas in addition to the price of range. Top surface, 12x28 inches. Has one extra large giant burner and two standard size star burners, galvanized iron drip pan, silver nickeled supply pipe and air mixers. Can be connected to gas supply with iron pipe. Gas attachment cannot be used with acetylene gas. If wanted with gas attachment be sure to state whether you use natural, manufactured or gasoline gas.

L Shape Water Front for heating 40 to 50-gallon tank.
Price $3.50
Cannot be used in a range for burning wood only.

Straight Water Front for heating 30-gallon tank.
Price $2.50
Can be used either in hard or soft coal, or wood fire box.

Pipe Coil Water Front.
Price..$2.50
Used in fire box for burning wood only.

Water Front is used only where there is a water supply furnished with constant pressure through pipes, which can only be obtained in towns or cities having waterworks or elevated pressure tank.

FAMILY FRIEND" The Range Without a Fault

ith Ordinary Care Will Last a Lifetime. Permanent Satisfaction aranteed. Satin Mirror Finished Top. Simply Wipe With Cloth.

Castings are extra heavy. Made for strength and durability. We antee the "FAMILY FRIEND" Range to do more and better give greater satisfaction for a longer period than any other ever made. Especially adapted for large families where a is used continuously. Easy to keep clean.

MANY THOUSANDS OF GOOD HOUSEKEEPERS.

ose who have had or are at present d to put up with the very try- onditions of an unsatisfactory ing stove, will hail with delight ppreciate our "Family Friend" Iron Range. When they once e acquainted with it and under- how easy it is to do good cook- and baking, how little fuel it that very little time and labor quired to keep it clean, and its rful lasting qualities, they not part with it for double its

account of its big cooking top, eat capacity, its splendid fire rangement and big oven, it is ed for farmers' use or in any where a great amount of cook- done.

LET US PROVE THESE STATEMENTS:

Select the size and style you want, enclose our price, give catalog number, state the fuel you burn and we will ship the range at once. When it arrives, take it home, set it up, examine it carefully, notice its SOLID, SUBSTANTIAL CONSTRUCTION, its EASILY CLEANED CASTINGS and SMOOTH POLISHED TOP, give it all the tests you please, comparing every part and feature with any other make of range selling at $12.00 to $18.00 more than our price. If you are not satisfied at the end of **NINETY DAYS** that the "Family Friend" Range is a MOST WONDERFUL BAKER and GREATEST FUEL SAVER you have ever seen, and you have made a big saving in money, you may send it back. Your judgment will settle the matter, and your money, with all the freight charges you have paid, will be returned.

POINTS OF CONSTRUCTION.

ing large, roomy and convenient Closet and Double Teapot Shelves.

WARMING CLOSET.

the right height for the aver- man to reach easily. Has a re- door which swings up under of the closet out of the way, up no space and permitting the interior of the closet to be ex- while placing in the food to be d. Has a rolled steel guard or ross the full length of the back ornamented with silver nickeled ings.

TEAPOT HOLDERS.

tifully silver nickeled teapot ornament the brackets at each of the warming closet. When form a convenient shelf, as shown stration. Are so arranged that can be used at the same time; closed are unnoticed. A special used on "Family Friend" only.

OOKING LIDS AND TOP.

made of the very highest grade plate, heavily ribbed and rein- to stand the test of wear and ground perfectly smooth, highly d; no trouble to keep clean, wipe with cloth. Has five solid and one nest lid made in three s. A great convenience when small or medium sized cooking

OILER AND FEED DOOR.

enough so that any kind can be fed into the fire box removing top lids, etc., also nt for inserting a broiler or over the surface of the hot

ordered for wood only, this omitted, as the wood is fed the end fire door to the left s. On the hard coal style it down instead of lifting up.

EXTRA LARGE OVEN.

range has a more perfect bak- n. The largest size measures es wide at the door opening, es deep without the swell of n door and 13 inches high. on-breakable wire rack. On ac- of its size, a greater amount of can be done with little fuel, rack can be used at the me as oven bottom.

OVEN DOOR.

Perfectly plain, no carvings to catch dirt. Easy to keep clean. Opens even with the oven bottom, forming a shelf which makes it possible to draw out and turn a roast without having to lift it—a convenience which will be appreciated.

HARD (ANTHRACITE) COAL FIRE BOX.

Has very thick firebrick lining of superior quality and Dockash grate, the most approved pattern. Clears the fire of ashes by a half turn of the shaker. **No trouble to hold fire over night.**

SOFT COAL AND WOOD FIRE BOX.

Has heavy cast iron linings and Duplex grate built unusually heavy, so accurately fitted and constructed that it works perfectly and gives universal satisfaction.

WOOD ONLY FIRE BOX.

Especially designed for durability and economy so that long sticks of wood can be used and fed to the fire through the large feed door at end of fire box to the left of oven.

NICKELED FRONT RAIL.

Extends the full length of the range, being supported by substantial end brackets. It can be used as a towel rail and affords protection against contact with the cooking top.

OVEN THERMOMETER.

Shows the exact heat of oven without opening the door and insures cooking of a uniform standard of excellence to the most inexperienced.

ASH PIT DOOR.

Very substantially mounted. Opens to the left, permitting the easy removal of the extra **large reinforced** top wire bail ash pan.

BROAD HEARTH.

Plain, smooth and easy to keep clean. Finished around top edge with silver nickeled band.

RESERVOIR TANK.

White porcelain lined; perfectly sanitary; easy to keep clean and easily lifted out. A feature appreciated by every housekeeper. **Holds 13½ to 22 quarts, according to size.**

...Porcelain lined; perfectly sanitary; ...keep clean and easily lifted out. A ...appreciated by every housekeeper. ...to 22 quarts, according to size.

GRADUATED LID OR NEST COVER.

Graduated Lid or Nest Cover.

Every "Happy Family" Range is fitted with five solid covers and one nest or graduated lid as shown in the illustration. This is a very convenient little device, as the varying sizes of the openings to the cover will be found very useful.

EXTRA LARGE OVEN.

No range has a more perfect baking oven. The largest size measures 21 inches wide at the door opening, 21 inches deep without the swell of the oven door and 13 inches high. Has non-breakable wire rack. On account of its size, a great amount of baking can be done with little fuel, as oven rack can be used at the same time as oven bottom. Outside oven shelf ornamented with nickel band extends from bottom of oven.

OVEN DOOR.

Oven door is aluminumized on inside, giving it a very desirable finish. The silver nickeled panel is easily removed for cleaning. With use of the AUTOMATIC TRIP it may be opened with the foot while the hands are full.

OVEN THERMOMETER.

Shows accurately the heat in oven and indicates not only the progress and rate of baking, but also the condition of the fire and the necessity of replenishing the fuel. In short, insures cooking of a uniform standard of excellence to the most inexperienced.

BROILER AND FEED DOOR.

Large enough so that any kind of fuel can be fed into the fire box without removing top lids, etc., also convenient for inserting a broiler or toaster over the surface of the hot fire.

When ordered for wood only, this door is omitted, as the wood is fed through the end fire door to the left of oven. On the hard coal style it drops down instead of lifting up.

ASH PIT DOOR.

Substantially mounted. Opens to the left, permitting the easy removal of the extra large reinforced top wire bail ash pan.

HARD (ANTHRACITE) COAL FIRE BOX.

Made of heavy firebrick lining of superior quality. Deckash grate is the most approved pattern. Clears the fire of ashes by a half turn of the shaker. No trouble about keeping a hard coal fire over night. A continuous fire is easily maintained in this range.

SOFT COAL AND WOOD FIRE BOX.

Has heavy cast iron linings and Duplex Grate built unusually heavy, so accurately fitted and constructed that it works perfectly and gives universal satisfaction.

WOOD ONLY FIRE BOX.

Especially designed for durability and economy so that long sticks of wood can be used and fed to the fire through the large wood feed door at end of fire box to the left of oven.

Water front for heating 30-gallon tank. Price $2.50

Pipe Coil Water Front, used in fire boxes on ranges for burning wood only. Price.....$2.50

Do not mistake water front for water reservoir. Water front can only be used where there is water furnished with constant pressure through pipes.

OINTS OF CONSTRUCTION WEHRLE Nos. 20 AND 22
SIX-HOLE AMERICAN REFINED STEEL RANGES

WEHRLE No. 22 SIX-HOLE RANGE "ON LEGS," SHOWN ON PAGE 972.

BODY.

Made of American Refined Steel, the best to that at any price. Built strong and rigid, no seams or joints to rust out permit leakage of ashes or escape of heat. Riveted with best of steel head rivets.

LUE POLISHED FULL NICKEL STEEL WARMING CLOSET.

The proper height closet for the average person to reach. The front door rolls back out of the way, permitting the whole of the interior of the closet to be exposed. Keeps food warm and wholesome without drying it up. Height, including back guard, 31¾ inches.

OOKING TOP, COVERS, CENTERS AND ANCHOR PLATES.

Extra heavy ribbed lids and centers and as Wehrle No. 20 and No. 22 Refined Steel Ranges.

Extra heavy, made from highest grade stove plate, as shown in illustration. Has five solid covers and one nest cover or indicated lid. Height from floor to cooking top 31 inches.

LIFT TOP.

By means of a silver nickeled lifter the top anchor plate directly over the fire can be easily raised, and it is automatically held in place by ratchets at two different heights, as shown in illustration. It enables the user to spread coal evenly over the fire and serves admirably for broiling steaks or chops or toasting bread.

ASBESTOS LINING.

The heavy thick insulation extends entirely under the bottom of oven flue, preventing the heat from burning the floor, retaining the heat in the oven, adding wonderfully to its baking qualities.

COAL FEED OR BROILER DOOR.

Elevated Top makes broiling a pleasure.

Hinged on the left end. Fresh fuel can be replaced in the fire through the coal or feed door without disturbing what is cooking on the top range. As the door is a broiler it may be inserted through the opening and you can easily broil to turn. On hard coal range the coal door turns down instead of turning up, as shown below, the wood door turning up when it is shut off, as it is not needed. The wood is fed through the end fire door to the left of the oven.

Rear view showing left side of Wehrle No. 20 and No. 22 Ranges for hard coal and wood with drop coal feed door and drop wood feed door with slide and shaker arrangement.

LARGE OVEN.

Constructed with great care, so that it will bake to perfection with the least possible labor and fuel. No oven ever baked more evenly or quickly. OVEN DOOR is strong, solid and extra heavy, cannot shut suddenly and opens flush with the oven bottom, forming an extension shelf on which to draw out and turn a roast without having to lift it.

OVEN THERMOMETER.

Shows accurately the heat in oven. The most inexperienced can bake and roast perfectly. A great convenience and fuel saver.

CAST IRON OVEN BOTTOM.

Made of highest grade cast stove plate, which gives more heat in the oven with by far less fuel than a steel oven bottom. It will always remain level and will not warp nor buckle as a steel oven bottom is almost sure to do unless thoroughly braced. OVEN RACK is made of wrought steel rods and cannot be easily broken.

DUPLEX ANTI-CLINKER SOFT COAL AND WOOD GRATE.

Made in two parts, so that a half turn of the shaker cuts out all the ashes and clinkers without loss of a particle of the fire. Burns soft coal, wood or corn cobs.

Wehrle No. 20 and No. 22 Ranges for burning wood only. The coal feed door is left off, as the wood is fed through the end fire door to the left of the oven.

HANDY LEVER for direct draft oven damper is located to the right and under the cooking top in front of the range, as is also the reservoir damper. You need not reach over the hot stove top to open or close either damper.

TEAPOT HOLDERS.

Beautifully silver nickeled, hang on double brackets at each side of the high closet. They are lifted quickly and are easy to attach to either front or back holder at will; an exclusive point.

HARD (ANTHRACITE) COAL AND WOOD FIRE BOX.

Is 7½ inches wide, 7 inches deep. Length for coal, 17¼ inches; for wood, 24¾ inches, with end linings removed; has substantial Firebrick linings and Dockash grate. Fire box and grate conform with each other in shape and operate perfectly, leaving no corners for ashes or clinkers to form, and there is always an even fire. Will retain the fire all night. We also furnish a high grade cast iron bottom grate for burning wood.

DOCKASH GRATE FOR HARD COAL.

Of the most approved pattern and clears the fire by a half turn of the shaker. The cog wheels which revolve the grate bars are outside the fire box and cannot be affected by the heat or become clogged by ashes.

RESERVOIR CASING.

Made of the best cast iron stove plate. It will neither rust nor burn out. RESERVOIR TANK is of large capacity, perfectly sanitary, white porcelain lined, easily kept clean and easily lifted out.

SOFT COAL AND WOOD FIRE BOX.

Is 9¾ inches wide, 7 inches deep; length for coal, 18½ inches; for wood, 24¾ inches, with end linings removed. The castings are made exceedingly heavy, corrugated to prevent warping, and are constructed to allow ample circulation of air behind them to prevent burning out.

FIRE BOX FOR WOOD ONLY.

Is 9¼ inches wide, 6 inches deep, 24¾ inches long. Wood extension made of heavy cast iron, no steel being exposed to the fire. Grate and linings very heavy and lasting. COAL WILL NOT BURN IN THE WOOD FIRE BOX.

THREE-BURNER GAS ATTACHMENT.

Can be furnished for any size Wehrle No. 20 and No. 22 Ranges when ordered without reservoir. Cooking surface is 12x28 inches. Has one extra large giant and two standard size star burners, galvanized iron drip pan, silver nickeled supply pipe and air mixers. Grates are removable and easily cleaned. It can be connected to gas supply with iron pipe. Cannot be used with acetylene gas. If wanted be sure to say "With Gas Attachment," and state whether you use natural, manufactured or gasoline gas. Price for natural or manufactured gas, $4.50. Price for gasoline gas, $5.00 in addition to price when ordered without reservoir.

WATER FRONT.

Water front for heating 30-gallon tank $2.50 extra, for heating 40 to 50-gallon tank $3.50 extra. Water front can only be used where there is water furnished with constant pressure through pipes.

EAD EVERY WORD ON THIS PAGE CAREFULLY AND LEARN ABOUT HE GENERAL CONSTRUCTION OF OUR ACME TRIUMPH STEEL RANGE

WILL REACH YOU READY TO SET UP AND USE, BLACKENED AND BEAUTIFULLY POLISHED

BODY BUILT LIKE A BOILER.

ade of extra quality heavy steel; strong, rigid, gen seams or joints to permit leakage of or the escape of heat. This sort of steel is found in ranges of high quality.

ASBESTOS LINING.

ll parts of steel body exposed to the direct of fire are lined with asbestos. The asbes- being fireproof and a non-conductor, retains heat, adds to its baking qualities, makes it to control and an economical fuel consumer.

COAL FEED POUCH AND BROILER DOOR.

rovides a capacious coal feed pouch with a lift or door on the left end of the range, as n in the large illustration on preceding page. h fuel may be placed on the fire through the or feed door without disturbing what is g on the top of the range. **On the hard** range **the coal feed and broiler door** drops instead of lifting up, as shown in small ration below. **On the range for burning wood** it is left off, as the wood is fed through the fire door to the left of the oven, as shown in illustration in middle column.

WOOD FEED DOOR.

Has silver nickeled panel and hinge pins with an Alaska cold wire silver nickeled knob.

Burning the left of Acme Triumph for hard (anthracite) and drop coal feed broiler door.

SCREW DRAFT REGISTERS.

Are directly below the feed or broiler door (see illustration on page 970). They are fitted in a drop door, which gives free access to the bottom of the grate for convenience in lighting the fire. **When furnished for hard coal or wood only the range has slide draft with knob,** as shown in illustration to the left, **instead of draft door and screw registers.**

LARGE ASH PAN.

Has a strong wire handle or bail and is made of the highest grade of refined steel.

ASH PIT DOOR.

arefully fitted in place so that there is no at this point to interfere with the control fire.

CLEAN OUT CHUTE.

cated underneath the nickeled oven door, as in illustration on preceding page. It is a , liberal opening, from which the space the oven can be cleaned out thoroughly and y.

CAST IRON FLUE BACK.

ade in one solid piece of extra heavy cast iron, anteed not to rust nor burn out. Securely to the back of the range, through which roducts of combustion pass to the chimney, built to last. Many ranges are made with sheet steel flue backs which will not last, reason that the creosote and condensation accumulate in this flue back from the pipe and chimney eat out and rust through steel in a very short time.

WARMING CLOSET.

beautiful blue polished steel warming closet ds along the full length of the range body, large capacity and we guarantee it to keep ing placed in it thoroughly warm. It is 27 in height, just right for the average person ily reach. Has a roll front door which rolls out of the way, taking up no room and g the whole of the interior of the closet.

OKING TOP, COVERS, CENTERS AND ANCHOR PLATES.

ll of these important parts are made of the cast stove plate, composed of the purest ingham pig iron. **Fitted with five solid lids one sectional or nest lid,** all made from the stove plate. The nest lid is very convenient, or both of the rings may be lifted out at to fit cooking utensils. **Height from floor to g top, 30¾ inches.**

OVEN.

been constructed with great care and intel- so that it bakes to perfection with the possible labor and fuel. No oven ever baked evenly or quickly. Praised by all users of Acme Triumph Steel Range.

OVEN DOOR.

ndsomely carved, silver nickel plated and flush with the oven bottom, forming an on shelf on which to draw out and turn a without having to lift it.

OVEN THERMOMETER.

great convenience. Shows the heat of the without the necessity of opening the door.

IMPROVED RESERVOIR CONSTRUCTION

The tank is of large capacity and sanitary, white porcelain lined, easily kept clean, and easily lifted out. **CAPACITY IS 22 QUARTS. By turning the reservoir damper heat is thrown under the reservoir,** thereby heating the water.

RESERVOIR CASING.

Made of cast iron stove plate, handsome rococo design, ornamented with a handsome and elaborate silver nickeled medallion. It will neither rust nor burn out.

DOCKASH GRATE FOR HARD (ANTHRACITE) COAL.

Wood can be burned in the hard coal fire box by placing the bottom wood grate (which is furnished with every range) on top of the Dockash Grate. Is an improved pattern, strong and durable. **(When ordered for hard coal and wood the left end of the range appears as shown in small illustration in preceding column.)**

FIRE BOX FOR HARD (ANTHRACITE) COAL and WOOD.

This picture shows the Acme Triumph Range for burning wood only. The coal feed door is left off, as the wood is fed through the end fire door to the left of the oven.

On all sizes it is 7½ inches wide, 7 inches deep; length for coal is 17¼ inches and for wood, with end linings removed, 24¾ inches. It is fitted with fire brick linings of superior quality. It is made to work quickly with the least amount of fuel.

FIRE BOX FOR SOFT COAL AND WOOD.

On all sizes it is 9¾ inches wide, 7 inches deep; length for coal 18½ inches, and for wood, with end linings removed, 24¾ inches. Made with heavy cast iron linings. It is not only a great saver of fuel, but one that will give the best possible results in operation. **The fire back** and all other **linings are of** proper weight to withstand the heat and are well braced and ventilated by air chambers.

DUPLEX GRATE FOR SOFT COAL AND WOOD.

Operates perfectly. A half turn with shaker drops all ashes and clinkers into the ash pan and returns the grate to its proper position without the loss of a particle of the fire.

FIRE BOX FOR WOOD ONLY.

Is 9¼ inches wide, 6 inches deep and 24¾ inches long on all sides. Wood extension is made of heavy cast iron, no steel being exposed to the fire. Grate and linings are heavy and lasting. **Coal will not burn in the wood fire box.**

To make sure that we send you the right kind of fire box for the fuel to be used, be sure to tell us in your order whether you burn hard (anthracite) coal and wood, or soft coal and wood, or wood only.

L Shape Water Front for Heating 40 to 50-Gallon Tank. Price.....$3.50

Straight Water Front for Heating 30-Gallon Tank. Price $2.50

Pipe Coil Water Front, used in Fire Boxes on Ranges for Burning Wood Only. Price.....$2.50

Water Front can be used only where there is a supply furnished with constant pressure through pipes.

We can furnish all sizes of Acme Triumph Ranges with gas attachment, as illustrated, for $4.50 for natural or manufactured gas; $5.00 for gasoline gas in addition to price of range **without reservoir.** Cooking surface is 24x28 inches. Has one extra large **giant burner** and two standard size **star burners,** galvanized iron drip pan, **silver nickeled** supply pipe and air mixers. When wanted with gas attachment, be sure to tell us whether you use **natural, artificial or gasoline gas.** Gas attachment cannot be used with acetylene gas.

GAS ATTACHMENT

Price, $4.50 for natural or manufactured gas; $5.00 for gasoline gas.

ACME REGAL BEST SELECT COLD ROLLED SIX-HOLE STEEL RANGE

A Strong, Heavy, Well Built Range at a Very Low Price. Will Last and Give Satisfactory Service.

NOT QUITE AS HEAVY AS THE WEHRLE STEEL RANGES Nos. 20 AND 22 OF THE MORE EXPENSIVE TYPE, BUT FOR DURABILITY, QUICK BAKING AND FUEL ECONOMY, IT COMPARES FAVORABLY WITH RANGES SOLD BY OTHER DEALERS AT MUCH HIGHER PRICES.

NOTWITHSTANDING OUR VERY LOW PRICE, THIS RANGE IS WITHOUT AN EQUAL WHEN IT COMES TO QUALITY, CORRECTNESS OF CONSTRUCTION, WEIGHT, MATERIAL AND A STRICT ATTENTION TO DETAIL. CAN BE COMPARED WITH GREAT CREDIT TO ITSELF TO RANGES SOLD BY OTHER DEALERS AT ONE-THIRD MORE THAN OUR PRICE.

DETAILED DESCRIPTION.

BODY made of carefully selected cold rolled steel, nickel trimmed. All parts of the steel exposed to the direct action of the fire are lined with asbestos.

COOKING TOP AND COVERS are so cast that strength and rigidity are given, and every piece of casting that we use is carefully tested. Fitted with five solid covers and one nest or graduated lid, which is convenient for small utensils.

COAL FEED POUCH AND BROILER DOOR. Fuel may be placed on the fire through the broiler door without disturbing what is cooking on top of range, and steaks or chops broiled over the red hot coals remain wholesome. **On hard coal ranges the door drops instead of swinging to left. On the style for wood it is left off.**

LARGE OVEN is quick to act and absolutely satisfactory to the user. OVEN DOOR opens flush with oven bottom, forming a convenient shelf. It is equipped with our dependable oven thermometer.

FIRE BOX FOR SOFT COAL AND WOOD has heavy cast iron linings; with end linings removed, measures in length, 25 inches.

DUPLEX ANTI-CLINKER GRATE for soft coal and wood is made in two parts so that a slight turn of the shaker crank cuts out the ashes and clinkers, dropping them into the ash pan.

HARD (ANTHRACITE) COAL AND WOOD FIRE BOX. Has substantial firebrick linings. Fitted with **draft slide** instead of **drop poker door** as shown in illustration. **Will retain fire all night.**

DOCKASH GRATE for hard (anthracite) coal clears the fire of ashes by a **half** turn of the shaker.

FIRE BOX FOR WOOD ONLY is 25 inches long. Wood extension is made of heavy cast iron. Grate and linings are heavy and lasting. Coal will not burn in the wood fire box.

RESERVOIR TANK, white enameled, holds 22 quarts.

GAS ATTACHMENT, shown on page 969 can be supplied instead of reservoir at $4.50 in addition to the price when ordered without reservoir.

Deduct $2.50 from the prices listed if wanted WITHOUT WARMING CLOSET, but with reservoir.

Deduct $2.75 from the prices listed if wanted WITHOUT WATER RESERVOIR, but with warming closet.

Deduct $5.25 from prices listed if wanted WITHOUT WARMING CLOSET and WITHOUT RESERVOIR.

WATER FRONT for the Acme Regal, $2.50 extra for heating 30-gallon tank, and $3.50 extra for heating 40 to 50-gallon tank, according to style.

Height to cooking top is 30½ inches, height of warming closet is 27½ inches. All sizes take 7-inch pipe.

STATE THE KIND OF FUEL YOU BURN. Be sure to tell us whether you burn hard (anthracite) coal and wood, soft coal and wood, or wood only.

MADE IN SIX SIZES AS LISTED BELOW. Price List of our ACME REGAL SIX-HOLE STEEL RANGE WITH RESERVOIR AND WARMING CLOSET. Prices do not include pipe or cooking utensils. QUALITY OUTWEIGHS PRICE

WEHRLE No. 47 Rust-Proof Rolled-Iron Range

GUARANTEED TO WITHSTAND THE SEVEREST TESTS OF TIME AND SERVICE

NINETY DAYS' TRIAL

convince you that this is a better all around range than you can buy from your dealer at home elsewhere at from $12.00 to $15.00 more than our price. TO BACK UP THIS STATEMENT we ship this range to anyone in the United States, upon receipt of our price, and will agree to take back and pay freight charges both ways if you do not find it perfectly satisfactory in every way, a range worth $12.00 to $15.00 more than you paid for it.

WE ARE THE ONLY MAKERS

stoves and ranges in the country who will allow you NINETY DAYS' TIME in which to experiment with a range and prove to your own satisfaction and in your own home that it is suited to your needs.

FEATURES TO CONSIDER.

BODY.

made from Rust-Proof Rolled-Iron. One of the most toughest metals manufactured in this age. Easily put together by skilled workmen. Is guaranteed rigid, airtight and durable. Lined where needed with asbestos millboard, which retains the heat and saves fuel.

WARMING CLOSET.

will be found convenient—just the right height for the average person to reach easily. Distance from main top to top of warming closet, 27 inches. Novel and beautiful and has a roll door which rolls up under the top of the closet out of the way, taking up no space and permitting the whole interior of the closet to be exposed while placing the food to be warmed. Has a steel guard or rail across the full length of the back top, ornamented with silver nickeled trimmings.

ASBESTOS LINING.

Asbestos, being fireproof and a non-conductor, retains the heat, adds wonderfully to the cooking possibilities of the range, making it easy to control and makes an economical fuel consumer.

COOKING TOP, COVERS AND CENTERS.

constructed to stand hard usage for many years to prevent cracking from excessive heat. We furnish this range with **six 8-inch lids, made from best stove plate,** including one graduated or oval lid, made in three parts to accommodate different size cooking utensils. **Top cooking surface with reservoir is 27x41 inches. Height from floor to cooking top, 30¼ inches.**

FIRE BOX FOR SOFT COAL.

large size and correctly proportioned to the size of flue so as to give the best results for a minimum amount of fuel consumed, and it is specially adapted for the use of **soft** coal, wood or corn cobs. **Measures 8 inches wide and 5¾ inches deep, 17¾ inches long.** Linings are heavy and so constructed that they will give **long service; they** are sectional and easily removed and protected by air space behind them. The **extension at the** back end of the fire box and with **end linings** removed permits the use of **wood 23 inches in length.**

EXTRA HEAVY DUPLEX GRATE.

The most satisfactory grate made for burning coal, **cobs or wood.** It is **simple** and very easy to operate. One movement of the shaker shakes out all cinders and dead ashes. Reversing the grate, turning the closed side up and removing the end linings forms a **perfect** fire box for a wood fire, and thus it will be seen that our special Duplex grate can be used either **for soft coal or wood.**

FIRE BOX FOR HARD (ANTHRACITE) COAL.

Lined with firebrick linings of superior quality. 8 inches wide, 6½ inches deep and 17¾ inches long. It is proportioned with a view to securing the most perfect combustion with the least amount of fuel, and works quickly. The fire box is made of a tight frame, on which the brick linings set, making it impossible for the air to leak through the joints of the linings. An extra grate is furnished for burning wood.

IMPROVED DOCKASH GRATE.

For hard (anthracite) coal. A half turn of the handle adjusts the grate, turning the reverse side to the fire, although the surface remains the same. This means both sides of the grate are used and will not burn out as quickly as it would if the same side were always to the fire.

FIRE BOX FOR WOOD.

Large and roomy, 22¾ inches long, has strong cable **cast iron lining and perfect grate for burning wood.** Extension is made of extra heavy cast iron, no steel being exposed to the fire.

OVEN.

Made of the best quality of smooth rolled iron, securely riveted and braced to the body of the range in such a manner as to make all the joints **perfectly tight.** All seams and joints are carefully riveted airtight. **Made in one size only and measures 18 inches wide, 20¾ inches deep and 12 inches high,** and is furnished with steel slide oven rack which will not break.

OVEN DOOR.

Oven door is strong and solid, handsomely silver nickel plated, and opens even with the oven bottom, forming an extension or shelf which makes it possible to draw out and turn a roast without having to lift it. The oven door handle will not get hot.

OVEN BOTTOM.

Made of the highest grade, best selected rolled-iron stock. We guarantee it to always remain **level and neither buckle, warp nor sag.**

OVEN TOP.

Fully protected by a corrugated cast plate extending back from the fire box, which makes the heat in the oven uniform.

COAL FEED POUCH AND BROILER DOOR.

On the left end of the range we provide a capacious coal feed pouch with an Alaska nickel wire lift on the door, as shown in the illustration. It can be used for putting in fuel when coal is used, also for broiling purposes, an ideal arrangement and one which will be found very convenient. **When ordered for burning hard (anthracite) coal and wood, the coal feed or broiler door drops down instead of lifting up. When ordered for burning wood only, the coal feed door is omitted, as the wood is fed through the end fire door to the left of the oven.**

ASH PAN.

Extra large, heavy, reinforced, with wire handle. Ash pit provided with guards, which make all ashes fall into the ash pan.

FLUE BACK,

which conducts the heat from the flue beneath the oven to the stove pipe, is made of the highest grade cast iron stove plate. This is a very important feature. Nearly all ranges sold for nearly double the price of our **Wehrle No. 47 Rust-Proof Rolled-Iron Range** are made with a thin sheet steel flue back.

RESERVOIR CASING.

This is entirely new and original. Every part of the casing is made of cast iron stove plate. The steel or sheet iron reservoir casings used on ranges of other manufacturers are found not to be practical nor serviceable, for they soon corrode and rust out by condensation or creosote moisture and we do not use them. **Reservoir tank is** removable, **white porcelain lined and holds 13½** quarts of water. By turning the reservoir damper, heat is thrown under the reservoir, heating the water quickly. Covers are heavily japanned and operate on center divide hinges.

DEPENDABLE OVEN THERMOMETER.

Mounted in the oven door, accurately shows the temperature of the oven without the necessity of opening the door.

WATER FRONT.

Water front $2.50 extra. Used only where water is furnished with constant pressure through pipes, usually to be had in towns or cities having waterworks, or where there is an elevated water supply tank. Do not mistake water front for water reservoir.

STATE THE KIND OF FUEL YOU BURN.

Be sure to say whether hard (anthracite) coal and wood, soft coal and wood, or wood only.

ACME CHARM SIX-HOLE STEEL RANGE

INSURES PERFECT BAKING

'S ON LEGS. BUILT UP FROM THE FLOOR. YOU CAN SWEEP UNDER IT. BLACKENED, BEAUTIFULLY POLISHED, READY TO SET UP AND USE. AN EXCEPTIONALLY ATTRACTIVE RANGE VALUE.

ETAILED DESCRIPTION AND PRICES OF STYLES WITHOUT RESERVOIR OR WITHOUT WARMING CLOSET.

WE GUARANTEE

s Acme Charm Steel Range to operate perfectly, bake well, and to be saving in the use of fuel. fter using it in your own kitchen for thirty days you do not find it perfectly satisfactory and ly as represented and the equal of ranges selling at almost double our price, ship it right back s and we will not only return your money, but will return all freight charges you have paid.

WARMING CLOSET.

ade of cold rolled sheet steel, has highly pol- d nickel handle and bands; the closet door is refully counterbalanced that it works very y, the weight of the hand being sufficient to it. Trimmed with nickel steel bands along front, as shown in illustration. Teapot holders left and right are handsomely nickeled and iently arranged. Distance from main top p of warming closet is 26⅞ inches; total ht, including closet, 57⅛ inches.

BODY.

ade from Wood's cold rolled open hearth steel, very best we can buy. Strongly put together illed workmen with wrought rivets and reinforced at every part, making it rigid, ht and durable; no seams or joints to rust k ashes or permit the escape of heat. Has ast iron left end.

ASBESTOS LINING.

parts of the steel body exposed to direct of the fire are carefully lined with asbestos. asbestos being fireproof and a non-conductor, the heat, adds greatly to the life of the adds wonderfully to its baking possibilities, g it easy to control and economical in the ption of fuel.

AIN TOP, COVERS AND CENTERS.

ngly braced in exactly the same manner as ighest grade ranges, and are constructed to hard usage for many years and to prevent g from excessive heat. We furnish this with SIX 8-INCH LIDS, including one ted or sectional lid, made from the best e plate. Top cooking surface with reservoir nsion is 27⅛x41 inches; height from floor to top, 30 inches.
e of pipe to fit collar, 7 inches.

FIRE BOX FOR SOFT COAL.

⅝ inches wide and 5¾ inches deep. Its th for coal is 17¾ inches; for wood, 22¾ Correctly proportioned to the size of flue to give the best results for a minimum nt of fuel consumed. The linings are heavy o constructed that they will give long serv- they are sectional and easily removed and ted by an air space behind them. Is fur- d with an extension at the back end of the ox which permits the use of wood 22¾ inches ngth.

EXTRA HEAVY DUPLEX GRATE.

e most satisfactory grate made and designed urning soft coal, cobs or wood. Simple and asy to operate. One movement of the shaker ut all cinders and dead ashes. Reversing the turning the ribbed side up and removing d linings, forms a perfect fire box for a fire, and thus it will be seen that our special x grate can be used either for soft coal or d.

E BOX FOR HARD (ANTHRACITE) COAL.

7 inches wide, 6¾ inches deep; its length al is 17¾ inches and for wood, 22¾ inches. d with firebrick linings of superior quality. proportioned with a view to securing the perfect combustion with the least amount of and works quickly. Made with tight frame, hich the brick linings set, making it impos- for the air to leak through the joints of the gs.

IMPROVED DOCKASH GRATE.

r hard (anthracite) coal. A half turn of the r to the right adjusts the grate, turning the s side to the fire, although the surface re- the same. By this means both sides of the are used and it will not burn out as quickly would if the same side was always to the Wood can be burned in the hard coal fire y simply removing the end linings and plac- the bottom wood grate (which is furnished n top of the Dockash grate.

FIRE BOX FOR WOOD.

Large and roomy, is 22¾ inches in length. Linings made of heavy cast iron and furnished with an improved bottom wood grate. The wood extension is made of extra cast iron, no steel being exposed to the fire.

State the kind of fuel you burn. To make sure that we furnish you the right kind of fire box for the fuel to be used, state in your letter whether you burn hard (anthracite) coal and wood, soft coal and wood or wood only.

OVEN.

Made of the best quality of smooth cold rolled steel, securely riveted and braced to the body of the range in such a manner as to make all the joints perfectly tight. Made in one size only and measures 18 inches wide, 20¾ inches deep, 12 inches high, and is furnished with steel wire slide oven rack which cannot be broken.

OVEN DOOR.

Oven door is strong and solid, opens even with the oven bottom, forming an extension or shelf which makes it possible to draw out and turn a roast without having to lift it. The oven door handle will not get hot.

DEPENDABLE OVEN THERMOMETER.

Mounted in the oven door, it accurately shows the temperature of the oven without the necessity of opening the door.

OVEN BOTTOM.

Made of the highest grade, best selected sheet steel stock, so constructed, bolted, braced and reinforced that we guarantee it to always remain level and neither buckle, warp nor sag.

OVEN TOP.

The oven top is properly protected by a corrugated cast plate extending back from the fire box, which makes the heat in the oven uniform.

COAL FEED AND BROILER DOOR.

On the left end of the range we provide a capacious coal feed pouch with an Alaska nickel wire lift on the door, as shown in the illustration. It can be used for putting in fuel when coal is used, also for broiling purposes. When ordered for burning hard (anthracite) coal and wood, the coal feed or broiler door drops down instead of lifting up. When ordered for burning wood only, the coal feed door is omitted, as the wood is fed through the end fire door to the left of the oven.

ASH PAN.

Extra large, heavy, reinforced ash pan, with wire handle. Ash pit provided with guards, which make all ashes fall into the ash pan.

FLUE BACK.

Conducts the heat from the flue beneath the oven to the stove pipe. Made of the highest grade cast iron stove plate. This is a very important feature. Nearly all ranges sold for even double the price of our Acme Charm Steel Range are made with a thin sheet steel flue back, which easily rots out by condensation or creosote moisture, which sometimes runs down the chimney into the flue back. We guarantee our cast iron flue back to neither burn nor rust out.

RESERVOIR CASING.

Every part of the casing is handsomely carved and made of cast iron stove plate. The steel or sheet iron reservoir casings used on ranges of other manufacturers are found to be neither practical nor serviceable, for they soon corrode and rust out by condensation or creosote moisture and we do not use them. Reservoir tank is removable, white porcelain lined and holds 13½ quarts of water, which can be heated quickly.

WATER FRONT.

For Acme Charm Steel Range, $2.50. Used only where water is furnished with constant pressure through pipes. Do not mistake water front for water reservoir. When ordered with water front, range can be shipped from Newark, Ohio, only.

ACME HUMMER — A MODERN LOW PRICED SIX-HOLE STEEL RANGE

THE PRICE IS NOT SO LOW THAT THE RANGE cannot be made right. Materials used are of the best. Nothing in the way of good work has been overlooked, not a bolt or screw has been omitted that is necessary to make this range complete in construction. It is put together by the same good mechanics who make our higher grade ranges, the only real difference in value being almost entirely in weight and ornamentation, and our aim and desire in offering this, our ACME HUMMER, is to be able to offer something in the line of a low priced range for those who do not want the heaviest in a steel range.

DETAILED DESCRIPTION.

BODY is selected Cold Rolled Sheet Steel of a heavier and stronger gauge than is usual in ranges that retail at much higher prices. Riveted with wrought iron rivets, strongly reinforced and braced in every part. **HIGH CLOSET is of generous proportions.** Just the right height, and has a balanced door. **COOKING TOP, covers and centers are made of the highest grade gray iron; has five solid lids** and one in three sections. **SOFT COAL FIRE BOX is 17¾ inches long. Has heavy cast iron linings and Duplex Grate. HARD COAL FIRE BOX is 17¾ inches long. Has brick linings and Dockash Grate,** and an extra grate for burning wood. **FIRE BOX FOR WOOD ONLY is 22¾ inches long.** Wood extension is made of extra heavy cast iron. Grate and linings are heavy and lasting. **COAL WILL NOT BURN IN THE WOOD FIRE BOX.**

When ordered for wood only, the coal feed door is omitted, as wood is fed through the end door to the left of the oven.

OVEN is 18 inches wide, 20¾ inches deep, 12 inches high. OVEN DOOR opens flush with the oven bottom, forming a convenient shelf. **Has six No. 8 cooking holes. Top cooking surface** with reservoir extension is 27x41 inches; without reservoir, including end shelf, 27x38 inches. Height **from floor to cooking top,** 29½ inches. Distance from cooking top to top of warming closet, 26½ inches. **Total height, including closet, 56 inches.** Size pipe to fit collar, 7 inches. **Furnished with large steel ash pan. Reservoir Tank** is white porcelain lined, holds 13½ quarts.

ACME HUMMER RANGE
Without reservoir, but with warming closet.

Catalog No. 22H184 $15.27 for soft coal and wood. **$16.28** for hard (anthracite) coal and wood. **$15.02** for wood only.

THE MOST ORNATE DESIGN
Yet Presented by Any Manufacturer in the World.

THE WONDER STOVE VALUE OF THE YEAR.

An unusually handsome range offered at remarkably attractive prices. All nickeled edges and nickeled medallion panels can be securely hooked on or removed at your pleasure, enabling you to clean or blacken the stove without soiling them, and replacing them is so simple that a child can do it.

COOKING SURFACE is of very generous proportions. Has six cooking holes. Front edge is trimmed with heavy cast wave line nickeled band which can be removed from the stove while it is being blackened and is quickly replaced in position.

HARD (ANTHRACITE) COAL FIRE BOX is made of very heavy firebrick linings of superior quality. Dockash Grate is the most approved pattern. Extra bottom grate for burning wood is furnished.

SOFT COAL AND WOOD FIRE BOX has heavy cast iron lining. Has our hot blast smoke consumer or gas back.

DUPLEX GRATE for soft coal and wood is unusually heavy and so thoroughly constructed that it works easily and perfectly and gives universal satisfaction.

Be sure to tell us in your order the kind of fuel you burn. Say whether you use hard (anthracite) coal and wood, soft coal and wood, or wood only.

Deduct $2.95 if without reservoir, h warming closet, from any size listed below.
Deduct $3.00 if without warming clo with reservoir, from any size listed below.
Deduct $5.95 if without reservoir and warming closet and from price of any size

WHEN THE EXC WOOD BURNING IS ORDERED we fu especially designed arranged so that lon of wood can be used to the fire through t wood feed door at en fire box, just to the oven.

MASSIVE WARMING CL is very roomy and has double clos ornamented with removable highly nickeled panels and handles.

COVERS AND CENTERS are heavily ribbed, and reinforced; made of the very highest grade stove plate to stand the test of wear and tear, fitted with five solid covers and one nest or graduated lid made in three sections.

OVEN in the largest size measures 21 inches wide at the door opening, 21 inches deep without the swell of the oven door, and 13 inches high.

OVEN DOOR has our dependable oven thermometer and an automatic foot trip, by the use of which it may be automatically opened with the foot while the hands are full.

RESERVOIR is large; inside tank made of the best cast iron, thoroughly lined with pure white porcelain. Can be easily lifted out for cleaning.

COMBINATION BROILER AND FEED DOOR on the left sid top has ample for receiving lumps of soft coal, making it very convenient for inserting bre toaster over the surface of the hot fire. When ordered for wood only this omitted, as the wood is fed through the end fire door to the left of the oven.

ASH PIT DOOR is ornamented with a handsome silver nickeled detachab plate. It opens to the left, permitting the easy removal extra large reinforced top wire bailed ash pan.

BROAD HEARTH is finished all around the top edge with our lift o nickeled band.

WEHRLE No. 60 SIX-HOLE CAST IRON RANG

Made in six sizes, securely crated ready for shipment from our foundry at Newark, Ohio. Prices do not include pipe or cooking utensils. For cooking utensils see pa For stove pipe see page 992. WATER FRONT for coal ranges or WATER COIL for wood ranges, $2.50 extra. Do not mistake these for water reservoirs.

EHRLE No. 30 NEW SIX-HOLE FULL NICKELED CAST IRON RANGE

This Handsomely Designed and Richly Nickel Trimmed Cast Iron Range Stands Without an Equal on Any Point Upon Which Comparisons May Be Made.

We offer it with a positive assurance that it cannot be duplicated elsewhere at almost double our price.

We guarantee safe delivery and ship AT ONCE, when ordered complete with reservoir and warming closet, from a warehouse in

Kansas City, Mo., or Omaha, Neb.,

THE ONE NEAREST YOU.

Only the little bit of freight charges to pay from the warehouse nearest you to your railroad station.

When ordered without reservoir or without warming closet the range can be shipped only from our Newark, Ohio, foundry.

WARMING CLOSET made of blue polished steel, just the proper height for the average person to easily reach.

OVEN is perfectly square and an ideal baker.

OVEN DOOR is handsomely carved with beautifully nickeled panel; opens flush with oven bottom, forming an extension shelf.

OVEN THERMOMETER accurately shows the heat of the oven without the necessity of opening the door. Makes cooking easy and a pleasure.

RESERVOIR CASING is cast iron and artistically carved, the front being decorated with nickeled panel. **Tank** is made of the highest grade stove plate, white porcelain lined, easily kept clean, easily lifted out. Heats the water quickly.

Deduct $3.00 from the price of any size, if wanted without Reservoir, but with Warming Closet.

Deduct $2.95 from the price of any size, if wanted without Warming Closet, but with Reservoir.

Deduct $5.95 from the price of any size, if wanted without Reservoir, and without Warming Closet.

THREE-BURNER GAS ATTACHMENT, as shown on page 969 can be furnished on all sizes without reservoir.

COOKING TOP COVERS are extra heavy, made of best quality stove plate. Every range is fitted with four solid covers, one **Nest Cover** made in three sections and one **Anti-Scorch Lid.** By means of a nickel lifter, top over fire can be easily lifted and held in place by ratchets at two different heights. It enables the user to spread coal evenly over the fire and makes it possible to broil meat or toast bread without smoke or smell.

ANTI-SCORCH LID, illustrated on page 963 furnished free. You can cook oatmeal, rice, all kinds of cereals, frosting for cakes, boil milk, or anything that burns easily in any ordinary saucepan without stirring and without the slightest possibility of even scorching it.

HARD (ANTHRACITE) COAL AND WOOD FIRE BOX has substantial firebrick linings and Dockash Grate. Will retain fire all night when dampers are properly adjusted. Has extra grate for burning wood. **DOCKASH GRATE for hard (anthracite) coal** is of a most approved pattern, clears the fire of ashes by a half turn of the shaker.

SOFT COAL AND WOOD FIRE BOX. Iron linings are made exceptionally heavy to resist the heat. **DUPLEX ANTI-CLINKER GRATE for soft coal and wood or corn cobs** is in two parts. Half turn of the shaker cuts out all the dead ashes and clinkers, which drop into the ash pan without disturbing the temper of the operator.

FIRE BOX FOR WOOD. Large and roomy, has strong durable cast iron lining and perfect grate for burning wood. Coal will not burn in wood fire box.

Prices are for range, complete as illustrated, with Warming Closet and Reservoir. Made in six sizes. Shipped from one of the warehouses named above. **All sizes take 7-inch pipe.** Prices do not include pipe or cooking utensils. For cooking utensils see page 1025. For stove pipe and elbows see page 992. **Will reach you blackened and polished ready to set up and use.**

WARMING CLOSET. Made with roll front, strengthened at each end and handsomely nickeled and beautifully finished, as illustrated.

TEA SHELF, just below the warming closet, forms a beautiful ornament across the middle of the warming closet support.

HARD COAL FIRE BOX is substantially constructed, has front and back firebrick linings and heavy cast iron end linings.

DOCKASH GRATE is correctly proportioned to size of the flue of the range, so as to give the greatest amount of heat in the oven to a minimum amount of fuel consumed.

FOR BURNING WOOD we furnish a high grade cast iron bottom grate.

FIRE BOX FOR WOOD ONLY. Corrugated fire back, front grate and bottom wood grate made of the highest grade cast iron. Coal cannot be used in the wood fire box.

ASH PIT AND DOOR are full length, high, wide and deep. The heavy, steel balled ash pan holds a large amount of ashes, can be easily lifted from hearth and removed through ash door, which is fitted with a draft slide, through which the air passes, burning the coal evenly and getting the full benefit out of every particle of fuel.

OVEN is square and unusually large. Insures quick and satisfactory baking; meats roasted in our Acme Lehigh oven retain their juices and come out delicious.

OVEN THERMOMETER registers the exact heat of oven, enabling the housekeeper to put in the food and regulate the heat and remove the baking or roasting exactly at the time when done.

WILL REACH YOU READY TO SET UP AND USE. Blackened and beautifully polished. All nickeled edges and nickeled medallion panels lift off for cleaning without removing a bolt or screw.

Acme Grand Six-Hole Cast Iron Range

A Splendid Baker, a First Class Cooker and Great Fuel Saver. Quality Guaranteed All That Could Be Desired in a Range. Price One-Third Less Than Other Dealers Charge.

The very low prices at which we sell this range make it a genuine bargain. We guarantee it to last longer and give better service than ranges sold by other dealers at from $10.00 to $15.00 more than our prices.

We use nothing but the highest grade stove plate made from Birmingham pig iron, and at the special prices named we furnish our Acme Grand Range for hard (anthracite) coal and wood, soft coal and wood, or wood only, complete with **HIGH BACK SHELF and PORCELAIN LINED RESERVOIR,** delivered on board the cars at our foundry at Newark, Ohio, from which point you pay the freight. The stove, complete as illustrated, weighs 393 to 589 pounds, and the freight will average for 500 miles from $1.56 to $2.00 (greater or less distances in proportion). The freight charges will amount to very little compared with what you save in price.

COOKING TOP, COVERS AND CENTERS are made of high grade stove plate of superior quality. Furnished with one three-piece sectional or nest lid and five solid covers. **Has a nickeled band on front edge.**

OVEN is a quick, even and satisfactory baker; has deep nickel plated outside shelf and strong oven rack. **Oven door** is substantially mounted, aluminumized on the inside, provided with a kicker or foot opener to open it. **Oven Thermometer** measures heat just as a clock measures time.

SOFT COAL FIRE BOX is large and commodious, so constructed that it is not necessary to have a big fire to heat the cooking surface. The linings are extra heavy.

DUPLEX GRATE for soft coal and wood is absolutely the best made; gives free access of air to all parts of the fuel. An extension lengthens the fire box when end coal linings are removed, and very long wood can be burned.

HARD (ANTHRACITE) COAL FIRE BOX has heavy firebrick linings of superior quality and DOCKASH GRATE. An extra wood grate is furnished with end linings removed making a perfect fire box for burning wood.

FIRE BOX FOR WOOD ONLY is large and roomy. The grate and linings are heavy and lasting. **Coal will not burn in the wood fire box.**

HEARTH is large and smooth and draws out so that the entire ash pit is exposed for removing the ash pan.

RESERVOIR CASING is handsomely carved, made of the highest grade stove plate; has removable lift out white porcelain lined **reservoir tank** of large capacity.

HIGH BACK SHELF with nickel plated teapot holders is the very handsomest design, made of highest grade material.

WATER FRONT for Acme Grand, extra, $2.50. Do not mistake water front for water reservoir. The small illustration to the right is a popular style for Water Front, used only where there is a water supply furnished with constant pressure through pipes.

ASH PIT DOOR below the feed or broiler door is large and swings to the left, giving free access to the fire when poking or lighting it; has draft slide for regulating the fire.

ASH PAN is large, with heavy wire edges and wire handle or bail, and rests in a commodious ash pit.

Height from floor to cooking top, about 30 inches.

BE SURE TO STATE THE FUEL YOU BURN.

If wanted without reservoir, but with high shelf, deduct $2.50 from price of any size.

If wanted without high shelf, deduct $1.25 from the price of any size.

Without Reservoir, but with High Shelf.

Acme Grand Six-Hole Cast Iron Range WITH RESERVOIR AND HIGH SHELF, delivered, blackened and polished, strongly crated, on the cars at our Newark, Ohio, foundry. All sizes take 7-inch pipe.

WEHRLE No. 90 FIVE-HOLE CAST IRON RANGE

Entirely One of the Newest, Most Modern and in Every Way the Most Substantial and Dependable Perfect Baking Five-Hole Cast Iron Range Ever Made.

COOKING TOP has big cooking surface and is cut and braced to prevent fire cracking and warping. **BROILER DOOR is large, fits flush with the cooking top and opens down,** catching any loose coals or ashes over the opening. Through this opening a broiler may be inserted over the bed of red hot coals. **MANTEL HIGH SHELF is an entirely new, perfectly plain pattern.** It is large and roomy; can be polished and will be found very convenient.

SOFT COAL AND WOOD FIRE BOX has heavy cast iron linings and flat dump grate, guaranteed economical and durable, also has flat dump grate to fit in place of the coal grate for burning wood. **HARD (ANTHRACITE) COAL FIRE BOX has front and back firebrick linings of superior quality and cast iron end linings.** Its construction prevents the cinders or ashes from clinkering. Constructed to hold fire over night.

DOCKASH GRATE for hard (anthracite) coal clears the fire of ashes by a half turn of the handle. We also furnish a flat grate to fit on top of the Dockash Grate for burning wood.

WOOD FIRE BOX has heavy cast iron linings, consisting of a flat bottom grate, front grate and back.

WANTED WITHOUT RESERVOIR, but with high shelf—omit this small reservoir—deduct $2.50 from prices listed.

WANTED WITHOUT HIGH SHELF, but with reservoir and tea pot with two tea-pot holders, deduct 50 cents from prices listed.

WANTED WITHOUT RESERVOIR WITHOUT HIGH SHELF, but with reservoir and with two teapot holders and end shelf, deduct $2.75 from prices listed below.

OVEN is high, perfectly square and thoroughly ventilated, and will bake perfectly with very little fuel; has a substantial oven rack.

OVEN DOOR is substantially mounted, has highly nickel finished name plate, with our dependable thermometer, which registers the heat of the oven and makes baking a pleasure, forming a pleasing contrast with the smooth black surface of the range. The door is supplied with oven pedal (or kicker), enabling the operator to open the door with foot without effort or bending down.

HEARTH is broad, plain and smooth, without nickel ornaments.

ASH PIT DOOR has draft slide, through which air passes, burning the coal evenly and getting full benefit out of every particle of fuel. **When ordered for wood only this door and Hearth Plate are omitted, and left end is fitted with draft slide.**

ASH PAN is made of heavy sheet steel, with draw out handles; it is large and roomy, extending under the entire grate surface.

REMOVABLE RESERVOIR TANK, white porcelain lined and easy to keep clean. No. 22H399 holds 11 quarts; No. 22H400 holds 13½ quarts.

BUY IN TWO SIZES ONLY. PRICES, WITH RESERVOIR AND HIGH SHELF, BLACKENED AND POLISHED, DELIVERED, STRONGLY CRATED ON THE CARS AT OUR NEWARK, OHIO, FOUNDRY.

(Prices do not include pipe or cooking utensils. For cooking utensils see page 1025. For pipe see page 992.)

Plain Smooth Castings, Easy to Keep Clean, Made of the Highest Grade Stove Plate. We guarantee our Wehrle No. 90 Five-Hole Cast Iron Range will do more and better work and give greater satisfaction for a longer period than similar ranges sold at double our price.

When ordered for burning wood only, the Coal Feed Door and Hearth Plate are omitted. The Wood is fed through the end fire door at left of the oven.

WATER FRONT for Wehrle No. 90, extra, $2.50. Do not mistake water front for water reservoir. The small illustration to the left is a popular style for water front, used only where there is a water supply furnished with constant pressure through pipes.

CONSTRUCTION OF WEHRLE No. 87 RANGE
AND PRICES OF DIFFERENT STYLES

PLAIN SMOOTH CASTINGS. EASY TO KEEP CLEAN.

NINETY-DAY TRIAL PLAN

WEHRLE No. 87 CAST IRON RANGES are securely built, honestly represented, sold at very low prices on broad liberal terms, making the customer the judge of the range and the one to decide whether everything is as represented and the range worth every dollar invested in it. **Send us your order,** enclose our price for any one of the sizes or styles shown on this or the opposite page, and we will ship the range at once. After it arrives give it **ninety days' trial,** compare it with ranges of other makes sold at $12.00 to $15.00 more than our price. If you are not satisfied after ninety days, write us and we will instruct you how to send the range back. No questions will be asked. Your money will be returned, together with the freight charges you have paid.

DETAILS OF CONSTRUCTION.

STEEL WARMING CLOSET

will be found large and convenient. It is just the right height for the average person to easily reach. Height on all sizes is 27 inches. The oil front rolls back into the top of the closet without interfering with the space inside.

COOKING TOP, AND COVERS

are securely braced to withstand the contraction and expansion of heat without warping or breaking. The four solid lids, one sectional or one lid made in three sections and **Anti-Scorch Lid** shown in illustration to the right.

NICKELED TOWEL RAIL

extends the full length of the range. Very convenient arrangement.

COAL FEED OR BROILER DOOR

The check slide to control the fire and is a great convenience for feeding coal and broiling.

When ordered for wood only this door is left off. The wood is fed through the end fire door at left of the oven.

ASH PIT

roomy, with large reinforced ash pan, which is removed through door at left end of range.

SOFT COAL FIRE BOX

has heavy cast iron linings, correctly proportioned, securing the greatest efficiency for amount of fuel used.

DUPLEX GRATE

for soft coal, cobs or wood. One or two movements of the crank cuts out the dead ashes and clinkers and drops them into the ash pan. With the linings removed, long sticks of wood can be burned.

HARD (ANTHRACITE) COAL AND WOOD FIRE BOX

is very heavy firebrick linings of superior quality, and Dockash grate. Will hold fire over night. We furnish a bottom grate for burning wood, which may be easily put in place.

FIRE BOX FOR WOOD ONLY

large and roomy, linings heavy and lasting. The wood extension is made of extra heavy cast iron. **Coal will not burn in the wood fire box.**

Don't Fail to State Whether You Want Hard (Anthracite) Coal and Wood, Soft Coal and Wood, or Wood Only.

BAKING OVEN

large, square and dependable for quick baking. Provided with a heavy, strong wire oven rack; easy to keep clean.

OVEN DOOR

has nickel plated panel and name plate. Opens down even with oven bottom, **forming an extension shelf which makes it possible to draw out and turn a roast without having to lift it. A convenience which will be appreciated.**

OVEN DOOR HANDLE

is ornamental and beautifully silver nickeled. Always cool.

OVEN THERMOMETER

registers the heat by degrees and not by mere signs telling that the oven may be warm or perhaps hot. **The least change in heat can be easily noticed.**

WATER RESERVOIR

is made of heavy castings and completely surrounds the white porcelain lined tank. By means of a damper the heat is thrown against the tank, quickly heating the water. Has japanned cover.

ANTI-SCORCH LID.

A wonderful invention, furnished free with all styles and sizes of **Wehrle No. 87 Ranges.** You can cook oatmeal, rice, all kinds of cereals, boil milk or anything that burns easily in an ordinary saucepan on the Anti-Scorch Lid without stirring and without the slightest possibility of even scorching it.

WATER FRONT

for heating 30 or 40-gallon tank, $2.50 extra. Do not mistake water front for water reservoir. Water front can only be used where there is water furnished with constant pressure through pipes.

GAS ATTACHMENT

can be furnished for any size when ordered without reservoir. On range with 18-inch oven it has One Standard Star and One Giant Burner. Top measures 10¾x24½ inches. The other four sizes have **Two Standard Star Burners and One Giant Burner.** Top measures 10¾x28¼ inches. Pipe to which the burner valves are attached is nickel plated and has regular **Adjustable Valves** with lever handles.

Gas attachment cannot be used with acetylene gas.

Be sure to say whether you use natural, manufactured or gasoline gas.

Two-burner, for range with 18-inch oven for natural or manufactured gas. Price $4.00

Three-burner, for ranges with 20 and 22-inch oven for natural or manufactured gas. Price $4.50

Two-burner for gasoline gas. Price. 4.50

Three-burner for gasoline gas. Price. $5.00

In addition to price of range without reservoir

OUR WEHRLE No. 48 FOUR-HOLE CAST IRON RANGE is steadily growing in popular favor for its many advantages over the ordinary cook stove. It takes up less room in the kitchen and with it more work can be accomplished in the same space of time and done easier and more economically. Offered to meet the wants of those who wish to spend only a small amount for a strictly modern, first-class four-hole cast iron range. **Attractive in appearance, substantial in construction, perfect and economical in operation and has all the modern improvements.** In mounting, fitting and finish, receives the exact same care and attention that characterize our higher price ranges.

If you send us m for this Wehrle Four-Hole Cast Range or any other in this catalog, the will go to you wi understanding and ment that you can a thorough trial, you do not find it th out the greatest value you have eve if it is not satisfa every respect, retur us at our expense will return your together with any charges paid by yo

DETAILED DESCRIPTION.

COOKING TOP has a large cooking surface; is of the sectional style, to allow for expansion and contraction without fire cracking, and contains four cooking holes.

COAL FEED OR BROILER DOOR at left of the main top fits flush, is large and so arranged that coal may be fed to the fire, or a broiler may be inserted over the bed of red hot coals. In **for burning wood only, this door is left off. Wood is fed through the door to left**

ASH PIT DOOR is directly under the coal feed door, has draft slide to control

ASH PIT is of large capacity and is provided with a heavy balled ash pan.

HEARTH is large, smooth and deep, and draws out the full width, exposing the full size of the ash pit, making it extremely easy to remove the **ash pan,** al access to the flue stopper behind the ash pan, through which to clean soot and d under the oven. When ordered for **wood only, ash pan is omitted;** it is not nee

FIRE BOX is built for burning either hard coal, soft coal or wood. When **for wood only, it has a heavy built-in fire back,** which is not removable, and when for **burning coal** we furnish an additional extra **heavy removable fire back** in three sections, which enables the user to replace one section when necessary without purchasing an entire new fire back.

GRATES. Has full shaking and dumping grate for the use of hard or soft coal, and when ordered for wood only we furnish our **improved bottom wood grate** and, with the end linings removed, you have an extra large fire box for burning wood only.

OVEN is full size and is so constructed that you have an even distribution of heat, making it an ideal baker.

OVEN DOOR is substantially mounted, aluminumized on the inside and ornamented with a handsome nickeled medallion. It is supplied with a kicker or foot opener, to avoid unnecessary stooping when the hands are full. **Special oven thermometer** tells you when your oven has reached the degree of heat desired, makes it easy to maintain a uniform temperature and makes good baking easy to the most inexperienced.

RESERVOIR AND RESERVOIR CASING are made of the best cast iron. Reservoir tank is white porcelain lined to prevent rusting and keeps the water pure and clean. Easily lifted out.

HIGH SHELF is one of our very latest designs, attractive and convenient. **Be sure to say whether you burn wood only, or coal and wood.**

Prices, with Reservoir and High Shelf blackened and polished, delivered, strongly crated, on the cars at our Newark, Ohio, foundry. Prices do not include pipe or cooking utensils. For cooking utensils see page 1025. For stove pipe see page 992.

IF WANTED OUT RESERVOIR with high shelf, this small illust deduct $2.00 fro price of any size.

IF WANTED OUT HIGH SHEL with reservoir, de cents from the pr any size.

IF WANTED OUT RESERVOIR WITHOUT H SHELF, but with t with two teapot and end shelf, $2.75 from the pr any size.

ACME BOOMER SIX-HOLE STEEL RANGE

WITH RESERVOIR AND WARMING CLOSET

BURNS ANY KIND OF FUEL, HARD COAL, SOFT COAL, WOOD, COKE OR CORN COBS.

A WONDERFUL ILLUSTRATION of what we can do in our Newark, Ohio, stove foundry, the largest in the world, and a positive proof of our ability to build better stoves and ranges and sell them at lower prices than any other manufacturer or dealer in the world. This stove at $11.98, complete with reservoir and high warming closet, is offered in competition with stoves widely advertised by other foundries and dealers at $18.00 to $22.50 While advertisements of such stoves have represented them to be strictly high grade in every respect, we purchased samples of them, and discovered many defects and inferior construction, and to show how much greater value we can offer you, we had our expert range builders build the Acme Boomer to take the place of these $18.00 to $22.50 stoves, and, in building it, included the best features of all of the different makes. This being done, we found that we could sell the range to you at $11.98—the saving is all yours.

UNDERSTAND, WE DO NOT OFFER this Acme Boomer as a high grade range, because it is not the equal of any other steel range shown in our catalog; but we do guarantee it to be just as good as stoves and ranges offered by others at from $18.00 to $22.50. It is a very satisfactory baker, economical in the consumption of fuel, quick to heat and quick to act. In making it we have constructed the cooking top and covers of good stove plate. It has six cooking holes and convenient warming closet.

MADE IN O ONLY. Oven wide, 18 inches inches high, has 8 cooking holes cooking top, inches. Heig floor to cooking inches. Distance cooking top to fo closet, 23 inches height, including 49 inches. Fi is 7 inches wide inches deep. is 17½ inches. of reservoir, 2 Size of pipe to 6 inches.

DETAILED DESCRIPTION.

BODY is manufactured from cold rolled sheet steel, heavier and stronger gauge than used by other foundries and dealers in their ranges at prices ranging from $18.00 to $22.50.

COOKING TOP AND COVERS are made of good stove plate. All parts of the cooking top are carefully fitted, with sufficient allowance for heat expansion.

HIGH WARMING CLOSET is of generous proportions, is just at the right height, and will be found very convenient. The height of warming closet is 23 inches.

FIRE BOX of improved construction with our flat dump style grate. This grate is lighter than our perfect Duplex grate used in the highest grade ranges made by us. With every range we include, free of cost, an extra grate for wood, so that you can burn either hard coal, soft coal or wood.

ASH PAN is made of cold rolled steel with handsome draw out handle.

OVEN is of very generous proportions, 16 inches wide, 18 inches deep, 11 inches high, is a very satisfactory, quick, even baker, and is furnished with a steel wire oven rack. The clean out opening of oven flue is directly under the oven door.

OVEN DOOR is our latest swing pattern, attractive rococo design, steel lined, perfectly square and fits snug to the body of the range, thus retaining all the heat in the oven.

RESERVOIR is made of galvanized iron and heats by direct contact with the end of the range. Can be adjusted to either end and, if so desired, can also be used on top of the range. Being made of galvanized iron, it will not rust nor corrode and is by far a better reservoir than that on ranges offered for $18.00 to $22.50 by other dealers. This is the only steel range we build without cast iron reservoir casing. It is simply made of galvanized iron and will not last as long as the cast reservoir casing which is used by us on all our other ranges. In shipping this range **we pack the reservoir inside the oven.** It is easily attached to the right or left end of the range.

FLUE BACK which conducts the heat from the flue beneath the oven to the stove pipe is made of the highest grade cast iron stove plate. This is a very important feature. Nearly all steel ranges sold for more than double the price we ask for this, our Acme Boomer Range, are made with a thin sheet steel flue back, which easily burns out.

WEHRLE No. 52 FOUR-HOLE CAST COOK STOVE

$8.81 is absolutely the lowest price ever made on a Four-Hole Cast Cook Stove for burning Wood, and $10.98 the lowest price for a combination Coal and Wood burning stove complete with reservoir, and we know these prices are lower than any other manufacturer could possibly make and offer a stove that would begin to compare with these in quality of materials, draft control, accurate fitting and general control.

Prices for Wehrle No. 52 Combination Coal and Wood or Exclusive Wood Burning Cast Cook Stove, With Reservoir, delivered on the cars at our foundry at Newark, Ohio, Blackened and Polished, Ready to Set Up and Use. Takes 6-inch stove pipe. Capacity of Reservoir, 11½ Quarts.

DESCRIPTION.

COOKING TOP, COVERS AND CENTERS are of standard weight and durable, made of No. 1 pig iron. When you buy a stove from us you get the best that can be made in material, construction and design.

FIRE BOX is large and exactly the length shown opposite each catalog number and price. It is fitted with a convenient and substantial flat dump grate. Has extra flat grate for burning wood and can be easily converted for burning either coal or wood. The fire back is one solid piece of extra heavy casting, substantially mounted in the stove, which also serves as the upper front oven plate and is not detachable. To change for wood, remove both end linings and dump grate and put in the extra flat wood grate.

White Enameled Reservoir Tank holds 11½ quarts.

Ash Pan furnished for coal stove only. For wood stove it is omitted as it is not needed.

OVEN measures exactly as we state under the stove without including the swell of the oven doors, of which there are two—one on each side.

ASH PIT DOOR swings to the left and is supplied with slide check draft to control the fire.

CME ROVER GENUINE STEEL FOUR-HOLE COAL AND WOOD STOVE

ITH OR WITHOUT RESERVOIR. GREATEST STOVE VALUE EVER OFFERED.

DETAILED DESCRIPTION.

DY is built of heavy steel smooth plate, is substantially put together, riveted with wrought iron rivets, strongly reinforced and in every part. The heavy plates are well riveted and jointed. **The size of pipe to fit collar is 6 inches on all sizes.**
OKING TOP AND COVERS are made of good stove plate. It has four cooking holes and with ordinary care and usage the cook- and covers will last for years. All parts of the cooking top are carefully fitted, with sufficient allowance for heat expansion.
E BOX is provided with practical cast iron linings, with shaking dump grate. With every stove we include an extra wood grate for burning wood so you can use the stove for burning hard coal, soft coal or wood.
E DOOR is beautifully designed and swings to the left.

ASH PIT is large and roomy and is provided with a large ash pan.

DRAFT SLIDE to the left of oven door is of more than usual capacity.

OVEN is of very generous proportions, perfectly square, is a very satisfactory, quick and even baker, and is furnished with a steel wire oven rack.

OVEN DOOR is on the right side (the left side is left blank). Our latest swing pattern, attractive rococo design, steel lined, perfectly square, and fits snug to the body of the stove, thus retaining all the heat in the oven.

FLUES are ample and provided with clean out in rear of ash pit, which is reached from the front of the stove.

RESERVOIR is made of galvanized iron, heats by direct contact with either end or left side of the stove, lifts off easily and can be used on either end or rear side at pleasure or can be used on top of stove as occasion requires. When ordered with reservoir, we pack the reservoir inside of the oven.

Three-In-One Parlor Heater With Oven

View showing the stove with ornamental top removed; the convenient cooking top, baking oven, drop coal feed door, deep ash pit and mantel shelf.

WEHRLE No. 109 CAN BE FURNISHED FOR WOOD ONLY, OR COAL ONLY, OR COAL AND WOOD.

HEAT, BAKE AND COOK AT THE SAME TIME WITH THE SAME FIRE

WE RECOMMEND THIS, our Wehrle No. 109 Parlor Heater With Oven, to those who want to do light housekeeping and care for but one fire; also to those who must consider economy of space in living rooms as well as saving in fuel in cooking and heating. It is **especially desirable** for summer cottages, and is built to meet the requirements of a cook stove and heater, being a combination of both.

MADE OF THE VERY BEST MATERIAL and in the most careful manner, strong and durable. **CASTINGS** are plain, smooth and easy to keep clean. **ORNAMENTAL TOP** is in two parts, swings to either side or may be removed entirely when cooking. **COOKING TOP** has two cooking lids and removable center, permitting the use of cooking utensils or a wash boiler. **OVEN** is directly under the fire box; it is much larger than in most stoves of this class and with its perfect fire construction gives it baking qualities equal to the best cook stove. **PLAIN OUTSIDE OVEN SHELF** adds to the beauty of the stove. **CAST IRON MANTEL SHELF** on the back of the stove is an entirely new feature, perfectly plain. It is large and roomy and very convenient. **FIRE BOX** has heavy cast iron linings, with **SHAKING AND DUMPING GRATE** for burning coal and **FLAT DUMP GRATE** for burning wood. When ordered for coal and wood both grates are furnished. Has **COAL FEED POUCH** and **BROILER DOOR** for burning coal, and **WOOD FEED DOOR** for burning wood. **ASH PIT DOOR** is substantially mounted and has slide draft register, through which air passes, burning the fuel evenly. **HEARTH** is broad, plain and smooth, opens wide for the removal of the ash pan. **ASH PAN** is wired around the top, with bail for carrying. **FIRE BOX** on stove for **WOOD ONLY** is 3 inches longer than on the **COAL STOVE.** Height from floor to swing top, 31¼ in.

We guarantee our Wehrle No. 109 Three-In-One Parlor Heater to reach you in perfect condition. BLACKENED and POLISHED ready to set up and use. An ornament for any room.

Made in four sizes as listed below, strongly crated and delivered on cars at our foundry in Newark, Ohio.

Patent Stove Pipe

We do not handle made up (put together) stove pipe, for the reason that the cost of crating single lengths, together with the high freight rate, would make it an unprofitable purchase for our customers. The freight rate on made up stove pipe is more than double the first class rate, while the patent stove pipe we sell can be shipped as fourth class, with a very low freight rate. This pipe is not made up, but the seam is formed and the edges turned over. It is easy to put together by simply joining the two laps, interlapping the crimp end, which locks the joint firmly together, and then tightening the seam with a mallet or hammer. Our patent pipe is nested to facilitate shipping, as a dozen joints do not occupy any more space than one joint put together. Full crates contain twenty-five joints.

We guarantee this pipe to reach you in good condition. Stove pipe and elbows can only be shipped from Newark, Ohio, or Chicago, Ill.

Moose Laundry Stove and Neverbreak Drum Oven

MOOSE FOUR-HOLE LAUNDRY STOVE

Has Four 8-Inch Cooking Holes.

...and ...to Set ...d Use.

FOUR-HOLE LAUNDRY STOVE, burning any kind of fuel with our new dumping grate, is the very best laundry stove manufactured in any ...in the world. It is really the most wonderful value; it has a very ...ying four covers, each fitting in a No. 8 cooking hole, and top ...ver all is 21x22 inches—big enough to accommodate a great big wash ...ing utensils at the same time. It will also take the new style steel ...dress tube now in common use and the arrangement of the fire pot ...tion of main top is such that the heat is evenly distributed and it is a ...y economical in the use of fuel. Made from the very highest grade of ...ping iron.

...NEVER QUR NEVERBREAK ALL STEEL DRUM OVEN AT $1.52 ...strated and described on this page, and which in connection with this ...makes a complete cooking stove. This stove weighs, crated, 105 pounds ...cooking holes. Diameter of fire pot, 12½ inches. Depth of fire pot. ...Cooking surface, 21x22 inches. Height, 23½ inches. 6-inch stove

...ATE SHIPMENT. We have a large stock securely crated, blackened ...ready to **SHIP AT ONCE** from a warehouse in **Kansas City, Mo., or**

...989 Price.....**$3.90**

The Acme Moose Stove and Neverbreak Drum Oven are shipped from a warehouse in

Kansas City, Mo.; OR Omaha, Neb.

The One Nearest You.

Only the little bit of freight charges to pay from the warehouse nearest you to your railroad station.

OUR NEW NEVERBREAK ALL STEEL DRUM OVEN $1.52

Shipped from a Warehouse in a City very near you.

OUR NEVERBREAK STEEL DRUM OVEN will make a good cooking stove out of any heater or laundry stove. Attach this oven to any 6-inch stove pipe and to any laundry or heating stove and you will have an ideal cooking stove and heater or laundry stove combined in one. The entire body is substantially constructed of cold rolled steel, with pipe collar on top and bottom to fit 6-inch pipe. Is fitted with removable steel rack. Oven measures 8⅞ inches wide, and 17½ inches long inside; will easily accommodate two 8-inch pie plates or an 8x17-inch baking or roasting pan. It is so constructed to get a circulation of heat that the oven will heat evenly and thoroughly, making it a first class baker. We would especially recommend that in ordering a laundry stove or a small heating stove you order one of our Neverbreak All Steel Drum Ovens, and when so ordered shipment will be made from our Newark, Ohio, foundry. **When ordered with our Acme Moose Laundry Stove we ship from a warehouse very near you.** Even though you have a cook stove or range in your kitchen, you will find this, our Neverbreak All Steel Drum Oven, almost indispensable attached to your laundry stove or heater, for oftentimes you will find it convenient on washday to get your lunch or dinner on the laundry stove in connection with the Neverbreak All Steel Drum Oven or, in the evening, a quick luncheon or small supper or dinner can be conveniently prepared on one of our heating stoves in combination with this new 1912 Neverbreak All Steel Drum Oven which we furnish for only $1.52. The outside measurement of the drum is 12x18 inches. Shipping weight, 15 pounds. It is a wonderfully quick baker, saves the waste of heat passing up the pipe; tends, in connection with the heating stove, to give more radiation, therefore more heat, out of a given amount of fuel, and is especially efficient when used in connection with a laundry or heating stove. Can be shipped from a warehouse in **Kansas City, Mo., or Omaha, Neb.**

No. 22A604 Price.....**$1.52**

...TO $3.82 Acme Pride

...Hard or Soft Coal or Wood Burning Laundry Stove.

Our new model 1912 improved special coal and wood burning laundry stove, our Acme Pride, which we offer at only $3.06 and up, a price representing the mere cost of materials and labor in our own **stove foundry at Newark, Ohio,** where manufacturing costs are lower than in any other stove foundry in the world, and to this very low manufacturing cost we add only one small margin of profit, so that this stove, when sent to you at our **$3.06 to $3.82 price,** represents better value and it is a better laundry stove than you could secure elsewhere at a much higher price.

Our Acme Pride New Improved Laundry Stove is made with two cooking holes, has a very liberal top and has special eight-faced fire pot equipped with **special holders,** so that you may heat **eight sadirons** at one time; **These special features make it an ideal laundry stove,** and as it is a splendid ...home. Be close to the fire they heat quickly while you may ...top of the stove for cooking or some other purpose. It has ...touch feed for coal and our special dumping grate.

...shipment. We have a large stock securely crated, **blackened** ...ready for immediate shipment.

...made in three sizes as listed below, and delivered on cars ...Ohio, foundry. See page 992 for stove pipe.

The raw material in this magnificent hard coal heating stove is the very best. **IMPROVED DUPLEX GRATE with shaking ring cleans itself when dumped,** cuts out the clinkers and dead coal and has ample space to turn them into the large heavy wire bailed ash pan without crushing the clinkers or necessitating the use of a poker. **SELF FEEDING MAGAZINE built with a view to saving fuel** and carrying coal enough at one filling to run the heater twenty-four to thirty-six hours. **ASH PIT AND ASH PAN hold a large quantity of ashes.** It is only necessary to empty the ash pan once a day when the stove is in ordinary use. **MICA DOORS are absolutely airtight,** and by means of silver nickeled turnbuckles are held firmly in place against a cast iron bar extending from the upper edge of the upper mica doors to the lower edge of the lower mica doors. **MICA ILLUMINATION is full and complete** on three sides of the stove. **DOUBLE HEATING CONSTRUCTION provides heat for the main floor and living room** and surplus heat for upstairs. **HOT AIR FLUE has a collar at the top** to which a pipe can be connected for carrying the heated air to the upper rooms. **SCIENTIFIC FLUE CONSTRUCTION provides four times the usual base burner heating capacity. The lower portion of the DOUBLE REFLECTOR PANELS is silver nickel polished** and mirror finished. The upper portion is artistically carved, satin nickel finished. All four corners ornamented with a handsome silver nickeled casting carved in a most artistic lion's head design. **FRONT SIDE ORNAMENTS are an original dolphin design.** They are highly polished and in keeping with all the other elaborate nickel parts and ornamentation. **LARGE MASSIVE SIDE FOOT RAILS are easily attached** to the sides of the stove, highly silver nickel polished. **HIGH ART FULL NICKELED LOWER BASE, on which the main body of the stove rests,** is elegantly carved and gorgeously silver nickeled.

Prices for Wehrle No. 100 Base Burner, made in three sizes, securely crated, ready for immediate shipment from a warehouse in Kansas City, Mo., or Omaha, Neb.

IT WILL REACH YOU READY TO USE, BLACKENED AND BEAUTIFULLY POLISHED.

ACME CORONA BASE BURNER

A GENUINE BARGAIN.

The handsomest, best constructed low priced base burner ever offered.

Self Feeding, Double Heating, Return Flue, Hard Coal or Crushed Coke.

Never have so much style and beauty with so many features of real merit been incorporated in a medium priced Base Burner as in our Acme Corona. It is a powerful heater and fuel saver. Built to give one-third more heat with one-third less fuel than base burners sold by other dealers at $10.00 to $15.00 more and has all the exclusive features which make this possible.

We ship at once and guarantee safe delivery from a warehouse in

Kansas City, Mo., or Omaha, Neb.

THE ONE NEAREST YOU.

Blackened and beautifully polished. Ready to use.

Only the little bit of freight charges to pay from the warehouse nearest you to your railroad station.

POINTS OF CONSTRUCTION.

FIRE POT is extra heavy. Made in one piece with prongs to admit of poking the fire. Has **Duplex Grate** and shaking ring. The dead ashes, cinders and clinkers are easily and quickly cut out and dropped into the ash pan below without disturbing the fire above. **DOUBLE HEATING FLUE. Cold air is drawn from the floor at the bottom of the stove,** is circulated around the hot surfaces of the stove, and discharged through the hot air flue at the top. **A PIPE MAY BE ATTACHED to the top of the hot air flue and connected to a register in the floor above,** so that a portion of the heat will pass to the floors above and heat one or more rooms comfortably; or the hot air damper may be turned back and all the heat will be confined to the rooms on the first floor of the house. **SELF FEEDING MAGAZINE holds sufficient fuel for one day's burning.** Automatic inner magazine cover which rises and falls with the swing of the top forms a tight covering under the nickeled top. **ASH PIT is large, allows for a large wire bail ash pan.**

Prices for Acme Corona Base Burner, made in three sizes, blackened and polished, strongly crated, ready to ship at once from a warehouse in Kansas City, Mo., or Omaha, Neb.

ACME PREMIER

The Champion Hard or Soft Coal and Wood Burning Heating Stove

Converts 85 Per Cent of All Combustible Material in Soft Coal Into Heat.

Blackened and beautifully polished. Ready to use.

The most beautiful, the mostly richly nickel trimmed, the most showy and massive and by far the most elaborate direct draft heater ever built.

WHILE OUR ACME PREMIER IS NOT A BASE BURNER, it has the general appearance of the very highest priced base burners. It is adapted to the use of either hard or soft coal and wood. HARD COAL SELF FEEDING MAGAZINE, $1.13 extra. Fits snugly inside the stove and converts this into an automatic self feeding hard coal direct draft heater. **IF YOU BURN SOFT COAL you will not need the magazine attachment.** While the Acme Premier burns hard coal and wood perfectly, it was **designed primarily as a soft coal burner,** and it is equipped with our **patent hot blast smoke and gas consumer,** a wonderful hot blast flue around the top of the fire pot, and which converts 85 per cent of all the combustible material in soft coal into heat. **IF YOU BURN WOOD this is an ideal heating stove, because it is constructed with such a generous fire pot,** such **large doors,** that it will burn **great big chunks of wood, great knots that** you cannot burn in any other stove. **ITS FIRE KEEPING QUALITIES ARE PERFECT.** As an all night fire keeper we guarantee our **ACME PREMIER** to be the wonder of the year. **BODY** is made of heavy cold rolled smooth steel with outer cast ornamental fret work jacket which quickly responds to variations of the temperature within the stove. The stove is surmounted by **a large ornamental silver nickel plated dome. HOT AIR COLLAR is mounted on top, with a nickeled cover,** to which a pipe may be attached and carried to a register in floor above, so that heat will pass to the floor above and heat one or more rooms as comfortably as the floor below, with no additional fuel. **All sizes take 6-inch pipe. SWING TOP, when swung to one side,** exposes a large lid through which hard coal may be poured into the magazine when this stove is used as a hard coal burner. **DRAW CENTER GRATE is made unusually heavy.** Has our own patented shaker ring. If you order the stove **to burn wood only** we fit it with our **wood grate** of the same construction. **FIRE POT is made extra heavy of corrugated cast iron.**

ACME VENTIDUCT

Burns Hard Coal, Soft Coal or Wood

Extra large, handsomely ornamented Double Heater and Hot Air Circulator. In this, our Acme Ventiduct, we offer an extra large, durable Double Heating Oak Stove at the very low prices named below, prices that make everybody "sit up and take notice."

Shipped from a warehouse in

Kansas City, Mo., or Omaha, Neb.

The one nearest you.

Only the little bit of freight charges to pay from the warehouse nearest you to your railroad station.

DETAILED DESCRIPTION.

Body made of the very best Wood's cold rolled wrought smooth steel. **Inner Steel Jacket** made of the highest grade rolled steel plate, fitted to the top and base absolutely airtight, making it doubly durable. **Swing Top**, upon which the urn rests, is beautifully carved, swings to the side, exposing to view one griddle hole in the main top, with removable lid, so that a vessel can be kept on top of stove and will be found convenient for various purposes. **Double Feed Doors** are carved to harmonize with the main top and base, substantially mounted with silver nickeled hinge pins. Feed door opening is large, doors are made double, providing a combination door for wood and coal. Doors and opening admit a large stick of wood when wood is used as fuel. When hard coal is used as fuel and magazine is ordered with the stove the fuel can be fed through the opening at the top. If soft coal is used as fuel, it is only necessary to open the lower door. A nickeled screw check draft in the lower door regulates the heat and saves fuel. **Fire Pot** made of the highest grade No. 1 Birmingham iron; full size and by reason of its weight and durability, requires no troublesome nor expensive lining. Holds a good bed of coal and prevents waste of heat. For furnish our improved and patented draw center grate, acknowledged to be by far the made for burning coal in an Oak stove. **Wood Grate** has the same type of con- as our coal grate. **Swing Ash Door** is carefully ground so it fits snugly to the base. nickeled screw registers to supply the draft and control consumption of fuel. **Hand- Heavy Carved Nickeled Wings** flank the stove on both sides. **Front and Side** and feet silver nickel, giving the stove a luster and polish. **Back Base** black. **Hot Air Collar** is mounted on the main top with cover, a pipe may be and carried to a register in the floor above, so that a portion of the heat will pass above and heat one or more rooms as comfortably as the floors below with no fuel. **Double Heating Flue** gives this stove wonderful heating power. Cold air is between the double body, is circulated around the hot surfaces of the stove and dis- through the hot air collar at the top. The air circulates very rapidly and your home from cold corners, maintaining a comfortable temperature that will vary only degrees between the floor and ceiling.

ACME OAK HEATER

A STOVE FOR ALL HEATING PURPOSES

Burns Soft Coal, Hard Coal, Coke, Cobs, Chunks of Wood, Knots or Blocks, Anything That May Be Burned In Any Heating Stove.

Self feeding magazines for hard (anthracite) coal can be furnished on the large sizes as follows: For No. 22A682 add 75 cents; for No. 22A683 add $1.00; for No. 22A684 add $1.25.

Shipped from a warehouse in

Kansas City, Mo., or Omaha, Neb.

The one nearest you.

Only the little bit of freight charges to pay from the warehouse nearest you to your railroad station.

POINTS OF SUPERIORITY.

Body is made of heavy smooth steel. **Main Top** is cast in the latest rococo pattern. **Swing Top** when moved to the left discloses a cooking lid, which may be used for heating water and other useful purposes. **Fire Pot** has our extra strong ribbed construction, perfect in shape, carefully fitted to insure the greatest economy in the consumption of fuel. **Urn**, medallions on doors, band around main top, ornaments on each side of feed doors, door knobs, hinges and skirting **around fire pot** are heavily and richly decorated and silver nickel plated, giving the stove an individuality of design which makes it an ornament to any parlor, sitting room or library. **Grate:** For coal we furnish our Improved Patent Draw Center Shaking Grate. **The Wood Grate** has the same type of construction and possesses the selfsame advantages as the coal grate. **Double Feed Doors** are handsomely carved to harmonize with the main top and base and heavily nickel plated. **Feed Door Opening** is large, as specified in the table of sizes below. When both doors are open the size of the opening permits the use of large chunks of wood in the stove when wood is used as fuel. When hard coal is used as fuel and a magazine is used with the stove, the fuel can be fed through the opening at the top by removing the lid. If soft coal is used as fuel, it is only necessary to open the lower door.

Made in four sizes, carefully crated and delivered on cars at a warehouse in KANSAS CITY, MO., OR OMAHA, NEB., at following special prices:

WEHRLE No. 162 OAK HEATER

Burns Hard or Soft Coal, Wood, Chunks, Cobs, Blocks, or anything that may be burned in any heating stove.

The material used in the construction of this stove is the best to be had and specially selected for its particular purpose. The castings are extra heavy, made of the best quality of iron. All parts are fitted with utmost care, making the stove as nearly airtight as it is possible to make any stove.

DESCRIPTION.

Body made of polished heavy **cold rolled oak body steel** fitted absolutely airtight. **Main Top** is ornamented with nickel plated band. **Swing Top** is a handsome openwork pattern. When moved to left discloses a cooking lid which may be used in heating water and for a great many other purposes. **Handsome Urn** ornaments entire stove. **Fire Pot** is extra deep with liberal grate surface. Made of heavy cast iron, ribbed and carefully fitted so as to insure the greatest economy in fuel. **Wood Grate** is heavy and durable. Has draw center so that ashes can be dropped into the ash pan quickly. **Coal Grate** made of extra weight and fitted with draw center; it is easy to clear the fire pot of clinkers and ashes. **Ash Pan** is made of heavy iron, fitted with bail. **Ash Pit Door** ground and fitted absolutely airtight. Has nickeled lever handle and draft register. **Feed Door** made in one piece. **Nickel** Top Band, Name Plate, Draft Chambers, Lever Handles. Shaker furnished with each stove.

Self feeding magazine for hard (anthracite) coal can be furnished at the following prices: For No. 22A686 add 75 cents, for No. 22A687 add $1.00, for No. 22A688 add $1.25.

Made in four sizes. Blackened and polished, securely crated and ready for immediate shipment from our foundry at Newark, Ohio, only.

ACME SURPRISE-SUCCESS.

BASE HEATING, FRONT DIVING FLUE, COMBINATION COAL AND WOOD OR EXCLUSIVE WOOD HEATING STOVE.

The only successful Base Burning Stove adapted to any sort of fuel.

SWING TOP is highly nickeled, surmounted with handsome urn finished in bronze and polished copper color. **MAIN TOP** is supplied with a griddle cover in the center, furnishing a cooking hole, when dome is swung aside. The main top in which the griddle cover rests may be removed entirely and through this opening chunks of wood which might not go through the large fire door may be dropped upon the fire below. **MAIN FRONT** is fitted with highly nickeled screw draft register and ornamented with nickeled reflector panel. Through the mica fire view may be seen the flame blazing and curling downward through the diving front flue to the full base flues below, where it travels to the back of the stove and starts upward to the smoke pipe. **FOOT RAIL NAME PLATE** is long, elaborately nickeled, making a pretty and convenient rest for the feet. **AUTOMATIC DAMPER** is located at the right, the handle of which is in contact with the trip at the back of the fire door, a great convenience when the feed door is opened to replenish the fire. As the large door swings back, the direct draft damper is automatically opened, so that smoke passes directly into the chimney, and no smoke or gas creeps out along the top line of the door when putting in fuel. **COAL FIRE BOX** is made extra heavy. Has duplex coal grate, extra heavy wood grate, so arranged and constructed that sufficient air can reach the fire box at all times. It is therefore adaptable to the burning of wood, coal, cobs, or fuel of any kind. **FOR BURNING WOOD ONLY,** fire chamber is of unusual dimensions, the feed door is so large that you may use large and knotty chunks and blocks of wood which you could not get into any other combination stove. **ASH PIT** is very large, fitted with **full size ash pan** made of heavy sheet iron.

THE COAL FIRE BOX on all sizes is 6½ inches deep. On No. 22H656, 9 inches wide and 18¾ inches long; on No. 22H657, 10 inches wide and 19½ inches long, while No. 22H658 has fire box 11 inches wide and 21 inches long. **All sizes take 7-inch stove pipe.**

Prices, strongly crated and delivered on the cars at our foundry in Newark, Ohio.

ACME CARBON.

WITH DOUBLE HEATING HOT AIR CIRCULATING SYSTEM.

Made From the Heaviest and Highest Grade Material. A Model of Honest Construction.

Most Economical Heater in the Consumption of Coal Ever Made. Does Not Come With Self Feeding Magazine; the Coal Is Fed Through the Front Door the Same as Regular Oak Heating Stoves.

Exclusive Coal Burning Double Heater.

DISTINCTIVE FEATURES.

ORNAMENTAL SWING TOP is nickeled and polished, of most artistic design, surmounted by an ornamental urn of the very newest pattern. **MAIN TOP** is of the most artistic design, highly nickeled. **FIRE DOOR** is hinged to the inner dome chamber with highly nickeled hinge pins and fits airtight; it is supplied with mica, which allows the rays of light from the burning coals to pass through into the room, giving a very cheerful effect; it is supplied with a check draft slide and fastens with our extra heavy silver nickeled turnbuckle. **ASH PIT DOOR** is fitted airtight, heavy and reliable. The draft supply is through the ash pit door and this draft is controlled by screw draft register, which enables you to regulate the fire under every weather condition. A heavy, nickeled turnbuckle closes the ash pit door securely. **FIRE POT** is very heavy and corrugated, so as to give much heated surface. The fire pot has above it a large one piece solid cast dome, making a perfectly airtight combustion chamber. **GRATE** is the same pattern used in our Oak heating stoves; is an extra heavy shaking grate, equipped with a draw slide through which clinkers and ashes can be easily dumped into the ash pan. **DOUBLE HEATING.** Main top is supplied with a double heating opening, to which a 5-inch pipe may be attached if desired. When connected with a register in the ceiling, upper rooms can be heated. Should the user care to take advantage of the double heating feature, it will only be necessary to remove the nickel swing top (which is very easily done) or swing it to one side. **FOOT RAILS** at the sides are most magnificently carved, heavily nickeled, and add great beauty to the general appearance of the stove. **BASE** is a massive artistic design, front and sides handsomely nickeled and polished (back base strip is plain black). **GENERAL DESIGN.** The solid inner structure is covered with an ornamental, artistically designed, open fretwork outer casing, between which and the inner body is a considerable air space where the air is heated and circulated, passing rapidly through the open fretwork and double heating exit in the dome. The fretwork casing permits free circulation of the air around the entire body of the stove, quickly heating the room to any required temperature.

Made in three sizes, blackened, polished, strongly crated and delivered on the cars at our foundry in Newark, Ohio.

WEHRLE No. 136 HOT BLAST HEATER.

FOR HARD OR SOFT COAL, SIFTINGS, SLACK, LIGNITE, COKE, COBS, ETC.

Economy in the use of fuel is the strongest argument in favor of any stove. This is notably true of our Wehrle No. 136 Hot Blast Heater, which we guarantee to burn soft coal, siftings, slack or lignite with perfect cleanliness, and will hold fire for hours without attention. Burns a very large percentage of the gas which is thrown off from soft coal under heat, together with a good part of the soot, converting them into heat.

DESCRIPTION—BODY is heavy cold rolled steel fitted absolutely airtight. Ornamented with a handsome bronze plated name plate. **FIRE POT** is deep. Made of heavy corrugated cast iron. Ornamented with a three-piece nickel skirting. **IMPROVED DRAW CENTER SHAKING GRATE FOR COAL.** Wood grate has the same type of construction, the same draw center and the same shaking features. **ASH PIT** is very roomy and provided with heavy bail handle ash pan. Shaker furnished with each stove. **ASH PIT DOOR** swings to the right and closes with nickeled lever handle, making it airtight. **HOT BLAST ATTACHMENT** is a cast iron tube fitted with register draft at top, opens or closes with ease, supplies quantity of heated air to combustion chamber, consuming all the smoke and gases arising from the fire. **SWING TOP,** plain openwork design, ornamented with a handsome urn. Combination lift feed door with Alaska wire handle permits the feeding of small or large pieces of coal. **Pipe Collar** is cast on main top.

Made in four sizes as listed below and fitted throughout with just as much care as our highest priced stoves. Securely crated. Delivered on cars at our foundry in Newark, Ohio.

OUR ACME HOTSPUR.

AIRTIGHT HOT BLAST HEATER FOR HARD OR SOFT COAL.

One and three-fourths tons ordinary grade soft coal will last as long and give as much heat as 1 ton of the very best hard coal. Beyond question or doubt one of the best **hot blast heaters** made. Will hold fire of soft coal all night and saves fully one-third the fuel.

BODY is made of smooth steel, has cast ornamented top, cast fire pot, cast lining extending up as far as the draft inlet, with 20-gauge steel lining above that. **DRAW CENTER SHAKING GRATE.** Easy to operate.

ASH PIT is large, supplied with heavy ash pan. **ASH DOOR** is carefully ground and fitted, swings to right, closes with turn key, making it absolutely airtight. These stoves are claimed, without any contradiction, to consume 85 per cent of the smoke. **All sizes use 6-inch stove pipe.** It is handsomely ornamented with silver nickel plated foot rails, nickel plated hot blast dampers, screw adjustment, highly ornamented with nickel plated ornaments, patent double cover on top. **One of the most economical coal burners you can buy.**

Our special prices of $5.73 to $6.90, according to size, as listed below, are very much lower in price than these stoves have ever been sold.

We guarantee safe delivery.

IMPROVED ACME CANNON

At $1.69 and up we supply this Cannon Heating Stove of approved up to date design, smaller than our Acme Governor and Giant Cannon Stoves and made for use in smaller spaces. **Burns any kind of fuel. Special prices named cover only the cost of material and workmanship with one small conscientious margin of profit added. Blackened and polished, ready to set up and use. Construction is the result of careful experiment and as a moderate priced cannon stove is an ideal stove for hard or soft coal. Has swing ash pit door. Register** in feed door. **Dumping grate** and every feature found in every other high grade **Cannon heating stove.** Will give entire satisfaction with any fuel, and suitable in the different sizes for small or medium size rooms. **The top** on the two largest sizes is so arranged that our **Neverbreak Steel Drum Oven,** shown on page 993, can be attached at any time.

List of the Acme Cannon, crated and delivered on cars at our Newark, Ohio, foundry.

ACME GOVERNOR CANNON HEATING STOVE

A First Class Low Priced Coal Heater. Burns Wood or Any Kind of Fuel as Well as Coal.

The largest sizes are suitable for railway stations, stores, printing offices, churches, schools, public halls, factories, machine shops, laundries, lodge rooms, etc. Also used in some of the large dwellings where one or more rooms upstairs and down are to be heated by one stove.

Smaller sizes are especially suitable for small living rooms, dining rooms, bedrooms and other small rooms.

The stove is heavy and made in a substantial first class manner. Has all the latest improvements. **The top** on the two largest sizes is so arranged that our **Neverbreak Steel Drum Oven,** shown on page 993, can be attached at any time. **The smooth castings** are of the same high grade iron as is used in our other stoves. **Body** is closely fitted, made strong and heavy. **Top** is large and supplied with griddle cover. **Feed Door** swings to the right and has check register. **Improved flat bar dumping grate** made strong and heavy to stand all kinds of usage. **Ash Pit** is large and roomy. Contains large ash pan. **Base** is extra strong and heavy throughout. **Foot Rails** at sides of stove are plain, smooth, easy to keep clean and add very much to the general appearance of the stove.

THE FREIGHT CHARGES on stoves are very little. The freight will figure about 25 to 50 cents per 100 pounds for 200 miles, greater or less distance in proportion, and will amount to only a small charge, almost nothing compared with the saving in price.

MADE IN FOUR SIZES, securely crated, blackened and polished and delivered on board the cars at our foundry at Newark, Ohio, from which point the customer pays the freight. Prices do not include any pipe. For pipe and elbows see page 992.

ACME RUSTIC GLORY

THE BEST MADE AND LOWEST PRICED COTTAGE PATTERN HEATING STOVE ON THE MARKET.

When Ordering Be Sure to State Whether You Want the Coal or Wood Burning Style.

BLACKENED AND POLISHED, READY TO SET UP AND USE.

SPECIAL FEATURES. Handsome Ornamental Mica Front, giving brilliant illumination, so that the cheerful glow of the burning fire is reflected into the room. **Feed Door** for both the coal and wood stove is at the right hand side. **Swing Ash Pit Door** has perfect draft slide. **When furnished for coal, a Swinging Smoke Guard** is attached to inside of stove above feed door to prevent the smoke from escaping into the room when the door is open.

Both the coal and wood stoves are constructed in the most up to date approved manner, with first class nickeled Urn, openwork Swing Top, elaborately carved and very handsome complete equipment. Cooking Top on both the coal and wood stoves has one **7-inch** cooking hole in the smallest size, and the two larger sizes are provided with two **7-inch griddle covers and a short center. Fire Chamber** of coal stove has a **flat dump grate with grate rest, heavy cast iron fire back, end linings and front grate. The Wood Only** style has a large, commodious wood fire chamber, consisting of **Front Wood Fender and heavy Wood Fire Back** admitting large and irregular chunks and knots of wood. **Bottom Grate** is not needed and therefore not furnished. **Ash Pan** is furnished with coal stove only. **It is not needed for the wood stove.** Both styles are mounted on elaborate **massive leg bases, with silver nickeled foot rail.** This heater positively cannot be equaled by any offered you at double the astonishingly low prices we quote below. **Fire Box** for coal in all sizes is 5 inches deep and 9 inches wide; on No. 22H662 the length for coal is 14 inches; on No. 22H663 is 16 inches, and on No. 22H664 is 18 in. The wood stoves on these sizes take 18, 20 and 22-inch sticks.

ALL SIZES TAKE 6-INCH PIPE WHICH CAN BE CONNECTED EITHER AT THE TOP OR BACK OF STOVE.

Made in three sizes, securely crated and delivered on board the cars at our foundry at Newark, Ohio.

THE BEST BOX STOVE MADE

Can be Used for Cooking or Heating.

Burns Wood, Chunks, Knots, Roots, Chips, Bones, Corn Cobs, Corn Stalks, Brush, Leaves, Dry Grass, Hay, Straw, Paper, Kitchen Waste; in Fact, All Kinds of Rubbish.

LARGER SIZES are especially suitable for taking in **big chunks of wood,** big knots, big roots, ends of good size trees, extra long pieces of wood, blocks, etc. They will be found in stores, halls, livery stables, hotel offices, factories, churches, schools and other large rooms. They are also used in some of the larger dwellings.

SMALLER SIZES are especially suitable for homes, parlors, living rooms, dining rooms and other rooms, while the very smallest sizes are adapted to bedrooms and other small rooms.

TOP swings to one side and the largest chunks of wood may be fed from the top as well as the front. No. 22H607 has one 6-inch cover, while stove No. 22H608 has a 7-inch cover; No. 22H609 is supplied with two 7-inch covers; No. 22H610 and No. 22H611 have two 8-inch covers and one short center; No. 22H612 and No. 22H613 are provided with two 9-inch covers and a short center.

FRONT END has a large swing door with a tight fitting slide damper and draw out hearth plate.

FREIGHT CHARGES are very little. These stoves weigh from 63 to 204 pounds, crated, according to size, and the freight charges per 100 pounds from our Newark, Ohio, foundry for 500 miles or less average from 25 cents to 75 cents.

HOT BLAST SHEET STEEL AIRTIGHTS

This illustration shows a high grade airtight heater with hot blast down draft. A better stove than our Dot Airtight quoted below for the following reasons: **The hot blast draft heats the air before it reaches the fuel, thus producing perfect combustion.** The double lining extends up 12 inches from the bottom. The body is made of 20-gauge smooth steel, the lining is 20-gauge. Has fine nickel urn. **It will burn chunks, knots, chips, straw, cobs, hay or trash, or anything used for fuel, except coal.** All sizes take **6-inch stove pipe.** It has a check draft in the stove top. Strongly crated and delivered on the cars at our foundry in Newark, Ohio.

SHEET STEEL AIRTIGHT HEATING STOVES

OUR DOT AIRTIGHT HEATER FOR WOOD. While it is small it is good and suitable for small rooms. It is a direct draft stove, taking in the draft at the ash opening. Has oval sheet body 17½, 20 and 23¼ inches long according to size, and is not lined on the inside like our better airtights. The small size has but three legs equal distances apart to support it. The two other sizes have four legs.

WEHRLE No. 192 AIRTIGHT HOT BLAST WOOD HEATER

Burns wood, knots, corn cobs, shavings, or anything used for fuel except coal or coke. Attractive, well made, quick heater.

DESCRIPTION.

BODY made in one-piece heavy polished steel, highly finished, requires no blackening. Easy to keep clean. **HEAVY CAST IRON LININGS** extend half way up to the main top of the stove and protect the steel body from action of the heat. Fire **chamber** made of cast iron, is part of main front and extends its full length and breadth and made to burn large chunks of wood. **LARGE REGISTER GRATE** drops ashes into a roomy ash pit and with the shaking handle can be regulated to give just the amount of draft required. **ASH PIT DOOR FRAME** is provided with an indicator showing when grate is closed or open. **ASH PIT** is extra large and deep and made to hold a big accumulation of ashes. No ash pan is furnished with this stove. **HAS LARGE ONE-PIECE FEED DOOR** with swinging cast smoke curtain which keeps smoke from escaping when feeding the fire. **SWING TOP** is plain black openwork pattern, swinging to the side, exposing to view a large lid on main top, which is provided with a handle, and so arranged that the user can swing the ornamental top to one side alone, or both the cooking lid and swing top may be opened at the same time. **PIPE COLLAR** is cast on main top and **all sizes take 6-inch pipe. HAS HANDSOME SILVER NICKEL FOOT RAIL** on each side and **SWING ASH DOOR** has silver nickel knob. **SIZE OF TOP FEED OPENING** on Nos. 22H759 and 22H760 is 9 inches; on 22H761 is 11 inches.

We guarantee this Wehrle No. 192 Hot Blast Wood Heating Stove positively the highest grade, best made, most economical in the consumption of fuel, and best distributer of heat of any airtight hot blast stove made.

We could easily cover several pages in describing all the features of this stove, but the picture is made from an actual photograph of the stove, from which you can get some idea of its general appearance.

Made in three sizes. Securely crated, blackened and polished, delivered on cars at our foundry in Newark, Ohio.

WEHRLE No. 193 AIRTIGHT HEATING STOVE

Burns Wood, Chips, Shavings, Knots, Corn Cobs, Hay, Peat or Anything Used for Fuel Except Coal or Coke.

We recommend **this, our Wehrle No. 193 Airtight Heating Stove, to those who are looking for a high class wood heater at a very low price.** Made throughout of the very best material and guaranteed to give absolute satisfaction under all conditions. Materials used in manufacturing are the very finest grades it is possible to procure. The top and bottom are very ornamental stove plates cast from the **best grade pig iron.** The pattern is new and attractive, perfectly made, handsome in appearance and positively the best medium priced wood airtight heating stove on the market. It is a better looking and better working stove than can be bought at home or elsewhere for almost double the prices we ask.

DESCRIPTION.

MAIN BODY made of smooth, heavy polished steel, reinforced with **heavy cast iron bottom** to protect it from the action of the fire. **ORNAMENTAL SWING TOP** is surmounted with a handsome urn and swings to one side, exposing to view a large lid, and so arranged that either the top or lid can be swung to one side, or both of them at the same time. **MAIN BOTTOM** made of heavy cast iron and provided with a handsome nickel plated foot rail on each side. **LARGE ASH OPENING** at bottom of main front, supplied with a drop cover fitted with nickel steel draft damper. **PIPE COLLAR** is cast on main top. **All sizes take 6-inch pipe. SIZE OF TOP FEED OPENING** on Nos. 22H762 and 22H763 is 9 inches; on 22H764 is 11 inches.

Even though these prices are surprisingly low, this, our Wehrle No. 193 Airtight Heater, is in every way a high grade wood heating stove and is guaranteed by us as a substantial stove notwithstanding these startling prices, prices which have never been equaled by any other stove foundry or stove dealer in existence.

Made in three sizes. Securely crated, delivered on cars at our foundry at Newark, Ohio.

ACME NUTWOOD

Burns Wood Only.

This direct draft Todd pattern of wood heater is generally liked because it burns the largest chunks of long wood and the steel body radiates the heat almost instantly after the fire is started. Offered to those who are looking for a low priced direct draft wood heater.

DESCRIPTION. Top ornament consists of a modest and handsome nickeled urn, fitted to a full nickel swing top as shown in the illustration. **MAIN TOP** is elaborately carved, as illustrated, and when the swing top is turned to the left one cooking hole is exposed for use as desired. **Pipe collar** attached to main top is for fitting on the stove vertically as shown, but can be unbolted and reversed to accommodate a horizontal stove pipe entering the chimney directly back of the stove if desired. **BODY is made of cold rolled sheet steel with elaborate rococo design cast ends,** and the right end is fitted with a capacious wood fire door which is fitted with a screw draft register, and below the door is a hearth shelf to prevent ashes from falling on the floor when being removed. **INSIDE LINING** is a heavy **cast stove plate shaped to conform to the oval pattern of the** sheet **body** and the body of the fire box is sufficiently below the lower edge of the door to prevent ashes falling out when the door is opened. **In addition to the nickeled urn and nickeled swing top** is the nickeled name plate on the front, the nickeled foot rail and the nickeled screw draft register in the fire box. **All sizes take 6-inch pipe.**

Prices, strongly crated and delivered on the cars at our foundry in Newark, Ohio.

ACME BUCKEYE WOOD BURNING HOT AIR CIRCULATOR

Burns wood, straw, hay, cobs, corn, peat, trash or anything used for fuel excepting coal or coke.

Has the hot blast draft and circulating system, burns anything excepting coal, the screw drafts making it airtight when keeping fire. Has nickeled top band and foot rails. **BODY** is made of heavy gauge steel, and top and bottom of the best stove plate. This **Hot Blast Down Draft and Hot Air Circulator** is made with a flue running from top to bottom of stove between the inner and outer jackets. The cold air in the room is drawn in the stove at the bottom and coming in contact with the hot inner jacket, is heated as it rises and is discharged at the top of the stove into the room. It is a well known fact that with stoves without this feature floors are frequently cold while the ceilings are hot. Our Acme Buckeye **is not designed or offered as a foot warmer,** but is intended to heat by circulation and keep a large room comfortably warm in the coldest weather. **Size of pipe to fit collar is 6 inches on both sizes.**

Price list of the Acme Buckeye with hot air blast draft and hot air circulating system, strongly crated and delivered on board cars at our Newark, Ohio, foundry.

ACME HICKORY WOOD BURNING [illegible] HIGHEST GRADE DIRECT DRAFT [illegible]

For wood, hay, cobs, straw, corn stalks, brush [illegible] anything but coal or coke.

For Wood, Hay, Cobs, Straw or anything but Coal

Our Acme Hickory is a direct radiator instead of a hot air circulator. It has the hot blast down draft with screw adjustment, the large ash opening with direct draft screw adjustment, making it airtight when desired to keep fire. The urn and foot rails are handsomely nickeled. Has heavy inch steel lining extending 15 inches upward from bottom of stove. This direct draft airtight heater differs from most all other direct draft airtight heaters in that it has a **hot blast down draft** with the latest screw attachment, making it more economical in the consumption of fuel, more even in the distribution of heat, holding your fire more easily und[illegible] The difference in the cost of the fuel co[illegible] this stove as against the ordinary direct [illegible] tight heater will in one winter far mor[illegible] the price we ask for the stove. We us[illegible] **heavier, better fitting and better finished** [illegible] we put on more nickeling and trimmi[illegible] guarantee to furnish you a better airti[illegible] than you could get elsewhere, and tha[illegible] more than one-half the price charged [illegible] **Size of pipe to fit collar is 6 inches on bo[illegible]**

EHRLE No. 200 Gas Range With Three Ovens and Three Shelves

A GLASS WINDOW IN OVEN DOOR SAVES GAS, TIME AND WORRY. GUARANTEED NOT TO CRACK, BREAK OR CHIP.

HAS NO EFFECT ON IT.
...you to cook anything from "FINISH" without once opening door. Your eyes will tell you when ...quires more or less heat.

Baking Oven, Roasting or Broiling Oven, Extra Large Warming Oven.

All three heated with one and the same flame, making it possible to cook an entire meal in shortest possible time with smallest amount of fuel.

BODY. Sides and back of Wellsville cold rolled steel.

FRONT AND COOKING TOP made of highest grade cast iron stove plate. When furnished for **natural gas** top has **solid covers;** for **artificial gas** it has **open top grates.**

WARMING OVEN has roll top door, will be found most desirable for keeping food warm that has been cooked and for heating plates. The waste heat which passes up the flue when the oven or broiler is in operation heats the oven.

BAKING AND BROILING OVENS allow the user to stand erect, naturally and comfortably. Heat for both is furnished by two most powerful one-piece cored cast iron burners. Broiling pan and rack furnished with each range.

OVEN DOOR is silver nickeled and opens down even with the oven bottom and forms a shelf. When ordered without glass window, it is fitted with a thermometer.

BROILER DOOR has plain smooth silver nickeled cast iron frame, easy to keep clean; opens down even with bottom of broiler.

OVEN AND BROILER DOOR HANDLES are hardwood, set out from the range and do not become hot.

BURNERS. Three standard star drilled, one giant of double capacity and one independent simmering burner. Are heavy in construction and easily removed for cleaning. Lever valves are conveniently arranged for turning. You can tell at a glance whether the gas is on or off. The simplest and most practical made. Handles always cool. **Burners for the baking and broiling ovens** are tubular cast, cored so as to produce a smooth surface inside, insuring a proper flow of gas.

SAFETY OVEN LIGHTER. The safest and simplest device of the kind ever used. The oven burners cannot be lighted without opening the oven door. There is no popping nor explosion in connection with operation.

LOWER COMPARTMENT underneath the broiling oven can also be used as a warming oven and will be found very useful for dishes and cooking utensils.

SHELF UNDER BODY will be found a convenient place for keeping cooking utensils, besides making the range perfectly rigid and firm on the floor.

IF WANTED WITH SIX COOKING HOLES INSTEAD OF FOUR, AS ILLUSTRATED, ADD $3.00 TO THE PRICE OF ANY SIZE LISTED.

Be sure to state whether you use manufactured gas, natural gas or gasoline. Cannot be used with acetylene gas.

PRICE LIST of Wehrle No. 200 Four-Hole Gas Range. Made in three sizes complete with warming oven top shelf, oven and broiler, exactly as illustrated, strongly crated and delivered on the cars at our foundry at Newark, Ohio.

Height from floor to cooking top is 28 inches; height from floor to top of warming closet, 62¼ inches. All three sizes take 6-inch pipe. For stove pipe see page 992.

IF WANTED FOR GASOLINE GAS, ADD $1.00 TO PRICE OF ANY SIZE FOR NATURAL GAS.

This picture shows range without glass window. Has plain smooth oven and broiler doors instead.

EHRLE INDEPENDENT WATER HEATERS

FOR NATURAL OR FOR MANUFACTURED GAS

Heats a given amount of water quicker and with less gas than any other gas water heater on the market. All the water in a 30 to 40-gallon boiler can be heated in from 45 to 60 minutes. Furnishes sufficient water for bath in ten minutes. Can be connected with kitchen boiler without interfering with coal range or furnace connections, as shown in small illustration.

MADE IN TWO STYLES. **Illustration No. 1 shows heater with cast iron casing and swing front;** a style preferred by many for the reason that cast iron is not subject to rust or corrosion. **Illustration No. 2 shows the style with polished steel casing,** lined with asbestos, which is interlined with galvanized iron, making a triple wall. This construction retains all the heat in the casing and prevents waste.

BOTH STYLES are made in two sizes. The 30-gallon capacity has five hollow discs with openings through which the heat passes, and the one with 40-gallon capacity has seven discs, giving it almost one-half the additional capacity over the one of 30-gallon capacity.

BURNERS. Both styles are fitted with a two-piece star drilled burner, set in place without bolts. Are easily removed for cleaning. Each half of the burner is controlled by separate wood handle lever valve, adjustable to different gas pressures. Burners are fitted with adjustable air mixers. Style 206 has burner box fitted with small door for lighting burners which contains a mica light, through which the burner can be seen without opening the door.

INDEPENDENT GAS HEATERS are used only where there is a water supply furnished with constant pressure through pipes, which can only be obtained in towns and cities having waterworks, or where you have a pneumatic water supply system or an elevated water pressure tank.

WEHRLE No. 81 GAS RANGE

CAST IRON CONSTRUCTION THROUGHOUT.

With Proper Care Will Last a Lifetime.

Highest Grade Gas Range possible to build sold at the very lowest price. Cast parts are made from special iron, making smooth, strong castings.

Plain design. No carvings to catch and hold dirt.

Always neat, clean and attractive. Ovens are perfect bakers, large, high and square.

BURNERS are the acme of perfection. Three standard star drilled, one giant and one simmering burner. Each jet produces a sharp blaze and is placed the proper distance from the top. Easily removed for cleaning and provided with steel drip pan.

VALVES are of lever type, have always cold wood handles. You can tell at a glance whether the gas is off or on. Nothing about them to wear out.

BURNER for baking and broiler ovens is tubular cast cored, insuring a proper flow of gas, regulated by but one valve.

PERFECT BAKING OVEN has cast iron bottom and sides and heavy wire racks.

OVEN DOOR is plain, smooth pattern. Easy to keep clean. Has wood handle. Opens flush with oven bottom and forms a shelf. Ornamented with nickeled name plate and **thermometer.** The least change of heat in oven can be immediately noticed.

BROILER DOOR has no carvings to catch and hold dirt. Easy to keep clean. Opens flush with broiler. Furnished with heavy stamped steel broiler pan with handle.

SAFETY OVEN LIGHTER. Safest and simplest device of the kind ever used. Oven burners cannot be lighted without opening the oven door.

WARMING CLOSET. Most desirable for keeping food warm that has been cooked, and for heating plates. No expense connected with heating the warming closet; the waste heat which passes up the flue when the oven or broiler is in use heats the closet.

Height, from **cooking top to top of warming closet,** 31½ inches. Height, from **floor to cooking top,** on No. 22H803 is 31½ inches; 35 inches on No. 22H804.

PRICE LIST WEHRLE No. 81 GAS RANGE WITH AND WITHOUT WARMING CLOSET, OVEN AND BROILER, made in two sizes, blackened and polished, strongly crated, delivered on cars at our foundry at Newark, Ohio.

Catalog No.	Price With Warming Closet: For Manufactured Gas	Price With Warming Closet: For Natural Gas	Price Without Warming Closet: For Manufactured Gas	Price Without Warming Closet: For Natural Gas	Baking Oven, Inches	Broiling Oven, Inches	Size of Warming Closet, Inches	Size of Cooking Top With End Shelves, In. Be sure to say whether you use manufactured gas or natural gas. These ranges cannot be used with acetylene or gasoline gas. All sizes take 4-inch pipe.

WEHRLE No. 81 CAST IRON GAS RANGE WITHOUT BROILER AND WITHOUT WARMING CLOSET.

Otherwise the exact same range as shown in large illustration to the left.

Made in two sizes, strongly crated, delivered on cars at our foundry at Newark, Ohio.

Catalog No.	Price for Mfd. Gas	Price for Natural Gas	Baking Oven, Inches	Shipping Weight, Pounds
22H809	$13.95	$14.45	16x17½x11	244
22H810	14.98	15.50	18x17½x11	254

WEHRLE No. 200 GAS RANGE WITH WARMING CLOSET, LOW OVEN AND BROILER.

Think of Broiling, Frying and Stewing All on the One Range, With the Right Fire Under Each Article to Do It in the Right Way.

BODY, Wellsville polished steel, very best material obtainable.

VALVES are of lever type, have always cold wood handles. You can tell at a glance whether the gas is off or on. There is nothing about them to wear out.

BAKING OVEN is the crowning feature of the range. Large, square, saves gas and insures perfect cooking. **CAST IRON OVEN BOTTOM, guaranteed not to warp or burn out.** Bakes perfectly in the quickest time with the least amount of gas.

LININGS are heavy stamped steel. Can be easily and quickly removed for cleaning.

OVEN DOOR has nickel panel. Opens flush with oven bottom, forming a convenient shelf.

BROILING OVEN has heavy gauge steel linings, easily removed and similar to those used on the sides of baking oven. Furnished with a wire rack and a drip pan of open hearth steel. It will not buckle nor warp when subjected to intense heat.

BROILER DOOR. Made of the best cast iron, with wood handle, always cool to take hold of. Opens down even with bottom of broiler, forming a convenient shelf.

SAFETY OVEN LIGHTER is placed in the front of the oven and does away with the inconvenience of the old style side lighter. It is the safest and simplest device ever made for this purpose.

OVEN AND BROILER DOOR HANDLES are made of hardwood, beautifully polished, set out from the range in such a manner that they do not become hot as oven door handles usually do. Either one of the doors can be let down or raised without the hand coming in contact with hot doors.

BURNERS. Three powerful and economical top burners, one giant burner of triple capacity, and a simmering burner. Oven and broiler burners are of the two-line one-piece type which evenly distributes the heat through the entire oven.

WARMING CLOSET. A very desirable arrangement for keeping food warm that has been cooked, and for heating dishes. No expense connected with heating the hot closet, for the waste heat, which usually passes up the flue when the broiler or oven is in operation, heats the closet, which is 27 inches high from top of range. **Size pipe, 5 inches.** Height from floor to cooking top, 35 inches on all sizes.

TEAPOT HOLDERS hang on double brackets at each side of warming closet; are easily and quickly attached to front or back holder.

PRICE LIST WEHRLE No. 200 FOUR-HOLE GAS RANGE WITH WARMING CLOSET, made in three sizes, as listed below, strongly crated, delivered on cars at our foundry at Newark, Ohio.

For Manufactured Gas, range has open top grates instead of solid covers. **For Natural Gas,** range has three solid lids and one made in two sections for heating small vessels.

Do not fail to state whether you use manufactured, natural or gasoline gas. These ranges cannot be used with acetylene gas.

WEHRLE No. 191 GAS RANGE WITH OVEN AND BROILER

Quality Considered, This is Positively the Lowest Priced Full Standard Family Size Range on the Market.

For Manufactured Gas, range has open top grates instead of solid covers.

For Natural Gas, range has three solid lids, and one made in two sections for heating small vessels.

Made of first class material, DURABLE AND RELIABLE. Our aim in offering this range is to be able to offer something in a low priced gas range to those who do not desire one of our higher grade styles.

BODY made of best selected cold rolled steel. All cast iron parts are of neat design, plain and smooth, made of highest grade iron. **BAKING AND BROILING OVENS** are perfect. The heat for both is furnished by tubular cast cored double line burner, insuring a proper flow of gas and regulated by one valve. Oven bottom is made of best cold rolled steel. Burners cannot be lighted without opening oven door; has **SAFETY LIGHTER** which prevents popping or explosion. Has four standard star shaped drilled burners. **VALVES** are best style lever type with wood handles. Can be easily adjusted for different gas pressures. **AIR MIXERS** are highly nickel plated, can be easily adjusted to regulate air supply.

The following parts are nickel plated: Air mixers, front supply pipe and holders, name plates, broiler and oven door handles. **Size pipe to fit collar, 4 inches.**

WEHRLE No. 197 Gas Rangette. Especially Adapted for Small Where the Ordinary Gas Range Would Take Up Too Much Room.

Top grates, burners, drip pans and oven bottom are easily removed for cleaning.

Height from floor to cooking top, 31 inches.

A convenient height and fills a long felt want for an inexpensive stove. Very practical and will do the same work, but on a smaller scale, as our gas ranges.

TOP made of cast iron, substantially braced. Has three regular star shape burners with drip pan, same as used on our higher priced gas ranges, easily removed for cleaning. **Nickel plated air mixers** and wood lever handles. You can tell at a glance whether the gas is off or on.

COOKING HOLES furnished with open grates. Combination oven and broiler is fitted with one burner; pan and rack for broiling and burner and oven rack for baking.

Be sure to say whether stove will be used for natural or manufactured gas. Will not burn gasoline and cannot be used with gasoline or acetylene gas.

IN TWO SIZES. Prices, securely crated, delivered on cars at Newark, Ohio.

GENERAL CONSTRUCTION.

BURNERS. **Has five automatic burners.** Three of them are directly over the pipe line and stationary, excepting that they are full automatic and move up and down for operation; two of them are supported by a branch or arm and swing on the center. They swing to either side, forming a group which, **for some big work like a wash boiler** or something you wish to give an unusually quick cooking, gives you great facilities for doing so. **Each burner** is provided with a nickeled lever to control the flow of oil. **The indicator** plainly shows when the flame is too low or out.

One gallon of kerosene (common coal) oil will run a large burner at full flame ten hours.

COOKING TOP **has removable open grate section made of the best quality gray iron.** Each stove furnished with one **watershed steel cooking disc,** which prevents contents of a vessel from boiling over into the burner.

WARMING CLOSET **will be found most desirable for keeping dishes warm that have been cooked or for heating** plates. No expense connected with heating it, for the waste heat which passes up the flue when the oven is being used heats the closet.

ADJUSTABLE CABINET SHIELD. **Burners are provided with a shield, which can be easily lowered or raised to protect the flame from drafts from open windows or doors.** Its use also helps concentrate the heat at the burner and gives the largest and hottest blue flame of any oil stove made.

DOUBLE OIL RESERVOIRS. **The one on top may be removed for filling without the fire going out,** as sufficient oil remains in the lower reservoir to temporarily feed the flame; an excellent feature. **Tank holds 4½ quarts.**

BAKING OVEN **allows the user to stand erect naturally an fortably.** The burners are so arranged th baking can be done to perfection. Bakes evenly, top and botto most delicate cake or pastry on either the upper or lower rack, o at the same time. **Entire oven section can be easily lifted** fr stove or be drawn to one side, resting on a bracket furnished f purpose, giving a big amount of additional cooking space.

OVEN DOOR. **Heavy stamped steel, beautifully ornamented nickeled name plate.** Drop pattern and wh forms a shelf flush with the bottom of the oven.

OVEN THERMOMETER **accurately shows the heat in oven the necessity of opening the door.**

LIGHTING RINGS **are made of asbestos and should be every six or eight weeks if the stove** regularly. **We recommend that you order an extra dozen with** y

A THIRTY DAYS' TRIAL **given to prove this absolutely stove for all general purposes** **ever been offered.** You can return it to us and we will give you back your money and freight charges if you are disappointed in the slightest.

PLAIN PRINTED DIRECTIONS ARE SENT WITH EACH STOVE, and on account of their simplicity of construction they are easily understood, and by following our plain directions there will be no difficulty in operating the stove with the greatest success from the very start.

No. 22A886 **$13.65**

ACME KEROSENE OIL COOKING RANGE WITH OVEN THERMOMETER

BURNS KEROSENE (COAL) OIL FOR FUEL **and converts this cheap product into gas by the use of our new process burners,** which burn more air than oil. We thus place within the reach of every housewife, no matter how far removed from the conveniences of the city, all the advantages the city users of gas may have, at a mere fraction of the charge for gas. Indeed, so economical is this stove in its consumption of fuel that hundreds of them have taken the place of gas ranges in the cities and towns.

ALWAYS READY FOR USE. **All the heat generated is at the burner,** where it is required for cooking and baking. It is unnecessary to light the stove until you are ready to begin cooking or baking, and the flame can be instantly put out when the cooking or baking is done. The most satisfactory stove for all around use on the market. You don't need to swelter in an overheated kitchen if you use an Acme Cabinet Wickless, Smokeless Oil Range.

CONSTRUCTION

ACME KEROSENE OIL-GAS RANGES **are the very best product of skilled labor.** Have steel cabinet frame, finished in baked black japan, handsomely ornamented with elegantly designed corner brackets, nickel plated valve handles, brass finished reservoirs and nickel plated name plate. Every joint is made solid and strong by electric welding. **No complicated parts.** By simply removing the grates and chimneys, every part is easily accessible for cleaning.

OVEN A DISTINGUISHING FEATURE. **This important feature has been very carefully constructed** and the double burners beneath it give ample heat for the most difficult baking. The flues are so constructed that the heat is very evenly distributed, and it is impossible for the products of combustion to enter the baking chamber. This makes it possible to bake the most delicate cake and brown top and bottom without the slightest danger of contamination from the flames of burning oil, as in other stoves.

OVEN THERMOMETER. **A great convenience. Wonderful fuel saver.** The least change of heat can be immediately noticed. Indicator is in plain sight all of the time and makes the maintenance of an even temperature a very simple matter, insures cooking of a uniform standard of excellence, even to the most inexperienced.

NEW PROCESS BURNERS **which we use on all our Wickless, Odorless, Blue Flame Kerosene Oil-Gas Stoves** have so simplified and perfected the vaporizing of common kerosene oil that these stoves produce a perfect fuel gas by converting air and oil into the cheapest fuel it is possible to use in cooking stoves.

DOUBLE RESERVOIRS. **Burners are provided with double reservoirs.** The upper reservoir holds 4¾ quarts and may be removed for filling without extinguishing the fire, as sufficient oil remains in the lower reservoir to temporarily feed the flame. This is an excellent feature, as there is not the slightest danger of accident for the reason that the reservoir must be removed in order to fill it.

VALVES **are at the front of the stove;** this feature overcomes the danger of the operator's clothes catching fire from reaching over the flame, as it is necessary to do when operating the kerosene oil stoves manufactured and sold by many other dealers.

WARMING SHELF **is built with its warm air flue running to the top of the shelf,** which makes it possible to keep anything desired thoroughly warm, as shown in small illustration. This is a feature not to be found in any other oil-gas stove on the market.

ADJUSTABLE CABINET SHIELD **protects the blue flame from drafts of air** from open windows and doors; its use also contributes to the concentration of heat at the burner and gives the largest and hottest blue flame of any oil stove made.

Every part of the Acme Cabinet Kerosene Oil-Gas Range is easily reached for cleaning without removing any other parts, and you will find it a decided labor saver in the kitchen.

Wickless Blue Flame Oil-Gas Stov

BURN COMMON KEROSENE (COAL) OIL. YOU CAN BUY IT AT ANY GROCERY STORE

Securely Packed and Crated Ready for Quick Shipment From Our Warehouse in

KANSAS CITY, MO.

The freight charges will amount to next to nothing in comparison with what you save in price. Any one of our Wickless Blue Flame O can be shipped to almost any point in Kansas, Nebraska, Arizona, Colorado, New Mexico, Nevada, Oklahoma, Wyoming, Arkansas, Missouri, Iow or South Dakota, for from 25 cents to $1.25, other states in proportion, according to distance.

FACTS OF INTEREST. These wonderful Wickless Kerosene Oil-Gas Stoves are made full cabinet, strong and durable, of heavy gauge steel; the solid black finish is relieved by handsome nickeled trimmings.

TOPS have rolled edge with a perfectly smooth flat surface; no bolts or screws protruding to catch the wiping cloth.

RESERVOIRS are double; the upper tank holds 3½ quarts of kerosene oil, may be removed for filling without extinguishing the fire, as the lower tank holds a sufficient quantity of oil to feed the flame.

BURNERS, as shown in illustration, are extra large and powerful; will, withou generate the hottest blue flame of any burner made. The proce the oil, vapor and air are mixed in the generating chamber is so perfect that the it produces cannot smell or smoke.

ALWAYS A BLUE FLAME. Whether you open the valve too wide or altogether, the flame will go to the right no further, but you may quickly reduce the flame whenever you desire to do so closing the valve.

Every stove is thoroughly inspected and tested before shipping.

THIS IS A PICTURE OF THE BURNER SECTION of our Acme Wickless Kerosene Oil-Gas Stoves. The flame is shown arising from the perforated burner section which rests upon the oil cup and holds the oil and lighting ring, furnishing the oil-gas, which mixes with just enough air coming through the perforations in the chimney to form the blue flame.

LIGHTING RINGS are made of asbestos and are practically indestructible; they grow hard after being used a while, for all the impurities of the oil collect on them, consequently they will not light as readily after being used for quite a while as when new. It is principally a matter of your own convenience, but we would recommend that **the lighting rings be renewed every six weeks or two months if the stove is used regularly, and we suggest that you order an extra dozen with your range or stove.**

See bottom of page for prices.

This Watershed Steel Corrugated Cooking Disc furnished free with every Wickless Kerosene Oil-Gas Stove or Range. It fits on the open grates over the burner and prevents the contents of a vessel boiling over into the burner below.

SPECIAL OVENS. We offer three special ovens, designed for use on t illustrated and fully described at the bottom of this p page 1007. We guarantee them to be of perfect construction and to give absolute

onderful New Wickless Kerosene Oil-Gas Stoves

BURN COMMON KEROSENE (COAL) OIL.

Simplest and Easiest Operated Stoves on the Market

$5.64

No. 22A895

The ideal stoves for summer use. Just what you have wanted for years. You can have a small fire or a large one; you can do all kinds of cooking. With a Portable Steel Oven you can do all kinds of baking and all other work required of the cook stove at a big saving of labor and expense.

No special cooking vessels are required. The same pots, pans, kettles and skillets used on your coal or wood stove may also be used on our Wickless Kerosene Oil-Gas Stove. You do not have to buy any new kitchen utensils to use with these stoves.

Acme Three-Burner Wickless Blue Flame Kerosene Oil-Gas Stove

the exact same stove as those shown on page 1006, with the exception that it has low frame instead of high. Top size, 33x15½ inches; height, 13½ inches. Has strong, well made **full cabinet steel frame** with adjustable **cabinet shield,** double reservoirs and new process burners. **Tank** holds 3½ quarts, will burn full flame seven hours. If your requirements are such that the two-burner will not supply your needs, this three-burner stove will be found in every way desirable. It is attractively designed and every part of the stove and its cabinet frame are easily accessible. **No trouble to keep it in first class condition.** No complicated parts to get out of order; it is simplicity itself, and it will be found a strictly first class, satisfactory stove in every respect.

Our Acme Drop Door Portable Steel Oven, illustrated and described below, will be found an ideal arrangement and convenience in using these stoves.

Shipped ready for use in good strong crates from our warehouse in

KANSAS CITY, MO.

Weight, crated, 40 pounds.

GUARANTEE **our Acme Wickless Blue Flame Kerosene Oil-Gas Stoves to give perfect satisfaction,** and if after using one thirty days you do not find it all that you desire in a cooking stove, and if it is not in every way the best **blue flame oil-gas cook** that you can get at the price, and much better than the stoves offered by other dealers at anywhere near the price, you may return it to us at expense and we will immediately return your money, including the freight charges paid by you.

No. 22A895 Three-Burner Acme Wickless Kerosene Oil-Gas Stove. Price.....**$5.64**

Order an extra dozen Asbestos Lighting Rings, No. 22A909 with your stove. Price, 84 cents.

Acme Two-Burner Wickless Blue Flame Kerosene Oil-Gas Stove.

of the greatest stove values in our line, a stove which will give entire satisfaction to any housewife, and we put into it qualities which no stove offered by any other dealer can approach.

The same cooking utensils used on your coal and wood burning stove can be used on any of our Acme Wickless Oil-Gas Stoves with equally good results.

Before leaving our factory every stove is set up and tested, so when shipped it is sure to be in perfect working and when received, it is only necessary to unpack the stove, fill the tank with common kerosene (coal) oil, and ready for use.

ME. **We would call your special attention to the substantial cabinet framework of the Acme Wickless Oil-Gas Stoves.** Notice the heavy rolled edge of the top—this means stability; the heavy tube steel supports—that rigidity. The tops of all Acme oil stoves and ranges have a **perfectly smooth flat surface** with no bolts or screws to catch the wiping cloth. **Full cabinet made of heavy gauge stock.** The dead black japan is relieved by the full nickeled trimmings. This stove has two full size burners; cooking top measures 22½x15 inches and its 13½ inches, and in general design is very attractive.

NERS **are extra large and powerful and will, without exception, generate the hottest blue flame of any burner made.** Their combustion is superior and the process by which the oil vapor and air are mixed in the chamber is so perfect that the combustion of the stove is absolutely sweet and clean. The perfect blue flame smell or smoke. Tank holds 3½ quarts; will burn full flame seven hours. **Our Acme Drop Door Portable Steel** described and illustrated below, will be found an ideal arrangement and convenience when using these stoves.

$3.09 Our Wonderful Comet Wickless Blue Flame Oil-Gas St

An Astonishingly Low Price for THE SAFEST, MOST ECONOMICAL, MOST SATISFACTORY, AND THE FIRST PR WICKLESS OIL-GAS COOKING STOVE INVENTED.

The same cooking utensils used on your coal and wood burning stove can be used on the Comet Oil-Gas Stove with equally good results.

Securely crated and packed, ready for shipment, from

KANSAS CITY, MO.

No. 22A898 Two Burner.
Price $3.09

THIS NEW COMET MAKES ITS OWN GAS from kerosene (common coal oil) and air. The oil is mixed in the new process burners with quantities of air, and gives you the cheapest and the best fuel in the world, its consumption of oil being so small that the expense for fuel is next to nothing.

THE PROCESS is very simple by which the Comet Oil-Gas Stove converts kerosene (coal oil) and air into fuel gas, producing a hot blue gas flame at the burner, at the very spot where it should be for cooking or baking. Fill the reservoir with kerosene (coal oil), turn the valve to the left and the oil will run into the burner bowl; touch a match to it and the gas begins to generate, and passing through the mixing chamber is properly mixed with air, giving perfect combustion and intense heat at the burner.

YOU LIGHT THE COMET OIL-GAS STOVE just as you light a lamp; turning the valve makes the flame high or low. No trouble at all; it is self regulating, it requires no more attention from you and will remain the same hour after hour. You will be surprised at the simplicity of the Comet Stove and how quickly and thoroughly it converts this common coal oil into a cheap fuel, giving a blue gas flame of intense heat without dust, dirt, soot or odor—perfect heat under absolute control.

EVERY WOMAN NEEDS A COMET OIL-GAS STOVE. She needs it oftener than any other article she uses in housekeeping. Just think of the millions of carpet sweepers sold that are used but once a day, millions of washing machines and wringers used once a week, millions of ice cream freezers used only occasionally in the summer time, millions of sewing machines which stand idle for weeks at a time. Yet here is an article more necessary, more valuable to the household economy of every home, which you may have for **only $3.09, that saves a woman's health, her looks, labor, time and temper,** that cuts the fuel bills next to nothing, that is ready at a moment's notice, summer or winter, to do all that a stove can do and more than any other stove has done.

THE COMET Wickless Blue Flame is the ideal Oil Stove for use in the warm summer months. All the heat it generates is right at the burner where it is required for cooking and baking, and **it does not heat up the kitchen** as do other stoves. You can cook in comfort in the hottest weather.

DESCRIPTION. Comet Two-Burner Blue Flame Wickless Oil-Gas Stove is 14 inches high. **Top is 14x22 inches; has two 8-inch grates.** Weighs 16¾ pounds and may be set upon a table, shelf or cabinet in almost any out of the way niche in the kitchen. Burners are protected by black japanned outer drums, affording absolute protection against gusts of wind from open doors or windows. Has **Full Cabinet Frame** (closed back and sides), is very strongly put together and finished in baked black japan, nicely ornamented with **nickel plated name plate** and **nickel plated valve handles. Double Reservoirs** finished in brass and connected with the burners with aluminumized pipe line and full aluminumized oil bowls. **Workmanship is first class** in every respect, all the connections being so carefully made that you will never have trouble from leaks nature. **Upper Reservoir** holds 3 quarts of kerosene oil; may be removed for filling out affecting the temporary operation of the stove, as the reservoir carries sufficient oil to feed the flame. With Comet Wickless Oil-Gas Stove **we furnish a corrugated** stee as shown in accompanying illustration. **It prevents the** cont a vessel boiling over into the burners.

Stove is 14 inches high, cooking top measures 14x32 inches, has three 8-inch grates. Shipping wt., 40 lbs.

Be sure to include a drop door portable steel oven shown on preceding page, with your order for an oil stove.

WE DO NOT SELL skeleton frame stoves. gas, gasoline, and oil stoves sold by us have backs and sides, because this full cabinet fram strength and durability and adds 100 per cent appearance of the stove. If you will examine priced stoves offered by others you will discover ma have the skeleton frame construction, a cheap, able and out of date style. The wonderfully low quote on the Comet Oil-Gas Stove is so low, fact than other dealers quote on so called blue stoves of this inferior skeleton construction, that now really no reason whatever why you should stove without the full cabinet frame.

THERE ARE THOUSANDS of oil stoves, many burning a wick on the principle of a lamp. These burn only the oil and the wick and give off a which is not only annoying but injurious to the are expensive in operation and invariably unsati The Comet Oil-Gas Stoves reduce the cost of fuel. the wonderful new burners on these stoves in the of manufacturing gas from common coal oil burn more air than oil. This is a demonstrated, prove and if you will **send us $3.09 for one of the two Comets, or $4.13 for one of the three-burner Co** know that your verdict after thirty days' trial will unqualified indorsement of all that we have said marvelous qualities of these stoves.

No. 22A897 Three-Burner Comet Oil-Gas Stove. Price $

Asbestos Lighting Rings.

Asbestos Lighting Rings or Kindlers for Comet Wickless Blue Flame Oil-Gas Stoves grow hard after being used a while, for all the impurities of the oil collect on them. For this reason they will not light as readily after they have been used quite a while as when new. We therefore recommend that the Lighting Rings be renewed every four or five weeks if stove is used regularly. **When you order the stove, include an extra dozen Lighting Rings.**

No. 22A908 Price, per dozen.....72c

Our Acme Drop Door Portable Steel Oven, described and illustrated on page 1007, will be found a great convenience when using these stoves.

As a Summer Stove.

For hot weather use our Wickless Oil-Gas Stoves are unequaled. They that a coal, wood or gas stove will do. They are always ready for a quick **No special cooking vessels are required.** The same pots, pans, kettles and skill on your coal or wood stove, may also be used on our Wickless Oil-Gas Stove. not have to buy any new kitchen utensils to use with these stoves.

The Ideal Stove for Canning Fruit, Making Jellies, Preserves, Etc.

In the laundry they quickly heat water for boiling clothes. You do not stand over a hot stove and do your ironing and smother. On a Wickless Stove, with very little expense, you can do your work quickly and not be death afterwards.

MADE IN THREE SIZES

"Clover" Smokeless, Odorless Safe Oil Heaters

Give, by far, more heat and require less attention than oil heaters of other makes.

Are portable and can be placed where they are needed most. Easily carried from one room to another with absolute safety.

The drums are made of American planished steel and can at all times be easily kept clean. They have our **SAFETY REMOVABLE FOUNTS AND BURNERS,** which are scientifically constructed with two air spaces between the burning wick and the oil fount. Also a large air chamber passes through the burner, thereby guaranteeing not only perfect combustion but absolute safety. The oil is always kept cold and explosions are impossible. Don't be backward about ordering one on account of the disagreeable features of other oil heaters, which smell and smoke, as you will be pleasantly surprised with one of these stoves. If not found all we claim, the purchase price will be returned upon request. The top is handsomely nickeled and is removable, leaving openings in the disc for the purpose of quickly heating anything placed thereon. All sizes have center mica section which reflects a brilliant light when stove is in use. They cost less money and produce more heat than any other oil heaters in the market.

ghest Grade Gasoline Stoves With Safety Lay Down Tank

THESE STOVES ARE NOT SELF GENERATING.

...rating Cup Must Be Filled and Burner Heated (Which Requires Only a Minute or Two) Before the Flame Is Ready for Use. The Same Cooking Utensils Used on Your Coal and Wood Burning Stove Can Be Used on Any of Our Gasoline Stoves With Equally Good Results.

HE GASOLINE VAPOR STOVES as shown in the six illustrations below, are guaranteed by us the very best gaso... manufactured, absolutely safe and entirely free from the serious objections of ...e and odor.

AMES ARE full cabinet, compact and neat, perfectly rigid, strong and durable. Handsome in appearance, beautifully finished and finely japanned.

NERS. Individual generating, scientifically constructed to generate a powerful blue flame without smoke or odor in from one to one and one-half ... All step stoves are fitted with double burner on step, which insures thorough ...uniform baking when a portable steel oven is used.

SAFETY LAY DOWN TANK cannot be filled while in an upright position. Tank does not have to be removed to refill, as feed pipe is connected to stove with a swivel joint, allowing the tank and pipe to drop level with stove, thus extinguishing the flame.

ECONOMY. Any one of our gasoline stoves will, in a single season, save more than its cost by the economy of fuel consumption as compared with coal or wood, and especially where fuel gas cannot be obtained. One gallon of gasoline will run a single burner, full flame, for over ten hours. They do quick work. Cold water can be brought to a boil over one of these burners in five minutes.

DON'T FAIL TO ORDER an Acme Drop Door Steel Oven with your stove. A wonderful convenience. Bakes perfectly. You will appreciate it. See bottom of this page for catalog numbers and prices.

Step Attachment is very convenient. Can be used for heating wash boiler, or for baking with our Acme Drop Door Portable Steel Oven, without interfering with the use of the top burners for cooking.

VULCAN FIREPROOF SAF

NO BETTER SAFES MADE. A COMPARISON WITH OTHER HIGH GRADE SAFES WILL CONVINCE YOU OF THE GREAT SAVING WE CAN

ARE MADE FROM THE BEST MATERIALS OBTAINABLE WITHOUT REGARD TO COST, by the most expert and competent workmen, in the largest, most modern and best equipped safe plant. Our prices are low, however, because we sell direct from our own Safe Factory.

THE TWO UNSOLICITED TESTIMONIALS BELOW SPEAK FOR THEMSELVES. The one on the left refers to a safe with 4-inch wall, which we sell for $35.58. The one on the right refers to one of our Double Door 5½-Inch Wall Safes, for which $71.75 was paid. No better evidence could be given of the quality of our safes and the great amount of money we can save you.

THE VULCAN CONSTRUCTION.

INTERLOCKING FLANGE AND TONGUE AND GROOVE DOOR CONSTRUCTION. This is one of the greatest improvements in safe construction which has ever been made, and it is acknowledged by experts to be perfection in modern high grade safe construction. Doors are held on side farthest from hinges by heavy round bolts working forward and backward into door frame. Outer flange of door has a tongue or lip extending around the door on three sides, which fits snugly into a groove in the door frame. Hinge side of door frame has a projecting flange under which the hinge side of the door is held when closed. This holds the door perfectly rigid from top to bottom and is far superior to the old style construction whereby only one bolt or lug held the door on the hinge side. It also serves to prevent the entrance of heat, smoke or flames and prevents door from being broken open by a fall in a burning building.

LOCK AND BOLT WORK are fitted to inside of door, which gives tremendously greater strength than were these parts fitted just inside the outer plate of door. Inner steel door plates are removable, making it easy to clean or change combination. Bolt work is our special Vulcan construction, unusually strong but simple and never gets out of order. Bolts are turned, polished and nickel plated, and not connected with lock, operating independently by a cold rolled steel handle on all safes except Nos. 22H973, 22H974 and 22H975 Junior Safes. The well known Triplex Combination Locks are furnished with all safes in this catalog having 4-inch walls, except the Junior Safe, which has a simple high grade, durable combination lock with three tumblers, and the Heavy Wall Safes shown on opposite page, which have Yale O. B. four-tumbler combination locks.

BODY is one piece of tough wrought steel, forming sides, top and bottom, strongly riveted with boiler rivets to the **wrought steel front and back frames,** which are one continuous bar of angle steel. Bottom is double thickness for greater strength and rigidity. Back is a single solid plate of selected wrought steel. Front of door is a solid plate of heavy hammered wrought steel. This construction gives greatest possible strength and avoids breaking open by a great fall or being crushed by heavy timbers or falling walls.

CABINET is perfectly fitted by experts and handsomely finished in imitation cherry and varnished. Fronts of drawers are genuine oak. Cabinets are richly carpeted, provided with subtreasury, pigeonholes, drawers and book spaces as stated in descriptions. Two keys are furnished for each lock.

IF YOU ARE UNABLE TO MAKE YOUR SELECTION FROM THE STYLES SHOWN ON THESE TWO PAGES, write for our Special Safe Catalog, and we will send it free at once. It gives complete details of construction, illustrates and describes our entire line of safes, burglar proof chests, vault fronts and office outfits, complete with roll top desk, safe and revolving chair and helps you to select the size and style best suited for your purpose.

WE GUARANTEE SATISFACTION to the fullest possible extent with every safe we sell and that we will save you money. Our efforts are to satisfy you to such an extent that you will tell your friends and neighbors of your bargain.

FREIGHT CHARGES. SAFES ARE SHIPPED FROM FACTORY AT NEWA and take third class rate. Freight amounts to very little compared with your price. For example, third class freight for 200 miles will be about 15 to 20 cents pounds; 400 miles, 30 to 40 cents; 700 miles, 40 to 50 cents; 1,000 miles, 60 to from which you can figure very closely what freight will be.

WEIGHT. We give estimated weight of each safe as an aid in figuring fre Exact weight cannot be given, as safes of same size will vary in weight, owing to of fireproof filling.

SECURELY PACKED FOR SHIPMENT. Each safe is wrapped in heavy padded with excelsior and carefully sewed in burlap. It cannot become marred in in shipment, and we guarantee delivery in perfect condition.

WE CAN CHANGE CABINET WORK, ARRANGING SAME in any desired way or removing drawers or pigeonholes. If wanted with different cabinet send diagram and we will tell you the additional cost, if any. Send for our Special Safe Catalog ordering.

LONG DISTANCE PHONE

Charleston, S.C. 4--6--11.

Messrs. Sears Roebuck & Co.,
Chicago,
Ill.

Dear Sirs:-

Our plant was destroyed by fire on March the 19th last and we lost all of our records in our office with the exception of our books that we had looked up in a safe that we purchased from you Ten Years ago.

The combination and knob was burnt off the safe door, and we had to break open the outer door, and I was agreeably surprised to find that our books were in perfect condition.

While our loss was great still it was a great consolation to save our books.

As soon as we can get every thing straightened out I intend ordering another safe of your make.

I am giving you this information unsolicited.

Yours truly

John F. Riley

San Francisco. 4/27/11.

Sears Roebuck Co.,
Chicago, Ill.

Gentlemen:-

Relative to the safe purchased from you some few years ago, beg to state that after going through the fire, the outer part was twisted and warped, so that the doors could not be closed, but the interior was in a very good condition and also its contents.

In purchasing another safe locally for immediate use we were allowed $100 for the safe in exchange. This gives you an idea of how it stood the test. We highly recommend this to anyone who is in need of a good cheap safe, which is at the same time equal in quality to any of the high priced vaults. We remain,

Yours truly,

J. M. RATTO & BRO.,

BRIGHT-AS-DAY INCANDESCENT KEROSE — MANTLE LAMP

The Cheapest, Cleanest and Powerful Oil Light Ever Inve

Gives Twice as Much Light as a Regular No. Center Draft Lamp at One-Third the Co

Burns Sixteen Hours on 1 Quart of Ker
Burns Sixteen Hours on 3 Cents Worth
Costs Less Than One-Fifth of a Cent An
Costs One-Half of a Cent for Each

An Absolute Guarantee Accomp Each Lamp.

We offer these lamps for sale with our absolute guarantee th are not satisfied with this lamp for any reason you can return and we will return your money. We guarantee that every lamp by us will do everything we claim for it. We guarantee that develop the candle power, give the quality of light and burn amount of oil that we state. We guarantee the material an manship, practicability and reliability of this lamp.

SIMPLICITY AND PRACTICABILITY. What is th as-Day" cent Kerosene Mantle Lamp? It is a center draft kerosene lamp the kerosene on the wick is converted into a gas which is burn incandescent mantle instead of the old way of burning the kerosen upon the wick. The "Bright-as-Day" Incandescent Kerosene Mat is the latest scientific development of oil illumination. It holds relative position to oil that the incandescent gas mantle does to gas tion and the Tungsten light does to electricity. No adjustment of the user is necessary. The only thing that the user has to d this lamp burn is to light it and turn the wick up or down accor amount of light desired. When lit the lamp gives off a brilliant, powerful white light. This lamp contains all the advantages of a lamp, while at the same time giving three times as much li than one-half the cost of a regular No. 2 center draft lamp. Th the simplest, most economical and most powerful light producing the world.

BRILLIANCY AND CANDLE POWER. There is table light compare in brilliancy and candle power with the "Bright-as-Day descent Kerosene Mantle Lamp. It is the most powerful whi existence. In advertising lamps and various styles of light, al claims of great candle power are made, but by actual photometric "Bright-as-Day" Incandescent Kerosene Mantle Lamp gives three much light as the standard No. 2 center draft kerosene lamp, advertised as a 100-candle power lamp. It gives four times the li ordinary gas burner. It gives five times the light of an ordina lamp. It gives the highest grade light and uses the cheapest fu

ABSOLUTELY SAFE. There is not the slightest danger with the operation of the "Brig Incandescent Kerosene Mantle Lamp. We have put it to every Our experts have been studying this lamp for over a year and hav find a single weak point. It is made by the world's greatest le facturer, located in New England. The manufacturer's reputation reputation guarantees this lamp. The lamp is made mechanically u workmanship and finish on this lamp are the very best. We us finest imported German mantles. The wicks are specially woven wi to prevent uneven edges.

CHEAPNESS OF OPERATION. This is the very ch in the world. It c operate this light than it costs to operate any other light. This lam for itself in a short time by the saving it will make in your oil bil one-third what a gas light would cost, one-fourth what an electric cost, and one-half what an ordinary center draft oil lamp "Bright-as-Day" lamp burns only 1 quart of common kerose sixteen hours. The ordinary standard No. 2 center draft lamp quart of kerosene oil in seven and one-half hours. Figuring the co mon kerosene oil at 12 cents a gallon (it can be bought in m for 9 or 10 cents), the "Bright-as-Day" lamp will burn sixteen cents' worth of oil. It will burn two and one-fourth hours every nig week at a total cost for the week of 3 cents, which makes a cost of a cent for each night.

HEALTHFULNESS AND CLEANLINESS. Do you eyesight a tired of the old smoky kerosene lamp which blackens the chimney the table with soot? Because, if you are, here is a fine, stead ful white light, absolutely clean and extremely cheap. It will mu will an ordinary kerosene lamp, and every eye doctor will tell you best light for the eyes is a steady, even light. If you value clean is a light that is absolutely odorless and will not smoke even w low. It will not creep (that is, the light get higher and require turning down) after it has been burning ten minutes. It is th ideal light for your home in the evening. The glow and color of the as-Day" Incandescent Kerosene Mantle Lamp is scientifically co ducing a brilliant, soft, restful light. People who heretofore coul sew only a short time when using gas or electricity or ordinary can continue for hours without tiring or injuring the eyes when "Bright-as-Day" Incandescent Kerosene Mantle Lamp.

COMPLETE READY FOR USE. Our price is for the plete, just as illustrat are no additional parts to buy. The lamp itself is made of heavy richly nickel plated and brilliantly polished. It is fitted with incandescent kerosene mantle burner, and our price includes chim two kerosene cap mantles, 10-inch dome shade and 10-inch nickel hold shade. Capacity, 3 pints. Height, 23 inches.

INCANDESCENT KEROSENE CAP MANT

Made in Germany by the world's greatest mantle manufacturer. It is worth four times any mantle. It lasts longer, gives more light, is more in size, shape and quality and will not shrink. this make have been in constant use for one to and are still in use, showing apparently no decre amount of light. The glow and color of this scientifically correct, producing a brilliant, soft light.

GH GRADE WASHING MACHINES

OUR ADVICE ON THIS SUBJECT.

n this page we show a line of medium and low priced washing ines which we recommend to anyone who wants to put only a mall amount in a washer. While we advise you to buy our High Wizard Washer, or our Liberty Washer, which are the best ues on the market, yet if you feel that you do not want to pay $6.90 for a washing machine you can easily make a selection is page. These machines are equal in every respect to machines sold at prices ranging from $3.50 for a machine similar to our and Easy Washer No. 11H7530¼ up to $10.00 for a machine similar Golden Crown Washer, No. 11H7524¼ which we sell at $4.79.

ALITY. We wish to call your particular attention to the fact that each machine on this page is high grade in every We use high grade material and all machines are assembled rt workmen. Remember that the High Speed Wizard or the Washers are the ones we advise you to buy. If you don't want $6.95 or $6.90 in a washing machine select one from this page; it will satisfy you. Your money back if not satisfied.

SH BY MACHINERY. Our price for a high grade washing machine is so low that you cannot d to stick to the old fashioned back breaking method of washing.

UP TO DATE. Do your weekly washing in one of our washing machines, which will not only do it than any other way, but quicker and easier as well. Don't upset re house, don't neglect your other work and spend all day with board and tub when for a few dollars you can get a machine s that will do your washing in less than half the time, and than you can do it on the board. The children will find pleasure ing you wash by turning the machine for you. Be sure to look our line of washing machines. Remember, the High Speed or the Liberty will do the best and quickest work with the least Also remember, your money back if you are not satisfied.

WATER POWER. If you have water power of twenty pounds pressure or more you can wash by water power with our Water Witch Water Power Washing Machines shown on page 1017. With this machine you simply connect one hose with the faucet, put the other hose in the sink and turn on the water. The water running through the motor does the work quickly and with no labor or attention on your part. If desired the water that runs through the motor can be used for rinsing or other purposes, as it is perfectly clean.

POWER WASHERS. We show two styles of power machines on page 1017 for operation by belt drive or electric motor. The belt drive machines can be operated by any power transmitted by belt, will do the best of work and consume but little power. We can save you from $10.00 to $25.00 on an electric washing machine and will give you a more liberal and stronger guarantee than any other concern. The expense for electric power amounts to about 2 cents an hour. Better order one of our washing machines today and do your next washing the easy way. You will wish you had bought a machine long ago after you do one washing in it and when you are through with the washing you will miss the old tired feeling you have always had on washdays. Don't forget, if you don't like the machine you can send it back and get your money back, including all freight charges you paid.

PLEASE TAKE NOTICE. We wish to call your attention to the fact that all our washing machines are finished with oil and varnish in the natural color of the wood. We do not paint or deeply stain our woodwork to hide defects in the lumber, which is a practice followed by a great many manufacturers.

WE GUARANTEE our entire line of washing machines to be made up of better material, assembled in a better manner and finished better than any machines of similar type sold elsewhere at any prices.

The Golden Crown Washer

$4.79

A High Grade Direct Drive Rotary Washing Machine usually sold at $10.00, but by our methods of selling direct from factory to user we are able to save you the middlemen's profits and offer it at $4.79. This is the best rotary fly wheel type of washer on the market. It runs easily and will do good work. However, the high speed type of rotary washer is the best style to buy as it runs easier and washes quicker. For this reason we recommend the High Speed Wizard Washer shown on page 1014, which is positively the best machine for hand operation that you can buy at any price. If you don't want to invest $6.95 or $6.90 in a washer you will find the Golden Crown machine to be a bargain at our price of $4.79.

THE TUB is made of best selected Louisiana cypress, one of the best lumbers obtainable for washing machine construction, and is held together with three wide and heavy iron hoops. Tub es 25¼ inches in diameter at bottom and 23¼ inches inside at top and is 12 inches deep. Sides and bottom are fully ated, and cover is two-ply construction and will never warp or Wringer box is large enough for any family wringer and is attached with bolts. Legs are detachable and are well bolted ed in position. Gearing is of best quality gray iron castings ns very quietly and easily. Dolly has full three-quarter move- and reverses automatically. Wood parts are finely finished in wood and gearing is gold bronzed. This is the best medium washer you can buy and is a big bargain at our low price of Shipping weight, 85 pounds. Shipped from factory in New r from Chicago when other goods are ordered.

No. 11H7524¼ Golden Crown Washing Machine. **$4.79**

Improved Curtis Washing Machine

$4.85

Many prefer a washing machine which operates on the rubbing principle. That is, the clothes are placed between two baskets or rubbing devices in the machine and when the machine is operated the clothes are rubbed between the rubbing devices much the same as on a board. To those who prefer a machine of this kind we recommend our Curtis Washer. It is well constructed throughout of well selected materials. Sides and cover are of best Louisiana cypress, and bottom is of heavy rustproof galvanized iron put on in a way that will never leak. Inside dimensions are 27½x17¾x19½ inches.

THIS MACHINE is fitted with two well constructed baskets or rubbing devices which work in opposite directions when the wheel is turned. This gives the same results as a long stroke rub board with but very little movement and little labor.

COVER IS WELL FITTED and retains the heat in the water a long time, being unlike other machines of this type, which are almost entirely open, allowing the water to cool rapidly. Provision is made for attaching wringer, which need not be removed to open the machine.

THE CURTIS WASHER is well finished in the natural wood, with oil and varnish, and the gearing is nicely bronzed with aluminum bronze. The few metal parts inside, which do not touch the clothes, but come in contact with water, are heavily galvanized so that there is absolutely no danger of rust spots. Shipping weight, 98 pounds. Shipped from factory in New York, or from Chicago when other goods are ordered.

No. 11H7535¼ Improved Curtis Washing Machine. Price **$4.85**

The Harvard Washing Machine

$2.79

This is the old reliable lever movement rotary type of washer, a style so well known that but little description is needed. Our Harvard Washer is built throughout of the best materials, and while it will do good work and is sold for about one-third less than is usually asked for machines of this type, we would advise you to invest a few dollars more and get a machine with fly wheel movement which is easier to operate and will, therefore, be more satisfactory. The tub is made of cypress and is 25¼ inches in diameter at the bottom and 23¼ inches at the top and 11 inches deep. It stands 29 inches high from floor to top of tub. Legs are detachable and secured with bolts. Ample space is provided for wringer. Gearing is finished in black enamel. No metal parts inside tub. Finished in the natural wood, and varnish. This machine is well made throughout and rtly sells at $4.00 to $4.50. Shipping weight, 65 pounds. from factory in New York, or from Chicago when other are ordered.

No. 11H7527¼ Harvard Washing Machine. **$2.79**

The Quick and Easy Washing Machine

$1.98

To meet the big demand for an open rubber type washer and to get away from the usual grade of this type of machine, we have had our Quick and Easy Washing Machine designed expressly for us and we guarantee it to be better in finish and material than the machines of this type usually sold. We recommend the Curtis Washer described above to those who prefer the rubber type of washer as it is covered and will hold the heat and steam and is also larger in size. If you only want a cheap machine you can do no better than to buy this one. The sides are each made of one piece of selected lumber. Bottom is non-rusting galvanized iron securely attached and will never leak. Bottom rubber is mounted on flexible strips and can be easily removed for cleaning. Top rubber is well made and slats are smoothly finished so it cannot tear the clothes. Remember, this machine is much better throughout than the average open washer of this type. It is nicely finished in the natural wood, and measures 19x30x13½ inches, inside measurements. Fully guaranteed. Shipping weight, 45 pounds. Shipped from factory in Indiana, or from Chicago when other goods are ordered.

THE WORLD'S BES
MORE THAN 40,000 I

EVERYONE KNOWS **that a good washing machine is the biggest labor saver that has ever been invented for household use** and that it will wash the clothes quicker and easier than anyone can wash them on the old fashioned rub board and as clean. We hardly think there is any need for us to put forth any argument as to why you ought to have a washing machine, because the washing machine has come into such universal use that we feel sure everyone fully realizes just what a big labor and time saver it is. However, there are many washing machines sold that are almost worthless, and for th many people have been prejudiced against the use of a machine. We want to impress on you the high quality of our machines and the very liberal trial and guarantee under which them. You are protected in every way against an unsatisfac chase when you buy from us, as under our sale agreement you c the machine to us if you are not satisfied in every respect and penny of your money back, including what you paid for fre cartage charges.

BEST { CEDAR TUB / GRAY IRON CASTIN / WORKMANSHIP

A FEW LETTERS WHICH BACK UP OUR CLAIMS FOR THE HIGH SPEED WIZARD

WE HAVE RECEIV HUNDREDS OF OTHERS JUST AS CONVINC

THE MACHINE TO BUY

OUR HIGH SPEED WIZARD WASHER is the machine we recommend, as it is THE BEST wood tub rotary washing machine that has ever been offered by any concern. When we say THE BEST we mean that this machine is THE BEST from every standpoint of construction, utility and efficiency. We will take up these points on the next page, and if you will carefully consider all we have to say we are sure you will readily see why it is to your interests to buy a High Speed Wizard Washing Machine in preference to any other kind. The gearing on the High Speed Wizard is covered by patents, which we control, so you cannot buy a machine of this kind in any other store, and the nearest imitation is sold at from $8.50 to $12.00 and, like all imitations, is not nearly as good as the High Speed Wizard.

THERE ARE MORE THAN 40,000 HIGH SPEED WIZARD WASHERS IN USE and all are giving perfect satisfaction. This fact is conclusive evidence that the High Speed Wizard Washing Machine must be all we claim it is and better than any other machine on the market.

ONE HIGH SPEED WIZARD SELLS ANOTHER. We have noticed that when one High Speed Wizard Washer goes to a certain locality we receive other orders for it from the same locality, which is another bit of evidence of its superior merits. Don't try to get along without a washing machine or with a machine of the old fashioned kind is hard to operate and hard on the clothes. Get a High Speed Wizard Washer right up to date in every detail and do your washing in less than half the time half the labor and with no wear or tear on your clothes.

MAKE WASHDAY EASIER. Clean your clothes and table linen as by hand, and quicker. Wash in sanitary way and make your clothes last longer by using a High Speed Wizard Machine; let a modern washing machine do your laundry work. Save time, save labor and save your health. Every week there is a washday in your home feel sure we are safe in saying that washday with its accompanying hard work by the one who washes your clothes. Why not lessen the drudgery when washing in your home? Don't keep beating over the same old road, don't keep washing same old way; get away from washday slavery; make your home a home in reality up to date. We know that after a trial of the High Speed Wizard Washer not want to part with it, but if you do, remember our thirty days' free trial "satisfaction guaranteed or money returned" proposition. You take no chances If you are not satisfied send the machine back to us and every cent of including freight charges, will be returned to you. A fairer or more liberal offer could not be made. We have satisfied more than 40,000 people and can satisfy the next page for detailed description.

WASHING MACHINE SATISFACTORY USE

No. 11H7513¼

CAN BE OPERATED IN A SITTING POSITION AS WELL AS STANDING

Price, $6.95

EVER HAD ANY FAITH IN A WASHER TILL SHE TRIED OUR HIGH SPEED WIZARD.

1522 Jenny Lind St.,
McKeesport, Penn.
Sears, Roebuck and Co.,
Chicago, Ill.

Gentlemen:—I have received your Wizard Washer that I ordered from you and find it right. My wife never did have any faith in washers, but she said this one is all right.

Yours truly,
HARRY RINEBOLT.

BETTER THAN ANY MACHINE SHE EVER SAW.

Donald, W. Va.
Sears, Roebuck and Co.,
Chicago, Ill.

Gentlemen:—I received your High Speed Wizard Washing Machine in good condition and am highly pleased with it. It runs light and does not tear the clothes. I think it is far better than any other machine I have ever seen.

Yours respectfully,
G. W. SHAWVER.

DESCRIPTION OF THE HIGH SPEED WIZARD WASHING MACHINE.

On the preceding page we stated that the High Speed Wizard Washer was THE washing machine from every standpoint of construction, utility and efficiency. This is no exaggerated statement. You can prove all this to yourself after receiving the machine and if it is not as represented or does not come up to your expectations after a month's trial you can return the machine at our expense and every penny you paid out for it, including freight and cartage, will be returned to you. By this we mean the money will be returned without any questioning or quibbling.

CONSTRUCTION. The best of material is used in every part of the High Speed Wizard Washer. THE TUB is of the best selected cedar, the best known for washing machine purposes. It measures 22¾ inches inside diameter at the bottom, 21½ inches at the top and 12 inches deep inside. Height from the floor is 31 inches, just the right height to work at conveniently. Inside and bottom are fully corrugated. A spout and plug is provided for drawing off the water. HOOPS are electric welded and galvanized wire at the bottom and center, and a heavy flat galvanized hoop at the top. COVER is of two-ply construction, securely hinged to the tub and will never split or warp. The tub is provided with a well braced board to which a wringer can be attached, and wringer need not be removed, ample provision being made to permit cover to open with wringer in place. Cover can be locked steamtight by a simple and strong cover catch, thus retaining the heat in the water for a long time. THE MECHANISM is of the best quality gray iron castings, which are cast from machined brass patterns. All bearings run on steel shafting. This insures long wear and easy and quiet running. All parts are interchangeable and can be easily replaced if necessary, and of course any parts proving defective at any time will be replaced free of charge. We guarantee the parts on the Wizard machine to stand more wear than similar parts on any washing machine ever manufactured. The mechanism of the High Speed Wizard Washer is fully protected by patents which we control. You will notice that our gearing has been closely copied by other manufacturers, but there are certain movements involved which are thoroughly protected by patents and cannot be copied. This is the reason no other high speed machine compares favorably with ours.

UTILITY. The High Speed Wizard Washing Machine will wash anything washable without wear or tear on it. The high speed gearing is designed so that the machine positively can be operated with greater ease than any other machine of this type, and what is more, can be operated in a sitting or standing position, the change from one to the other being possible while machine is in operation. Our patented handle socket brings about this result. If you have ever operated an old style hard running washer we want you to try the High Speed Wizard so you can see just how easy it runs.

EFFICIENCY. We guarantee the High Speed Wizard Washer to be the most efficient wood tub machine on the market. It will wash anything washable in less time and with the greatest ease of any machine. The balance wheel when in motion practically does all the work. A gentle pull or push of the handle at each end of the stroke is all that is needed to keep it in motion. The clothes are washed perfectly clean in a remarkably short time and when they come from the machine need only to be rinsed and blued when they are ready for the line. Buy a High Speed Wizard Washing Machine and you can forget your washday difficulties.

OPERATION OF THE HIGH SPEED WIZARD.

Fig. 1.

This shows corrugated sides and bottom and the six-pin dolly we use.

THE OPERATION of the High Speed Wizard Washer is very simple. Figure 2 shows the strong, simple gearing very plainly. The handle socket engages with the bar across the top of the tub. The other end of this bar engages with a pinion attached to the dolly shaft. All cogs are extra heavy to prevent wear and are concealed so children cannot get their fingers caught. Now, without considering the two wheels shown in the illustration, you will note that if the handle is moved back and forth it causes the dolly inside of the tub to revolve back and forth, and our gearing is so arranged that the dolly makes full three-fourths revolution back and forth at each handle stroke instead of only one-half, as in other machines. This is one reason why our machine does the work so well and so fast. So far we have a very effective and easy running gearing. The large spur wheel and fly wheel shown are so connected with the remainder of the gearing that the fly wheel revolves at a high speed when the handle is moved back and forth. This revolving fly wheel is what does most of the work in operating the machine after it is once started. It does for the High Speed Wizard Washing Machine what the fly wheel does on a corn sheller or feed cutter and you undoubtedly know how much the fly wheel adds to the ease of operation of these machines. However, instead of the tiresome crank movement you simply move the handle back and forth or up and down with but little exertion. If you wish to change your position you can take the handle out of one socket and put it in the other, thus changing from a standing to a sitting position or vice versa. It is very easy to operate the High Speed Wizard Washer from either position. Remember, we guarantee the High Speed Wizard to run easier, to do better work and to last longer than any hand power washer on the market. Better order one right now and do your next washing the easy "High Speed Wizard" way. **Your money back if you are not satisfied.**

THE LIBERTY AN UNUSUALLY EASY RUNN PERFECT WASHING MACH

$6.90

While our High Speed Wizard Washing Machine is the easiest running machine of the High Speed R type and we recommend it to those who prefer the rotary type of machine, at the same time we gua the Liberty to run still easier than any type of machine on the market and to wash the clothes abso clean, without wear or tear and in less time than any other type of washing machine.

THE LIBERTY WASHING MACHINE is the latest and highest development of the s washer, which has always been admitted to b quickest and cleanest washer with the least wear and tear on the clothes. All washing mac manufacturers have tried to develop a machine that would first, clean the clothes thoroughly quickly without injury to the clothes; second, that would run easy enough for a child to ope the machine without exertion and, third, that would be sanitary, easy to keep clean, never apart or rust and be easily moved out of the way when not in use. After many years of ex menting and testing the Liberty Washing Machine has been produced and it possesses every of the above mentioned advantages and many more. This we positively guarantee, becaus have subjected this machine to a long and very exacting test before deciding to put it in catalog. We back up every claim for this marvelous machine with this broad and liberal g antee: "If the Liberty Washing Machine does not do all or more than we claim for it, if it not prove to be positively the best washing machine you ever tried, send it back at our exp and get your money back, including the freight charges you paid on it." A trial of this, the hand washing machine on the market, on one washing will more strongly and quickly conv you of its advantages over other machines than a dozen pages of argument printed in this b Don't fail to try this wonderful washer and see for yourself just what it will do.

REMEMBER THESE FEATURES.

CLEAN CLOTHES. The clothes are washed perfectly clean and ready for the line in from to ten minutes' operation and with absolutely no wear and tear, as in case when the washboard or old style washing machine is used. We guarantee this and guarantee the Liberty Washing Machine will use less soap and water than any other typ machine.

SIMPLICITY. There is absolutely nothing about the Liberty Washing Machine that is liable to get out of The swinging tub is so perfectly balanced and hung in the frame that the needed actio quick and easy operation is obtained without the use of springs or gears of any kind. There is nothing to get order or to make a racket. The machine is as silent in operation as a cradle. No gears to oil or wear out, no castings to lift when opening or moving the machine.

EASY OPERATION. We claim that the Liberty Washing Machine operates EASIER than any other ma on the market, and we will back this claim by accepting your order with the u standing that you are to return the machine at our expense and we will return your money and freight charges do not agree with us after doing one washing in it. The tub is so accurately balanced and hung that a very light or push of the handle will keep it in motion, regardless of whether it is loaded to its capacity or has only pieces in it. Any 8-year old child can operate the Liberty.

CAPACITY. The Liberty Washing Machine will wash more clothes with less water and soap than any other machine on the market. The usual load is ten to twelve shirts or thirty to thirty-six of the average mixed pieces in the family washing. This is considerably more than can be placed in other machines, and yet the Liberty Washing Machine runs easier and takes less soap and water than any other machine.

SANITARY CONSTRUCTION. Aside from the two wood cross braces at the bottom and the wood board to which a wringer can be clamped, the Liberty Washing Machine is constructed throughout of metal. The tub is a heavy grade of rustless metal, perfectly smooth and easily kept clean. It will not absorb dirt, grease or soap like a wood tub and will never warp, split or leak. There are no projections or devices inside to catch and tear the clothes and no pockets in which dirt can lodge. Cover is a steel stamping specially treated and will never rust. Frame is of channel iron and handle of round iron all nicely enameled.

MEASUREMENTS. The tub measures 23½ inches wide, 13 inches deep and 19 inches long. Machine is 38½ inches high from floor to top of wringer board and occupies a space 23x25 inches. Tub is fitted with brass water gate to drain out water quickly and easily.

OPERATION. In use the tub is swung back and forth by means of the operating handle. This is a very easy operation and requires practically no effort at all. A light pull or push on the handle at each swing of the tub is all that is needed to keep it in motion. The ingenious mounting and balancing of the tub enables you to get the needed motion for quick and clean washing with practically no effort. The clothes are forced from side to side and are turned and over in the swing of the tub. The soapy water surges through the meshes cloth, carrying all dirt with it, washing the clothes perfectly clean very quickly.

The most delicate laces or the heaviest of flannels can be washed equally Woolens and wool blankets washed in the Liberty come out as soft and fluffy as Laces and lingeries are washed to a snowy whiteness and no chance to be to pulled out of shape. Can also be used for dry cleaning.

MARVELOUSLY SIMPLE In construction and simply marvelous in oper The Liberty Washer is so simple in constr that it must be used to be appreciated. Being without the complications usually in a washing machine leads one to believe that it will not do effective work, b washing of just one tubful soon dispels this idea. This washer is so far ahe any machine ever put on the market that we are anxious to introduce it into home and we, therefore, are offering it at a price which barely covers the manufacture.

DON'T FORGET. Every Liberty Washing Machine is shipped subject to after trial. Use it once or fifty times and if you feel that it is absolutely the best washing machine you ever saw or used we you to send the machine back at our expense and we will return every cent you for the machine, and freight or cartage charges on it. Shipping weight, abo pounds. Shipped from Chicago Store.

No. 11H7501¼ Liberty Washing Machine. Price..... $6

$5.19 Improved Superba Ball Bearing Washing Machine

IS THE BEST HORIZONTAL SWING WOOD TUB WASHING MACHINE ON THE MARKET

IT RUNS VERY EASILY. One of the remarkable features of this machine is the ease with which it is operated. The Improved Superba Ball Bearing Washing Machine is a triple motion reciprocating and oscillating washing machine. The hardened steel pivot on which the tub is mounted operates on ball bearings and is a little to one side of the center, which gives the tub an oscillating movement in addition to the reciprocating action. As the tub swings one way the agitator inside the tub turns in the opposite direction and this compound motion in combination with the oscillating motion of the tub and quick reverse movement creates powerful cleansing currents of water which by centrifugal force and suction are forced through and through every thread and fiber of the clothes at each swing of the tub, cleansing them with three times the rapidity and one-third the labor of the old way of washing. The Improved Superba Ball Bearing Machine will wash a big tubful of dirty clothes in from five to ten minutes easily and do it better than could be done by hand or by any other machine of this type. It does not pull off the buttons nor tear the clothes; it does not wear them out by rubbing them over hard surfaces, but simply washes the dirt out of them more quickly and thoroughly than can be washed by any other machine of this type. A simple device for locking tub stationary is provided so a wringer can be clamped to it if desired. See illustration and description below.

THE TUB is of the best quality Louisiana cypress, strongly bound together with three wide hoops forced on by hydraulic pressure. It measures 23¼ inches in diameter at the top and 25¼ inches at the bottom, giving you the room just where you need it. It is full 12 inches deep inside.

THE AGITATOR OR RUBBER is well constructed of two-ply lumber reinforced with a galvanized iron cleat, and will never warp. It slides up or down on the center post of the machine, adjusting itself to the amount of clothes in the tub.

BALL BEARINGS on which the machine runs are of the best quality steel balls, securely incased in a tempered steel case, doing away with any possibility of the bearings getting out of order and need of adjustment. The ball bearings on this machine enable you to operate it very easily. Look out for swing machines that are not fitted with ball bearings.

FINISH. We finish the woodwork of our Improved Superba Washing Machine in the natural wood, highly varnished so that it presents a very attractive appearance. The hoops and all metal parts outside the tub are black enameled. The post and casting on the dolly inside the tub are heavily galvanized, so you will never be troubled with rust spots.

GUARANTEE. We guarantee the Improved Superba Ball Bearing Washing Machine to give perfect satisfaction. You may try it at our risk, and if after a thorough trial you are not satisfied you may send it back and we will return your money, including freight charges. We do this without any questioning or quibbling. We know what the machine will do and can well afford to make this offer. We further guarantee each and every part of the machine to be perfect in material and workmanship and will replace without expense to you any part which breaks or gives out on account of defect.

9.70 POWER WASHING MACHINES $19.95

DESIGNED EXPRESSLY FOR ENGINE OPERATION.

THE FOSTER POWER WASHING MACHINE and wringer illustrated at the right is the machine we advise you to buy, as it is without exception the best power machine ever offered by anyone. It operates on an entirely new principle which has proven to be very efficient, washing anything washable from a delicate lace curtain to a heavy blanket without wear or tear and with less soap and water than any other washing machine. In addition, a wringer driven by power is furnished with the machine so that all hard work in connection with washing and wringing the clothes is done away with.

THE WIZARD POWER WASHER illustrated at the left is a development of our High Speed Wizard Hand Washing Machine, which has proven to be the best rotary type of washer ever invented. It has been reinforced throughout so that it will stand up under the severe usage to be exacted by any power driven machine, and we recommend it most highly to anyone who does not care for a combination power driven washing machine and wringer, such as our Foster Machine referred to above, and which is positively the best power machine ever offered by anyone at any price.

POWER REQUIRED. Either the Foster or Wizard Washers can be driven by gasoline, steam or electric power, the amount of power required being but a trifle.

While the illustrations show these machines equipped with pulley for belt drive, we can supply either equipped with grooved pulley and electric motor which is securely attached to the washing machine, connection being made with any near electric socket by means of suitable electric cord with plug which we furnish. A switch for turning the power on or off is conveniently mounted on the machine. If you want an electric power machine be sure to order by catalog number given below and give us information regarding electric current you use.

GUARANTEE. We fully guarantee either the Foster or Wizard Power Washers to be perfect in material and workmanship and to give perfect satisfaction. We agree to replace any part or parts giving out by reason of defect in material or workmanship free of charge to the purchaser.

TRIAL ALLOWED. Shipment of the Foster or Wizard Power Washers will be made subject to our usual trial privilege. If you are not satisfied with the machine after trying it thoroughly, send it back at our expense and we will return your money, including any freight charges you paid. You cannot lose a penny when you buy from us.

THE WIZARD POWER WASHER

Our High Speed Wizard Hand Power Washer has proved so successful and we have had so many calls for a low priced, reliable power washing machine, that we have built it, adapting it for power operation and base our price, as usual, on actual factory cost. We have carefully tested it under extra heavy loads, subjecting all parts to a much greater strain than any ordinary use and we guarantee it to be the simplest, and lowest priced power washing machine ever offered.

CONSTRUCTION. Tub, selected cedar, mounted on substantial stand as illustrated; bottom and sides fully corrugated; tub finished in natural wood, oiled and varnished. Hinged box provided so an ordinary wringer can be clamped to the machine.

TRANSMISSION. Gearing, the very best gray castings, designed extra heavy to withstand the extra wear to which a power machine is subjected. Gearing is direct and simple. Tight and loose power pulleys are securely mounted to heavy bracket on side of tub; remainder of gearing attached in such a way that it disengages from driving mechanism when lid of machine is raised. A simple belt shifter is provided so machine can be stopped or started instantly. Pulleys are 8 inches in diameter, 2¼-inch face and should run at from 180 to 215 revolutions per minute. Shipped from factory in Chicago. Shipping weight, about 125 pounds.

No. 11H7537 Wizard Power Washing Machine. Price..... **$9.70**

WIZARD POWER WASHER equipped with guaranteed electric motor for operation by regular electric lighting current. Be sure to give us this information. Shipped from factory in Chicago. Weight, 130 pounds.

No. 11H7532 Wizard Electric Washing Machine. Price..... **$33.95**

DON'T FORGET. When sending your order for an electric washer be sure to give us information regarding your electric current. Find out from your electric light company: **First, the voltage;** second, whether **alternating or direct current.** If alternating current tell us **number of cycles and phase.**

THE FOSTER POWER WASHER

This is the very latest and most efficient type of washing machine on the market. WE GUARANTEE the Foster Power Washing Machine to wash the clothes cleaner and quicker and with less water and soap than any other type of machine on the market.

OPERATION. The pulley is 8 inches in diameter, 2¼-inch face and is driven by belt from engine or countershaft. It should run at 180 revolutions per minute. Moving right hand lever on front of machine starts the tub rocking back and forth, forces the hot suds through the clothes, cleaning them thoroughly and quickly. Lever on left controls wringer clutch so wringer or washer can be started or stopped instantly without stopping engine.

CONSTRUCTION. Tub is of heavy best quality galvanized iron, perfectly smooth inside and will never fall apart, leak or rust. All working parts are of iron or steel; stand is built of channel steel reinforced with heavy castings and hardwood braces.

THIS MACHINE will wash lace curtains equally as well as heavy blankets. The thorough agitation of the clothes in the water does the work absolutely without wear or tear.

WRINGER is fitted with five-year guaranteed white rubber rolls, galvanized iron frame. **Tub has capacity of about six sheets or sixteen shirts or about thirty-six average mixed pieces.** Machine occupies floor space of 28½x26 inches and measures from floor to the top of frame, 46 inches. Shipped direct from factory in Chicago.

No. 11H7539 Foster Power Washing and Wringing Machine. Price **$19.95**

FOSTER POWER WASHER equipped with guaranteed electric motor for operation by regular electric lighting current. Be sure to give us this information. Shipped from factory in Chicago. Weight, 140 pounds.

No. 11H7549 Foster Electric Washing Machine. Price..... **$47.25**

WATER POWER WASHING MACHINES $11.75

While we recommend a power washing machine to those who have gasoline, steam or electric power, we offer our line of water power washing machines to those who have no power, but who have sufficient water pressure to operate the machine. Either style of our water power washing machines can be operated successfully on a pressure of 20 pounds to the square inch at the faucet and a water flow of not less than 3 to 4 gallons per minute. This means that you must have a city waterworks or pneumatic tank system.

Pressure from an elevated tank will not be great enough unless bottom of tank is at least 60 feet above the faucet.

The most disagreeable feature of the weekly washing is the rubbing of the clothes and by using one of our Water Witch Washing Machines this disagreeable labor can be done away with. Simply put soap, water and clothes in the tub, connect the hose on the motor with the faucet, turn on the water and you can sit down and watch the machine work. There is no need to slave over a washboard or tire yourself by using **the old style hard running hand machines.**

TRIAL AT OUR RISK. You can do several washings on either one of our Water Witch Washing Machines and if you are willing to part with it after giving it a thorough trial, you may send it back and we will return the price you paid for it, together with any freight charges you paid. We know these machines will do all and more than we claim for them.

CONSTRUCTION. The tub used on these machines is made of the best selected cypress throughout and mounted on detachable legs cross braced at the bottom. Inside of tub and bottom are fully corrugated. The tub is handsomely finished in the natural wood. Motor and other parts are the very best we can procure.

YOUR CHOICE of two styles of motors; one gearless and the other geared, as shown in the illustrations and as described below. If you want to do away with the hard work of washing your clothes, be sure to order one of these machines and at least give it a trial. We know that you will not part with it for twice our price if you could not get another one. We especially recommend the gearless type.

GEARED WATER WITCH WASHING MACHINE

The tub of this machine is made of selected cypress, handsomely finished in the natural wood and is mounted on detachable legs and cross braced at the bottom. Hinged box is provided so that wringer can be conveniently attached to the tub.

MOTOR. The motor used on this machine is the very best plunger type motor we know of. It is constructed throughout of brass castings, all parts accurately fitted and so simple that it will never get out of order and is very long lived. Has a simple valve instead of the common mushroom type of valve used in nearly all other motors. This motor is of the plunger type and will give perfect satisfaction on any pressure from 20 pounds up and will do the work quickly, easily and quietly. The gear transmission is covered making it perfectly safe even though children are around. Dolly or agitator inside the tub rotates back and forth drawing the clothes through the hot suds, which cleans the clothes rapidly and easily. The corrugations on the bottom and sides of the tub gently rub the clothes, assisting in the cleansing action.

DON'T TAKE OUR WORD FOR IT. Send us your order, enclosing our price and we will ship one of these machines to you Immediately. Try the machine thoroughly and if you are willing to part with it after thirty days' use, you may send it back at our expense and we will return your money, together with any freight charges you paid. You can't be out one penny. **Order by catalog number.** Shipping weight, 90 pounds. Shipped from Chicago when other goods are ordered or from factory in New York.

No. 11H7514¼ Geared Water Witch Water Power Washing Machine. Chicago department store price, $18.00; our price..... **$11.75**

GEARLESS WATER WITCH WASHING MACHINE

MOTOR. The motor on this machine is the simplest, most powerful and easiest running gearless motor made, and is constructed of brass throughout. There are no complicated parts to wear or get out of order. On 20 pounds water pressure and a flow of 3 gallons per minute it will do perfect work. Being directly connected to the dolly or agitator there is no lost power or lost motion. The agitator draws the clothes back and forth through the hot suds and this in connection with the gentle rubbing given by the corrugated sides and bottom of tub cleans the clothes quickly. The tub of this machine is made of the best quality cypress, handsomely finished in the natural wood and is mounted on detachable legs, braced at the bottom, making a very substantial outfit.

LET THE WATER DO YOUR WORK. There is no more need for you to slave over a tub of steaming suds or to wear yourself out running the old fashioned hand machines when for the low price of $11.75 you can procure a machine that operates at practically no expense and does the work better than you can do it by hand.

WE TAKE THE RISK. Send us your order today for one of these machines and if you are not perfectly satisfied with it after using it for thirty days, you may send it back and we will return the price you paid, together with the transportation charges, so that you will not be out one penny. Better send your order at once and do your next washing the easy way and in half the time it now takes to do it. **Order by catalog number.** Shipping weight, 90 pounds. Shipped from Chicago when other goods are ordered or from factory in New York.

ACUUM CLEANERS

THE ONLY METHOD OF CLEANING CARPETS, RUGS, CURTAINS, ETC., THAT IS SANITARY AND NOT INJURIOUS TO THE HEALTH.

Wizard Vacuum Cleaner

$7.75 WITH BLOWER ATTACHMENT

The Biggest Value Ever Offered in a Vacuum Cleaner

Why spend from $20.00 to $25.00 for a vacuum cleaner when you can buy the Wizard at the remarkably low price of $7.75? A high grade, excellent working machine which we fully guarantee to be equal in efficiency to the higher priced cleaners. Simple in construction and nothing to get out of order.

The Wizard Vacuum Cleaner has a double acting diaphragm of high grade bellows leather and is fitted with two automatic valves. The action of the hand lever operates the valves so that while air is being taken in by one valve it is expelled by the other, thus giving an even suction of sufficient volume for thorough cleaning. As the air enters the machine it is strained through a closely woven cloth bag, leaving dust, dirt, etc., in the bag. The bag can be taken out in a moment by loosening thumb screws and is easily emptied and cleaned.

The Wizard is one of the easiest working cleaners ever offered. No friction points in operation, requires no oiling and is always ready to do good work.

Only high grade material is used in the manufacture of the Wizard. The baseboard and handle are made of hardwood. The cylinder is 9 inches in diameter, of heavy sheet steel and nicely painted on the outside with aluminum bronze paint.

With each machine we furnish 9 feet of spring steel wire inserted ¾-inch rubber hose of good quality, which does not kink easily. The floor tool or nozzle is nickel plated and has an opening of 6¾ inches. The nozzle handle is of polished brass and is 4 feet long. Hose and nozzle handle combined measure over 13 feet, long enough to reach any part of the average size room. The Wizard occupies a floor space of only 10½x19 inches. Light in weight and easy to operate.

Note the Blower Attachment, a valuable feature not possessed by many hand power machines.

No. 9H98 Wizard Vacuum Cleaner. Shipping weight, about 25 lbs.

Price, complete

$7.75

Dust Killer Vacuum Cleaner

We have sold this machine for a number of years. It is a cylinder or pump machine, has a valve and piston and works on the same principle as the water pump. Creates a more powerful suction but works harder than our Wizard. Thousands of people have bought this machine of us and found it satisfactory in use.

Strongly made of brass, iron and steel with wood base and lever handle. With each machine we furnish 12 feet of spring steel wire inserted 1-inch rubber hose. The floor tool is of aluminum with a 5½x¾-inch opening, nozzle handle is 4 feet long, made of solid brass tubing. Each machine is fully warranted.

No. 9H282 Dust Killer Vacuum Cleaner. Shipping weight, about 40 pounds. Price, complete, as illustrated.....**$16.50**

Fireless Cookers

A NECESSITY! Fireless cooking is no longer an experiment. In thousands of homes the fireless is considered as essential as the cook stove itself, because it reduces the work to a f... makes food that is better to the taste and easier to digest, and reduces the fuel bill. No experience is necessary; the... furnished with all of our cookers insure success. **Note our money saving prices.**

DAISY FIRELESS COOKER

$2.35

No. 9H2015 **Biggest bargain ever offered in a Fireless Cooker.** For $2.35 a cooker that will do as good work as a cooker costing from $10.00 to $12.00 can do in boiling meats, making soups or stews, cooking cereals, vegetables, etc. It is fitted with two high grade gray enameled vessels, **one an 8-quart vessel with aluminum** cover and the other a 4-quart inset pan. One or both vessels can be used at the same time. The Daisy Cooker will hold the heat and do perfect work. Shipping weight, about 32 lbs. Price..... **$2.35**

THE WIZARD FIRELESS COOKER

ROASTS — BAKES — BOILS — STEWS

$10.50 Lined With Heavy Tin

$12.75 Lined With Pure Aluminum

Equal in results to the highest priced cooker. Our price saves you about one-third. The outer case is made of sheet steel, built on a substantial hardwood frame, in panel effect finished to look like quarter sawed oak. Thoroughly insulated; will retain the heat. Cooker contains one 8-quart and two 4-quart pure aluminum vessels, giving a total cooking capacity of 16 quarts. Two sets (four pieces) of soapstone radiators for roasting and baking, lifter, pie rack, book of instructions and proven recipes are furnished with each cooker. Shipping weight, about 90 pounds. Made in two styles.

Economical Steam Cooker, $4.96

Food cooked in the Economical Cooker is more palatable than food cooked by the old methods. Requires only one burner to do the cooking usually done on three or four. Works equally well on wood, coal, oil, gas or gasoline stoves.

Made of heavy XX (best grade) charcoal tin and has solid copper water tank. It measures 11¾ inches square, 22 inches high and weighs, crated, about 20 pounds.

No. 9H23843 **Economical Steam Cooker.** Complete, with two heavy seamless cooking pans and instruction book containing 200 tested recipes. Price..... **$4.96**

Peerless Gray Enameled Ware Set, $2.65

PEERLESS WARE is made of heavy sheet steel, coated with chemically pure gray enamel, baked under an intense heat. The enamel is durable and substantial, will not discolor or peel off, protects the steel from rust, and is better grade than is generally sold at much higher prices.

WE GUARANTEE EVERY PIECE of Peerless Gray Enameled Ware to be perfect, not to leak and to outwear any similar enameled ware on the market at anything like our price.

We furnish Peerless Gray Outfits in three sizes as follows:

AST IRON KETTLES, KITCHEN UTENSILS, STOVEWARE, ETC.

TWO-COAT GRAY ENAMELED ROASTER

EXTRA HIGH GRADE.

$1.25

No. 9H170 Body and cover are seamless, made from one sheet of heavy steel, covered and cut with two coats of our high grade enamel. Rounded edges make cleaning and prevent rust. The cover fits closely in the table, saving shrinkage in food and retaining all the flavor and goodness. Continual basting prevents scorching. Size, 12x8¼x6 inches (over handles). Handles are cool to touch by electricity and will not come off. Holds a large size turkey or roast, and will fit a medium size oven. Shipping weight, 12½ pounds. Price.....$1.25

White House Bread Mixer and Kneader

$1.68

THE RIGHT WAY TO MAKE BREAD

No. 9H25424 Will knead any quantity of dough to make from one to eight loaves so it is smooth and evenly mixed. Easy to turn and only requires three minutes. Simple, sanitary and easily cleaned. Nothing to get out of order. Pail and cover are finest XX (best grade) tin plate. Pail holds 12 quarts. Mixer and kneader is made of steel, heavily plated with pure block tin. Shipping weight, boxed, about 23 pounds. Usually sold at retail for $2.50.

Our price.....$1.68

GRISWOLD'S AMERICAN BALL JOINT WAFFLE IRONS

Usual Price, $1.00 or More.

70c

No. 9H23712 The heaviest and best made waffle iron ever offered. The ball joint is a big improvement, making possible the turning over of the waffles by slightly lifting the handles. Castings are heavy and smooth, ground base plate prevents spill or spatter.

Griswold's American Waffle Irons are extensively advertised and sold by all the best stores usually for $1.00 or more.

Price, No. 8.....70c
Price, No. 9.....75c

No. 9H23713 Common Pattern with hinged joint. The kind usually sold by dealers. Fastened with rivet. Does not come apart.

Laws Don't Affect Our Groceries—They're Better Than Laws Demar

HIGHEST GRADE TWO-COAT GRAY ENAMELED WARE

Enameled Ware usually has only one coat of enamel on the steel, but ours has TWO COATS, making it much more durable. The first coat of enamel is applied and baked on in a furnace. Then after the ware has cooled a second coat of enamel is put on and the baking process is repeated, making this the best gray ware it is possible to produce, and we cannot recommend it. Our stock is all first quality; no culls or seconds. The enamel is tough and durable, with a bright, glossy, easily cleaned surface. At prices below, every piece is a BARGAIN, quality considered half what you regularly pay at retail. Sizes and capacities are actual. Each piece, measured level full, will hold what we say it does.

$1.25 TWO-COAT GRAY ENAMELED ROASTER $1.25

EXTRA HIGH GRADE.

Other Self Basting Enameled Roasters, Not as Durable or as Good, Sell for $1.85 to $2.00

Body and cover are seamless, stamped from one sheet of heavy steel, covered inside and out with two coats of our high grade gray enamel. It has rounded edges, making it easy to keep clean and prevent rust. Cover fits closely in grooved base, thereby retaining all the juices and flavors. Handles are welded on by electricity and cannot come off. This roaster will pay for itself in time and money saved, as you will have less shrinkage and use less fuel. Continual self basting prevents scorching, makes food tender and more appetizing. Size, 12x8¾x19¼ inches (over handles). It will take in a large turkey or roast and will fit any medium size stove. Shipping weight, about 8½ pounds.

No. 9H170 Two-Coat Gray Enameled Roaster. Price.....$1.25

7-PIECE OUTFIT OF TWO-COAT GRAY ENAMELED WARE, $3.07

The very outfit to begin housekeeping with, all the pieces necessary about a kitchen, of the very best two-coat gray enameled ware made. Selected from our regular stock and guaranteed fully guaranteed. Compare our prices with others. Each outfit contains twenty-pieces in the sizes most convenient for general kitchen use. All vessels have flat bottoms and can be used on any stove.

65c	85c	$1.05	$1.30

The Puritan Food Chopper is unexcelled for family use. Over 90,000 people bought them last year and were pleased. **BUY NOW.**
We guarantee it to satisfy YOU.
Better value than you can get elsewhere for $1.25.
The second size chopper, the one at 85 cents (size usually sold for $1.40) is the one we recommend for use in average size families.

LARD, WINE AND JELLY PRESSES.

Made extra strong and durable. Screws have deep cut threads; will not slip. Cylinders are heavy tin, and other parts are tinned to prevent rust. Quickly taken apart for cleaning. All parts are interchangeable and can be replaced. This press comes in three sizes as shown below and at the prices quoted these goods cannot be excelled. **Note our low prices.**

No. 9H29538
2-Quart Size, $1.25

No. 9H29539
4-Quart Size, $2.50

No. 9H29540
10-Quart Size, $3.75

Why the Improved Puritan Chopper Is Best.

It has a heavy one-piece barrel, straight ribbed inside and true to size; has a cylinder which fits snugly against the straight ribs and with a scissors-like action cuts the food into small pieces before it reaches the knives. Has self-sharpening knives of refined crucible steel, ground true. Has an extra long handle which makes turning easy. Has a one-piece body without joints, which makes cleaning easy. All exposed parts heavily coated with pure tin to prevent rust.

ENTERPRISE TINNED FOOD AND MEAT CHOPPERS

These well known machines have been on the market for many years. We guarantee every one we send out to give satisfaction. Only the best material goes into these goods. They are made of smooth cast iron, heavily tinned and will not rust. Enterprise Choppers have warranted knives, which **cut like scissors;** do not tear, grind or squeeze the meats; impossible for any strings, sinews or gristle to pass through without being chopped. Quickly taken apart and easily cleaned. All parts interchangeable and can be replaced at small cost. **AT THE PRICES QUOTED BELOW, QUALITY CONSIDERED, THESE GENUINE ENTERPRISE CHOPPERS ARE UNMATCHABLE VALUES.**

$4.50 DOUBLE WALL FIRE-PROOF CASH BOX

Outside dimensions, 13x9 x7 inches.
Inside dimensions, 10x6¼x4 inches.
Weight, complete, about 50 pounds.

A heavy, well made, carefully fitted up steel and iron box with double walls filled between with fireproof cement. A box that offers sure protection against all usual exposure to fire and makes safe, money, insurance policies and other valuable papers that are commonly put away in furniture drawers, making loss certain in case of fire. This fireproof box is not burglar proof, but gives good protection against ordinary sneak thieves as it is fitted with good strong shackles and padlock with two keys. We have made repeated tests to insure the fireproof qualities of this box and have sold many thousands of them with entirely satisfactory results. A big bargain at our low price of $4.50.

No. 9H26094 Price, complete with padlock and 2 keys.....$4.50

NOTE—Box should always be kept on lower floor near ground so as not to be broken open by falling in case of fire.

"FRE-ZEE-ZEE" ICE CREAM FREEZERS

Easy to Operate. Easy to Clean. Freeze Quickly, Make Smooth, Delicious Cream and Use Less Ice Than Any Other Freezer of This Pattern on the Market.

THE "FRE-ZEE-ZEE" FREEZER is manufactured to our order only, and we positively guarantee it to be the best freezer made regardless of price. Tubs are clear kiln dried Northern pine, treated with a paraffin and oil preparation which makes them waterproof. Hoops are heavy galvanized steel and positively will not come loose. Cans are extra heavy charcoal tin plate with retinned iron tops and bottoms and will outlast any other freezer cans made. Gearing is heavily galvanized and will not rust.

THE "FRE-ZEE-ZEE" FREEZER makes superior cream. As the can revolves the freezing mixture is removed from the sides by the dasher and thrown to the center, where it is beaten and aerated until frozen into the smoothest and most delicious cream. The ice guard prevents ice or salt getting into the can and the covered gear protects the fingers of the operator. Our prices are about one third less than others ask for freezers not as good. Guaranteed satisfactory or money returned.

SILVER STEEL ELGIN PATTERN R. R. MILK CANS

THE SANITARY MILK CANS, THE BEST AND MOST POPULAR PATTERN ON THE MARKET.

They are built of heavy steel plate, seamed and riveted, tinned and retinned, then heavily loaded with best half and half solder. Body and bottom rest on heavily flanged bottom hoop and are solidly riveted together. (See illustration to left.) Silver Steel Cans are rigid and stiff and will stand hard usage. They are the most sanitary cans made, no seams or crevices to collect milk and dirt. Breast and bottom are full rounded, which makes cleaning easy. Silver Steel Cans are the cheapest in the end.

No. 9H29006	No. 9H29006	No. 9H29006
5-GALLON SIZE. AVERAGE WEIGHT, 12 POUNDS. PRICE, **$1.60**	8-GALLON SIZE. AVERAGE WEIGHT, 20 POUNDS. PRICE, **$2.20**	10-GALLON SIZE. AVERAGE WEIGHT, 23 POUNDS. PRICE, **$2.40**

Wisconsin Pattern Riveted Milk Cans.

Equal to cans sold elsewhere for $2.25 to $2.50 each. We recommend these cans for wagon use, but for shipping purposes we recommend our **Silver Steel Cans.**

Made of smooth sheet steel, double seamed and riveted throughout. Neck and bowl drawn in one piece. **Breast is joined to body in such a manner as to** [illegible] **strong and rigid edge,** which has a heavy steel hoop shrunk [illegible] outside. Heavy steel bottom hoop is riveted to body, [illegible] Pattern Cans are tinned and retinned, and inside seams are [illegible] not loaded. They have full rounded breast and bottom [illegible] easily cleaned.

BABCOCK STANDARD HIGH SPEED MILK TESTING OUTFITS.

Babcock Milk Testers tell the exact quality of each cow's milk. A tester is absolutely necessary when buying cows, as the quantity of milk a cow gives is not always an index to the value of the cow. Our Babcock Tester has cut spiral gear wheel, steel spindle with worm thread enclosed in heavy case; is fitted with swinging pockets, malleable heads and can be attached to any table. Price includes bottle of acid, test bottles, brush, acid measure, pipette and simple directions for making tests. Weight, boxed, about 15 pounds. Price

IMPROVED DILUTION CREAM SEPARATORS.

No. 9H29189 Separates cream from milk in thirty to fifty minutes, gives sweet diluted milk, which is far superior to sour milk as stock food. Saves several hours' waiting for cream to rise and gets 20 to 25 per cent more butter fat than the old methods. As water mixes with milk, cream separates and rises to top; this can be watched through gauges. Extra heavy IXX tin, securely seamed and soldered. Enameled on outside. Prices include tin tubes, strainer, faucet and wood legs.

Capacity		Price

OUR HUSTLER HAND GRIST MILL.

$1.90

A first class mill at a medium price. Others ask $2.50 to $3.00 for a similar machine. This Hustler Grist Mill is well made, has removable iron burrs and for rough, coarse grinding cannot be equaled. Will grind salt, peas, corn, wheat, rye and other grains and is specially recommended for grinding chicken feed, hominy, etc. No chicken raiser should be without a grist mill. Heavy fly wheel makes it easy running. Grinding capacity equals mills at twice our price. Shipped from Chicago. Weight, 27 pounds.

No. 9H72100 Price $1.90

No. 9H72101 Extra Burrs. Weight, 1½ lbs. Price, per pair 35c

POULTRY RAISERS' SPECIAL GRIST MILL.

Acme Adjustable Hand Grist Mills

THE RIGHT MILLS TO BUY.

$1.65

$3.20

AND

$4.80

ACCORDING TO SIZE.

BIGGEST BARGAINS EVER OFFERED IN HAND GRIST MILLS

Does work equal to machines sold by others at one-third to one-half more than our prices, and for ordinary farm or family use cannot be beaten. Constructed throughout of iron, except the shaft, which is steel, and the burrs, which are steel alloy. These burrs will outlast three sets of ordinary gray iron burrs and are easily and cheaply renewed. Especially adapted to grinding corn, small grains, roots, bark, salt, dried bones, dried shells, etc., also **for making table meal.** Can also be used for grinding coffee. It will not cut or grind green bones or shells.

These Acme Mills run steadier, turn easier and grind more per hour than any other hand grist mill on the market. **All sizes adjustable to grind coarse, medium or fine.** We recommend the medium size for general use. Shipped from Chicago.

PURE MANILA ROPE

MADE OF LONG MANILA FIBER, unmixed with sisal, jute or inferior material of any kind. It is full weight, full size, fresh new stock. We guarantee every foot of rope we send out to be the finest grade, made of pure manila fiber and to be satisfactory in every way.

HAY CARRIERS require the very best rope made. When ordering rope for hay carriers, order ⅝-inch for the check rope, and either ¾-inch, ⅞-inch or 1-inch for the carrier rope.

Manila Rope is never measured exact diameter, one-third of the circumference being considered the diameter. Can furnish in one piece any length up to 1,200 feet. **State size wanted.**

"BOSTON" SELF LOCKING ROLLING SAFETY HOISTS.

Enables one man to raise one-third to one-half more weight than any other rope hoist on the market. With a "Boston" hoist there is no lost energy; every inch of pull counts. If rope should slip, load would not drop, as the block would lock automatically. Loosening the rope or leading it slightly to the right locks the block and holds the strain or load at any point. To lower, raise load an inch or two and hold rope slightly to left of block. Invaluable for painters, wire fence builders, machinery and piano movers, factory and dock use. "Boston" hoists can be used horizontally as well as vertically, a feature that will be readily appreciated by linemen, safe movers and others. Shells are made of one piece of pairvenized malleable iron. Sheave castings are solid and have patent steel roller bushings, which greatly reduce the friction and stand twice the strain of ordinary sheaves. "Boston" hoists are reeved straight, without twists, as in old style hoists. Prices below for upper and lower blocks, but do not in

"HIGH POWER" TOOL GRINDERS

The tool grinders listed below are the best to be had. The construction is simple and practical and embodies strength, durability, power and speed. The spindle and pinion are turned and milled from one piece of steel, the larger gear is accurately milled and all are enclosed in a tight casing, insuring long wear, as dust and grit from the wheel are excluded. The tool rest is adjustable to any reasonable position and is strong and simple.

Foot Power Grinder.
58784 A practical blacksmiths, machine farm use. Built made of grinding. Uses heavy channel double sprocket

$4.95

Adjustable as to height or axle, ⅝ inch, ½ inch shaft. Takes wheels up inches. First quality wheel, 5x1¼ inches, with each machine. Weight, about 67 pounds. Complete.....**$4.95**

IMPROVED QUICK CUT BALL BEARING STEEL FRAME GRINDSTONE.

$3.15

No. 9H58760 Big and excellent value in a mounted grindstone, fully equal to the $4.00 to $4.50 kind sold by others. Every farmer, mechanic or blacksmith, every workman in any line who uses edge tools, should have one of these mounted grindstones. Runs so light the strength of a small boy will easily operate it and grind perfectly the hardest tools. Frame is made of angle steel, firmly braced, is strong and rigid; axle is cold rolled steel, perfectly true and runs on steel ball bearings.

OUR IMPROVED QUICK CUT GRINDSTONE HAS FOUR BALL BEARINGS. The balls used are finest die steel, properly tempered, and run in hardened steel races. It has an adjustable steel seat, double pedals, water cup and guard to protect the operator. The stone is the best Berea grit, 20 to 22 inches diameter and 2 to 2½ inches thick. Just the right size, true and perfect. Shipped knocked down with face of stone protected, and we guarantee safe delivery. Weight of stone, about 60 pounds. Shipping weight, about 85 pounds.

Price, complete, as illustrated.....**$3.15**

IMPROVED RAPID BALL BEARING GRINDSTONE.

$3.10

No. 9H58764 An extra heavy first quality grindstone that cuts fast, turns easily and is properly mounted. The best grindstone on the market for blacksmiths, machinists, carpenters, farmers and general use. Stone being extra heavy, it acts as a fly wheel and makes turning easy; being extra large, it will do your work for years before it wears out, and being a selected first quality Berea stone, the grit is sharp, it will cut fast and never wear glassy. Our Improved Rapid Grindstones have first quality tempered steel ball bearings, cold rolled steel axles, braced steel legs and hardwood cross pieces and treadle. Machine has crank on one side and foot treadle on other and can be operated by either. Stones are large size and machine is furnished with drip cup. Weight, crated for shipment, about 130 lbs.

Price, complete, as illustrated.....**$3.10**

Kenwood Combined Sickle and Tool Grinder

FITTED WITH ALUNDUM GRINDING WHEELS. POSITIVELY WILL NOT DRAW THE TEMPER.

As a Tool Grinder.

Our Kenwood Combination Grinder is the best sickle and tool grinder made. Does the work of two different machines. Grinder holds the sickle knife in a vertical position and provides for the grinding of four sections at one setting. Machine is fitted with patent alundum grinding wheels, which cut very fast, do not draw the temper and have proven very satisfactory in use. The sickle grinder is entirely automatic in its grinding movements. The bevel stone moves up and down against the sections and does not grind at any point long enough to heat or draw the temper. Can be adjusted to grind from point to heel or to grind only down to the knife head. When used as a tool grinder the arm which holds the arbor is raised to a horizontal position where it is held firmly and the bolt rest enables you to do perfect grinding. Price includes one bevel alundum sickle stone, one alundum tool stone, one tool rest, one wheel clamp and one wrench. Arbor for tool stone can be used on any stone not over 4¼ inches diameter or 1¼-inch face with ⅝-inch hole.

No. 9H71136 Weight, about 28 pounds.
Price, complete, as above.....**$2.48**

EVERY FARMER SHOULD HAVE THIS COMBINATION TOOL OUTFIT

Vise, Anvil, Forge, With Blower, Emery Grinder and Drill Attachments ALL IN ONE.

Showing "High Power" Tool Grinder Attachment Adjusted.

Our Special Price, $12.50 Complete with Attachments.

Showing Drill Attachment Adjusted.

A combination of five tools in one. Always ready for use "High Power" Tool Grinder. This Combination Tool Outfit is made especially for **farmers, repairmen, small shops, etc.** It does the work satisfactorily of five separate tools, vise, anvil, forge and drill and "High Power" Tool Grinder. **Simple in construction, no complicated parts to get out of order and the changing from one attachment to another can be done in an instant. Every farmer should have one of these Combination Tool Outfits,** and at the low price we quote, it is an excellent bargain. Combination Tool Outfit is strong and durable and nicely finished. It is practical and constructed on scientific principles. **The foot power mechanism** is so constructed that enough power for forge is obtained with very little exertion.

Height over all is 41 inches. The vise has crucible tool steel jaws 3½ inches wide and opens 10 inches. Vise screw is cold rolled steel. Anvil is 12 inches long over all and is made of semi-steel, which is tough and durable. Hardie is included as illustrated. Forge pan is 12x15 inches and has a strong blower and tuyere. Fly wheel is 11 inches in diameter and has a 1-inch leather belt. "High Power" Tool Grinder has a 5x1-inch corundum wheel. Outfit weighs about 160 pounds. Shipping weight about 180 lbs.

No. 9H3450 Combination Tool Outfit, complete as illustrated. Price.....$12.50

$12.50

STRONG, DURABLE AND CONVENIENT; A PRACTICAL OUTFIT THAT WILL DO THE WORK.

$2.90 OUR IMPROVED PERFECT COMBINATION DRILL, VISE, ANVIL AND HARDIE.

Our Price Saves You Money.

Handiest and Best Combination Vise Made.

Write for our Free Special Blacksmiths' Tool and Supply Catalog.

The most practical combination ever offered at anything like the price. It can be converted from vise to drill instantly. It is strong, durable, and for all ordinary work will answer the purpose of half a dozen high priced tools. **A heavy steel T beam is used for the slide or drawbar;** jaws are faced with tool steel; top of anvil is case hardened and polished. Drill chuck is bored to take ½-inch round shank drill bits. Anvil is provided with good steel hardie. Will stand harder service and has a wider range of usefulness than any other combination tool made. Weight, crated, about 52 pounds.

No. 9H3359 Price, complete, without drill bits.....$2.90
For Drill Bits to fit the above, see No. 9H3860, on page 1057.

COMBINATION VISE, ANVIL AND PIPE VISE.

WIDE TREAD METAL WAGON WHEELS

SAVE TIME, LABOR AND MONEY. WIDE TREAD, PULL EASY. SAV ON REPAIRS, WILL OUTLAST SEVERAL SETS OF WOODEN WHEEL

Regular Wide Tread Metal Wheel.

Especially desirable for farm use on plowed ground. They have cast iron hubs, oval wrought steel spokes and wrought steel tires. Spokes are securely fastened and vary in number according to size of wheel. Made to order only and we require about fifteen days to make shipment. We cannot take back wheels that have been sent as ordered. Be careful in measuring. Shipped direct from factory in Central Illinois.

DIRECTIONS FOR ORDERING.

Be sure to give our catalog number and height of wheels wanted. Also measure your axle or skein as per diagram, giving us length of spindle A to B; diameter of collar C to D; diameter of spindle (next to collar) B to E; diameter of spindle (next to nut) F to G; diameter of nut A to H.

To fill your order we must have the diameter of the axle or skein, not the distance around it. Use a pair of calipers or cut slots in a piece of cardboard as shown in small illustration, to fit snugly over the different points, then measure across the slots. Measure axle or skein from side to side, not from top to bottom. Give exact measurements; do not allow for play as we will make this allowance. Measure both front and hind skeins as they are not always the same size.

Extra Sta Tread Me

REGULAR WIDE TREAD METAL WHEELS

made to fit any size axle or skein. Guaranteed to carry 4,000 pounds per set. Amply strong enough for ordinary farm use. Price quoted is for one wheel. Don't fail to give full measurements.

Moroccoline Artificial Leather.

63c A Yard.

85c A Yard.

A perfect substitute for leather. Made on tough cloth back, will not peel or crack, is not affected by heat or cold, and is embossed by the same process as genuine leather. Moroccoline costs about one-third the price of leather and is tougher, will wear longer and look better than three-fourths of the leather used in upholstery. **Extra grade made on extra heavy colored back. If interested write for free samples of moroccoline.**

BUGGY TOPS

Our tops are all well built of good material, have extra heavy japanned steel bow sockets, best grade second bows, wrought forged joints, Thomas top props and black enameled trimmings. We can furnish any of our three or four-bow style as desired, but we always send four-bow unless three-bow is specified. Our tops weigh for shipment, about 55 pounds. For instructions for taking measurements and list of extras, see first column, bottom of page.

Extra Quality Moroccoline Leather Top $12.25

Fitted with auto style or offset bows. Roof, quarters, back stays and curtains are made of extra quality moroccoline leather in patent leather finish; closely resembles patent leather and will outwear a cheap leather top. Roof stays and back curtains are lined with good quality all wool lining. Back and side curtains are fitted with large oval lights. Made stylish and durable throughout.

No. 9H32507½ Price, complete, with side and back curtains, but not including shifting rail.....$12.25

No. 9H32508½ Price, with shifting rail $12.65

Illustration of front view of auto style bows.

Genuine Leather Quarter Top $9.90

Strong, serviceable, stylish, will hold its shape, last a long time and look well as long as it lasts. If you want a good top, something better than is usually offered, order this one and get the best. Quarters made of genuine black enameled leather nicely padded and shaped, stays made of same material, reinforced and stiffened. Roof and back curtain made of **28-ounce waterproof rubber drill;** side curtains green back rubber drill. Roof, stays and back curtain lined with heavy dark green wool faced head lining.

No. 9H32506½ Price, complete, with side and back curtains, but not including shifting rail.....$ 9.90
With shifting rail..... 10.30

Reliable Full Rubber Drill Top

$6.80

This Reliable Full Rubber Drill Top at $6.80 represents more real value, affords more protection against sun and rain, stands more wear and tear, holds its shape and looks better for a longer time than tops sold by others for $9.00 to $10.00. Roof, quarters and stays made of best grade waterproof rubber drill; side and back curtains, green back rubber drill; roof lined with dark green wool faced head lining; stays stiffened with double buckram and lined to match side and back curtains. This top has extra heavy japanned bow sockets, first quality bows, wrought joints and back trimmings. Has raised front valance, is well padded; nicely shaped and strongly built throughout.

No. 9H32503½ Price, co[illegible] with side and back curtain[illegible] not including shifting rail.. With shifting rail.....

BROWN DUCK WAGON TOP. $3.95

No. 9H32511½ For all kinds of wagons and carts. Covered with good quality heavy brown duck. Extra strong bows and fixtures. Fully protects driver from sunshine, rain or snow. **In ordering state width outside to outside of flare on top of seat.** Complete with curtains; seat not included. Price....$3.95

DIRECTIONS FOR ORDERING TOPS, CUSHIONS AND BACKS.

Illustration shows the irons on a buggy seat. The ends of these irons are fitted with holes to receive the projections on the shifting rail of a buggy top.

FOR TOPS, it is necessary to give us the distance from hole A to hole F. **FOR CUSHIONS,** give us the measurements on inside bottom of seat from I to J and G to H; also mention whether you want round or square corners. **FOR BACKS,** give us measurement from A to F and C to D, also height of back.

NOTE—We cannot furnish boxes only, nor axles without boxes. **A set of short bed axles** (commonly called axle stubs) consists of four axles with short beds, which are intended to be welded to old axles. **A set of long bed axles** consists of four axles with beds long enough to make axle complete by welding in center. We sell one-half set at one-half or one-quarter set at one-fourth the price of full set. We cannot weld axles or set boxes. **In ordering parts of sets be sure to state whether right or left hand is wanted.**

No. 2 CONCORD OR WAGON AXLES.

Complete with nuts and boxes. Set consists of four axles, enough for four wheels. **Short bed** axles are to weld on to old axles. Coached axles rounded in center.

36c ANTI-BORAX WELDING COMPOUND.

No. 9H31118 The genuine Anti-Borax Welding Compound. A weld can be made at a lower heat with Anti-Borax Compound than with any compound that contains borax. There is no sloughing or boiling off, no scale is formed and you get a clean, perfect weld at a low heat. Especially desirable for welding steel to steel, also for welding all kinds of iron.
Price, per 5-pound box.....36c

BORAX-ETTE WELDING COMPOUND, 38c

No. 9H31121 It is far superior to common borax and is especially adapted for welding toe calks. It is used the same as borax and does not have to be applied between the lap like other compounds.
Price, per 5-pound box.....38c

BARGAINS IN BAR IRON $1.50 Per 100 Pounds

ROUND, SQUARE, FLAT AND TIRE SIZES, ALL FIGURED AT THE ONE PRICE,

Usual Advances for Small Sizes Over Base Rate.

CHERRY HEAT WELDING COMPOUND.

No. 9H31115 Oldest and best known compound on the market. Every weld made with Cherry Heat is stronger than it would be possible to make at any heat without it or with borax. A positive protection to steel from any degree of heat obtainable in a smith's forge. Broken castings can be united at a low heat with the compound, and cast iron firmly united to either wrought iron or steel.
5-pound boxes, per box. 53c; 1-pound boxes, per box..12c

"SURE-FOOT" HORSESHOE SCREW CALKS.

SAVE YOUR ANIMALS, SAVE YOUR MONEY.

"Sure-Foot" Calks prevent horses from slipping and falling on the ice and sleet. They have a hardened crucible tool steel center with a tough soft steel outside. The crucible steel center is welded in, runs the entire length of the calk and cannot come out. (See illustration on the right.) Have deep, well cut threads which will fit any standard calk tap. "Sure-Foot" Calks have square shanks, can be screwed in and taken out with an ordinary wrench or pliers. We guarantee these calks to be equal in quality to any of the standard brands sold for much higher prices than we quote. We do not sell less than fifty calks of a size.

No. 9H31549 "Sure-Foot" Horseshoe Screw Calks. State size wanted.

SAVES HEAT. $1.25

Combination Floor and Ceiling Register and Ventilator.

No. 9H23316 Makes one stove do the work of two. Keeps that cold room upstairs warm and comfortable with the heat that is ordinarily wasted near the ceiling of the room below. Consists of a black floor register with valves, a white ceiling plate and an adjustable sheet metal box connecting the two. Easily and quickly put into position; just cut the holes in floor and ceiling, place the register and ceiling plate in position and hook the two coil springs that hold them together. **Adjustable to fit any floor or ceiling from 7 to 12 inches apart.**

Size opening, inches	8x10	10x12	12x15
Price, each	$1.25	$1.65	$2.80

"DOMES OF SILENCE."

CASTERS WITHOUT WHEELS.

Invisible, Noiseless, Easily Attached.

No. 9H48246 Set consists of four round steel plates with prongs, to be attached to bottoms of chair legs, tables or other furniture. Allow furniture to slide easily and silently over floors or rugs. Save wear and tear on carpets. "Domes of Silence" are the original and only perfect casters without wheels. Beware of cheap, worthless imitations.
